Schedule I—The Commonwealth of Australia 240

Part XVB—Special provisions relating to anti-dumping duties

269SM Overview of Part

- (1) This Part deals with the taking of anti-dumping measures in respect of goods whose importation into Australia involves a dumping or countervailable subsidisation of those goods that injures, or threatens to injure, Australian industry. Those measures might consist of the publication of a dumping duty notice or a countervailing duty notice or the acceptance of an undertaking on conditions that make it unnecessary to publish such a notice.
- (2) If a notice is published, that notice creates a liability under the Dumping Duty Act, in relation to any goods to which the notice extends, to pay a special duty of customs on their importation into Australia and, pending assessment of that special duty, to pay interim duty.
- (2A) Division 1A deals with the establishment of the Anti-Dumping Commission and the Commissioner.
- (3) Divisions 1, 2 and 3 deal with the preliminary and procedural matters leading to a Ministerial decision to publish or not to publish a dumping duty notice or a countervailing duty notice or to accept an undertaking instead of publishing such a notice.
- (4) Division 4 allows a person who has been required to pay interim duty to seek an assessment of duty payable under the Dumping Duty Act and reconciles interim duty paid by that person with duty as so assessed.
- (5) Division 5 deals with the rights of persons, periodically, on the basis of changed circumstances, to seek review by the Minister of decisions to publish dumping duty notices or countervailing duty notices or to accept undertakings.

Section 269SM

- (5A) Division 5A deals with the rights of persons to ask the Commissioner to conduct an anti-circumvention inquiry in relation to certain dumping duty notices or countervailing duty notices.
- (6) Division 6 deals with the rights of new exporters to seek an early review by the Minister of decisions to publish dumping duty notices or countervailing duty notices.
- (7) Division 6A ensures that interested parties are informed of the impending expiration of anti-dumping measures and allows them to seek continuation of those measures.
- (8) Division 7 deals with procedural and evidentiary matters that are relevant both to applications for the taking of anti-dumping measures and for the various review procedures after such measures are taken.
- (9) Divisions 8 and 9 establish an independent panel, the Review Panel, and provide for the Panel to review a range of Ministerial decisions (including decisions to publish or not to publish dumping duty notices or countervailing duty notices) and also a range of decisions made by the Commissioner.

 - (a) where:
 - (i) the goods have been exported to Australia otherwise than by the importer and have been purchased by the importer from the exporter (whether before or after exportation); and
 - (ii) the purchase of the goods by the importer was an arms length transaction;the price paid or payable for the goods by the importer, other than any part of that price that represents a charge in respect of the transport of the goods after exportation or in respect of any other matter arising after exportation; or
 - (b) where:
 - (i) the goods have been exported to Australia otherwise than by the importer and have been purchased by the

Section 269TAB

- importer from the exporter (whether before or after exportation); and
- (ii) the purchase of the goods by the importer was not an arms length transaction; and
 - (iii) the goods are subsequently sold by the importer, in the condition in which they were imported, to a person who is not an associate of the importer;
the price at which the goods were so sold by the importer to that person less the prescribed deductions; or
- (c) in any other case—the price that the Minister determines having regard to all the circumstances of the exportation.
- (2) A reference in paragraph (1)(b) to prescribed deductions in relation to a sale of goods that have been exported to Australia shall be read as a reference to:
- (a) any duties of Customs or sales tax paid or payable on the goods; and
 - (b) any costs, charges or expenses arising in relation to the goods after exportation; and
 - (c) the profit, if any, on the sale by the importer or, where the Minister so directs, an amount calculated in accordance with such rate as the Minister specifies in the direction as the rate that, for the purposes of paragraph (1)(b), is to be regarded as the rate of profit on the sale by the importer.
- (2A) If an export price of goods exported to Australia is being ascertained for the purposes of conducting a review of anti-dumping measures under Division 5, the price may, despite subsection (1), be determined by the Minister in accordance with subsection (2B) if:
- (a) the price is being ascertained in relation to an exporter of those goods (whether the review is of the measures as they affect a particular exporter of those goods, or as they affect exporters of those goods generally); and
 - (b) the Minister determines that there is insufficient or unreliable information to ascertain the price due to an absence or low

volume of exports of those goods to Australia by that exporter having regard to the following:

- (i) previous volumes of exports of those goods to Australia by that exporter;
- (ii) patterns of trade for like goods;
- (iii) factors affecting patterns of trade for like goods that are not within the control of the exporter.

Note: If there is an absence of exports of those goods to Australia by that exporter, the Minister may deem such exports to have taken place for the purposes of ascertaining an export price: see subsection (2C).

- (2B) For the purposes of subsection (2A), the export price of those goods is the price determined by the Minister to be the export price, having regard to any of the following:
- (a) the export price for the goods exported to Australia by the exporter established in accordance with subsection (1) of this section for a decision of a kind mentioned in subsection (2D);
 - (b) the price paid or payable for like goods sold by the exporter in arms length transactions for exportation from the country of export to a third country determined by the Minister to be an appropriate third country;
 - (c) the export price for like goods exported to Australia from the country of export by another exporter or exporters established in accordance with subsection (1) of this section for a decision mentioned in subsection (2D).
- (2C) For the purposes of conducting the review of anti-dumping measures under Division 5, if there is an absence of exports of those goods to Australia by the exporter, the Minister may deem such exports to have occurred for the purposes of applying subsections (2A) and (2B) of this section.
- (2D) For the purposes of paragraphs (2B)(a) and (c), the decisions are the following:
- (a) deciding to publish a notice under any of the following provisions:
 - (i) subsection 269TG(1) or (2) (dumping duties);
 - (ii) subsection 269TJ(1) or (2) (countervailing duties);

Section 269TAB

- (iii) subsection 269ZDB(1) (reviews of anti-dumping measures);
 - (iv) subsection 269ZDBH(1) (anti-circumvention inquiries);
 - (v) subsection 269ZG(3) (accelerated review);
 - (vi) subsection 269ZHG(1) (continuation of anti-dumping measures);
- (b) any other decision under this Act of a kind prescribed by the regulations.
- (2E) For the purposes of paragraph (2B)(c), the decision must be a decision made during the period:
- (a) beginning 2 years before the day the Commissioner published notice of the review under subsection 269ZC(4), (5) or (6); and
 - (b) ending on the day notice of the review is published under subsection 269ZDB(1).
- (2F) Without limiting the generality of the matters that may be taken into account by the Minister in determining whether a third country is an appropriate third country for the purposes of paragraph (2B)(b), the Minister may have regard to the following matters:
- (a) whether the volume of trade from the country of export to the third country is similar to the volume of trade from the country of export to Australia;
 - (b) whether the nature of the trade in goods concerned between the country of export and the third country is similar to the nature of trade between the country of export and Australia.
- (2G) If the export price of goods exported to Australia has been ascertained under subsection (2B), the export price may be subject to such adjustments that the Minister determines are necessary to reflect what the export price would have been had there not been an absence or low volume of exports, including:
- (a) adjustments due to exports (on which the export price is based) relating to earlier times; or

- (b) adjustments due to exports (on which the export price is based) relating to not identical goods.
- (3) Where the Minister is satisfied that sufficient information has not been furnished, or is not available, to enable the export price of goods to be ascertained under the preceding subsections, the export price of those goods shall be such amount as is determined by the Minister having regard to all relevant information.
- (4) For the purposes of this section, the Minister may disregard any information that he or she considers to be unreliable.
- (5) Paragraphs (1)(a) and (b) apply in relation to a purchase of goods by an importer from an exporter whether or not the importer and exporter are associates of each other.
- (6) For the purposes of paragraphs (1)(a) and (2B)(b), the reference in those paragraphs to the price paid or payable for goods is a reference to that price after deducting any amount that is determined by the Minister to be a reimbursement of the kind referred to in subsection 269TAA(1A) in respect of that transaction.

269TAC Normal value of goods

- (1) Subject to this section, for the purposes of this Part, the normal value of any goods exported to Australia is the price paid or payable for like goods sold in the ordinary course of trade for home consumption in the country of export in sales that are arms length transactions by the exporter or, if like goods are not so sold by the exporter, by other sellers of like goods.
- (1A) For the purposes of subsection (1), the reference in that subsection to the price paid or payable for like goods is a reference to that price after deducting any amount that is determined by the Minister to be a reimbursement of the kind referred to in subsection 269TAA(1A) in respect of the sales.

Section 269TAC

(2) Subject to this section, where the Minister:

(a) is satisfied that:

(i) because of the absence, or low volume, of sales of like goods in the market of the country of export that would be relevant for the purpose of determining a price under subsection (1); or

(ii) because the situation in the market of the country of export is such that sales in that market are not suitable for use in determining a price under subsection (1);

the normal value of goods exported to Australia cannot be ascertained under subsection (1); or

(b) is satisfied, in a case where like goods are not sold in the ordinary course of trade for home consumption in the country of export in sales that are arms length transactions by the exporter, that it is not practicable to obtain, within a reasonable time, information in relation to sales by other sellers of like goods that would be relevant for the purpose of determining a price under subsection (1);

the normal value of the goods for the purposes of this Part is:

(c) except where paragraph (d) applies, the sum of:

(i) such amount as the Minister determines to be the cost of production or manufacture of the goods in the country of export; and

(ii) on the assumption that the goods, instead of being exported, had been sold for home consumption in the ordinary course of trade in the country of export—such amounts as the Minister determines would be the administrative, selling and general costs associated with the sale and the profit on that sale; or

(d) if the Minister directs that this paragraph applies—the price determined by the Minister to be the price paid or payable for like goods sold in the ordinary course of trade in arms length transactions for exportation from the country of export to a third country determined by the Minister to be an appropriate third country, other than any amount determined by the

Section 269TAC

Minister to be a reimbursement of the kind referred to in subsection 269TAA(1A) in respect of any such transactions.

- (3) The price determined under paragraph (2)(d) is a price that the Minister determines, having regard to the quantity of like goods sold as described in paragraph (2)(d) at that price, is representative of the price paid in such sales.
- (3A) The Minister is not required to consider working out the normal value of goods under paragraph (2)(d) before working out the normal value of goods under paragraph (2)(c).
- (4) Subject to subsections (6) and (8), where the Minister is satisfied that it is inappropriate to ascertain the normal value of goods in accordance with the preceding subsections because the Government of the country of export:
- (a) has a monopoly, or substantial monopoly, of the trade of the country; and
 - (b) determines or substantially influences the domestic price of goods in that country;
- the normal value of the goods for the purposes of this Part is to be a value ascertained in accordance with whichever of the following paragraphs the Minister determines having regard to what is appropriate and reasonable in the circumstances of the case:
- (c) a value equal to the price of like goods produced or manufactured in a country determined by the Minister and sold for home consumption in the ordinary course of trade in that country, being sales that are arms length transactions;
 - (d) a value equal to the price determined by the Minister to be the price of like goods produced or manufactured in a country determined by the Minister and sold in the ordinary course of trade in arms length transactions for exportation from that country to a third country determined by the Minister to be an appropriate third country;
 - (e) a value equal to the sum of the following amounts ascertained in respect of like goods produced or manufactured in a country determined by the Minister and

Section 269TAC

sold for home consumption in the ordinary course of trade in that country:

- (i) such amount as the Minister determines to be the cost of production or manufacture of the like goods in that country;
 - (ii) such amounts as the Minister determines to be the administrative, selling and general costs associated with the sale of like goods in that country and the profit on that sale;
 - (f) a value equal to the price payable for like goods produced or manufactured in Australia and sold for home consumption in the ordinary course of trade in Australia, being sales that are arms length transactions.
- (5) The price determined under paragraph (4)(d) is a price that the Minister determines, because of the quantity of like goods sold as described in paragraph (4)(d) at that price, is representative of the price paid in such sales.
- (5A) Amounts determined:
- (a) to be the cost of production or manufacture of goods under subparagraph (2)(c)(i) or (4)(e)(i); and
 - (b) to be the administrative, selling and general costs in relation to goods under subparagraph (2)(c)(ii) or (4)(e)(ii);
- must be worked out in such manner, and taking account of such factors, as the regulations provide for the respective purposes of paragraphs 269TAAD(4)(a) and (b).
- (5B) The amount determined to be the profit on the sale of goods under subparagraph (2)(c)(ii) or (4)(e)(ii), must be worked out in such manner, and taking account of such factors, as the regulations provide for that purpose.

- (5C) Without limiting the generality of the matters that may be taken into account by the Minister in determining whether a third country is an appropriate third country for the purposes of paragraph (2)(d) or (4)(d), the Minister may have regard to the following matters:
- (a) whether the volume of trade from the country of export referred to in paragraph (2)(d) or the country first-mentioned in paragraph (4)(d) is similar to the volume of trade from the country of export to Australia; and
 - (b) whether the nature of the trade in goods concerned between the country of export referred to in paragraph (2)(d) or the country first-mentioned in paragraph (4)(d) is similar to the nature of trade between the country of export and Australia.
- (5D) The normal value of goods (the *exported goods*) is the amount determined by the Minister, having regard to all relevant information, if the exported goods are exported to Australia and the Minister is satisfied that the country of export has an economy in transition and that at least one of the following paragraphs applies:
- (a) both of the following conditions exist:
 - (i) the exporter of the exported goods sells like goods in the country of export;
 - (ii) market conditions do not prevail in that country in respect of the domestic selling price of those like goods;
 - (b) both of the following conditions exist:
 - (i) the exporter of the exported goods does not sell like goods in the country of export but others do;
 - (ii) market conditions do not prevail in that country in respect of the domestic selling price of those like goods;
 - (c) the exporter of the exported goods does not answer questions in a questionnaire given to the exporter by the Commissioner under subsection 269TC(8) within the period described in that subsection or subsection 269TC(9) for answering questions;
 - (d) the answers given within the period mentioned in subsection 269TC(8), or the further period mentioned in subsection 269TC(9), by the exporter of the exported goods to a questionnaire given to the exporter under

Section 269TAC

subsection 269TC(8) do not provide a reasonable basis for determining that paragraphs (a) and (b) of this subsection do not apply.

Note: Subsection 269TC(8) deals with the Commissioner giving an exporter of goods to Australia a questionnaire about evidence of whether or not paragraphs (a) and (b) of this subsection apply, with a specified period of at least 30 days for the exporter to answer the questions. Under subsection 269TC(9) the Commissioner may allow the exporter a further period for answering the questions.

- (5E) To be satisfied that the conditions in paragraph (5D)(a) or (b) exist, the Minister must have regard to the matters (if any) prescribed by the regulations.
- (5F) Without limiting the generality of subsection (5D), for the purpose of working out, under that subsection, the amount that is to be the normal value of goods exported to Australia, the Minister may determine that amount in a manner that would be open to the Minister under paragraph (4)(c), (d), (e) or (f) if subsection (4) were applicable.
- (5J) For the purposes of fulfilling Australia's international obligations under an international agreement, regulations may be made to disapply subsection (5D) to a country.
- (6) Where the Minister is satisfied that sufficient information has not been furnished or is not available to enable the normal value of goods to be ascertained under the preceding subsections (other than subsection (5D)), the normal value of those goods is such amount as is determined by the Minister having regard to all relevant information.
- (7) For the purposes of this section, the Minister may disregard any information that he or she considers to be unreliable.
- (7A) The application of subsection (5D) to goods that are exported to Australia from a particular country does not preclude the application of other provisions of this section (other than subsections (4) and (5)) to other goods that are exported to Australia from that country.

Section 269TAC

- (8) Where the normal value of goods exported to Australia is the price paid or payable for like goods and that price and the export price of the goods exported:
- (a) relate to sales occurring at different times; or
 - (b) are not in respect of identical goods; or
 - (c) are modified in different ways by taxes or the terms or circumstances of the sales to which they relate;
- that price paid or payable for like goods is to be taken to be such a price adjusted in accordance with directions by the Minister so that those differences would not affect its comparison with that export price.
- (9) Where the normal value of goods exported to Australia is to be ascertained in accordance with paragraph (2)(c) or (4)(e), the Minister must make such adjustments, in determining the costs to be determined under that paragraph, as are necessary to ensure that the normal value so ascertained is properly comparable with the export price of those goods.
- (10) Where:
- (a) the actual country of export of goods exported to Australia is not the country of origin of the goods; and
 - (b) the Minister is of the opinion that the normal value of the goods should be ascertained for the purposes of this Part as if the country of origin were the country of export;
- he or she may direct that the normal value of the goods is to be so ascertained.
- (11) For the purposes of subsection (10), the country of origin of goods is:
- (a) in the case of unmanufactured raw products—the country of which they are products; or
 - (b) in any other case—the country in which the last significant process in the manufacture or production of the goods was performed.
- (14) If:
- (a) application is made for a dumping duty notice; and
-

Section 269TACAA

- (b) goods the subject of the application are exported to Australia; but
- (c) the volume of sales of like goods for home consumption in the country of export by the exporter or another seller of like goods is less than 5% of the volume of goods the subject of the application that are exported to Australia by the exporter; the volume of sales referred to in paragraph (c) is taken, for the purposes of paragraph (2)(a), to be a low volume unless the Minister is satisfied that it is still large enough to permit a proper comparison for the purposes of assessing a dumping margin under section 269TACB.

269TACAA Sampling

- (1) If:
 - (a) one of the following applies:
 - (i) there is an investigation under this Part in relation to whether a dumping duty notice or countervailing duty notice should be published;
 - (ii) there is a review under Division 5 in relation to the publication of a dumping duty notice or countervailing duty notice;
 - (iii) there is an inquiry under Division 6A in relation to the continuation of a dumping duty notice or countervailing duty notice; and
 - (b) the number of exporters from a particular country of export in relation to the investigation, review or inquiry is so large that it is not practicable to examine the exports of all of those exporters;then the investigation, review or inquiry may be carried out, and findings may be made, on the basis of information obtained from an examination of a selected number of those exporters:
 - (c) who constitute a statistically valid sample of those exporters; or
 - (d) who are responsible for the largest volume of exports to Australia that can reasonably be examined.

Section 269TACAB

- (2) If information is submitted by an exporter not initially selected under subsection (1) for the purposes of an investigation, review or inquiry, the investigation, review or inquiry must extend to that exporter unless to so extend it would prevent its timely completion.

269TACAB Dumping duty notice—export prices and normal values for different categories of exporters

Uncooperative exporters

- (1) If one of the following applies:
- (a) there is an investigation under this Part in relation to whether a dumping duty notice should be published;
 - (b) there is a review under Division 5 in relation to the publication of a dumping duty notice;
 - (c) there is an inquiry under Division 6A in relation to the continuation of a dumping duty notice;
- then:
- (d) if the export price of goods for an uncooperative exporter is to be worked out in relation to the investigation, review or inquiry—that export price is to be worked out under subsection 269TAB(3); and
 - (e) if the normal value of goods for an uncooperative exporter is to be worked out in relation to the investigation, review or inquiry—that normal value is to be worked out under subsection 269TAC(6).

Residual exporters

- (2) If:
- (a) one of the following applies:
 - (i) there is an investigation under this Part in relation to whether a dumping duty notice should be published;
 - (ii) there is a review under Division 5 in relation to the publication of a dumping duty notice;
 - (iii) there is an inquiry under Division 6A in relation to the continuation of a dumping duty notice; and

Section 269TACA

- (b) the investigation, review or inquiry is carried out on the basis of information obtained from an examination of a selected number of exporters as mentioned in subsection 269TACAA(1);
- then:
- (c) if the export price of goods for a residual exporter is to be worked out in relation to the investigation, review or inquiry—that export price must not be less than the weighted average of export prices for like goods of cooperative exporters from the same country of export; and
 - (d) if the normal value of goods for a residual exporter is to be worked out in relation to the investigation, review or inquiry—that normal value must not exceed the weighted average of normal values for like goods of cooperative exporters from the same country of export.
- (3) To the extent that subsection (2) applies in relation to an investigation, the weighted average of export prices, and the weighted average of normal values, of the cooperative exporters must not include any export price or normal value if, in a comparison under section 269TACB involving that export price or normal value, the Minister has determined:
- (a) that there is no dumping; or
 - (b) that the dumping margin, when expressed as a percentage of the export price or weighted average of export prices used to establish that dumping margin, is less than 2%.

269TACA Non-injurious price

The non-injurious price of goods exported to Australia is the minimum price necessary:

- (a) if the goods are the subject of, or of an application for, a dumping duty notice under subsection 269TG(1) or (2)—to prevent the injury, or a recurrence of the injury, or to remove the hindrance, referred to in paragraph 269TG(1)(b) or (2)(b); or

- (b) if the goods are the subject of, or of an application for, a third country dumping duty notice under subsection 269TH(1) or (2)—to prevent the injury, or a recurrence of the injury, referred to in paragraph 269TH(1)(b) or (2)(b); or
- (c) if the goods are the subject of, or of an application for, a countervailing duty notice under subsection 269TJ(1) or (2)—to prevent the injury, or a recurrence of the injury, or to remove the hindrance, referred to in paragraph 269TJ(1)(b) or (2)(b); or
- (d) if the goods are the subject of, or of an application for, a third country countervailing duty notice under subsection 269TK(1) or (2)—to prevent the injury, or a recurrence of the injury, referred to in paragraph 269TK(1)(b) or (2)(b).

269TACB Working out whether dumping has occurred and levels of dumping

- (1) If:
 - (a) application is made for a dumping duty notice; and
 - (b) export prices in respect of goods the subject of the application exported to Australia during the investigation period have been established in accordance with section 269TAB; and
 - (c) corresponding normal values in respect of like goods during that period have been established in accordance with section 269TAC;the Minister must determine, by comparison of those export prices with those normal values, whether dumping has occurred.
- (2) In order to compare those export prices with those normal values, the Minister may, subject to subsection (3):
 - (a) compare the weighted average of export prices over the whole of the investigation period with the weighted average of corresponding normal values over the whole of that period; or

Section 269TACB

- (aa) use the method of comparison referred to in paragraph (a) in respect of parts of the investigation period as if each of these parts were the whole of the investigation period; or
 - (b) compare the export prices determined in respect of individual transactions over the whole of the investigation period with the corresponding normal values determined over the whole of that period; or
 - (c) use:
 - (i) the method of comparison referred to in paragraph (a) in respect of a part or parts of the investigation period as if the part or each of these parts were the whole of the investigation period; and
 - (ii) the method of comparison referred to in paragraph (b) in respect of another part or other parts of the investigation period as if that other part or each of these other parts were the whole of the investigation period.
- (2A) If paragraph (2)(aa) or (c) applies:
- (a) each part of the investigation period referred to in the paragraph must not be less than 1 month; and
 - (b) the parts of the investigation period as referred to in paragraph (2)(aa), or as referred to in subparagraphs (2)(c)(i) and (ii), must together comprise the whole of the investigation period.
- (3) If the Minister is satisfied:
- (a) that the export prices differ significantly among different purchasers, regions or periods; and
 - (b) that those differences make the methods referred to in subsection (2) inappropriate for use in respect of a period constituting the whole or a part of the investigation period;
- the Minister may, for that period, compare the respective export prices determined in relation to individual transactions during that period with the weighted average of corresponding normal values over that period.

- (4) If, in a comparison under subsection (2), the Minister is satisfied that the weighted average of export prices over a period is less than the weighted average of corresponding normal values over that period:
- (a) the goods exported to Australia during that period are taken to have been dumped; and
 - (b) the dumping margin for the exporter concerned in respect of those goods and that period is the difference between those weighted averages.
- (4A) To avoid doubt, a reference to a period in subsection (4) includes a reference to a part of the investigation period.
- (5) If, in a comparison under subsection (2), the Minister is satisfied that an export price in respect of an individual transaction during the investigation period is less than the corresponding normal value:
- (a) the goods exported to Australia in that transaction are taken to have been dumped; and
 - (b) the dumping margin for the exporter concerned in respect of those goods and that transaction is the difference between that export price and that normal value.
- (6) If, in a comparison under subsection (3), the Minister is satisfied that the export prices in respect of particular transactions during the investigation period are less than the weighted average of corresponding normal values during that period:
- (a) the goods exported to Australia in each such transaction are taken to have been dumped; and
 - (b) the dumping margin for the exporter concerned in respect of those goods is the difference between each relevant export price and the weighted average of corresponding normal values.
- (10) Any comparison of export prices, or weighted average of export prices, with any corresponding normal values, or weighted average of corresponding normal values, must be worked out in respect of

Section 269TACC

similar units of goods, whether determined by weight, volume or otherwise.

269TACC Working out whether a financial contribution or income or price support confers a benefit

- (1) Subject to subsections (2) and (3), the question whether a financial contribution or income or price support confers a benefit is to be determined by the Minister having regard to all relevant information.
- (2) A direct financial payment received from any of the following is taken to confer a benefit:
 - (a) a government of a country;
 - (b) a public body of a country;
 - (c) a public body of which a government of a country is a member;
 - (d) a private body entrusted or directed by a government of a country or by such a public body to carry out a governmental function.

Guidelines for financial contributions

- (3) In determining whether a financial contribution confers a benefit, the Minister must have regard to the following guidelines:
 - (a) the provision of equity capital from a government or body referred to in subsection (2) does not confer a benefit unless the decision to provide the capital is inconsistent with normal investment practice of private investors in the country concerned;
 - (b) the making of a loan by a government or body referred to in subsection (2) does not confer a benefit unless the loan requires the enterprise receiving the loan to repay a lesser amount than would be required for a comparable commercial loan which the enterprise could actually obtain;
 - (c) the guarantee of a loan by a government or body referred to in subsection (2) does not confer a benefit unless the enterprise receiving the guarantee is required to repay on the

Section 269TACD

loan a lesser amount than would be required for a comparable commercial loan without that guarantee;

- (d) the provision of goods or services by a government or body referred to in subsection (2) does not confer a benefit unless the goods or services are provided for less than adequate remuneration;
 - (e) the purchase of goods or services by a government or body referred to in subsection (2) does not confer a benefit unless the purchase is made for more than adequate remuneration.
- (4) For the purposes of paragraphs (3)(d) and (e), the adequacy of remuneration in relation to goods or services is to be determined having regard to prevailing market conditions for like goods or services in the country where those goods or services are provided or purchased.

269TACD Amount of countervailable subsidy

- (1) If the Minister is satisfied that a countervailable subsidy has been received in respect of goods, the amount of the subsidy is an amount determined by the Minister in writing.
- (2) After the amount of the countervailable subsidy received in respect of goods has been worked out, the Minister must, if that subsidy is not quantified by reference to a unit of those goods determined by weight, volume or otherwise, work out how much of that amount is properly attributable to each such unit.

269TAE Material injury to industry

- (1) In determining, for the purposes of section 269TG or 269TJ, whether material injury to an Australian industry has been or is being caused or is threatened or would or might have been caused, or whether the establishment of an Australian industry has been materially hindered, because of any circumstances in relation to the exportation of goods to Australia from the country of export, the Minister may, without limiting the generality of that section but subject to subsections (2A) to (2C), have regard to:

Section 269TAE

- (aa) if the determination is being made for the purposes of section 269TG—the size of the dumping margin, or of each of the dumping margins, worked out in respect of goods of that kind that have been exported to Australia and dumped; and
- (ab) if the determination is being made for the purposes of section 269TJ—particulars of any countervailable subsidy received in respect of goods of that kind that have been exported to Australia; and
- (a) the quantity of goods of that kind that, during a particular period, have been or are likely to be exported to Australia from the country of export; and
- (b) any increase or likely increase, during a particular period, in the quantity of goods of that kind exported to Australia from the country of export; and
- (c) any change or likely change, during a particular period, in the proportion that:
 - (i) the quantity of goods of that kind exported to Australia from the country of export and sold or consumed in Australia; or
 - (ii) the quantity of goods of that kind, or like goods, produced or manufactured in the Australian industry and sold or consumed in Australia;bears to the quantity of goods of that kind, or like goods, sold or consumed in Australia; and
- (d) the export price that has been or is likely to be paid by importers for goods of that kind exported to Australia from the country of export; and
- (e) the difference between:
 - (i) the price that has been or is likely to be paid for goods of that kind, or like goods, produced or manufactured in the Australian industry and sold in Australia; and
 - (ii) the price that has been or is likely to be paid for goods of that kind exported to Australia from the country of export and sold in Australia; and

- (f) the effect that the exportation of goods of that kind to Australia from the country of export in those circumstances has had or is likely to have on the price paid for goods of that kind, or like goods, produced or manufactured in the Australian industry and sold in Australia; and
 - (g) any effect that the exportation of goods of that kind to Australia from the country of export in those circumstances has had or is likely to have on the relevant economic factors in relation to the Australian industry; and
 - (h) if the determination is being made for the purposes of section 269TJ and the goods are agricultural products—whether the exportation of goods of that kind to Australia from the country of export in those circumstances has given or is likely to give rise to a need for financial or other support, or an increase in financial or other support, for the Australian industry from the Commonwealth Government.
- (2) In determining, for the purposes of section 269TH or 269TK, whether material injury to an industry in a third country has been or is being caused or is threatened or would or might have been caused because of any circumstances in relation to the exportation of goods to Australia from the country of export, the Minister may, without limiting the generality of that section but subject to subsections (2A) to (2C), have regard to:
- (aa) if the determination is being made for the purposes of section 269TH—the size of the dumping margin, or of each of the dumping margins, worked out in respect of goods of that kind that have been exported to Australia and dumped; and
 - (ab) if the determination is being made for the purposes of section 269TK—particulars of any countervailable subsidy received in respect of goods of that kind that have been exported to Australia; and
 - (a) the quantity of goods of that kind that, during a particular period, have been or are likely to be exported to Australia from the country of export; and

Section 269TAE

- (b) any increase or likely increase, during a particular period, in the quantity of goods of that kind exported to Australia from the country of export; and
- (c) any change or likely change, during a particular period, in the proportion that:
 - (i) the quantity of goods of that kind exported to Australia from the country of export and sold or consumed in Australia; or
 - (ii) the quantity of goods of that kind, or like goods, produced or manufactured in the third country and sold or consumed in Australia;bears to the quantity of goods of that kind, or like goods, sold or consumed in Australia; and
- (d) the export price that has been or is likely to be paid by importers for goods of that kind exported to Australia from the country of export; and
- (e) the difference between:
 - (i) the price that has been or is likely to be paid for goods of that kind, or like goods, produced or manufactured in the third country and sold in Australia; and
 - (ii) the price that has been or is likely to be paid for goods of that kind exported to Australia from the country of export and sold in Australia; and
- (f) the effect that the exportation of goods of that kind to Australia from the country of export in those circumstances has had or is likely to have on the price paid for goods of that kind, or like goods, produced or manufactured in the third country and sold in Australia; and
- (g) any effect that the exportation of goods of that kind to Australia from the country of export in those circumstances has had or is likely to have on the relevant economic factors in relation to the producer or manufacturer in the third country.

(2A) In making a determination in relation to the exportation of goods to Australia for the purposes referred to in subsection (1) or (2), the Minister must consider whether any injury to an industry, or

hindrance to the establishment of an industry, is being caused or threatened by a factor other than the exportation of those goods such as:

- (a) the volume and prices of imported like goods that are not dumped; or
- (b) the volume and prices of importations of like goods that are not subsidised; or
- (c) contractions in demand or changes in patterns of consumption; or
- (d) restrictive trade practices of, and competition between, foreign and Australian producers of like goods; or
- (e) developments in technology; or
- (f) the export performance and productivity of the Australian industry;

and any such injury or hindrance must not be attributed to the exportation of those goods.

(2AA) A determination for the purposes of subsection (1) or (2) must be based on facts and not merely on allegations, conjecture or remote possibilities.

(2B) In determining:

- (a) for the purposes of subsection (1), whether or not material injury is threatened to an Australian industry; or
- (b) for the purposes of subsection (2), whether or not material injury is threatened to an industry in a third country;

because of the exportation of goods into the Australian market, the Minister must take account only of such changes in circumstances, including changes of a kind determined by the Minister, as would make that injury foreseeable and imminent unless dumping or countervailing measures were imposed.

Section 269TAE

- (2C) In determining, for the purposes referred to in subsection (1) or (2), the effect of the exportations of goods to Australia from different countries of export, the Minister should consider the cumulative effect of those exportations only if the Minister is satisfied that:
- (a) each of those exportations is the subject of an investigation; and
 - (b) either:
 - (i) all the investigations of those exportations resulted from applications under section 269TB lodged with the Commissioner on the same day; or
 - (ii) the investigations of those exportations resulted from applications under section 269TB lodged with the Commissioner on different days but the investigation periods for all the investigations of those exportations overlap significantly; and
 - (c) if the determination is being made for the purposes of section 269TG or 269TH—the dumping margin worked out under section 269TACB for the exporter for each of the exportations is at least 2% of the export price or weighted average of export prices used to establish that dumping margin; and
 - (d) if the determination is being made for the purposes of section 269TG or 269TH—for each application, the volume of goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period (as defined in subsection 269TDA(17)) from the country of export and dumped is not taken to be negligible for the purposes of subsection 269TDA(3) because of subsection 269TDA(4); and
 - (da) if the determination is being made for the purposes of section 269TJ or 269TK:
 - (i) the amount of the countervailable subsidy in respect of the goods the subject of each of the exportations exceeds the negligible level of countervailable subsidy worked out under subsection 269TDA(16); and
 - (ii) the volume of each of those exportations is not negligible; and
-

- (e) it is appropriate to consider the cumulative effect of those exportations, having regard to:
 - (i) the conditions of competition between those goods; and
 - (ii) the conditions of competition between those goods and like goods that are domestically produced.
- (3) A reference in subsection (1) or (2) to the relevant economic factors in relation to an Australian industry, or in relation to an industry in a third country, in relation to goods of a particular kind exported to Australia is a reference to:
 - (a) the quantity of goods of that kind, or like goods, produced or manufactured in the industry; and
 - (b) the degree of utilization of the capacity of the industry to produce or manufacture goods of that kind, or like goods; and
 - (c) the quantity of goods of that kind, or like goods, produced or manufactured in the industry:
 - (i) for which there are sales or forward orders; or
 - (ii) which are held as stocks; and
 - (d) the value of sales of, or forward orders for, goods of that kind, or like goods, produced or manufactured in the industry; and
 - (e) the level of profits earned in the industry, that are attributable to the production or manufacture of goods of that kind, or like goods; and
 - (f) the level of return on investment in the industry; and
 - (g) cash flow in the industry; and
 - (h) the number of persons employed, and the level of wages paid to persons employed, in the industry in relation to the production or manufacture of goods of that kind, or like goods; and
 - (ha) the terms and conditions of employment (including the number of hours worked) of persons employed in the industry in relation to the production or manufacture of goods of that kind, or like goods; and

Section 269TAF

- (j) the share of the market in Australia for goods of that kind, or like goods, that is held by goods of that kind, or like goods, produced or manufactured in the industry; and
- (k) the ability of persons engaged in the industry, to raise capital in relation to the production or manufacture of goods of that kind, or like goods; and
- (m) investment in the industry.

269TAF Currency conversion

- (1) If, for the purposes of this Part, comparison of the export prices of goods exported to Australia and corresponding normal values of like goods requires a conversion of currencies, that conversion, subject to subsection (2), is to be made using the rate of exchange on the date of the transaction or agreement that, in the opinion of the Minister, best establishes the material terms of the sale of the exported goods.
- (2) If, in relation to goods exported to Australia, a forward rate of exchange is used, the Minister may, in a conversion of currencies under subsection (1), make use of that rate of exchange.
- (3) If:
 - (a) the comparison referred to in subsection (1) requires the conversion of currencies; and
 - (b) the rate of exchange between those currencies has undergone a short-term fluctuation;the Minister may, for the purpose of that comparison, disregard that fluctuation.
- (4) If:
 - (a) the comparison referred to in subsection (1) requires the conversion of currencies; and
 - (b) the Minister is satisfied that the rate of exchange between those currencies has undergone a sustained movement;the Minister may, by notice published on the Anti-Dumping Commission's website, declare that this subsection applies with effect from a day specified in the notice and, if the Minister does

so, the Minister may use the rate of exchange in force on that day for the purposes of that comparison during the period of 60 days starting on that day.

- (5) Nothing in subsection (4) prevents the Minister specifying a day in a notice that is earlier than the day of publication of the notice if the day specified:
- (a) is a day after the start of the sustained movement; and
 - (b) is not a day occurring within 60 days after the day specified in a prior notice.
- (6) Nothing in subsection (4) prevents the Minister publishing more than one notice if a sustained movement in the rate of exchange continues for more than 60 days.
- (7) The Commissioner may, if he or she considers it desirable so to do for the avoidance of doubt, specify, by notice published on the Anti-Dumping Commission's website, a means of establishing a rate that is taken to be, or to have been, the rate of exchange between the Australian currency and another currency or between other currencies:
- (a) on a day, or during a period, preceding the day of publication of the notice; or
 - (b) from and including the day of publication of the notice, or an earlier day specified in the notice, until the revocation of the notice.
- (8) The rate of exchange established between currencies in a notice under subsection (7) is, for the purpose of working out the amount of duty or interim duty payable on any goods exported on the day or during the period to which the rate so specified applies, the rate of exchange that applies for the purposes of this section in respect of the currencies specified in the notice.

269TAG Minister may take anti-dumping measures on own initiative

- (1) Nothing in this Part implies that the Minister cannot initiate an investigation into the need to take anti-dumping measures in
-

Section 269TAG

respect of goods although no application has been made under section 269TB for the taking of such measures in respect of such goods.

- (2) An investigation under subsection (1) must be carried out in accordance with the Minister's written requirements instead of the requirements set out in this Part.
- (3) The Minister may, subject to subsection (4), take anti-dumping measures as a result of the investigation as if the investigation had been carried out under this Part.
- (4) The Minister must not take such anti-dumping measures unless the Minister:
 - (a) has determined any matters which the Minister would be required to determine; and
 - (b) is satisfied of any matters of which the Minister would be required to be satisfied;in order to take those measures if the investigation had been carried out in accordance with the requirements of the other provisions of this Part.
- (5) The Minister must ensure that:
 - (a) his or her instructions under subsection (2) for the conduct of an investigation referred to in subsection (1); and
 - (b) his or her actions in taking any anti-dumping measures as a result of such an investigation;are consistent with Australia's international obligations under the World Trade Organization Agreement.
- (6) The anti-dumping measures taken and any matters determined to permit the taking of those measures are to be treated, for all purposes of this Act and the Dumping Duty Act, as measures taken, and matters determined, under the relevant provisions of this Part.

**269TAH Minister may delegate functions and powers to
Commissioner or Commission staff members**

- (1) The Minister may, by signed instrument, delegate to the following any of the functions and powers of the Minister under this Part or the Dumping Duty Act:
 - (a) the Commissioner;
 - (b) a Commission staff member.
- (2) However, subsection (1) does not apply to a function or power under:
 - (a) subsection 269TG(1) or (2), 269TH(1) or (2), 269TJ(1) or (2) or 269TK(1) or (2) of this Act; or
 - (b) subsection 8(5), 9(5), 10(3B) or 11(4) of the Dumping Duty Act.

**269TA Minister may give directions to Commissioner in relation to
powers and duties under this Part**

- (1) The Minister may, by legislative instrument, give to the Commissioner such directions in connection with carrying out or giving effect to the Commissioner's powers and duties under this Part as the Minister thinks fit, and the Commissioner shall comply with any directions so given.
- (2) A direction under subsection (1) shall not deal with carrying out or giving effect to the powers or duties of the Commissioner in relation to a particular consignment of goods or to like goods to goods in a particular consignment but shall deal instead with the general principles for carrying out or giving effect to the Commissioner's powers.

Section 269TBA

Division 2—Consideration of anti-dumping matters by the Commissioner

269TBA What this Division is about

This Division:

- sets out the requirements for making applications for the publication of dumping duty notices and countervailing duty notices;
- sets out the procedures to be followed, and the matters to be considered, by the Commissioner in conducting investigations in relation to goods covered by such applications, for the purpose of making a report to the Minister;
- empowers the Commonwealth, in certain cases, to take securities in respect of interim duty that may become payable, in order to prevent injury to Australian industry while such investigations continue;
- sets out the circumstances in which the Commissioner must terminate such investigations.

269TB Application for action under Dumping Duty Act

(1) Where:

- (a) a consignment of goods:
 - (i) has been imported into Australia;
 - (ii) is likely to be imported into Australia; or
 - (iii) may be imported into Australia, being like goods to goods to which subparagraph (i) or (ii) applies;
- (b) there is, or may be established, an Australian industry producing like goods; and

- (c) a person believes that there are, or may be, reasonable grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods in the consignment;

that person may, by application in writing lodged with the Commissioner, request that the Minister publish that notice in respect of the goods in the consignment.

(2) Where:

- (a) a consignment of goods produced or manufactured in a country other than Australia:
 - (i) has been imported into Australia;
 - (ii) is likely to be imported into Australia; or
 - (iii) may be imported into Australia, being like goods to goods to which subparagraph (i) or (ii) applies; and
- (b) there is, in a third country, an industry that produces or manufactures like goods for export to Australia; and
- (c) the Government of that third country believes that there are, or may be, reasonable grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods in the consignment;

the Government of that third country may, by application in writing lodged with the Commissioner, request that the Minister publish that notice in respect of the goods in the consignment.

- (2A) During the period after receiving an application for a dumping duty notice and before giving public notice under subsection 269TC(4) of a decision not to reject the application, the Commissioner must notify the government of the country, or of each country, whose exporters are nominated in the application.

- (2B) During the period after receiving an application for a countervailing duty notice and before giving public notice under subsection 269TC(4) of a decision not to reject the application, the Commissioner must notify:

- (a) the government of the country, or of each country, whose exporters are nominated in the application; and

Section 269TB

- (b) the government of any other country from which countervailable subsidies are alleged to have been received.
- (2C) A notification by the Commissioner under subsection (2B) must include an invitation to consult with the Commissioner in relation to whether:
- (a) any countervailable subsidies exist; and
 - (b) any such subsidies, if found to exist, are causing or are likely to cause material injury of a kind referred to in paragraph 269TJ(1)(b) or 269TK(1)(b);
- with the aim of arriving at a mutually agreed solution.
- (3) An applicant may, at any time before the Minister decides:
- (a) to publish a dumping duty notice or a countervailing duty notice in respect of an exporter to whom the application extends; or
 - (b) to accept an undertaking from an exporter to whom the application extends or from a country to whose exporters the application extends;
- by notice in writing lodged with the Commissioner, withdraw the application so far as it extends to that exporter, or to exporters exporting from that country, as the case requires.
- (4) An application under subsection (1) or (2) or a notice under subsection (3) withdrawing such an application must:
- (a) be in writing; and
 - (b) be in a form approved by the Commissioner for the purposes of this section; and
 - (c) contain such information as the form requires; and
 - (d) be signed in the manner indicated in the form; and
 - (e) in the case of an application under subsection (1)—be supported by a sufficient part of the Australian industry; and
 - (f) be lodged in the manner approved under section 269SMS.
- (5) The application, or the notice withdrawing an application, is taken to have been received by the Commissioner when the application

or notice is first received by a Commission staff member doing duty in relation to dumping applications.

- (6) An application under subsection (1) in relation to a consignment of goods is taken to be supported by a sufficient part of the Australian industry if the Commissioner is satisfied that persons (including the applicant) who produce or manufacture like goods in Australia and who support the application:
- (a) account for more than 50% of the total production or manufacture of like goods produced or manufactured by that portion of the Australian industry that has expressed either support for, or opposition to, the application; and
 - (b) account for not less than 25% of the total production or manufacture of like goods in Australia.

269TC Consideration of application

- (1) The Commissioner shall, within 20 days after receiving an application under subsection 269TB(1) in respect of goods, examine the application and, if the Commissioner is not satisfied, having regard to the matters contained in the application and to any other information that the Commissioner considers relevant:
- (a) that the application complies with subsection 269TB(4); or
 - (b) that there is, or is likely to be established, an Australian industry in respect of like goods; or
 - (c) that there appear to be reasonable grounds:
 - (i) for the publication of a dumping duty notice or a countervailing duty notice, as the case requires, in respect of the goods the subject of the application; or
 - (ii) for the publication of such a notice upon the importation into Australia of such goods;
- he or she shall reject the application and inform the applicant, by notice in writing, accordingly.
- (2) The Commissioner shall, within 20 days after receiving an application by the Government of a country under subsection 269TB(2) in respect of goods, examine the application

Section 269TC

and, if the Commissioner is not satisfied, having regard to the matters contained in the application and to any other information that the Commissioner considers relevant:

- (a) that the application complies with subsection 269TB(4); or
- (b) that there is a producer or manufacturer of like goods in that country who exports such goods to Australia; or
- (c) that there appear to be reasonable grounds:
 - (i) for the publication of a dumping duty notice or a countervailing duty notice, as the case requires, in respect of the goods the subject of the application; or
 - (ii) for the publication of such a notice upon the importation into Australia of such goods;

he or she shall reject the application and inform the applicant, by notice in writing, accordingly.

- (2A) If an applicant, after lodging an application under section 269TB, decides to give the Commissioner further information in support of that application without having been requested to do so:
- (a) the information must be lodged with the Commissioner, in writing, in the manner in which applications under that section must be lodged; and
 - (b) the information is taken to have been received by the Commissioner when the information is first received by a Commission staff member doing duty in relation to dumping applications; and
 - (c) this Part has effect as if:
 - (i) the application had included that further information; and
 - (ii) the application had only been lodged when that further information was lodged; and
 - (iii) the application had only been received when that further information was received.

- (3) Where, in accordance with subsection (1) or (2), the Commissioner rejects an application, the notice informing the applicant of that rejection:
- (a) shall state the reasons why the Commissioner was not satisfied of one or more of the matters set out in that subsection; and
 - (b) shall inform the applicant of the applicant's right, within 30 days of the receipt of the notice, to apply for a review of the Commissioner's decision by the Review Panel under Division 9.
- (4) If the Commissioner decides not to reject an application under subsection 269TB(1) or (2) in respect of goods, the Commissioner must give public notice of the decision:
- (a) setting out particulars of goods the subject of the application; and
 - (b) setting out the identity of the applicant; and
 - (ba) setting out the countries of export known to be involved; and
 - (bb) if the application is for a countervailing duty notice—also setting out the countries from which countervailable subsidisation is alleged to have been received; and
 - (bc) setting a date, which should be the date or estimated date of publication of the notice, as the date of initiation of the investigation; and
 - (bd) indicating the basis on which dumping or countervailable subsidisation is alleged to have occurred; and
 - (be) summarising the factors on which the allegation of injury or hindrance to the establishment of an industry is based; and
 - (bf) indicating that a report will be made to the Minister:
 - (i) within 155 days after the date of initiation of the investigation; or
 - (ii) within such longer period as the Minister allows under section 269ZHI;on the basis of the examination of exportations to Australia of goods the subject of the application during a period

Section 269TC

- specified in the notice as the investigation period in relation to the application; and
- (c) inviting interested parties to lodge with the Commissioner, within 37 days after the date of initiation of the investigation, submissions concerning the publication of the notice sought in the application; and
 - (d) stating that if the Commissioner, in accordance with section 269TD, makes a preliminary affirmative determination in relation to the application, he or she may apply provisional measures, including the taking of securities under section 42, in respect of interim duty that may become payable on the importation of the goods the subject of the application; and
 - (e) stating that:
 - (i) within 110 days after the date of initiation of the investigation; or
 - (ii) such longer period as the Minister allows under section 269ZHI;the Commissioner, in accordance with section 269TDAA, will place on the public record a statement of the essential facts on which the Commissioner proposes to base a recommendation to the Minister; and
 - (f) inviting interested parties to lodge with the Commissioner, within 20 days of that statement being placed on the public record, submissions in response to that statement; and
 - (g) indicating the address at which, or the manner in which, submissions under paragraph (c) or (f) can be lodged; and
 - (h) stating that if the Minister decides to publish or not to publish a dumping duty notice or a countervailing duty notice after considering the report referred to in paragraph (bf), certain persons will have the right to seek review of that decision in accordance with Division 9.
- (5) Information required to be included in the notice under subsection (4) may be included in a separate report to which the notice makes reference.

- (5A) The Commissioner cannot vary the length of the investigation period.
- (6) Despite the fact that a notice under this section specifies a particular period for interested parties to lodge submissions with the Commissioner, if the Commissioner is satisfied, by representation in writing by an interested party:
- (a) that a longer period is reasonably required for the party to make a submission; and
 - (b) that allowing a longer period will be practicable in the circumstances;
- the Commissioner may notify the party, in writing, that a specified further period will be allowed for the party to lodge a submission.
- (7) As soon as practicable after the Commissioner decides not to reject an application under section 269TB for a dumping duty notice or a countervailing duty notice, the Commissioner must ensure that a copy of the application, or of so much of the application as is not claimed to be confidential or to constitute information whose publication would adversely affect a person's business or commercial interests, is made available:
- (a) unless paragraph (b) applies—to all persons known to be exporters of goods the subject of the application and to the government of each country of export; or
 - (b) if the number of persons known to be exporters of goods the subject of the application is so large that it is not practicable to provide a copy of the application, or of so much of the application as is not the subject of such a claim, to each of them—to the government of each country of export and to each relevant trade association.
- (8) If the Commissioner is satisfied that a country whose exporters are nominated in an application for a dumping duty notice or a countervailing duty notice has an economy in transition, the Commissioner must, as soon as practicable after deciding not to reject the application:

Section 269TC

- (a) give each nominated exporter from such a country a questionnaire about evidence of whether or not paragraphs 269TAC(5D)(a) and (b) apply; and
- (b) inform each such exporter that the exporter has a specified period of not less than 30 days for answering questions in the questionnaire; and
- (c) inform each such exporter that the investigation of the application will proceed on the basis that subsection 269TAC(5D) applies to the normal value of the exporter's goods that are the subject of the application if:
 - (i) the exporter does not give the answers to the Commissioner within the period; or
 - (ii) the exporter gives the answers to the Commissioner within the period but they do not provide a reasonable basis for determining that paragraphs 269TAC(5D)(a) and (b) do not apply.

Note: Paragraph 269TAC(5D)(a) or (b) applies if a government of the country of export significantly affects the selling price in that country of like goods to the goods that are the subject of the application.

- (9) Despite the fact that, under subsection (8), the Commissioner has informed an exporter given a questionnaire that the exporter has a particular period to answer the questions in the questionnaire, if the Commissioner is satisfied, by representation in writing by the exporter:
 - (a) that a longer period is reasonably required for the exporter to answer the questions; and
 - (b) that allowing a longer period will be practicable in the circumstances;the Commissioner may notify the exporter, in writing, that a specified further period will be allowed for the exporter to answer the questions.
- (10) If, during an investigation in respect of goods the subject of an application under section 269TB, the Commissioner becomes aware of an issue as to whether a countervailable subsidy (other than one covered by the application) has been received in respect

of the goods, the Commissioner may examine that issue as part of the investigation.

269TD Preliminary affirmative determinations

- (1) At any time not earlier than 60 days after the date of initiation of an investigation as to whether there are sufficient grounds for the publication of a dumping duty notice, or a countervailing duty notice, in respect of goods the subject of an application under section 269TB, the Commissioner may, if he or she is satisfied:
 - (a) that there appears to be sufficient grounds for the publication of such a notice; or
 - (b) that it appears that there will be sufficient grounds for the publication of such a notice subsequent to the importation into Australia of such goods;make a determination (a *preliminary affirmative determination*) to that effect.
- (2) Subject to subsection (3), in deciding whether to make such a preliminary affirmative determination, the Commissioner:
 - (a) must have regard to:
 - (i) the application concerned; and
 - (ii) any submissions concerning publication of the notice that are received by the Commissioner within 37 days after the date of initiation of the investigation; and
 - (b) may have regard to any other matters that the Commissioner considers relevant.
- (3) The Commissioner is not obliged to have regard to any submission that is received by the Commissioner after the end of the period referred to in subparagraph (2)(a)(ii) if to do so would, in the Commissioner's opinion, prevent the timely consideration of the question whether or not to make a preliminary affirmative determination.

Section 269TDAA

- (4) If the Commissioner makes a preliminary affirmative determination:
 - (a) the Commissioner must give public notice of that determination; and
 - (b) the Commonwealth may, at the time that determination is made or at any later time during the investigation, require and take securities under section 42 in respect of interim duty that may become payable if the Commissioner is satisfied that it is necessary to do so to prevent material injury to an Australian industry occurring while the investigation continues.
- (5) If the Commonwealth decides to require and take securities under subsection (4), the Commissioner must give public notice of that decision.

269TDAA Statement of essential facts in relation to investigation of application under section 269TB

- (1) The Commissioner must, within 110 days after the date of initiation of an investigation arising from an application under section 269TB or such longer period as the Minister allows under section 269ZHI, place on the public record a statement of the facts (the *statement of essential facts*) on which the Commissioner proposes to base a recommendation to the Minister in relation to that application.
- (2) Subject to subsection (3), in formulating the statement of essential facts, the Commissioner:
 - (a) must have regard to:
 - (i) the application concerned; and
 - (ii) any submissions concerning publication of the notice that are received by the Commissioner within 37 days after the date of initiation of the investigation; and
 - (b) may have regard to any other matters that the Commissioner considers relevant.

- (3) The Commissioner is not obliged to have regard to a submission received by the Commissioner after the end of the period referred to in subparagraph (2)(a)(ii) if to do so would, in the Commissioner's opinion, prevent the timely placement of the statement of essential facts on the public record.

269TDA Termination of investigations

Commissioner must terminate if all dumping margins are negligible

- (1) If:
- (a) application is made for a dumping duty notice; and
 - (b) in an investigation, for the purposes of the application, of an exporter to Australia of goods the subject of the application, the Commissioner is satisfied that:
 - (i) there has been no dumping by the exporter of any of those goods; or
 - (ii) there has been dumping by the exporter of some or all of those goods, but the dumping margin for the exporter, or each such dumping margin, worked out under section 269TACB, when expressed as a percentage of the export price or weighted average of export prices used to establish that dumping margin, is less than 2%;

the Commissioner must terminate the investigation so far as it relates to the exporter.

Commissioner must terminate if countervailable subsidisation is negligible

- (2) If:
- (a) application is made for a countervailing duty notice; and

Section 269TDA

- (b) in an investigation, for the purposes of the application, of an exporter to Australia of goods the subject of the application, the Commissioner is satisfied that:
 - (i) no countervailable subsidy has been received in respect of any of those goods; or
 - (ii) a countervailable subsidy has been received in respect of some or all of those goods but it never, at any time during the investigation period, exceeded the negligible level of countervailable subsidy under subsection (16);

the Commissioner must terminate the investigation so far as it relates to the exporter.

Commissioner must terminate if negligible volumes of dumping are found

- (3) If:
 - (a) application is made for a dumping duty notice; and
 - (b) in an investigation for the purposes of the application the Commissioner is satisfied that the total volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over a reasonable examination period from a particular country of export; and
 - (ii) that have been, or may be, dumped;is negligible;

the Commissioner must terminate the investigation so far as it relates to that country.

What is a negligible volume of dumped goods?

- (4) For the purpose of subsection (3), the total volume of goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and dumped is taken to be a negligible volume if:
 - (a) when expressed as a percentage of the total Australian import volume, it is less than 3%; and

- (b) subsection (5) does not apply in relation to those first-mentioned goods.

Aggregation of volumes of dumped goods

- (5) For the purposes of subsection (4), this subsection applies in relation to goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and dumped if:
- (a) the volume of such goods that have been, or may be, so exported from that country and dumped, when expressed as a percentage of the total Australian import volume, is less than 3%; and
 - (b) the volume of goods the subject of the application that have been, or may be, exported to Australia over that period from another country of export and dumped, when expressed as a percentage of the total Australian import volume, is also less than 3%; and
 - (c) the total volume of goods the subject of the application that have been, or may be, exported to Australia over that period from the country to which paragraph (a) applies, and from all countries to which paragraph (b) applies, and dumped, when expressed as a percentage of the total Australian import volume, is more than 7%.

Negligible dumping margins to count in determining volume

- (6) The fact that the dumping margin, or each of the dumping margins, in relation to a particular exporter, when expressed as a percentage of the export price or weighted average of export prices used to establish that dumping margin, is less than 2%, does not prevent exports by that exporter being taken into account:
- (a) in working out the total volume of goods that have been, or may be, exported from a country of export and dumped; and
 - (b) in aggregating, for the purposes of subsection (5), the volumes of goods that have been, or may be, exported from that country of export and other countries of export and dumped.

Section 269TDA

Commissioner must terminate if negligible volumes of countervailable subsidisation are found

- (7) If:
- (a) application is made for a countervailing duty notice; and
 - (b) in an investigation for the purposes of the application, the Commissioner is satisfied that the total volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia from a particular country of export during a reasonable examination period; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;is negligible;
- the Commissioner must terminate the investigation so far as it relates to that country.

What is a negligible volume of subsidised goods?

- (8) For the purposes of subsection (7), the total volume of goods the subject of the application for a countervailing duty notice that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and in respect of which a countervailable subsidy has been received is taken to be a negligible volume if:
- (a) that country of export is not a developing country and that total volume, when expressed as a percentage of the total Australian import volume, is less than 3%; or
 - (b) that country of export is a developing country and that total volume, when expressed as a percentage of the total Australian import volume, is less than 4%;
- and subsections (9), (10) and (11) do not apply in relation to those first-mentioned goods.

Aggregation of volumes of subsidised goods from countries other than developing countries

- (9) For the purposes of subsection (8), this subsection applies in relation to goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and in respect of which a countervailable subsidy has been, or may be, received, if:
- (a) the country of export is not a developing country; and
 - (b) the volume of such goods:
 - (i) that have been, or may be, exported to Australia over that period from that country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is less than 3%; and
 - (c) the volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from another country that is not a developing country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is also less than 3%; and
 - (d) the total volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from the country to which paragraph (b) applies and from all countries to which paragraph (c) applies; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is more than 7%.

Section 269TDA

Aggregation of volumes of subsidised goods from developing countries

- (10) For the purposes of subsection (8), this subsection applies in relation to goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and in respect of which a countervailable subsidy has been, or may be, received if:
- (a) the country of export is a developing country; and
 - (b) the volume of such goods:
 - (i) that have been, or may be, exported to Australia over that period from that country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is less than 4%; and
 - (c) the volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from another country that is a developing country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is also less than 4%; and
 - (d) the total volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from the country to which paragraph (b) applies and from all countries to which paragraph (c) applies; and
 - (ii) in respect of which a countervailable subsidy has been, or may be received;when expressed as a percentage of the total Australian import volume, is more than 9%.

Aggregation of volumes of subsidised goods from member countries that are developing countries

- (11) For the purposes of subsection (8), this subsection applies in relation to goods the subject of the application that have been, or may be, exported to Australia over a reasonable examination period from the particular country of export and in respect of which a countervailable subsidy has been, or may be, received if:
- (a) the country of export is a member country and a developing country; and
 - (b) the volume of such goods;
 - (i) that have been, or may be, exported to Australia over that period from that country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is less than 4%; and
 - (c) the volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from another member country that is a developing country; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is less than 4%; and
 - (d) the volume of goods the subject of the application:
 - (i) that have been, or may be, exported to Australia over that period from the country to which paragraph (b) applies and from all countries to which paragraph (c) applies; and
 - (ii) in respect of which a countervailable subsidy has been, or may be, received;when expressed as a percentage of the total Australian import volume, is more than 9%.

Section 269TDA

Negligible countervailable subsidies to count in determining volume

- (12) The fact that the level of countervailable subsidy that has been, or may be, received in respect of goods that have been, exported, or may be exported, to Australia from a country of export is a negligible level under subsection (16) does not prevent exports from that country being taken into account:
- (a) in working out the total volume of goods that have been, or may be, exported from a country of export and in respect of which a countervailable subsidy has been, or may be, payable; and
 - (b) in aggregating, for the purposes of subsection (9), (10) or (11), volumes of goods that have been, or may be, exported to Australia from that country and other countries and in respect of which a countervailing subsidy has been, or may be, received.

Commissioner must terminate dumping investigation if export causes negligible injury etc.

- (13) Subject to subsection (13A), if:
- (a) application is made for a dumping duty notice; and
 - (b) in an investigation, for the purposes of the application, of goods the subject of the application that have been, or may be, exported to Australia from a particular country of export, the Commissioner is satisfied that the injury, if any, to an Australian industry or an industry in a third country, or the hindrance, if any, to the establishment of an Australian industry, that has been, or may be, caused by that export is negligible;
- the Commissioner must terminate the investigation so far as it relates to that country.
- (13A) If, in relation to the investigation referred to in subsection (13), the Commissioner, in accordance with subsection (14B), considers the cumulative effect of exportations of goods to Australia from 2 or

more countries of export, then the following apply in relation to those countries:

- (a) if the Commissioner is not satisfied that the injury to an Australian industry or an industry in a third country, or the hindrance to the establishment of an Australian industry, that has been, or may be, caused by those exports is negligible—subsection (13) does not apply in relation to those countries;
- (b) if the Commissioner is satisfied that such injury or hindrance that has been, or may be, caused by those exports is negligible—the Commissioner must terminate the investigation so far as it relates to those countries.

Note: If the investigation also covers exports of goods from a country that was not part of the cumulation consideration because those exports did not satisfy the criteria in subsection (14B), then the Commissioner will consider whether subsection (13) applies to that country.

Commissioner must terminate countervailable subsidy investigation if export causes negligible injury

- (14) Subject to subsection (14A), if:
 - (a) application is made for a countervailing duty notice; and
 - (b) in an investigation, for the purpose of the application, of goods the subject of the application that have been, or may be, exported to Australia from a particular country of export, the Commissioner is satisfied that the injury, if any, to an Australian industry or an industry in a third country that has been, or may be, caused by that export is negligible;the Commissioner must terminate the investigation so far as it relates to that country.
- (14A) If, in relation to the investigation referred to in subsection (14), the Commissioner, in accordance with subsection (14B), considers the cumulative effect of exportations of goods to Australia from 2 or more countries of export, then the following apply in relation to those countries:
 - (a) if the Commissioner is not satisfied that the injury to an Australian industry or an industry in a third country that has

Section 269TDA

- been, or may be, caused by those exports is negligible—
subsection (14) does not apply in relation to those countries;
- (b) if the Commissioner is satisfied that such injury that has
been, or may be, caused by those exports is negligible—the
Commissioner must terminate the investigation so far as it
relates to those countries.

Note: If the investigation also covers exports of goods from a country that
was not part of the cumulation consideration because those exports did
not satisfy the criteria in subsection (14B), then the Commissioner
will consider whether subsection (14) applies to that country.

Cumulative assessment of injury or hindrance

- (14B) For the purpose of subsection (13A) or (14A), the Commissioner
must consider the cumulative effect of exportations of goods to
Australia from 2 or more countries of export if the Commissioner
is satisfied that:
- (a) each of those exportations is the subject of an investigation;
and
- (b) either:
- (i) all the investigations of those exportations resulted from
applications under section 269TB lodged with the
Commissioner on the same day; or
- (ii) the investigations of those exportations resulted from
applications under section 269TB lodged with the
Commissioner on different days but the investigation
periods for all the investigations of those exportations
overlap significantly; and
- (c) for the purposes of subsection (13A)—the dumping margin
worked out under section 269TACB for the exporter for each
of the exportations is at least 2% of the export price or
weighted average of export prices used to establish that
dumping margin; and
- (d) for the purposes of subsection (13A)—for each application,
the volume of goods the subject of the application that have
been, or may be, exported to Australia over a reasonable
examination period (as defined in subsection 269TDA(17))
from the country of export and dumped is not taken to be

Section 269TDA

negligible for the purposes of subsection 269TDA(3) because of subsection 269TDA(4); and

- (e) for the purposes of subsection (14A):
 - (i) the amount of the countervailable subsidy in respect of the goods the subject of each of the exportations exceeds the negligible level of countervailable subsidy worked out under subsection 269TDA(16); and
 - (ii) the volume of each of those exportations is not negligible; and
- (f) it is appropriate to consider the cumulative effect of those exportations, having regard to:
 - (i) the conditions of competition between those goods; and
 - (ii) the conditions of competition between those goods and like goods that are domestically produced.

Commissioner must give public notice of termination decisions

- (15) If the Commissioner decides to terminate an investigation so far as it relates to a particular exporter or country of export, the Commissioner must:
 - (a) give public notice of that decision; and
 - (b) ensure that:
 - (i) in the case of an exporter, a copy of the notice is sent to the applicant, the exporter and the government of the country of export; or
 - (ii) in the case of a country of export, a copy of the notice is sent to the applicant and the government of that country; and
 - (c) inform the applicant of the applicant's right, within 30 days after the first publication of the public notice, to apply for a review of the Commissioner's decision by the Review Panel under Division 9.

Section 269TDA

Negligible countervailable subsidisation

- (16) For the purposes of this section, a countervailable subsidy received in respect of goods exported to Australia is negligible if:
- (a) the country of export is not a developing country and the subsidy, when expressed as a percentage of the export price of the goods, is less than 1%; or
 - (b) the country of export is a developing country but not a special developing country and the subsidy, when expressed as a percentage of the export price of the goods, is not more than 2%; or
 - (c) the country of export is a special developing country and the subsidy, when expressed as a percentage of the export price of the goods, is not more than 3%.

Definition—reasonable examination period

- (17) In this section:

reasonable examination period, in relation to an application for a dumping duty notice or a countervailing duty notice in respect of goods, means a period comprising:

- (a) the whole or a substantial part of the investigation period; or
- (b) any period after the end of the investigation period that is taken into account for the purpose of considering possible future importations of goods the subject of the application.

total Australian import volume, in relation to a volume of goods the subject of an application for a dumping duty notice or a countervailing duty notice that have been, or may be, exported to Australia from a particular country during a period, means the total volume of all goods the subject of the application and like goods that have been, or may be, exported to Australia from all countries during that period.

269TE Commissioner to have regard to same considerations as Minister

(1) In this section:

decision means:

- (a) a decision of the Commissioner under section 269TC or 269TD; or
- (b) a decision contained in a report by the Commissioner under section 269ZZL.

recommendation means:

- (a) a recommendation included in a report prepared by the Commissioner under section 269TEA, 269ZDA, 269ZDBG, 269ZG or 269ZHF; or
 - (b) a recommendation by the Commissioner to the Minister under section 269TEB or 269X.
- (2) If the Commissioner is required, in making a recommendation or decision, to determine any matter ordinarily required to be determined by the Minister under this Act or the Dumping Duty Act, the Commissioner must determine the matter:
- (a) in like manner as if he or she were the Minister; and
 - (b) having regard to the considerations to which the Minister would be required to have regard if the Minister were determining the matter.
- (3) Subsection (2) applies in respect of goods that have not been imported into Australia at the time of the Commissioner's determination of a matter in respect of those goods as if:
- (a) the Commissioner's determination of the matter were being made after an importation of those goods into Australia; and
 - (b) the importation had occurred at the time of the anticipated importation of those goods into Australia.
- (4) Nothing in this section implies that the determination of a matter by the Commissioner affects the power of the Minister to make a

Section 269TEA

final determination in respect of that matter for the purposes of the Dumping Duty Act.

269TEA Report to Minister concerning publication of notices under this Part

- (1) If:
- (a) application has been made under section 269TB for publication of a dumping duty notice or a countervailing duty notice; and
 - (b) the Commissioner has initiated an investigation in respect of the application under section 269TC;
- the Commissioner must, after holding such an investigation and within 155 days after the date of initiation of the investigation or such longer period as the Minister allows under section 269ZHI, give the Minister a report in respect of the goods the subject of the application that:
- (c) recommends whether any such notice should be published and the extent of any duties that are, or should be, payable under the Dumping Duty Act because of that notice; and
 - (d) recommends, in particular, whether the Minister ought to be satisfied as to the matters in respect of which the Minister is required to be satisfied before such a notice can be published; and
 - (e) recommends, where applicable, whether the Minister ought to give notice to the exporter under subsection 269TG(3D) or to the government of the country of export or to the exporter under subsection 269TJ(2A).
- (2) The Commissioner's report must, to the extent that it is practicable to do so, also extend to any like goods not covered by the application but imported into Australia during the period starting on the date of initiation of the investigation and ending 20 days after the statement of essential facts in respect of the investigation is placed on the public record.
- (3) Subject to subsection (4), in deciding on the recommendations to be made to the Minister in the Commissioner's report in relation to

an application under section 269TB for publication of a dumping duty notice or a countervailing duty notice, the Commissioner:

- (a) must have regard to:
 - (i) the application; and
 - (ii) any submission concerning the publication of that notice to which the Commissioner has had regard for the purpose of formulating the statement of essential facts; and
 - (iii) the statement of essential facts; and
 - (iv) any submission made in response to that statement that is received by the Commissioner within 20 days after the placing of that statement on the public record; and
 - (b) may have regard to any other matters that the Commissioner considers to be relevant.
- (4) The Commissioner is not obliged to have regard to any submission made in response to the statement of essential facts that is received by the Commissioner after the end of the period referred to in subparagraph (3)(a)(iv) if to do so would, in the Commissioner's opinion, prevent the timely preparation of the report to the Minister.
- (5) The report to the Minister must include a statement of the Commissioner's reasons for any recommendation contained in the report that:
- (a) sets out the material findings of fact on which that recommendation is based; and
 - (b) provides particulars of the evidence relied on to support those findings.

269TEB Commissioner recommendations concerning undertakings offered after preliminary affirmative determination

- (1) A person who:
 - (a) if application has been made for publication of a dumping duty notice in respect of goods—is an exporter of such goods; or

Section 269TEB

- (b) if application has been made for publication of a countervailing duty notice in respect of goods—is the government of the country of export, or is an exporter, of such goods;
- may, at any time after the making of a preliminary affirmative determination in respect of the application, indicate in writing to the Commissioner the terms in which the government or exporter would be prepared to give an undertaking to the Minister.
- (2) The Commissioner must consider whether he or she is satisfied that those terms are adequate to remove the injury, or the threat of injury, to which the application is addressed so far as the government or exporter offering the undertaking is concerned and, by notice in writing:
- (a) if the Commissioner is so satisfied—recommend to the Minister that he or she accept the undertaking; or
- (b) if the Commissioner is not so satisfied—indicate to the government or exporter the reasons why he or she is not so satisfied.
- (3) A government or an exporter may, having regard to those reasons, indicate to the Commissioner that the government or exporter is prepared to give an undertaking to the Minister in revised terms.
- (4) If an undertaking in revised terms is proposed to the Commissioner, the Commissioner must:
- (a) if he or she is not satisfied that the undertaking as so revised is adequate to remove the injury, or the threat of injury, to which the application is addressed—inform the government or exporter to that effect; and
- (b) if he or she is so satisfied—recommend to the Minister that the Minister accept the undertaking as revised.
- (5) If the Minister accepts the undertaking proposed by a government, investigation of the application is suspended so far as it relates to goods exported from that country.

- (6) If the Minister accepts the undertaking proposed by an exporter, investigation of the application is suspended so far as it relates to goods exported by that exporter.
- (7) If:
- (a) investigation of an application is suspended:
 - (i) so far as it relates to goods exported from a particular country; or
 - (ii) so far as it relates to goods exported by a particular exporter;
on the Minister's acceptance of an undertaking proposed by the government of that country or by that exporter; and
 - (b) that government or exporter breaches that undertaking;
the Minister may take such steps as he or she considers necessary to facilitate the resumption of the investigation in so far as it relates to goods exported from that country or by that exporter.
- (8) Without limiting the generality of subsection (7), the Minister may, in writing, require the Commissioner to resume the investigation so far as it relates to goods exported from the country, or by the exporter, who breached the undertaking subject to such conditions as to the conduct of the investigation as the Minister considers appropriate.
- (9) In determining the steps to be taken in order to facilitate the resumption of an investigation, and, where the Minister requires that the Commissioner resume the investigation, to determine the conditions on which the resumed investigation is to be conducted, the Minister must have regard to:
- (a) the procedures that had been completed when the undertaking was accepted; and
 - (b) the length of time that has elapsed since the acceptance of the undertaking.
- (10) The Commissioner is not obliged to consider the terms of any proposed undertaking provided by a government or an exporter if to do so would prevent the timely making of a recommendation by the Commissioner to the Minister under section 269TEA.
-

Part XVB Special provisions relating to anti-dumping duties

Division 2 Consideration of anti-dumping matters by the Commissioner

Section 269TEB

- (11) If the Commissioner does not recommend the acceptance of an undertaking under this section, the Commissioner may nonetheless recommend to the Minister that he or she seek an undertaking from the government or exporter who proposed the undertaking and set out the terms of the undertaking that he or she recommends the Minister seek.

Division 3—Consideration of anti-dumping matters by the Minister

269TF What this Division is about

This Division sets out the role of the Minister in considering an anti-dumping matter. The Minister will normally be acting after receipt of a report from the Commissioner. In particular, the Division:

- empowers the Minister to publish dumping duty notices or countervailing duty notices;
- empowers the Minister to accept undertakings rather than publish such notices;
- outlines the matters of which the Minister must be satisfied before publishing such notices or accepting such undertakings;
- indicates the period during which such notices or undertakings remain in force;
- sets out the circumstances in which such notices can extend to goods already exported.

269TG Dumping duties

- (1) Subject to section 269TN, where the Minister is satisfied, as to any goods that have been exported to Australia, that:
 - (a) the amount of the export price of the goods is less than the amount of the normal value of those goods; and

Section 269TG

- (b) because of that:
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 8 of the Dumping Duty Act—material injury to an Australian industry producing like goods would or might have been caused if the security had not been taken;

the Minister may, by public notice, declare that section 8 of that Act applies:

- (c) to the goods in respect of which the Minister is so satisfied; and
 - (d) to like goods that were exported to Australia after the Commissioner made a preliminary affirmative determination under section 269TD in respect of the goods referred to in paragraph (c) but before the publication of that notice.
- (2) Where the Minister is satisfied, as to goods of any kind, that:
- (a) the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and
 - (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by public notice (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 8 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice.

(3) Where:

- (a) a notice under subsection (1) declares particular goods to be goods to which section 8 of the Dumping Duty Act applies; or
- (b) a notice under subsection (2) declares like goods in relation to goods of a particular kind to be goods to which that section applies;

the notice must, subject to subsection (3A), include a statement of the respective amounts that the Minister ascertained, at the time of publication of the notice:

- (c) was or would be the normal value of the goods to which the declaration relates; and
- (d) was or would be the export price of those goods; and
- (e) was or would be the non-injurious price of those goods.

(3A) If any person who has provided information to assist the Minister to ascertain the normal value, export price or non-injurious price of goods to which a declaration under subsection (1) or (2) relates claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of that value or price would adversely affect the person's business or commercial interests:

- (a) in accordance with subsection 269ZI(9) the Minister is not required to include in the notice a statement of that value or price; but
- (b) upon request the Commissioner may notify that value or price to persons who, in the Commissioner's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

(3D) If the export of a consignment of goods to Australia by an exporter has been under consideration by the Minister so as to decide whether or not to publish a dumping duty notice under this section in relation to the goods in the consignment or to like goods, the Minister may give notice, in writing, to the exporter stating that:

Section 269TG

- (a) the Minister is of the opinion that it would be appropriate for the exporter to give an undertaking in accordance with subsection (4) to the Minister; and
 - (b) an undertaking, in the terms set out in the notice, would be satisfactory to the Minister.
- (4) Whether or not a notice has been given to an exporter, the Minister may defer the decision to publish or not to publish a dumping duty notice covering that exporter, for so long as the Minister considers appropriate, if the exporter offers, and the Minister accepts, an undertaking that the exporter will so conduct future trade to Australia in like goods as to avoid:
 - (a) causing or threatening material injury to an Australian industry producing like goods; or
 - (b) materially hindering the establishment of such an Australian industry.
- (5) In giving a notice, and in considering the terms of any proposed undertaking, the Minister must have regard to the desirability that any price increase to which the undertaking relates is limited to an amount such that the total price of the goods is not more than the non-injurious price of the goods.
- (5A) However, subsection (5) does not require the Minister to have regard to the matter in that subsection if the Minister is satisfied that either or both of the following apply in relation to the goods in the consignment:
 - (a) the normal value of the goods was not ascertained under subsection 269TAC(1) because of the operation of subparagraph 269TAC(2)(a)(ii);
 - (b) there is an Australian industry in respect of like goods that consists of at least 2 small-medium enterprises, whether or not that industry consists of other enterprises.
- (6) The Minister:
 - (a) may give a notice to an exporter under subsection (3D) whether or not the giving of such a notice has been

- recommended by the Commissioner in a report under section 269TEA; and
- (b) may accept an undertaking whether or not the acceptance of such an undertaking has been recommended by the Commissioner in a recommendation under section 269TEB; and
 - (c) must not give a notice to an exporter under subsection (3D), or accept an undertaking from an exporter, before a preliminary affirmative determination, or an equivalent determination in an investigation conducted under section 269TAG, has been made that extends to that exporter; and
 - (d) must give public notice of any undertaking so accepted.
- (7) The acceptance by the Minister of an undertaking may be subject to conditions that include, but are not limited to, conditions relating to:
- (a) giving the Minister, on an agreed basis, information that is relevant to the fulfilment of the undertaking; and
 - (b) providing the Minister with appropriate access to such information.
- (8) The acceptance by the Minister of an undertaking from an exporter does not prevent the exporter requesting the Minister to determine whether, had the undertaking not been accepted, the Minister would have published a dumping duty notice or would have decided not to publish such a notice.
- (9) The Minister must, if an exporter makes such a request, and may, on his or her own initiative, determine whether he or she would have published a dumping duty notice or would have decided not to publish such a notice if the undertaking had not been accepted.
- (10) Subsection (9) does not imply that the Minister is required to make a determination under that subsection before the Minister has received a report of the Commissioner in relation to the matter.

Section 269TH

- (11) If the Minister determines under subsection (9) that he or she would have decided not to publish a dumping duty notice, the undertaking automatically lapses.

269TH Third country dumping duties

- (1) Subject to section 269TN, where the Minister is satisfied, as to any goods produced or manufactured in a particular country that have been exported to Australia, that:
- (a) the amount of the export price of the goods is less than the amount of the normal value of the goods; and
 - (b) because of that:
 - (i) material injury to an industry in a third country engaged in the production or manufacture of like goods has been or is being caused or is threatened; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 9 of the Dumping Duty Act—material injury to an industry in a third country engaged in the production or manufacture of like goods would or might have been caused if the security had not been taken;
- the Minister, if requested by the Government of the third country to do so, may, by public notice, declare that section 9 of that Act applies:
- (c) to the goods in respect of which the Minister is so satisfied; and
 - (d) to like goods that were exported to Australia after the Commissioner made a preliminary affirmative determination under section 269TD in respect of the goods referred to in paragraph (c) but before the publication of that notice.
- (2) Where the Minister is satisfied, as to goods of any kind produced or manufactured in a particular country that:
- (a) the amount of the export price of like goods so produced or manufactured that have already been exported to Australia is less than the amount of the normal value of those goods, and

the amount of the export price of like goods so produced or manufactured that may be exported to Australia in the future may be less than the normal value of the goods; and

- (b) because of that, material injury to an industry in a third country engaged in the production or manufacture of like goods has been or is being caused or is threatened;

the Minister, if requested by the Government of the third country so to do, may, by public notice (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods so manufactured or produced that have been exported to Australia), declare that section 9 of the Dumping Duty Act applies to like goods so produced or manufactured that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice.

- (3) Where:

- (a) a notice under subsection (1) declares particular goods to be goods to which section 9 of the Dumping Duty Act applies;

or

- (b) a notice under subsection (2) declares like goods in relation to goods of a particular kind to be goods to which that section applies;

the notice must, subject to subsection (4), include a statement of the respective amounts that the Minister ascertained at the time of publication of the notice:

- (c) was or would be the normal value of the goods to which the declaration relates; and

- (d) was or would be the export price of those goods; and

- (e) was or would be the non-injurious price of those goods.

- (4) If any person who has provided information to assist the Minister to ascertain the normal value, export price or non-injurious price of goods to which a declaration under subsection (1) or (2) relates claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of that value or price would adversely affect the person's business or commercial interests:

Section 269TJ

- (a) in accordance with subsection 269ZI(9), the Minister is not required to include in the notice a statement of that value or price; but
- (b) upon request the Commissioner may notify that value or price to persons who, in the Commissioner's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

269TJ Countervailing duties

- (1) Subject to section 269TN, where the Minister is satisfied, as to any goods that have been exported to Australia, that:
 - (a) a countervailable subsidy has been received in respect of the goods; and
 - (b) because of that:
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is threatened or the establishment of an Australian industry producing like goods has been or may be materially hindered; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 10 of the Dumping Duty Act—material injury to an Australian industry producing like goods would or might have been caused if the security had not been taken;

the Minister may, by public notice, declare that section 10 of that Act applies:

- (c) to the goods in respect of which the Minister is so satisfied; and
- (d) to like goods that were exported to Australia after the Commissioner made a preliminary affirmative determination under section 269TD in respect of the goods referred to in paragraph (c) but before the publication of that notice.

- (2) Where the Minister is satisfied, as to goods of any kind that:
- (a) a countervailable subsidy:
 - (i) has been received in respect of goods the subject of the application that have already been exported to Australia; and
 - (ii) may be received in respect of like goods that may be exported to Australia in the future; and
 - (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is being threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by public notice (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 10 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice.

- (2A) If the export of a consignment of goods to Australia has been under consideration by the Minister so as to decide whether or not to publish a countervailing duty notice under this section in relation to the goods in the consignment or to like goods, the Minister may give notice, in writing, to the government of the country of export or to the exporter stating that:
- (a) the Minister is of the opinion that it would be appropriate for the government or the exporter to give an undertaking in accordance with subsection (3) to the Minister; and
 - (b) an undertaking, in the terms set out in the notice, would be satisfactory to the Minister.
- (3) Whether or not a notice has been given to a government or to an exporter in respect of goods in the consignment or like goods, the Minister may defer the decision to publish or not to publish a countervailing duty notice covering those goods if the Minister is given and accepts an undertaking to which subsection (3A) applies.

Section 269TJ

- (3A) This subsection applies:
- (a) to an undertaking given by a government—if it is an undertaking that the government will, in relation to any export trade to Australia in like goods, review any countervailable subsidy delivered by that government and make any changes found to be necessary to avoid:
 - (i) causing or threatening material injury to an Australian industry producing like goods; or
 - (ii) materially hindering the establishment of such an Australian industry; and
 - (b) to an undertaking by an exporter—if it is an undertaking that the exporter will so conduct future trade to Australia in like goods as to avoid:
 - (i) causing or threatening material injury to an Australian industry producing like goods; or
 - (ii) materially hindering the establishment of such an Australian industry.
- (3B) In giving a notice, and in considering the terms of any proposed undertaking, the Minister must have regard to the desirability that any price increase arising from the undertaking is limited to an amount such that the total price of the goods is not more than the non-injurious price of the goods.
- (3BA) However, subsection (3B) does not require the Minister to have regard to the matter in that subsection if the Minister is satisfied that either or both of the following apply in relation to the goods in the consignment:
- (a) the country of export has not complied with Article 25 of the Agreement on Subsidies and Countervailing Measures for the compliance period;
 - (b) there is an Australian industry in respect of like goods that consists of at least 2 small-medium enterprises, whether or not that industry consists of other enterprises.

- (3C) The Minister:
- (a) may give a notice under subsection (2A) whether or not the giving of such a notice has been recommended by the Commissioner in a recommendation under section 269TEA; and
 - (b) may accept an undertaking whether or not the acceptance of such an undertaking has been recommended by the Commissioner in a recommendation under section 269TEB; and
 - (c) must not:
 - (i) give a notice to a government or exporter under subsection (2A); or
 - (ii) accept an undertaking from a government or an exporter;
in respect of particular goods or like goods unless a preliminary affirmative determination, or an equivalent determination in an investigation conducted under section 269TAG, has been made to the effect that there are grounds for publication of a countervailing duty notice in respect of those like goods; and
 - (d) must not accept an undertaking from an exporter unless the government of the country of export consents to the giving of the undertaking; and
 - (e) must give public notice of any undertaking so accepted.
- (3D) The acceptance by the Minister of an undertaking may be subject to conditions that include, but are not limited to, conditions relating to:
- (a) giving the Minister, on an agreed basis, information that is relevant to the fulfilment of the undertaking; and
 - (b) providing the Minister with appropriate access to such information.
- (3E) The acceptance by the Minister of an undertaking from an exporter does not prevent the exporter requesting the Minister to determine whether, had the undertaking not been accepted, the Minister

Section 269TJ

would have published a countervailing duty notice or would have decided not to publish such a notice.

- (3F) The Minister must, if an exporter makes such a request, and may, on his or her own initiative, determine whether he or she would have published a countervailing duty notice or would have decided not to publish such a notice if the undertaking had not been accepted.
- (3G) Subsection (3F) does not imply that the Minister is required to make a determination under that subsection before the Minister has received a report from the Commissioner in relation to the matter.
- (3H) If the Minister determines under subsection (3F) that he or she would have decided not to publish a countervailing duty notice, the undertaking automatically lapses.
- (11) If a notice under subsection (1) or (2) declares particular goods to be goods to which section 10 of the Dumping Duty Act applies, the notice must, subject to subsection (12), include a statement setting out:
- (a) the amount of countervailable subsidy that the Minister ascertained, at the time of publication of the notice, had been or would be received in respect of the goods to which the notice relates; and
 - (b) the amount that the Minister has ascertained, at that time, was or would be the non-injurious price of the goods.
- (12) If any person who has provided information to assist the Minister to ascertain:
- (a) the amount of any countervailable subsidy received in respect of goods to which a declaration under subsection (1) or (2) relates; or
 - (b) the non-injurious price of any goods to which a declaration under subsection (1) or (2) relates;
- claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of the amount of that subsidy or of the amount of that non-injurious price would adversely affect the person's business or commercial interests:

- (c) in accordance with subsection 269ZI(9), the Minister is not required to include a statement of that amount or that price in the notice; but
- (d) upon request the Commissioner may provide a statement of that amount or that price to persons who, in the Commissioner's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

269TJA Concurrent dumping and subsidy

- (1) Where the Minister is satisfied, as to any goods that have been exported to Australia:
 - (a) that the amount of the export price of those goods is less than the amount of the normal value of those goods; and
 - (b) that a countervailable subsidy has been received in respect of the goods; and
 - (c) that, because of the combined effect of the difference between the 2 amounts referred to in paragraph (a) and of the subsidy referred to in paragraph (b):
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is threatened; or
 - (ii) the establishment of an Australian industry producing like goods has been or may be materially hindered;the Minister may publish a notice under subsection 269TG(1), a notice under subsection 269TJ(1) or notices under both subsections 269TG(1) and 269TJ(1) at the same time in respect of the same goods.
- (2) Where the Minister is satisfied, as to goods of any kind:
 - (a) that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and

Section 269TJA

- (b) that a countervailable subsidy:
 - (i) has been received in respect of goods the subject of the application that have already been exported to Australia; and
 - (ii) may be received in respect of like goods that may be exported to Australia in the future; and
 - (c) that, because of the combined effect of the difference referred to in paragraph (a) and of the subsidy referred to in paragraph (b):
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is being threatened; or
 - (ii) the establishment of an Australian industry producing like goods has been or may be materially hindered;
- the Minister may publish a notice under subsection 269TG(2), a notice under subsection 269TJ(2) or notices under both subsections 269TG(2) and 269TJ(2) at the same time in respect of the same goods.
- (3) If the Minister has had under consideration the export of a consignment of goods to Australia with a view to determining whether or not notices should be published in accordance with subsection (1) or (2), under both section 269TG and 269TJ in respect of the same goods, the Minister may defer the decision to publish or not to publish notices under both of those sections covering the exporter concerned if he or she is given and accepts:
 - (a) an undertaking by the exporter under section 269TG, and an undertaking by the exporter under section 269TJ, in respect of the same goods; or
 - (b) an undertaking by the exporter under section 269TG and an undertaking by the government of the country of origin, or of the country of export, of the goods in the consignment under section 269TJ.
 - (4) If, in respect of the same consignment of goods, the Minister accepts 2 undertakings from the exporter of the goods or an undertaking from the exporter of the goods and an undertaking

from the government of the country of origin or country of export of the goods, the Minister must be satisfied that the combined effect of the undertakings is not greater than is necessary to prevent material injury or the recurrence of material injury to an Australian industry producing like goods or to remove the actual or possible hindrance to the establishment of such an Australian industry.

269TK Third country countervailing duties

- (1) Subject to section 269TN, where the Minister is satisfied, as to any goods produced or manufactured in a particular country that have been exported to Australia, that:
- (a) a countervailable subsidy has been received in respect of the goods; and
 - (b) because of that:
 - (i) material injury to an industry in a third country engaged in the production or manufacture of like goods has been or is being caused or is being threatened; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under this section—material injury to an industry in a third country engaged in the production or manufacture of like goods would or might have been caused if the security had not been taken;

the Minister, if requested by the Government of the third country to do so, may, by public notice, declare that section 11 of that Act applies:

- (c) to the goods in respect of which the Minister is so satisfied; and
- (d) to like goods that were exported to Australia after the Commissioner made a preliminary affirmative determination under section 269TD in respect of the goods referred to in paragraph (c) but before the publication of that notice.

Section 269TK

- (2) Where the Minister is satisfied, as to goods of any kind produced or manufactured in a particular country that:
- (a) a countervailable subsidy:
 - (i) has been received in respect of goods the subject of the application that have already been exported to Australia; and
 - (ii) may be received in respect of like goods that may be exported to Australia in the future; and
 - (b) by reason thereof material injury to an industry in a third country engaged in the production of like goods has been or is being caused or is being threatened;
- the Minister, if requested by the Government of the third country so to do, may, by public notice (whether or not he or she has made, or makes, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 11 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice.
- (3) If the Minister is satisfied that adequate information as to the amount of countervailable subsidy in relation to goods cannot be obtained for the purposes of this section, the amount of countervailable subsidy is to be taken to be such amount as is determined, in writing, by the Minister.
- (4) For the purposes of this section, the benefit accruing to an exporter from the use of dual or multiple rates of exchange in relation to the proceeds of export sales is to be taken to be financial assistance paid to the exporter.
- (5) Where a notice under subsection (1) or (2) declares particular goods to be goods to which section 11 of the Dumping Duty Act applies, the notice must, subject to subsection (6), include a statement setting out:
- (a) the amount of countervailable subsidy that the Minister ascertained, at the time of publication of the notice, had been or would be received in respect of the goods to which the notice relates; and

- (b) the amount that the Minister ascertained, at that time, was or would be the non-injurious price of the goods.
- (6) If any person who has provided information to assist the Minister to ascertain:
- (a) the amount of any countervailable subsidy received in respect of goods to which a notice under subsection (1) or (2) relates; or
 - (b) the non-injurious price of such goods;
- claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of the amount of that subsidy or of the amount of that non-injurious price would adversely affect the person's business or commercial interests:
- (c) in accordance with subsection 269ZI(9), the Minister is not required to include a statement of that amount or that price in the notice; but
 - (d) upon request the Commissioner may provide a statement of that amount or that price to persons who, in the Commissioner's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

269TL Minister to give public notice not to impose duty

- (1) Where the Minister receives a recommendation from the Commissioner concerning the imposition of dumping duty, third country dumping duty, countervailing duty or third country countervailing duty on particular goods or on goods of a like kind to particular goods and the Minister decides, after having regard to that recommendation, not to declare those goods to be goods to which section 8, 9, 10 or 11, as the case requires, of the Dumping Duty Act applies, the Minister must give public notice to that effect.

269TLA Time limit for Minister to make certain decisions

- (1) This section applies if the Minister receives a recommendation from the Commissioner concerning the imposition of dumping

Section 269TM

duty, third country dumping duty, countervailing duty or third country countervailing duty on goods.

- (2) The Minister must decide whether or not to publish a dumping duty notice or a countervailing duty notice, or both a dumping duty notice and a countervailing duty notice, in respect of the goods within:
 - (a) 30 days after receiving the recommendation; or
 - (b) if the Minister considers there are special circumstances that prevent the decision being made within that period—such longer period as the Minister considers appropriate.
- (3) If paragraph (2)(b) applies, the Minister must give public notice of the longer period.
- (4) Subsection (2) does not apply if:
 - (a) the Minister defers the decision under subsection 269TG(4), 269TJ(3) or 269TJA(3); or
 - (b) subsection 269TN(4A) or (6) applies in relation to the decision; or
 - (c) the application to which the recommendation relates is withdrawn before the Minister makes the decision.

269TM Periods during which certain notices and undertakings to remain in force

- (1) Subject to subsection (1A), if a notice is published after section 17 of the *Customs Legislation (Tariff Concessions and Anti-Dumping) Amendment Act 1992* commences under a relevant notification provision in respect of goods of a particular kind, that notice expires 5 years after the day on which it is published unless it is revoked before the end of that period.
- (1A) If:
- (a) a notice (the ***original notice***) is published under a relevant notification provision in respect of goods of a particular kind; and

- (b) in relation to the investigation that resulted in the publication of the original notice, the Minister accepted an undertaking under subsection 269TEB(5) or (6) that was proposed by a government of a country of export, or by an exporter, of goods of that kind; and
 - (c) before the end of the period of 5 years beginning on the day (the *start day*) that the Minister accepted that undertaking:
 - (i) that government or exporter breaches that undertaking; and
 - (ii) the Minister, under subsection 269TEB(7), takes steps to facilitate the resumption of the investigation in so far as it relates to goods of that kind exported from that country or exported by that exporter; and
 - (iii) another notice is published under a relevant notification provision in respect of goods of that kind exported from that country or exported by that exporter;
- then the other notice expires 5 years after the start day unless it is revoked before the end of that period.
- (2) Where an undertaking is entered into after section 17 of the *Customs Legislation (Tariff Concessions and Anti-Dumping) Amendment Act 1992* commences under a relevant undertaking provision in respect of goods of a particular kind, that undertaking expires 5 years after the day on which it was entered into unless provision is made for its earlier expiration.
 - (3) If:
 - (a) a notice was or is published before section 17 of the *Customs Legislation (Tariff Concessions and Anti-Dumping) Amendment Act 1992* commences; and
 - (b) the notice is in force immediately before the commencement of that section;
- the notice expires 5 years after the day on which it was published unless it is sooner revoked.

Section 269TN

- (3A) If:
- (a) an undertaking was or is entered into before section 17 of the *Customs Legislation (Tariff Concessions and Anti-Dumping) Amendment Act 1992* commences; and
 - (b) the undertaking is in force immediately before that section commences;
- the Minister must, by notice in writing, give the person who gave the undertaking the opportunity, before the undertaking expires, to extend the undertaking so that it expires 5 years after the day on which it was entered into unless provision is made for its earlier expiration.
- (3B) If a person who gave an undertaking of the kind referred to in subsection (3A) refuses or fails to extend its operation in the manner referred to in subsection (3A) before the undertaking expires, the Minister may, in substitution for the extension of the undertaking, publish a dumping duty notice or a countervailing duty notice that commences on the day after the undertaking expired and ends 2 years after that day unless it is sooner revoked.

(7) In this section:

relevant notification provision means subsection 269TG(2), 269TH(2), 269TJ(2), (4), (5) or (6) or 269TK(2).

relevant undertaking provision means subsection 269TG(4) or 269TJ(3).

269TN Retrospective notices

- (1) Subject to this section, the Minister must not cause a notice to be published under subsection 269TG(1), 269TH(1), 269TJ(1) or 269TK(1) in respect of goods that have been entered for home consumption.
- (2) Subsection (1) does not prevent the publication of a notice under subsection 269TG(1), 269TH(1), 269TJ(1) or 269TK(1) in respect of goods that have been entered for home consumption in relation to which security has been taken under section 42 in respect of any

interim duty that might become payable under section 8, 9, 10 or 11 of the Dumping Duty Act, as the case may be (not being security that has been cancelled), by reason of the publication of such a notice or in relation to which the Commonwealth had the right to require and take such security (not being security that would have been cancelled under this Act if it had been taken).

Dumping duties

- (3) Subsection (1) does not prevent the publication of a notice under subsection 269TG(1) in respect of goods that have been entered for home consumption to which, by virtue of subsection (4) of this section, this subsection applies, if:
- (a) within 90 days after the entry of the goods for home consumption, security has been taken under section 42 in respect of any interim duty that might be payable on goods of the same kind under section 8 of the Dumping Duty Act or, within that period, the Commonwealth had the right to require and take such security; and
 - (b) the Minister considers that material injury has been caused to an Australian industry by the export to Australia during a short period of large quantities of goods of the same kind, being injury arising by reason of the amount of the export price of the goods exported being less than the amount of the normal value of the goods exported, and the Minister considers that the publication of the notice is necessary to prevent the serious undermining of the remedial effect of the dumping duty that will become payable upon publication of the notice.
- (4) Subsection (3) applies to goods:
- (a) that have been imported into Australia by an importer who the Minister considers knew, or ought to have known, that the amount of the export price of the goods was less than the normal value of the goods and that by reason thereof material injury would be caused to an Australian industry; or
 - (b) that are goods of a kind the exportation of which to Australia on a number of occasions has caused, or, but for the

Section 269TN

publication of a notice under section 269TG in respect of goods of that kind, would have caused, material injury to an Australian industry by reason of the amount of the export price of the goods exported being less than the normal value of the goods exported.

(4A) Before the Minister decides to publish a dumping duty notice under subsection 269TG(1) in circumstances referred to in subsection (3) of this section, in respect of goods that have already been entered for home consumption, the Minister must:

- (a) inform the importer of the goods of the decision he or she proposes to make; and
- (b) allow a reasonable opportunity for the importer of the goods to comment on the proposed decision; and
- (c) give consideration to the comment provided by the importer.

(4B) If:

- (a) the Minister is satisfied that an act or omission of an exporter who has given an undertaking under subsection 269TG(4) is a violation of that undertaking; and
- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 8 of the Dumping Duty Act on goods of the kind to which the undertaking relates or the Commonwealth had the right to require and take such security;

subsection (1) of this section does not prevent the publication of a notice under subsection 269TG(1) in respect of goods that:

- (c) have been exported by the exporter; and
- (d) are of the kind to which the undertaking relates; and
- (e) have been entered for home consumption on a day that:
 - (i) was not earlier than the day on which that act or omission occurred; and
 - (ii) was not more than 90 days before the day on which that security was taken or there was a right to require and take such security.

- (4C) Despite subsections (3) to (4B), the Minister must not publish a notice under subsection 269TG(1) in respect of goods that have been entered for home consumption before the date of initiation of the investigation concerned.

Countervailing duties

- (5) Subsection (1) does not prevent the publication of a notice under subsection 269TJ(1) in respect of goods that have been entered for home consumption if:
- (a) within 90 days after the entry of the goods for home consumption, security has been taken under section 42 in respect of any interim duty that might be payable on goods of the same kind under section 10 of the Dumping Duty Act or, within that period, the Commonwealth had the right to require and take such security; and
 - (b) the Minister considers that material injury, which is difficult to repair, has been caused to an Australian industry by the export to Australia during a short period of large quantities of goods of the same kind because a countervailable subsidy has been received from the country of export or country of origin of those goods, and the Minister considers that the publication of the notice is necessary to prevent the recurrence of the injury.
- (6) Before the Minister decides to publish a countervailing duty notice under subsection 269TJ(1) in circumstances referred to in subsection (5) of this section, in respect of goods that have already been entered for home consumption, the Minister must:
- (a) inform the importer of the goods of the decision he or she proposes to make; and
 - (b) allow a reasonable opportunity for the importer of the goods to comment on the proposed decision; and
 - (c) give consideration to the comments provided by the importer.
- (7) Where:
- (a) the Minister is satisfied that an act or omission of the Government of a country that has given an undertaking in

Section 269TN

accordance with subsection 269TJ(3) is a violation of that undertaking; and

- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 10 of the Dumping Duty Act on goods of the kind to which the undertaking relates or the Commonwealth had the right to require and take such security;

subsection (1) does not prevent the publication of a notice under subsection 269TJ(1) in respect of goods that:

- (c) are the produce or manufacture of that country or have been exported from that country, as the case may be; and
- (d) are of the kind to which the undertaking relates; and
- (e) have been entered for home consumption on a day that:
 - (i) was not earlier than the day on which that act or omission occurred; and
 - (ii) was not more than 90 days before the day on which that security was taken or there was a right to require and take such security.

(8) Where:

- (a) the Minister is satisfied that an act or omission of an exporter who has given an undertaking in accordance with subsection 269TJ(3) is a violation of that undertaking; and
- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 10 of the Dumping Duty Act on goods of the kind to which the undertaking relates or the Commonwealth had the right to require and take such security;

subsection (1) does not prevent the publication of a notice under subsection 269TJ(1) in respect of goods that:

- (c) have been exported by the exporter; and
- (d) are of the kind to which the undertaking relates; and
- (e) have been entered for home consumption on a day that:

- (i) was not earlier than the day on which that act or omission occurred; and
- (ii) was not more than 90 days before the day on which that security was taken or there was a right to require and take such security.

269TP Power to specify goods

A notice under subsection 269TG(2), 269TH(2), 269TJ(2) or 269TK(2) in respect of a kind of goods, may, without limiting the generality of those provisions be expressed to apply to:

- (a) goods of that kind exported from a particular country; or
- (b) goods of that kind exported by a particular exporter.

269U Inquiries in relation to undertakings

- (1) Where the Minister is considering, in relation to goods the subject of an application under section 269TB:

- (a) whether to give a notice, in accordance with subsection 269TG(3D), to the exporter of the goods in the consignment in relation to an undertaking in relation to an Australian industry; or
- (b) whether to give a notice, in accordance with subsection 269TJ(2A), to the Government of the country of origin, or of the country of export, of the goods in the consignment or to the exporter of the goods in the consignment in relation to an undertaking in relation to an Australian industry;

the Commissioner may authorise a Commission staff member in writing to convene a meeting of representatives of the Australian industry for the purpose of obtaining information and submissions from those representatives in relation to the question what terms of undertaking should be set out in the notice, if it is to be given, as the terms that may be satisfactory to the Minister.

- (6) The Commission staff member convening a meeting in pursuance of subsection (2) may, subject to subsection (7), put before the meeting information in relation to the question being considered by the meeting.

Division 4—Dumping duty or countervailing duty assessment

269UA What this Division is about

This Division enables a reconciliation of interim duty, and final duty, payable under the Dumping Duty Act. The Division permits an importer who has paid interim duty on particular goods to apply, within specified time limits, for an assessment of duty payable on those goods. In particular, the Division provides that:

- if the duty is less than the interim duty, the excess is to be refunded;
- if the duty is more than the interim duty, the interim duty is treated as duty and the balance waived;
- if the importer fails, within the time limits available, to seek an assessment of duty, the interim duty paid on the goods is taken to be duty actually payable.

269V Importers may apply for duty assessment in certain circumstances

- (1) An importer of goods on which, under the Dumping Duty Act, an interim duty has been paid may, subject to subsection (2), by application lodged with the Commissioner, request that the Minister make an assessment of the liability of those goods to duty under that Act.
- (2) An application for an assessment of duty under subsection (1) may only be lodged if:
 - (a) the application is lodged not more than 6 months after the end of the particular importation period in which the goods

the subject of the application were entered for home consumption; and

- (b) the importer contends that the total amount of duty payable in respect of those goods under the Dumping Duty Act is less, by a specified amount, than the total amount of interim duty that has been paid on those goods under that Act.

269W Manner of making applications for duty assessment

- (1) An application for an assessment of duty on goods of a particular kind entered for home consumption during a particular importation period must be in writing and contain:
 - (a) a full description of the goods of that kind in each consignment imported during the particular importation period; and
 - (b) information concerning the amount of interim duty paid on the goods of that kind in each such consignment; and
 - (c) if an interim dumping duty has been imposed—a statement of the amounts that, in the opinion of the applicant, are the normal value and the export price of goods of that kind in each such consignment; and
 - (d) if an interim countervailing duty has been imposed—a statement of the amounts that, in the opinion of the applicant, are:
 - (i) the amount of the countervailable subsidy received on goods of that kind in each such consignment; and
 - (ii) the amount of the export price of goods of that kind in each such consignment; and
 - (e) a statement of the amount by which the applicant contends that the total interim duty paid on those goods exceeds the total duty payable under the Dumping Duty Act.
- (1A) The application must also contain either:
 - (a) sufficient evidence to establish that the applicant's opinion of the amounts described in whichever of paragraphs (1)(c) and (d) apply is correct; or

Section 269X

- (b) both of the following:
 - (i) the evidence the applicant has to establish that the applicant's opinion of the amounts described in whichever of paragraphs (1)(c) and (d) apply is correct;
 - (ii) a commitment that someone else will give the Commissioner further evidence within 30 days after lodgment or such longer period as the Commissioner allows, so that the Commissioner will then have sufficient evidence to establish that the applicant's opinion of those amounts is correct.
- (1B) If the interim duty on the goods covered by the application was calculated using the export price of the goods worked out (under paragraph 269TAB(1)(b) or otherwise) as the difference between:
 - (a) the price at which the importer of the goods sold them, in the condition in which they were imported, to someone who was not an associate of the importer; and
 - (b) the prescribed deductions (as defined in subsection 269TAB(2)) relating to the goods;the requirement in subsection (1A) of this section is met only if the evidence referred to in that subsection includes evidence of the things described in paragraphs (a) and (b) of this subsection.
- (2) An application must be lodged with the Commissioner in the manner approved under section 269SMS.
- (2A) The application is taken to have been lodged when the application is first received by a Commission staff member doing duty in relation to final duty assessment applications.
- (3) The day on which an application is taken to have been lodged must be recorded on the application.

269X Consideration of duty assessment applications

- (1) The Commissioner must, as soon as practicable after the lodgment of an application for assessment of duty in respect of goods that were entered for home consumption during a particular importation

period and within 155 days after the lodgement of that application or such longer period as the Minister allows under section 269ZHI, examine the application and decide what recommendation to make to the Minister under subsection (6).

Note: The Commissioner may be required to reject the application or be able to terminate the examination of it without deciding what recommendation to make to the Minister. See section 269YA.

- (2) If the Commissioner considers that any person (including the applicant) may be able to supply information relevant to the consideration of the application, the Commissioner may, by notice in writing, request the supply of that information, in writing:
- (a) if the information is sought from a person other than the applicant—within a period specified in the notice ending not later than 120 days after the lodgment of the application; and
 - (b) if the information is sought from the applicant—within a period specified in the notice ending not later than 155 days after the lodgment of the application.
- (3) Where the Commissioner proposes to take into account any relevant information that was not supplied to the Commissioner by the applicant, the Commissioner must:
- (a) give the applicant a copy of the information that he or she proposes to take into account unless, in the opinion of the Commissioner, the provision of that information would adversely affect the business or commercial interests of a person supplying the information; and
 - (b) invite the applicant, within a specified period ending not later than 155 days after the lodgment of the application, to make any further submission the applicant considers appropriate in relation to that information.
- (3A) However, the Commissioner must not give the applicant information that the exporter of goods covered by the application supplied to the Commissioner (whether as a result of a request under subsection (2) or otherwise) that is relevant to working out:
- (a) the normal value of the goods; or
 - (b) the countervailable subsidy relating to the goods; or

Section 269X

- (c) the export price of the goods;
unless the exporter indicates that he or she is willing for the Commissioner to give the information to the applicant under paragraph (3)(a).
- (4) If a person refuses or fails to supply information or to make a submission within the period allowed but subsequently supplies that information or makes that submission, the Commissioner may disregard that information or submission in considering the application.
- (5) On the basis of the information and evidence contained in the application, any other information provided under subsection (2) or (3) that is not disregarded under subsection (4) and any other information the Commissioner considers relevant, the Commissioner must:
 - (a) provisionally ascertain, in relation to each consignment of goods to which the application relates, each variable factor relevant to the determination of duty payable on the goods under the Dumping Duty Act; and
 - (b) having regard to those variable factors as so provisionally ascertained and, where appropriate, to the non-injurious price of goods of that kind—provisionally calculate, in respect of each such consignment, the amount of duty payable under the Dumping Duty Act.
- (5A) Subsection (5B) of this section applies if the Commissioner proposes to ascertain provisionally, for the purposes of paragraph (5)(a) of this section, the export price of goods (under paragraph 269TAB(1)(b) or otherwise) as the difference between:
 - (a) the price at which the importer of the goods sold them, in the condition in which they were imported, to someone who was not an associate of the importer; and
 - (b) the prescribed deductions (as defined in subsection 269TAB(2)) relating to the goods.

- (5B) In provisionally ascertaining the export price of goods as described in subsection (5A), the Commissioner must:
- (a) take account of the following in relation to the goods:
 - (i) any change in normal value;
 - (ii) any change in costs incurred between importation and resale;
 - (iii) any movement in resale price which is duly reflected in subsequent selling prices; and
 - (b) despite paragraph 269TAB(1)(b), not deduct the amount of interim duty if the Commissioner has conclusive evidence of the things mentioned in subparagraphs (a)(i), (ii) and (iii) of this subsection.

An expression used in this subsection and subparagraph 3.3 of Article 9 of the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994 set out in Annex 1A to the World Trade Organization Agreement has the same meaning in this subsection as it has in that subparagraph.

- (6) On the basis of the provisional calculation of duty referred to in paragraph (5)(b), the Commissioner must decide:
- (a) if satisfied that the total interim duty paid on the goods the subject of the application exceeds the total duty payable under the Dumping Duty Act by at least the amount contended in the application—to recommend to the Minister:
 - (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; and
 - (ii) that the Minister order a repayment of the amount of interim duty overpaid; or
 - (b) if satisfied that the total interim duty paid on the goods the subject of the application exceeds the total duty payable under the Dumping Duty Act but not to the extent contended in the application—to recommend to the Minister:
 - (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; and

Section 269X

- (ii) that the Minister order a repayment of the amount of interim duty overpaid; or
 - (c) if satisfied that the total amount of duty payable under the Dumping Duty Act on the goods the subject of the application is equal to or exceeds the total of interim duty that was paid on the goods—to recommend to the Minister:
 - (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; but
 - (ii) that the Minister order that any duty in excess of the interim duty paid on those goods be waived.
- (7) As soon as practicable, but not later than 7 days after making a decision under subsection (6), the Commissioner must:
 - (a) notify the applicant, in writing, of the decision made; and
 - (b) if the decision is a negative preliminary decision:
 - (i) inform the applicant of the reasons why the Commissioner made the decision; and
 - (ii) inform the applicant of the applicant's right, within 30 days of the receipt of the notification, to apply for a review of the Commissioner's decision by the Review Panel under Division 9.
- (8) The Commissioner must:
 - (a) if he or she has made a positive preliminary decision—recommend to the Minister, not later than 7 days after making the decision, that the Minister give effect to that decision; and
 - (b) if he or she has made a negative preliminary decision and the applicant has not exercised the right to seek a review of the decision by the Review Panel—recommend to the Minister, not later than 7 days after the end of the period available for seeking review of the decision, that the Minister give effect to that decision.

269Y Duty assessments

- (1) As soon as practicable, but no later than 30 days, after receiving a recommendation from the Commissioner or from the Review Panel under subsection 269ZZU(2) in relation to goods the subject of an application, the Minister must, having regard to the terms of that recommendation, by notice in writing:
 - (a) ascertain, for the purposes of this Act and the Dumping Duty Act, the variable factors relevant to the determination of duty payable under the Dumping Duty Act in respect of each consignment; and
 - (b) order that the total interim duty overpaid in respect of all consignments to which the application relates be repaid or that the total unpaid duty in excess of the interim duty already paid be waived, as the case requires.
- (2) As soon as practicable after issuing a notice under subsection (1) the Minister must ensure that a copy of that notice is provided to the applicant.
- (3) If the Minister issues a notice under subsection (1) ordering that an amount of interim duty be repaid to an applicant the Commonwealth is liable to make a repayment to the applicant accordingly.
- (4) If:
 - (a) one or more consignments of goods of a particular kind that are the subject of a dumping duty notice or a countervailing duty notice are entered for home consumption during an importation period; and
 - (b) interim duty is paid on those goods under the Dumping Duty Act; and
 - (c) application is not lodged under section 269V of this Act for an assessment of duty payable on those goods under the Dumping Duty Act;then:
 - (d) the Minister is taken, for the purposes of this Act and the Dumping Duty Act, to have ascertained each variable factor

Section 269YA

- relevant to the determination of duty on each such consignment at the level at which that factor was ascertained or last ascertained by the Minister for the purpose of the dumping duty notice or countervailing duty notice; and
- (e) the interim duty paid on those goods is taken to be the duty payable.

269YA Rejection etc. of application for duty assessment

- (1) This section has effect despite sections 269X and 269Y if an application under section 269V is lodged with the Commissioner under section 269W.
- (2) The Commissioner must reject the application if the Commissioner is satisfied within 20 days after it is lodged that it does not contain everything it must contain under subsections 269W(1) and (1A).
- (3) The Commissioner must reject the application if:
- (a) the application contains a commitment described in paragraph 269W(1A)(b); and
 - (b) within 20 days after the time described in that paragraph, the Commissioner is satisfied that he or she has not received from the applicant and one or more other persons sufficient evidence to establish that the applicant's opinion of the amounts described in whichever of paragraphs 269W(1)(c) and (d) apply is correct.
- (4) The Commissioner may terminate examination of the application if he or she is satisfied after the last of the 20 days mentioned in subsection (2) or (3) of this section that he or she does not have enough information to be able to comply with paragraph 269X(5)(a).
- (5) If the Commissioner rejects the application or terminates examination of it:
- (a) the Commissioner must notify the applicant in writing of the following:
 - (i) the rejection or termination;

- (ii) the reasons for the rejection or termination;
 - (iii) the applicant's right, within 30 days of the receipt of the notification, to apply for a review by the Review Panel under Division 9 of the rejection or termination; and
- (b) the Commissioner must not:
- (i) provisionally ascertain a variable factor or provisionally calculate an amount under subsection 269X(5) in connection with the application; or
 - (ii) decide what recommendation to make to the Minister under subsection 269X(6) in connection with the application; and
- (c) subsection 269Y(4) has effect as if the application had not been lodged under section 269V.

Division 5—Review of anti-dumping measures

269Z What this Division is about

This Division enables affected parties (exporters, industry etc.) to apply for the review of anti-dumping measures. The Division also empowers the Minister to initiate such a review. The Division:

- sets out the circumstances in which applications can be brought;
- empowers the Commissioner to recommend, through a Minister's request, an extension of the ambit of a review where appropriate;
- sets out the procedure to be followed by the Commissioner in dealing with applications or requests and preparing reports for the Minister;
- empowers the Minister, after consideration of such reports, to leave the anti-dumping measures unaltered or to modify them as appropriate;
- empowers the Minister, if interim duty has been paid under the Dumping Duty Act, to make any necessary adjustment of that interim duty.

269ZA Applications and requests for review of anti-dumping measures

(1) If:

- (a) anti-dumping measures have been taken in respect of goods;
and

- (b) an affected party considers that it may be appropriate to review those measures as they affect a particular exporter of those goods, or as they affect exporters of those goods generally, because:
- (i) one or more of the variable factors relevant to the taking of the measures in relation to that exporter or those exporters have changed; or
 - (ii) the anti-dumping measures are no longer warranted;
- the affected party may, by application lodged with the Commissioner, request that the Commissioner initiate such a review.
- (2) An application for review of anti-dumping measures must not be made:
- (a) if the measures involve the publication of a dumping duty notice or a countervailing duty notice—earlier than 12 months after:
 - (i) the publication of the notice; or
 - (ii) the publication of a notice declaring the outcome of the last review of the notice (whether that last review was undertaken at the applicant’s request or not); and
 - (b) if the measures involve the acceptance of an undertaking—earlier than 12 months after:
 - (i) the publication of notice of the acceptance of that undertaking; or
 - (ii) the publication of a notice declaring the outcome of the last review of the undertaking (whether that last review was undertaken at the applicant’s request or not).

Example: If an application under section 269TB resulted in:

- (a) the publication of the acceptance of an undertaking from exporter A on 1 January 1999; and
- (b) the publication of a dumping duty notice covering exporters B and C on 1 March 1999;

an affected party could seek review of the undertaking on 2 January 2000 but could not seek review of both the undertaking and the dumping duty notices until 2 March 2000.

Section 269ZA

However, the Minister could decide to review the notices before 2 March 2000 either on his or her own initiative or on the recommendation of the Commissioner. See subsection (3).

- (3) If:
- (a) anti-dumping measures have been taken in respect of goods; and
 - (b) the Minister considers (either as a result of a recommendation from the Commissioner under subsection 269ZC(4) or on his or her own initiative) that it may be appropriate to review those measures as they affect a particular exporter of those goods, or as they affect exporters of those goods generally, because:
 - (i) one or more of the variable factors relevant to the taking of the measures in relation to that exporter or those exporters may have changed; or
 - (ii) the anti-dumping measures are no longer warranted;
- the Minister may, at any time, by notice in writing, request that the Commissioner initiate a review under this Division.
- (4) If, as a result of a person's application under Division 6 for accelerated review of a dumping duty notice or a countervailing duty notice, the Minister has made a declaration under subsection 269ZG(3):
- (a) that person may not make an application, under subsection (1) of this section, for a review of that notice earlier than 12 months after the making of that declaration; but
 - (b) for the purpose of determining whether subsection (2) permits any other person to apply for a review of the notice, the making of that declaration is not to be treated as a review of the notice.
- (5) If:
- (a) a person applies, under Division 9, for a review of the Minister's decision to publish a dumping duty notice or a countervailing duty notice or not to publish such a notice; and

- (b) as a result of that review:
- (i) a dumping duty notice or a countervailing duty notice is published by the Minister despite an earlier decision not to publish such a notice; or
 - (ii) a dumping duty notice or countervailing duty notice originally published by the Minister is varied; or
 - (iii) another dumping duty notice or countervailing duty notice is substituted for the notice originally published by the Minister;

then, for the purpose only of determining whether subsection (2) permits a review of the new notice, the notice as varied or the substituted notice, that new notice, notice as varied or substituted notice has effect as if it had been published at the time of the Minister's decision not to publish a notice, or at the time of publication of the original notice, as the case requires.

269ZB Content and lodgment of applications for review of anti-dumping measures

- (2) Subject to subsection (3), in formulating the statement of essential facts, the Commissioner:
 - (a) must have regard to:
 - (i) the application or request; and
 - (ii) any submissions relating generally to the review that are received by the Commissioner within 37 days after the publication of the notice under subsection 269ZC(4), (5) or (6); and
 - (iii) any other submission received by the Commissioner relating generally to the review if, in the Commissioner's opinion, having regard to the submission would not prevent the timely placement of the statement of essential facts on the public record; and
 - (b) may have regard to any other matters that the Commissioner considers relevant.
- (3) The Commissioner is not obliged to have regard to any submissions relating generally to the review that are received by the Commissioner after the end of the period referred to in subparagraph (2)(a)(ii) if to do so would, in the Commissioner's opinion, prevent the timely placement of the statement of essential facts on the public record.

269ZDA Report on review of measures

- (1) The Commissioner must, after conducting a review of anti-dumping measures and within 155 days after the date of publication of the notice under subsection 269ZC(4), (5) or (6) in relation to those measures or such longer period as the Minister allows under section 269ZHI, give the Minister a report recommending:

 - (i) that the notice remain unaltered; or

- (i) that the undertaking remain unaltered; or
 - (ii) that the Minister seek a variation of the terms of the undertaking as indicated in the Commissioner's report; or
 - (iii) that the Minister indicate to the person who gave the undertaking that the undertaking is no longer acceptable and that the investigation of the need for a dumping duty notice or a countervailing duty notice, as the case requires, covering that person is to be resumed; or
 - (iv) that the Minister indicate to the person who gave the undertaking that the person is released from the undertaking and that the investigation of the need for a dumping duty notice or countervailing duty notice covering that person is terminated.
- (1A) After conducting a review of anti-dumping measures under this Division, the Commissioner:
- (a) must not make a revocation recommendation in relation to the measures unless a revocation review notice has been published in relation to the review; and
 - (b) otherwise must make a revocation recommendation in relation to the measures, unless the Commissioner is satisfied as a result of the review that revoking the measures would lead, or be likely to lead, to a continuation of, or a recurrence of, the dumping or subsidisation and the material injury that the measures are intended to prevent.
- (2) Nothing in this section is to be taken to imply that the Commissioner cannot simultaneously make the same

Section 269ZDA

recommendation in relation to more than one exporter or person giving an undertaking.

- (5) The report to the Minister must include a statement of the Commissioner's reasons for any recommendation contained in the report that:
- (a) sets out the material findings of fact on which that recommendation is based; and
 - (b) provides particulars of the evidence relied on to support those findings.

Division 5A—Anti-circumvention inquiries

269ZDBA What this Division is about

If a notice has been published under subsection 269TG(2) or 269TJ(2) in respect of goods, this Division allows a person representing, or representing a portion of, the Australian industry producing like goods to apply for the conduct of an anti-circumvention inquiry in relation to the notice. This Division also allows the Minister to request such an inquiry. It:

- sets out when applications may be made; and
- sets out the procedure to be followed by the Commissioner in dealing with applications or requests and preparing reports for the Minister; and
- empowers the Minister, after consideration of such reports, to leave the notice unaltered or to alter the notice as appropriate.

 - (b) those parts are manufactured in a foreign country in respect of which the notice applies;

 - (e) section 8 or 10 of the Dumping Duty Act, as the case requires, does not apply to the export of the circumvention goods to Australia.

Assembly of parts in third country

- (3) **Circumvention activity**, in relation to the notice, occurs if the following apply:
 - (a) goods in the form of individual parts are manufactured in a foreign country (the **original country**) in respect of which the notice applies;
 - (b) those parts are assembled in a foreign country in respect of which the notice does not apply, whether or not with other parts, to create goods (the **circumvention goods**) that would be the subject of the notice if they were exported to Australia by an exporter in respect of which the notice applies;
 - (c) the circumvention goods are exported to Australia;
 - (d) the total value of the parts manufactured in the original country is a significant proportion of the customs value (within the meaning of section 159) of the circumvention goods;
 - (e) section 8 or 10 of the Dumping Duty Act, as the case requires, does not apply to the export of the circumvention goods to Australia.

Export of goods through one or more third countries

 - (e) either:
 - (i) section 8 or 10 of the Dumping Duty Act, as the case requires, does not apply to the export of the circumvention goods to Australia; or
 - (ii) section 8 or 10 of the Dumping Duty Act, as the case requires, applies to the export of the circumvention goods to Australia, but the interim duty payable in relation to that export is less than the interim duty that would have been payable if the other exporter had exported the goods to Australia.

- (3) A notice informing an applicant of the rejection of an application must set out the reasons why the Commissioner was not satisfied of one or more of the matters set out in subsection (2).
