Guide to Division 57

57-1 What this Division is about

This Division is about the income tax treatment of a taxpayer whose income ceases to be wholly exempt. Broadly, income, outgoings, gains and losses are attributed to the periods before and after the loss of full exemption.

Subdivision 57-A—Key concepts

57-5 Entities to which this Division applies

If:

- (a) at a particular time, all of the income of a taxpayer is wholly exempt from income tax; and
- (b) immediately after that time, the taxpayer's income becomes to any extent assessable income;

then:

- (c) the taxpayer is a *transition taxpayer*; and
- (d) the time when the taxpayer's income becomes to that extent assessable is the *transition time*; and
- (e) the year of income in which the transition time occurs is the *transition year* for the taxpayer.

Subdivision 57-B—Predecessors of the transition taxpayer

57-10 Activities of transition taxpayer's predecessor attributed to transition taxpayer

(1) If:

- (a) at the transition time, the transition taxpayer performs particular functions or carries on particular activities; and
- (b) during any period before the transition taxpayer first began to perform the functions or carry on the activities, an exempt government entity performed those same functions or carried on those same activities; and
- (c) at the end of the period, responsibility for performing the functions or carrying on the activities was transferred, either directly or through one or more other exempt government entities, to the transition taxpayer;

this Division applies as if, during that period, anything done by or to the exempt government entity in performing those functions or carrying on those activities had instead been done by or to the transition taxpayer.

Note: As a result of this provision, the transition taxpayer may for example be able to deduct after the transition time, under Division 40 of the *Income Tax Assessment Act 1997* as modified by Subdivision 57-J of this Schedule, a portion of allowable capital expenditure incurred before the transition time by an exempt government entity whose functions were transferred to the transition taxpayer.

- (2) An **exempt government entity** is:
- (a) the Commonwealth, a State or a Territory; or
 - (b) an STB, within the meaning of Division 1AB of Part III, that is exempt from tax under that Division.

Subdivision 57-C—Time when income derived

57-15 Time when income derived

- (1) To the extent that income derived by the transition taxpayer before the transition time is in respect of:
- (a) services rendered; or
 - (b) goods provided; or
 - (c) the doing of any other thing;
- at or after the transition time, the income is treated for the purposes of this Act as having been derived at the time the services were rendered, the goods were provided or the thing was done, as the case requires.
- (2) To the extent that income derived by the transition taxpayer at or after the transition time is in respect of:
- (a) services rendered; or
 - (b) goods provided; or
 - (c) the doing of any other thing;
- before the transition time, the income is treated for the purposes of this Act as having been derived before that time.

Subdivision 57-D—Time when losses and outgoings incurred

57-20 Time when losses and outgoings incurred

- (1) To the extent that a loss or outgoing (within the meaning of section 51 of this Act or section 8-1 of the *Income Tax Assessment Act 1997*, as appropriate) incurred by the transition taxpayer before the transition time is in respect of:
 - (a) services rendered; or
 - (b) goods provided; or
 - (c) the doing of any other thing;at or after the transition time, the loss or outgoing is treated for the purposes of this Act as having been incurred at the time the services were rendered, the goods were provided or the thing was done, as the case requires.
- (2) To the extent that a loss or outgoing (within the meaning of section 51 of this Act or section 8-1 of the *Income Tax Assessment Act 1997*, as appropriate) incurred by the transition taxpayer at or after the transition time is in respect of:
 - (a) services rendered; or
 - (b) goods provided; or
 - (c) the doing of any other thing;before the transition time, the loss or outgoing is treated for the purposes of this Act as having been incurred before that time.

Subdivision 57-E—Assets and liabilities

57-25 Deemed disposal and re-acquisition of assets

- (1) This section applies to:
 - (a) the disposal of an asset by the transition taxpayer after the transition time; and
 - (b) a CGT event that happens after the transition time in relation to an asset owned by the transition taxpayer;where the transition taxpayer owned the asset at all times from the transition time until the disposal or the CGT event.

Deemed disposal and re-purchase

- (2) Subject to subsection (5), in determining for the purposes of this Act (other than the excluded provisions mentioned in subsection (4)) whether an amount is included in, or allowable as a deduction from, the assessable income of the transition taxpayer in respect of the disposal, the transition taxpayer is taken:
- (a) to have sold, immediately before the transition time, each of its assets; and
 - (b) to have purchased each of its assets again at the transition time for consideration equal to the asset's adjusted market value at the transition time.
- (2A) For the purposes of Parts 3-1 and 3-3 of the *Income Tax Assessment Act 1997* (about CGT), in determining whether the transition taxpayer makes a capital gain or capital loss from a CGT event that happens after the transition time in relation to an asset referred to in subsection (1), the cost base and reduced cost base of the asset (at the transition time) is its adjusted market value at that time.
- (3) An asset's **adjusted market value** at the transition time is the asset's market value at that time:
- (a) reduced by any amount of income received or receivable by the transition taxpayer in respect of the asset at or after the transition time that:
 - (i) because of subsection 57-15(2); or
 - (ii) because all of the income of the transition taxpayer was wholly exempt from income tax before the transition time;is not included in the transition taxpayer's assessable income; and
 - (b) increased by any amount of income received or receivable by the transition taxpayer in respect of the asset before the transition time that:
 - (i) because of subsection 57-15(1); or

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-25

- (ii) because the transition taxpayer's income ceased to be exempt from income tax at the transition time; is included in the transition taxpayer's assessable income.

Note: If the asset is, or is part of, a Division 230 financial arrangement, section 57-32 may affect how the market value of the asset is worked out.

Excluded provisions

- (4) For the purposes of subsection (2), the ***excluded provisions*** are:
- (e) former Division 10B of Part III of this Act (about industrial property); and
 - (f) former Division 10BA of Part III of this Act (about Australian films); and
 - (ga) Division 40 of the *Income Tax Assessment Act 1997* (about capital allowances); and
 - (i) Division 43 of the *Income Tax Assessment Act 1997* (about deductions for capital works); and
 - (j) section 70-120 of the *Income Tax Assessment Act 1997* (about deducting capital costs of acquiring trees);
 - (la) Division 373 of the *Income Tax Assessment Act 1997* (about intellectual property).

Listed provisions not affected

- (5) If the transition taxpayer:
- (a) acquired an asset (whether before the transition time or otherwise) before the commencement of a provision listed in subsection (6); and
 - (b) after acquiring the asset, owned the asset at all times before the transition time;
- the deemed acquisition of the asset under subsection (2) does not affect the operation of the listed provision.

Listed provisions

- (6) The provisions are listed in the table below. Provisions of the *Income Tax Assessment Act 1997* are identified in normal text. The
-

other provisions, **in bold**, are provisions of the *Income Tax Assessment Act 1936*.

Note: For **applicable commencement date**, see section 775-155 of the *Income Tax Assessment Act 1997*.

- (6B) The rule in subsection (5) does not apply, and is taken never to have applied, to the transition taxpayer in relation to a provision covered by item 7 or 8 of the table in subsection (6) if the taxpayer makes an election under section 775-150 of the *Income Tax Assessment Act 1997*.

the whole or part of a debt to which that subsection applies will not exceed the market value of the debt at the transition time.

Avoidance of doubt—disposal need not involve an alienation

- (8) To avoid doubt, an asset may be **disposed of** for the purposes of this section whether or not the disposal involves alienating the asset.

57-30 Deemed cessation and re-assumption of liabilities

- (1) Subject to subsection (3), for the purposes of determining a deduction allowable to, or an amount included in the assessable income of, the transition taxpayer after the transition time in respect of the satisfaction of a liability owed by the transition taxpayer immediately before the transition time, the transition taxpayer is taken:
- (a) to have ceased immediately before the transition time to have any liabilities; and
 - (b) to have assumed each of its liabilities again at the transition time in return for consideration equal to the adjusted market value (see subsection (2)) at that time of the right or other asset, corresponding to the liability, that was held by the person to whom the liability was owed.
- (2) The **adjusted market value** of the corresponding right or other asset is the market value of that right or asset at the transition time:
- (a) reduced by any amount paid or that becomes payable by the transition taxpayer in respect of the liability at or after the transition time, where:
 - (i) because of subsection 57-20(2); or
 - (ii) because all of the transition taxpayer's income was wholly exempt from income tax before the transition time;the amount is not an allowable deduction; and
 - (b) increased by any amount paid or that became payable by the transition taxpayer in respect of the liability before the transition time, where:

- (i) because of subsection 57-20(1); or
 - (ii) because the transition taxpayer's income ceased to be exempt from income tax at the transition time;
- the amount is an allowable deduction.

Note: If the liability is, or is part of, a Division 230 financial arrangement, section 57-32 may affect how the market value of the corresponding right or other asset is worked out.

- (3) A provision listed in subsection (4) only applies to a liability of the transition taxpayer at the transition time if the liability first came into existence after the day on which Division 3B of Part III commenced.
- (4) The provisions are listed in the table below. Provisions of the *Income Tax Assessment Act 1997* are identified in normal text. The other provisions, **in bold**, are provisions of the *Income Tax Assessment Act 1936*.

57-32 Division 230 financial arrangements—market value of assets and rights

- (1) This section applies in relation to an asset (the **subject asset**) held by an entity (the **holder**) if:
- (a) the subject asset is:
 - (i) covered by subsection 57-25(1); or
 - (ii) a right, or other asset, corresponding to a liability covered by subsection 57-30(1); and
 - (b) the subject asset, or the corresponding liability for the subject asset, is or is part of a Division 230 financial arrangement at the transition time; and
 - (c) when the arrangement was entered into:
 - (i) the parties to the arrangement were not dealing at arm's length (within the meaning of the *Income Tax Assessment Act 1997*) in relation to the subject asset; or
 - (ii) if the subject asset gives rise to an interest that is not an equity interest in an entity—the return on the interest would reasonably be expected to be less than the benchmark rate of return (within the meaning of that Act) for the interest.
- (2) For the purposes mentioned in subsection (3), assume at the transition time that the market value of the subject asset is the total

amount (the **initial amount**) of the financial benefits (within the meaning of the *Income Tax Assessment Act 1997*) that the holder provided in relation to the subject asset before the transition time:

- (a) reduced by:
 - (i) repayments of principal made in relation to the subject asset before the transition time; and
 - (ii) the amount of any impairment (within the meaning of the accounting principles (within the meaning of that Act)) of the subject asset at the transition time; and
- (b) increased by the amount of the cumulative amortisation (worked out using the effective interest method recognised by the accounting principles (within the meaning of that Act)) of any difference at the transition time between:
 - (i) the initial amount; and
 - (ii) the amount payable on the maturity of the subject asset.
- (3) Subsection (2) has effect for the purposes of working out the subject asset's adjusted market value under section 57-25 or 57-30 for use when applying Division 230 of the *Income Tax Assessment Act 1997* to the subject asset or the corresponding liability for the subject asset.

57-33 Division 230 financial arrangements—transition taxpayer's right to receive or obligation to provide payment

- (1) This section applies in relation to the following:
 - (a) an asset covered by subsection 57-25(1) to which section 57-32 applies;
 - (b) the corresponding liability for a right, or other asset, covered by subsection 57-30(1) to which section 57-32 applies.

Note: Section 57-32 applies if the asset or liability is or is part of a Division 230 financial arrangement.

- (2) For the purposes of section 230-60 of the *Income Tax Assessment Act 1997*, assume the following:
 - (a) in the case of an asset—that the transition taxpayer acquired the asset at the transition time in return for the transition

taxpayer starting to have an obligation to provide one or more financial benefits in relation to the Division 230 financial arrangement;

- (b) in the case of a liability—that the transition taxpayer started to have the liability at the transition time in return for the transition taxpayer starting to have a right to receive one or more financial benefits under the Division 230 financial arrangement.

57-35 Interpretation

In this Subdivision:

asset means property, or a right, of any kind, and includes:

- (a) any legal or equitable estate or interest (whether present or future, vested or contingent, tangible or intangible, in real or personal property) of any kind; and
- (b) any chose in action; and
- (c) any right, interest or claim of any kind including rights, interests or claims in or in relation to property (whether arising under an instrument or otherwise, and whether liquidated or unliquidated, certain or contingent, accrued or accruing); and
- (e) a CGT asset;

but does not include trading stock.

liability includes a duty or obligation of any kind (whether arising under an instrument or otherwise, and whether actual, contingent or prospective).

Subdivision 57-F—Superannuation deductions

57-40 Contributions under defined benefit superannuation schemes

- (1) This section applies to a deduction allowable apart from this Subdivision to the transition taxpayer under section 290-60 of the *Income Tax Assessment Act 1997* for a contribution made to a fund in relation to a person if:

- (a) the person was an employee of the transition taxpayer at any time before or after the transition time; and
- (b) the contribution was made under a defined benefit superannuation scheme (within the meaning of section 6A of the *Superannuation Guarantee (Administration) Act 1992*).

Deduction allowable only if sum of all deductions exceeds defined benefit threshold amount

- (2) The deduction is not allowable for a year of income if the sum of all deductions of the transition taxpayer to which this section applies for the year of income is less than or equal to the defined benefit threshold amount (see subsection (4)) for the year of income.

Amount of deduction not allowable

- (3) If the sum is greater than that amount, so much of the deduction as is worked out using the following formula is not allowable:

$$\frac{\text{Amount of deduction}}{\text{Sum of all deductions of the transition taxpayer to which this section applies for the year of income}} \times \text{Defined benefit threshold amount for the year of income}$$

Meaning of defined benefit threshold amount

- (4) The **defined benefit threshold amount** for a year of income is:
 - (a) if the year of income is the transition year—the unfunded liability amount (see subsection (5)); or
 - (b) in any other case—that amount as reduced by the total amount of deductions to which this section applies, that, because of subsection (2) or (3), have not (disregarding section 57-55) been allowable to the transition taxpayer for all previous years of income.

Meaning of unfunded liability amount

- (5) The **unfunded liability amount** is the value, worked out as at the transition time in accordance with actuarial principles, of the liabilities of the transition taxpayer to provide superannuation benefits for, or for dependants of, employees of the transition taxpayer, where the liabilities:
- (a) had accrued as at the transition time; and
 - (b) were, according to actuarial principles, unfunded at that time; and
 - (c) were liabilities only under defined benefit superannuation schemes.

57-45 Deduction for surplus to meet defined benefit superannuation scheme liabilities

If:

- (a) at the transition time, according to a particular defined benefit superannuation scheme's accounts, an amount is available to meet liabilities of the transition taxpayer under the scheme to provide superannuation benefits for, or for dependants of, employees of the transition taxpayer; and
 - (b) the amount exceeds the total value (as worked out according to actuarial principles) of the liabilities of that kind that have accrued as at the transition time; and
 - (c) before the transition time, the transition taxpayer makes a written election that the excess is to be used solely to meet liabilities of that kind accruing after the transition time, and the excess is later used solely to meet such liabilities;
- the excess is an allowable deduction of the transition taxpayer for the transition year.

57-50 Contributions generally

- (1) This section applies to a deduction allowable apart from this Subdivision to the transition taxpayer under section 290-60 of the *Income Tax Assessment Act 1997* for a contribution made to a fund

in relation to a person if the person was an employee of the transition taxpayer at any time before or after the transition time.

Deduction allowable only if sum of all deductions exceeds general superannuation threshold amount

- (2) The deduction is not allowable for a year of income if the sum of all deductions of the transition taxpayer to which this section applies for the year of income is less than or equal to the general superannuation threshold amount (see subsection (4)) for the year of income.

Amount of deduction not allowable

- (3) If the sum is greater than the general superannuation threshold amount, so much of the deduction as is worked out using the following formula is not allowable:

$$\frac{\text{Amount of deduction}}{\text{Sum of all deductions of the transition taxpayer to which this section applies for the year of income}} \times \text{General superannuation threshold amount}$$

Meaning of general superannuation threshold amount

- (4) The **general superannuation threshold amount** for a year of income is:
- if the year of income is the transition year—the undischarged superannuation liability amount (see subsection (5)); or
 - in any other case—the amount applicable under paragraph (a), reduced by the total amount of deductions to which this section applies that, because of subsection (2) or (3), have not (disregarding section 57-55) been allowable to the transition taxpayer for all previous years of income.

Meaning of undischarged superannuation liability amount

- (5) This is how to work out the transition taxpayer's **undischarged superannuation liability amount**:

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-50

- Step 1. For each person who was an employee of the transition taxpayer at any time before the transition time, take the sum of:
- (a) if the whole or any part of the person's period of employment with the transition taxpayer took place before the beginning of the superannuation guarantee period (see subsection (6)) and there were one or more required award etc. contribution amounts (see subsection (7)) in respect of any of that whole or part—that amount or those amounts; and
 - (b) if, for the whole or any part or parts of the superannuation guarantee period, there were one or more required award etc. contribution amounts that were greater than the required superannuation guarantee contribution amount or amounts (see subsection (8))—that greater amount or those greater amounts; and
 - (c) if, for the whole or any part or parts of the superannuation guarantee period, either there was no required award etc. contribution amount or there was such an amount but it was not greater than the required superannuation guarantee contribution amount—the required superannuation guarantee contribution amount for the whole or the part of the period, or the sum of the required superannuation guarantee contribution amounts for the parts of the period, as the case may be.
- Step 2. Reduce the sum from Step 1 by the sum of amounts that the transition taxpayer actually contributed before the start of the transition year:

- (a) in payment of required award etc. contribution amounts or required superannuation guarantee contribution amounts for the employee that are included in the sum in Step 1; or
 - (b) voluntarily to a superannuation fund for the purpose of providing superannuation benefits for the employee, or dependants of the employee;
- in respect of any period of employment of the employee with the transition taxpayer before the transition time.
- Step 3. If the result after applying Step 2 for a particular employee is less than nil, it is nil instead.
- Step 4. Add up the results for all of the employees. This final sum is the transition taxpayer's ***undischarged superannuation liability amount***.

Meaning of superannuation guarantee period

- (6) The ***superannuation guarantee period*** is the period beginning on 1 July 1992 and ending at the transition time.

Meaning of required award etc. contribution amount

- (7) A ***required award etc. contribution amount*** is an amount required to be contributed to a superannuation fund by an employer for the benefit of an employee:
- (a) by an industrial award; or
 - (b) by an occupational superannuation arrangement; or
 - (c) by a law of the Commonwealth, a State or a Territory; or
 - (d) otherwise.

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-52

Meaning of required superannuation guarantee contribution amount

- (8) A **required superannuation guarantee contribution amount** is an amount that an employer would need to contribute in respect of a period so as not to have a superannuation guarantee shortfall under the *Superannuation Guarantee (Administration) Act 1992* in respect of that period.

Note: The relevant periods for which shortfalls are or were calculated under that Act are quarters (from 1 July 1993 onwards) or half-years (from 1 July 1992 to 30 June 1993).

57-52 Section 57-50 does not apply if there is a surplus at transition time

Section 57-50 does not apply to a deduction of the kind mentioned in subsection 57-50(1) if:

- (a) at the transition time, according to the accounts of the fund concerned, an amount is available to meet liabilities of the transition taxpayer in relation to the fund to provide superannuation benefits for, or for dependants of, employees of the transition taxpayer; and
- (b) the amount exceeds the value (as worked out according to actuarial principles) of the liabilities of that kind that have accrued as at the transition time.

57-55 Deductions reduced under both sections 57-40 and 57-50

If the amount of a deduction otherwise allowable to the transition taxpayer in respect of a contribution to a fund is required to be reduced under both sections 57-40 and 57-50:

- (a) if the reduction is of a different amount—the amount is reduced only under that section that requires the greater reduction; or
- (b) if the reduction is of the same amount—the amount is reduced only under section 57-40.

Subdivision 57-G—Denial of certain deductions**57-60 Effect of pre-transition time accrued leave entitlements**

- (1) This section applies to a deduction otherwise allowable to the transition taxpayer for a year of income under subsection 51(1) of this Act or section 8-1 (about general deductions) of the *Income Tax Assessment Act 1997* in respect of long service leave payments or annual leave payments to a person who was an employee of the transition taxpayer at any time before or after the transition time.

Note: Subsection 51(3) of this Act or section 26-10 of the *Income Tax Assessment Act 1997* (as appropriate) contains additional requirements for certain leave payments to be deductible.

Deduction allowable only if sum of all deductions exceeds leave threshold amount

- (2) The deduction is not allowable if the sum of all deductions of the transition taxpayer to which this section applies for the year of income is less than or equal to the leave threshold amount (see subsection (4)) for the year of income.

Amount of deduction not allowable

- (3) If the sum is greater than the leave threshold amount, so much of the deduction as is worked out using the following formula is not allowable:

$$\frac{\text{Amount of deduction}}{\text{Sum of all deductions of the transition taxpayer to which this section applies for the year of income}} \times \text{Leave threshold amount for the year of income}$$

Meaning of leave threshold amount

- (4) The **leave threshold amount** for a year of income is:
- (a) if the year of income is the transition year—the (pre-transition time service) leave amount (see subsection (5)) of the transition taxpayer; or

- (b) in any other case—that amount as reduced by the total amount of deductions to which this section applies that, because of subsection (2) or (3), have not been allowable to the transition taxpayer for all previous years of income.

Meaning of (pre-transition time service) leave amount

- (5) The *(pre-transition time service) leave amount* of the transition taxpayer is the sum of the following amounts:
 - (a) the amount that would be payable by the transition taxpayer in respect of annual leave and long service leave if, at the transition time, all employees of the transition taxpayer began to take all leave of that kind that they were eligible to take; and
 - (b) if the transition taxpayer elects, in accordance with subsection (6), that this paragraph applies—the amount that, according to actuarial principles, would need to be set aside at the transition time to meet all obligations of the transition taxpayer that might reasonably be expected to arise after that time to make annual leave payments and long service leave payments (other than in respect of leave taken into account under paragraph (a)) for periods of service of employees occurring before the transition time; and
 - (c) if paragraph (b) does not apply—the present value, at the transition time, of all annual leave payments and long service leave payments (other than in respect of leave taken into account under paragraph (a)) that the transition taxpayer would become liable to make after that time in respect of periods of service of employees occurring before that time if all such leave became eligible to be taken.

Election

- (6) The election mentioned in paragraph (5)(b) must be made in writing before:
 - (a) the day by which the transition taxpayer's return of income for the transition year is due to be lodged; or
 - (b) such later day as the Commissioner allows.

57-65 Treatment of bad debts

- (1) This section applies to a deduction otherwise allowable to the transition taxpayer for a year of income under this Act for the writing off as bad of the whole or part of a debt owing to the transition taxpayer.

Deduction allowable only if sum of all deductions exceeds doubtful debt provision limit

- (2) The deduction is not allowable if the sum of all deductions of the transition taxpayer to which this section applies for the year of income is less than or equal to the doubtful debt provision limit (see subsection (4)) for the year of income.

Amount of deduction not allowable

- (3) If the sum is greater than that limit, so much of the deduction as is worked out using the following formula is not allowable:

$$\frac{\text{Amount of deduction}}{\text{Sum of all deductions of the transition taxpayer to which this section applies for the year of income}} \times \text{Doubtful debt provision limit for the year of income}$$

Meaning of doubtful debt provision limit

- (4) The **doubtful debt provision limit** for a year of income is:
- if the year of income is the transition year—the pre-transition doubtful debt limit (see subsection (5)); or
 - in any other case—that limit as reduced by the total amount of deductions to which this section applies that, because of subsection (2) or (3), have not been allowable to the transition taxpayer for all previous years of income.

Meaning of pre-transition doubtful debt limit

- (5) The **pre-transition doubtful debt limit** is the total of the amounts that, under generally accepted accounting principles, would be the

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-65

appropriate doubtful debt provisions in relation to all debts owed to the transition taxpayer as at the transition time.

Reduction of limit for excess recovery

- (6) If:
- (a) at the transition time, a debt is owed to the transition taxpayer; and
 - (b) the sum of:
 - (i) the amount (if any) that, under generally accepted accounting principles, would be the appropriate doubtful debt provision in relation to the debt as at the transition time; and
 - (ii) any amounts later recovered in respect of the debt; exceeds the amount of the debt;
- the **pre-transition doubtful debt limit** is reduced by the amount of the excess.

Reduction of limit if debt later disposed of

- (7) If:
- (a) at the transition time, a debt is owed to the transition taxpayer; and
 - (b) there is an amount (the **debt provision amount**) greater than nil that, under generally accepted accounting principles, would be the appropriate doubtful debt provision in relation to the debt as at the transition time; and
 - (c) after the transition time, the transition taxpayer disposes of the debt to another person;
- the **pre-transition doubtful debt limit** is reduced by:
- (d) if, after the transition time, the transition taxpayer wrote off part of the debt as bad—the excess (if any) of the debt provision amount over the amount or amounts so written off; or
 - (e) in any other case—the debt provision amount.

57-70 Treatment of superannuation lump sums and employment termination payments

- (1) This section applies to a deduction otherwise allowable to the transition taxpayer for a year of income under section 8-1 (about general deductions) or 25-50 (about pensions, gratuities or retiring allowances) of the *Income Tax Assessment Act 1997* for a superannuation lump sum or an employment termination payment for a person who was an employee of the transition taxpayer at any time before the transition time (regardless of whether the person was an employee at or after the transition time).
- (2) So much (if any) of the deduction as relates to a period of service of the employee before the transition time is not allowable.
- (3) This section does not apply to an early retirement scheme payment (within the meaning of the *Income Tax Assessment Act 1997*), or a genuine redundancy payment (within the meaning of that Act).

Subdivision 57-H—Domestic losses

57-75 Domestic losses

In applying section 36-15 or 36-17 of the *Income Tax Assessment Act 1997* (about how to deduct tax losses) to the transition taxpayer:

- (a) only exempt income derived at or after the transition time is taken into account as exempt income of the transition taxpayer; and
- (b) the transition taxpayer's deductions are taken into account only so far as they are in respect of:
 - (i) services rendered; or
 - (ii) goods provided; or
 - (iii) the doing of any other thing;at or after the transition time.

Subdivision 57-J—Capital allowances and certain other deductions

57-85 What are the *modified deduction rules* and *corresponding deduction provisions*?

- (1) A ***modified deduction rule*** is a provision listed in column 3 of an item in the table in subsection (3). Provisions of the *Income Tax Assessment Act 1997* are identified in normal text, while provisions of the *Income Tax Assessment Act 1936* are **in bold**.
- (2) The ***corresponding deduction provision*** (if any) for a modified deduction rule listed in column 3 of an item in the table in subsection (3) is the provision of the *Income Tax Assessment Act 1936* listed in column 4 of the item.
- (3) The table is as follows:

Modified deduction rules and corresponding deduction provisions			
Column 1	Column 2	Column 3	Column 4
Item	Description	Modified deduction rule	Corresponding deduction provision
1	Borrowing expenses	Section 25-25	Former section 67

7	Industrial property (copyright in Australian film)	Former Division 10B of Part III	
9	Gifts	Section 25-50 and Division 30	Former section 78
13	R&D	Division 355

57-90 Post-transition deductions—assume that the transition taxpayer had never been exempt

In working out the transition taxpayer's allowable deductions under a modified deduction rule for the transition year or a later year of income, assume that the modified deduction rule had applied at all times before the transition time as if the transition taxpayer's income had never been exempt from income tax.

57-95 Amount of deduction not allowable for transition year

- (1) If, apart from this section, an amount would be an allowable deduction under a modified deduction rule for the transition year in respect of expenditure incurred before the transition time (whether or not during the transition year), only so much of the amount as is worked out using the following formula is so allowable:

$$\frac{\text{Number of whole days in transition year after transition time}}{\text{Post-expenditure part}} \times \text{Amount of deduction}$$

where:

post-expenditure part means:

- (a) if the expenditure was incurred before the transition year—the number of days in the transition year; or
- (b) otherwise—the number of days in the period from the beginning of the day on which the expenditure is incurred until the end of the transition year.
- (2) This section does not apply to an amount to which paragraph 57-110(1)(b) (which deals with balancing adjustments) applies.

57-100 No elections etc. before transition time

In working out the transition taxpayer's allowable deductions under a modified deduction rule:

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-105

- (a) assume that the transition taxpayer did not, at any time, make any election or declaration, or give any notice, under the rule in relation to a year of income before the transition year; and
- (b) any election or declaration (other than one under former subsection 124ZADA(1)) the transition taxpayer makes, or any notice the transition taxpayer gives, under the rule in relation to the transition year has no effect in so far as it relates to expenditure incurred before the transition time.

57-105 Special rules for mining and quarrying

Exploration and prospecting—assume no expenditure

- (1) In working out the transition taxpayer's allowable deductions under the former Subdivision 330-A or 330-C or Division 40 of the *Income Tax Assessment Act 1997*, assume that the transition taxpayer incurred no expenditure on exploration and prospecting before the transition time.

Assume that no excess deductions available

- (2) In working out the transition taxpayer's allowable deductions under the former Subdivision 330-A or 330-C of the *Income Tax Assessment Act 1997*, assume that, for each year of income before the transition year, the transition taxpayer's assessable income would have exceeded the total of the transition taxpayer's deductions for the year.

Note: This means that the transition taxpayer can have no excess deductions remaining from years of income before the transition year.

Subdivision 57-K—Balancing adjustments

57-110 Apportionment of balancing adjustments

- (1) If, apart from this subsection, a balancing adjustment provision (see subsection (2)) would:

- (a) require an amount to be included in the transition taxpayer's assessable income for the transition year or a later year of income in respect of particular expenditure; or
- (b) allow an amount as a deduction from the transition taxpayer's assessable income for the transition year or a later year of income in respect of particular expenditure;
- then only so much of the amount as is worked out using the following formula is so included or allowable:

$$\frac{\text{Actual deductions}}{\text{Actual deductions} + \text{Notional deductions}} \times \text{Amount concerned}$$

where:

actual deductions is the sum of all deductions actually allowed or allowable to the transition taxpayer for the expenditure under the deduction rule to which the balancing adjustment provision relates (see subsection (2)).

notional deductions is the sum of all deductions for the expenditure that would have been allowable to the transition taxpayer under the deduction rule to which the balancing adjustment provision relates, if the transition taxpayer had never been wholly exempt from income tax.

- (2) Each **balancing adjustment provision** and its related **deduction rule** are shown in an item of the table. Provisions of the *Income Tax Assessment Act 1997* are shown in ordinary text, and provisions of the *Income Tax Assessment Act 1936* are shown in **bold**.

Subdivision 57-L—Trading stock

57-115 Modification of trading stock provisions

- (1) For the purposes of applying Division 70 of the *Income Tax Assessment Act 1997* in relation to the transition year, the only trading stock of the transition taxpayer that is to be taken into account under section 70-35 of that Act as being on hand at the beginning of the transition year is such trading stock as was on hand at the transition time.
- (2) For the purpose of working out the value at which the trading stock is to be taken into account, the year of income preceding the transition year is taken to have ended immediately before the transition time.

Note: The value of trading stock on hand at the beginning of the transition year will, under section 70-40 of the *Income Tax Assessment Act 1997*, be the same as at the end of the preceding year of income.

- (3) If:
- (a) the basis of valuation of the trading stock at the end of the transition year is cost; and
 - (b) the basis of valuation at the beginning of the transition year is different;

then, for the purposes of the valuation at the end of the transition year, the cost of the trading stock for the purposes of Division 70 of the *Income Tax Assessment Act 1997* is taken to be equal to the value at which it was taken into account at the beginning of the transition year.

Subdivision 57-M—Imputation

57-120 Cancellation of franking surplus, credit or debit

Cancellation of surplus

- (1) Subject to subsections (3) and (4), if, immediately before the transition time, the transition taxpayer or a subsidiary (see section 57-125) of the transition taxpayer has a franking surplus, then the surplus is reduced to nil at the transition time.

Cancellation of credit/debit

- (2) Subject to subsections (3) and (4), if:
- (a) at any time after the transition time, there arises a franking credit or a franking debit of the transition taxpayer or of a subsidiary of the transition taxpayer; and
 - (b) the franking credit or franking debit is to any extent attributable to a period, or to an event taking place, before the transition time;
- the franking credit or franking debit is to that extent taken not to have arisen.

Schedule 2D Tax exempt entities that become taxable

Section 57-120

Cases where subsections (1) and (2) do not apply to the transition taxpayer

- (3) If:
- (a) one or more franking debits of the transition taxpayer arise after the transition time; and
 - (b) any of the debits is to an extent (the amount of which is the ***pre-transition time component*** of the debit) attributable to the period, or to an event taking place, before the transition time; and
 - (c) immediately before the transition time:
 - (i) there was a franking surplus of the transition taxpayer that was less than the total of the pre-transition time components of all of the debits; or
 - (ii) there was no franking surplus of the transition taxpayer;
- then:
- (d) in a case covered by subparagraph (c)(i)—subsection (1) does not apply to the surplus; and
 - (e) in any case—subsection (2) does not apply to the debits.

Cases where subsections (1) and (2) do not apply to a subsidiary

- (4) If:
- (a) one or more franking debits of a subsidiary of the transition taxpayer arise after the transition time; and
 - (b) any of the debits is to an extent (the amount of which is the ***pre-transition time component*** of the debit) attributable to the period, or to an event taking place, before the transition time; and
 - (c) immediately before the transition time:
 - (i) there was a franking surplus of the subsidiary that was less than the total of the pre-transition time components of all of the debits; or
 - (ii) there was no franking surplus of the subsidiary;
- then:

- (d) in a case covered by subparagraph (c)(i)—subsection (1) does not apply to the surplus; and
- (e) in any case—subsection (2) does not apply to the debits.

57-125 Subsidiary

- (1) A company (the *subsidiary company*) is a *subsidiary* of another company (the *holding company*) if all the shares in the subsidiary company are beneficially owned by:
 - (a) the holding company; or
 - (b) one or more subsidiaries of the holding company; or
 - (c) the holding company and one or more subsidiaries of the holding company.
- (2) A company (other than the subsidiary company) is a *subsidiary* of the holding company if, and only if:
 - (a) it is a subsidiary of the holding company; or
 - (b) it is a subsidiary of a subsidiary of the holding company; because of any other application or applications of this section.

Subdivision 57-N—Division not applicable in respect of certain plant

57-130 Plant or depreciating assets covered by Subdivision 58-B of the *Income Tax Assessment Act 1997*

- (1) Subdivision 57-J, and Subdivision 57-K in so far as it applies to balancing adjustments for plant or depreciating assets, do not apply in respect of an asset to which Subdivision 58-B of the *Income Tax Assessment Act 1997* applies.
- (2) Despite subsection (1), Subdivision 57-J applies for the purposes of section 40-35 of the *Income Tax (Transitional Provisions) Act 1997* to capital expenditure incurred by a transition taxpayer before 1 July 2001 that relates to property that is not a depreciating asset.

**Subdivision 57-P—Balancing adjustment on ceasing to have a
Division 230 financial arrangement**

**57-135 Balancing adjustment on ceasing to have a Division 230
financial arrangement referred to in section 57-32**

- (1) This section applies if:
 - (a) section 57-32 was applied to work out the market value of an asset (the *subject asset*); and
 - (b) the transition taxpayer is a party to the Division 230 financial arrangement (the *financial arrangement*) to which the subject asset, or the corresponding liability for the subject asset, is or is part of; and
 - (c) a balancing adjustment is made under Subdivision 230-G of the *Income Tax Assessment Act 1997*, after the transition time, in relation to the financial arrangement.
- (2) For the purposes of making the balancing adjustment under Subdivision 230-G of the *Income Tax Assessment Act 1997* in relation to the financial arrangement, adjust the amount worked out using the method statement (the *method statement*) in subsection 230-445(1) of that Act by:
 - (a) if the transition taxpayer is the holder of the subject asset—increasing any gain or reducing any loss by the amount worked out under subsection (4) of this section; or
 - (b) if the transition taxpayer is the holder of the corresponding liability for the subject asset—reducing any gain or increasing any loss by the amount worked out under subsection (4) of this section.
- (3) Despite subsection (2):
 - (a) if the amount worked out under subsection (4) exceeds the amount of the loss to be reduced under paragraph (2)(a)—the transition taxpayer is taken, for the purposes of making the balancing adjustment, to have made a gain equal to the amount of the excess; or

- (b) if the amount worked out under subsection (4) exceeds the amount of the gain to be reduced under paragraph (2)(b)—the transition taxpayer is taken, for the purposes of making the balancing adjustment, to have made a loss equal to the amount of the excess; or
 - (c) if when applying the method statement no balancing adjustment is made in relation to the financial arrangement—the transition taxpayer is taken, for the purposes of making the balancing adjustment, to have:
 - (i) if the transition taxpayer is the holder of the subject asset—made a gain equal to the amount worked out under subsection (4); or
 - (ii) if the transition taxpayer is the holder of the corresponding liability for the subject asset—made a loss equal to the amount worked out under subsection (4).
- (4) For the purposes of subsections (2) and (3), the amount is the difference between:
- (a) the amount that the transition taxpayer would need to receive or pay under the financial arrangement without an amount being assessable income of, or deductible to, the transition taxpayer if the subject asset, or the corresponding liability for the subject asset, were disposed of at the time the balancing adjustment is made; and
 - (b) the amount that the transition taxpayer would need to receive or pay under the financial arrangement without an amount being assessable income of, or deductible to, the transition taxpayer if:
 - (i) the subject asset, or the corresponding liability for the subject asset, were disposed of at the time the balancing adjustment is made; and
 - (ii) the assumptions in subsection (5) were made.
- (5) The assumptions referred to in subparagraph (4)(b)(ii) are that, when the financial arrangement was entered into:

Schedule 2D Tax exempt entities that become taxable

Division 57 Tax exempt entities that become taxable

Section 57-135

- (a) the parties to the arrangement were dealing with each other at arm's length (within the meaning of the *Income Tax Assessment Act 1997*) in relation to the arrangement; and
 - (b) if the arrangement gives rise to an interest that is not an equity interest in an entity—the return on the interest would reasonably be expected to be equal to the benchmark rate of return (within the meaning of the *Income Tax Assessment Act 1997*) for the interest.
- (6) This section applies despite section 230-510 of the *Income Tax Assessment Act 1997*.

Schedule 2F—Trust losses and other deductions

Division 265—Overview of Schedule

265-5 What this Schedule is about

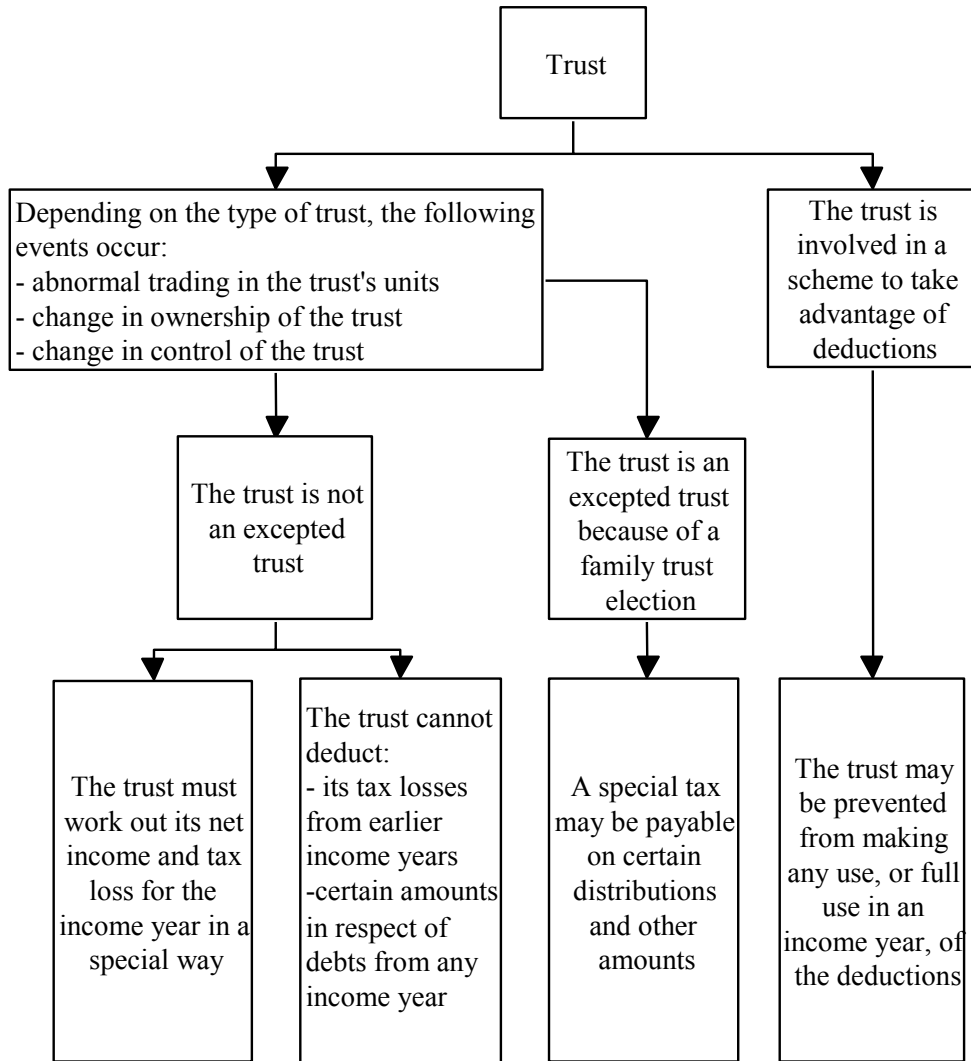

If there is a change in ownership or control of a trust or an abnormal trading in its units, it:

- may be prevented from deducting its tax losses of earlier income years; and
- may have to work out in a special way its net income and tax loss for the income year; and
- may be prevented from deducting certain amounts in respect of debts incurred in the income year or earlier income years.

This will not be the case if the trust is an excepted trust. However, if it became one by making a family trust election, a special tax may be payable on certain distributions and other amounts.

If a trust is involved in a scheme to take advantage of deductions, it may be prevented from making full use of them.

- for a listed widely held trust, the event is an abnormal trading in its units, together with a change in ownership and business;
- for an unlisted very widely held trust or a wholesale widely held trust, the event is an abnormal trading in its units, together with a change in ownership.

Subdivision 266-B—Effect of change in ownership of fixed trust

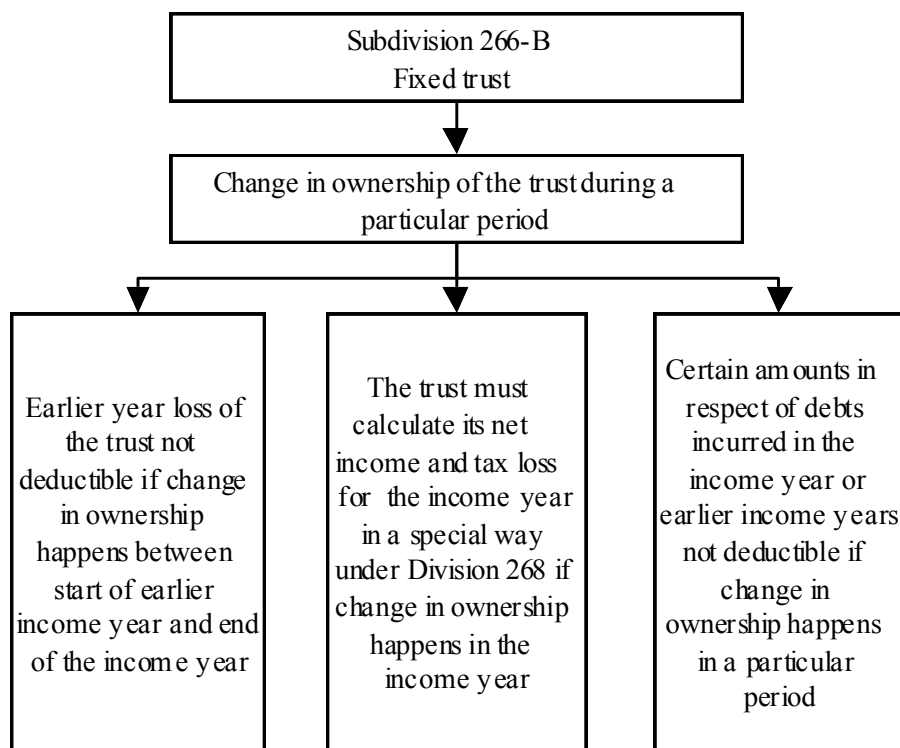

266-15 What this Subdivision is about

An ordinary fixed trust:

- cannot deduct a tax loss from an earlier income year; or
- has to work out its net income and tax loss for the income year in a special way; or
- cannot deduct certain amounts in respect of debts incurred in the income year or an earlier income year;

unless there has been continuity of ownership throughout a particular period or an exception relating to holdings by non-fixed trusts applies.

Note: The exceptions mentioned in this section apply differently in relation to designated infrastructure project entities: see sections 415-25 and 415-30 of the *Income Tax Assessment Act 1997*.

Type of trust to which this section applies

(1) This section applies to a trust that:

-
- (a) can deduct in the income year an amount:

Third condition

- (4) At the beginning of the test period:
- (a) individuals must not have had more than a 50% stake in the income of the trust; or
 - (b) individuals must not have had more than a 50% stake in the capital of the trust.

Fourth condition

- (5) It must be the case that, for each non-fixed trust (other than an excepted trust) that, at any time in the test period, held directly or indirectly a fixed entitlement to a share of the income or capital of the trust:
- (a) if this section is being applied for the purposes of section 266-25—section 267-20 would not have prevented the non-fixed trust from deducting the tax loss concerned if it, rather than the fixed trust, had incurred the loss; or
 - (b) if this section is being applied for the purposes of section 266-30—section 267-60 does not require the non-fixed trust to work out its net income and tax loss for the income year under Division 268; or
 - (c) if this section is being applied for the purposes of section 266-35—section 267-25, or section 267-65, as the case requires, would not have prevented the non-fixed trust from deducting the amount concerned if it, rather than the fixed trust, would otherwise be entitled to deduct the amount.

266-50 Deducting part of a tax loss

- (1) If section 266-25 prevents the fixed trust from deducting a tax loss, it can deduct the part of the tax loss that is attributable to a part of the loss year.
- (2) However, the trust can do this only if, assuming that that part of the loss year had been treated as the whole of the loss year for the purposes of sections 266-40 and 266-45, the trust would have been entitled to deduct the tax loss.

Division 266 Income tax consequences for fixed trusts of abnormal trading or change in ownership

Section 266-55

266-55 Information about non-fixed trusts with interests in fixed trust

Notice about non-resident non-fixed trust

- (1) The Commissioner may give the trustee of a fixed trust a notice in accordance with section 266-60 if the requirements of subsections (2) to (5) of this section are met.

First requirement

- (2) In its return of income for an income year, the fixed trust:
- (a) must have deducted a tax loss from an earlier income year; or
 - (b) must not have worked out its net income and tax loss for the income year under Division 268; or
 - (c) must have deducted an amount in relation to a debt; where it would not be allowed to deduct the tax loss or amount in respect of the debt, or would be required to work out its net income and tax loss under that Division, unless it met the conditions in section 266-45.

Second requirement

- (3) In order to determine whether it meets the conditions in section 266-45, the Commissioner must need information about a non-fixed trust mentioned in subsection 266-45(5).

Third requirement

- (4) When the Commissioner gives the notice:
- (a) a trustee of the non-fixed trust must be a non-resident; or
 - (b) the central management and control of the non-fixed trust must be outside Australia.

Fourth requirement

- (5) The Commissioner must give the notice before the later of:

- (a) 5 years after the end of the income year mentioned in subsection (2); and
- (b) the end of the period during which the trustee of the fixed trust is required by section 262A to retain records in relation to that income year.

266-60 Notices where requirements of section 266-55 are met

Information required

- (1) The notice that the Commissioner may give if the requirements of subsections 266-55(2) to (5) are met must require the trustee to give the Commissioner specified information that is relevant to determining whether the requirements of subsection 266-45(5) are satisfied in relation to the non-fixed trust mentioned in subsections 266-55(3) and (4).

Trustee knowledge

- (2) The information need not be within the knowledge of the trustee at the time the notice is given.

Period for giving information

- (3) The notice must specify a period within which the trustee is to give the information. The period must not end earlier than 21 days after the day on which the Commissioner gives the notice.

Consequence of not giving the information

- (4) If the trustee does not give the information within the period or within such further period as the Commissioner allows, the fixed trust is taken not to meet, and never to have met, the conditions in section 266-45.

Application of Division 268

- (5) If, because of subsection (4), the fixed trust is required to work out under Division 268 its net income and tax loss for the income year

Schedule 2F Trust losses and other deductions

Division 266 Income tax consequences for fixed trusts of abnormal trading or change in ownership

Section 266-65

mentioned in subsection 266-55(2), that Division is to be applied as if Subdivision 268-B required the income year to be divided into such periods as would result in the highest possible net income for the income year.

No offences or penalties

- (6) To avoid doubt, subsections (4) and (5) do not cause the trustee of the fixed trust to commit any offence or be liable to any penalty under Part 4-25 in Schedule 1 to the *Taxation Administration Act 1953* for deducting the amount concerned, or for not working out the trust's net income and tax loss under Division 268, in its return.

Subdivision 266-C—Effect of change in ownership of unlisted widely held trust

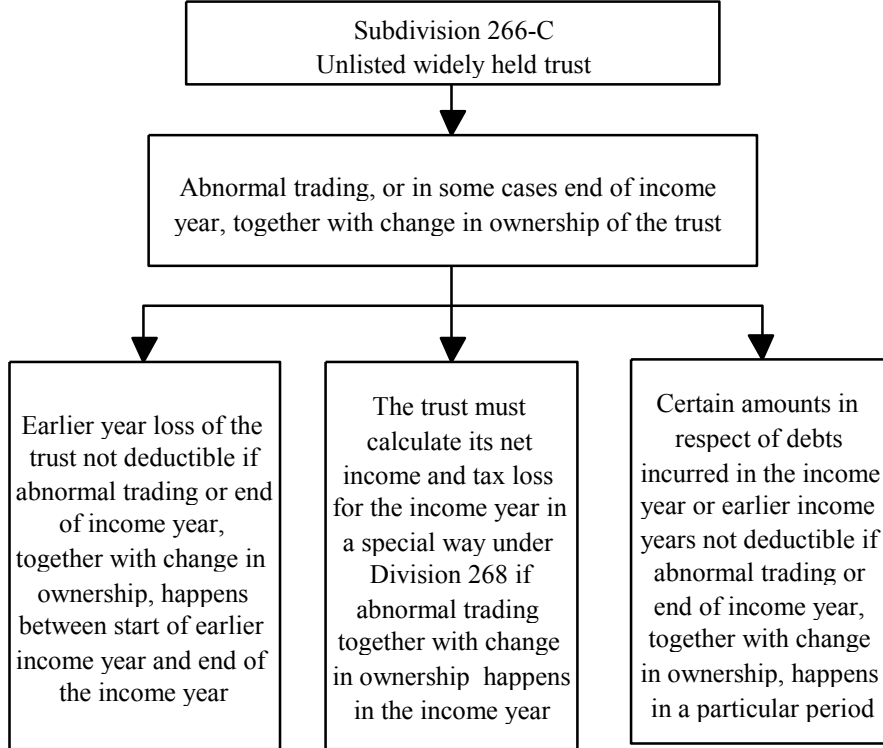

266-65 What this Subdivision is about

- cannot deduct certain amounts in respect of debts;

unless its ownership has been the same after any abnormal trading in its units and at the end of income years, during a certain period.

Note: The exception mentioned in this section applies differently in relation to designated infrastructure project entities: see sections 415-25 and 415-30 of the *Income Tax Assessment Act 1997*.

- (3) The trust cannot deduct the amount unless it meets the condition in section 266-90.

Note: Subdivisions 709-D and 719-I of the *Income Tax Assessment Act 1997* also affect when a trust that used to be a member of a consolidated group or MEC group may deduct a debt that used to be owed to a member of the group and that the trust writes off as bad.

266-90 If abnormal trading or end of income year, trust must pass the 50% stake test

- (1) If this section is being applied for the purposes of section 266-75 or 266-85, on each occasion when either of the following events occurs:

- (a) an abnormal trading in the trust's units occurs during the test period;
- (b) an income year of the trust ends during the test period (including at the end of the test period);

the trust must pass the 50% stake test in respect of the following times:

- (c) the beginning of the test period;
- (d) immediately after the event occurs.

To find out whether the trust passes the 50% stake test: see Subdivision 269-C.

- (2) If this section is being applied for the purposes of section 266-80, on each occasion when an abnormal trading in the trust's units occurs during the test period, the trust must pass the 50% stake test in respect of the following times:

Subdivision 266-D—Effect of abnormal trading on listed widely held trust

266-100 What this Subdivision is about

A listed widely held trust:

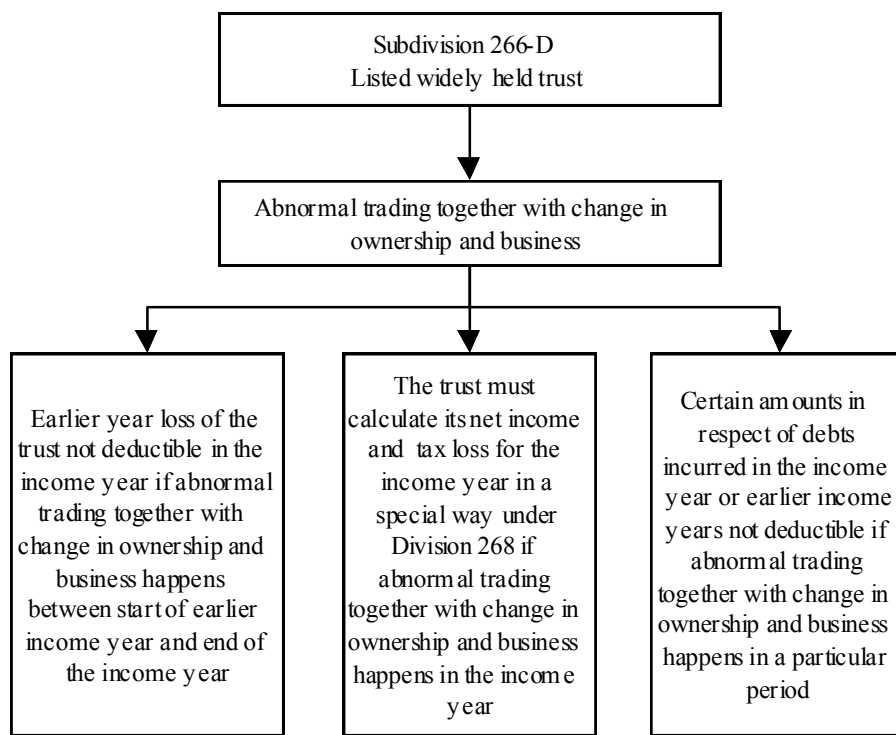

- cannot deduct a tax loss from an earlier income year; or
- has to work out its net income and tax loss for the income year in a special way; or
- cannot deduct certain amounts in respect of debts incurred in the same year or earlier income years;

unless either:

- there was no abnormal trading; or
- there was abnormal trading, but the trust's ownership and business did not change.

Also, it may still be prevented from deducting the tax loss to the extent that it is attributable to certain debt deductions.

Note: The exceptions mentioned in this section apply differently in relation to designated infrastructure project entities: see sections 415-25 and 415-30 of the *Income Tax Assessment Act 1997*.

Condition for deducting tax loss

- (2) The trust cannot deduct the tax loss unless it meets either:
- the condition in subsection 266-125(1); or
 - the condition in subsection 266-125(2).

Additional restriction on deducting tax loss

- (3) Even if it meets either of the conditions, it still cannot deduct the tax loss, or part of the tax loss, if section 266-135 (which deals with certain debt deductions) prevents it from doing so.

266-115 Listed widely held trust may be required to work out its net income and tax loss in a special way

A trust that:

- (a) was a listed widely held trust at all times in the income year (the *test period*); and
- (b) was not an excepted trust at all times in the test period;
- must work out its net income and tax loss for the income year under Division 268 (How to work out a trust's net income and tax loss for the income year), unless it meets either:

- the condition in subsection 266-125(1); or
- the condition in subsection 266-125(2).

Note: See section 415-25 of the *Income Tax Assessment Act 1997* if the trust was a designated infrastructure project entity during part, but not the whole, of the test period.

266-120 Listed widely held trust may be denied debt deduction

Type of trust to which this section applies

- (1) This section applies to a trust that:
- (a) can deduct in the income year an amount:
-

-
- (i) under section 51 or 63, or under section 8-1 or 25-35 of the *Income Tax Assessment Act 1997*, in respect of the writing off of the whole or part of a debt as bad; or
 - (ii) under subsection 63E(3) or (4) in respect of a debt/equity swap relating to the whole or part of a debt; and
- (b) was a listed widely held trust at all times in the period (the **test period**):
- (i) if the debt was incurred in an earlier income year—beginning on the day the debt was incurred and ending at the end of the income year; or
 - (ii) if the debt was incurred in the income year—consisting of the income year; and
- (c) was not an excepted trust at all times in the test period.

Note: Subdivisions 709-D and 719-I of the *Income Tax Assessment Act 1997* also affect when a trust that used to be a member of a consolidated group or MEC group may deduct a debt that used to be owed to a member of the group and that the trust writes off as bad.

Condition for deducting amount

- (2) The trust cannot deduct the amount unless it meets either:
- the condition in subsection 266-125(1); or
 - the condition in subsection 266-125(2).

266-125 There must be no abnormal trading (subject to 50% stake or business continuity exceptions)

- (1) There must be no abnormal trading in the trust's units during the test period.

To find out the meaning of **abnormal trading**: see Subdivision 269-B.

- (2) If there is abnormal trading on one or more occasions, then either:
- (a) for each abnormal trading, the trust must pass the 50% stake test in respect of the following times:

Schedule 2F Trust losses and other deductions

Division 266 Income tax consequences for fixed trusts of abnormal trading or change in ownership

Section 266-130

- (i) the beginning of the test period;
 - (ii) immediately after the abnormal trading; or
- (b) if it does not, at all times after the first or only abnormal trading in respect of which the requirement in paragraph (a) is not satisfied and before the end of the test period, the trust must pass the business continuity test in relation to the time immediately before that abnormal trading.

To find out whether the trust passes the 50% stake test: see Subdivision 269-C.

To find out whether the trust passes the business continuity test: see Subdivision 269-F.

266-130 Deducting part of a tax loss

- (1) If section 266-110 prevents the trust from deducting a tax loss, it can deduct the part of the tax loss that is attributable to a part of the loss year.
- (2) However, the trust can do this only if, assuming that that part of the loss year had been treated as the whole of the loss year for the purposes of section 266-125, the trust would have been entitled to deduct the tax loss.
- (3) Also, the trust cannot deduct the part of the tax loss, or some of it, if section 266-135 (which deals with certain debt deductions) prevents it from doing so.

266-135 Listed widely held unit trust may be denied tax loss deduction otherwise allowable

Section applies after sections 266-110 and 266-130

- (1) This section applies if, after applying sections 266-110 and 266-130, a trust can deduct in the income year the whole or part (the ***otherwise-deductible loss***) of a tax loss from a loss year.

Trust must satisfy condition if debt deduction etc.

- (2) If:
- (a) there would have been no otherwise-deductible loss, or its amount would have been smaller, if the trust had not (after applying section 266-120) been able to deduct in the loss year an amount:
 - (i) under section 51 or 63, or under section 8-1 or 25-35 of the *Income Tax Assessment Act 1997*, in respect of the writing off of the whole or part of a debt as bad; or
 - (ii) under subsection 63E(3) or (4) in respect of a debt/equity swap relating to the whole or part of a debt; and
 - (b) the trust could only deduct the amount in respect of the debt because it passed the business continuity test as mentioned in paragraph 266-125(2)(b); and
 - (c) the Commissioner considers that the trust passed the business continuity test as mentioned in that paragraph for the purpose, or for purposes including the purpose, of being able to deduct the amount because of that paragraph;
- the trust cannot deduct the otherwise-deductible loss, or can only deduct the smaller amount mentioned in paragraph (a) of this section, unless it meets the condition in subsection (3).

Condition

- (3) The condition is that, at all times after the abnormal trading mentioned in paragraph 266-125(2)(b) and before the end of the income year, the trust must pass the business continuity test in relation to the time immediately before the abnormal trading.

266-175 What this Subdivision is about

conditions as mentioned in section 266-40, 266-45, 266-90, 266-125 or 266-165 (the *conditions provision*).

Second requirement

- (3) The Commissioner must be satisfied that the primary trust would not meet the condition or conditions if one or more trusts were not family trusts.

Third requirement

- (4) When the Commissioner gives the notice, for at least one of the family trusts:
- (a) a trustee of the trust must be a non-resident; or
 - (b) the central management and control of the trust must be outside Australia.

Fourth requirement

- (5) The Commissioner must give the notice before the later of:
- (a) 5 years after the end of the income year to which the return relates; and
 - (b) the end of the period during which the trustee of the primary trust is required by section 262A to retain records in relation to that income year.

266-185 Notices where requirements of section 266-180 are met

Information required

- (1) The notice that the Commissioner may give if the requirements of subsections 266-180(2) to (5) are met must require the trustee of the primary trust to give the Commissioner specified information about conferrals of present entitlements to, and distributions of, income and capital, since the beginning of the test period mentioned in the conditions provision, by all of the family trusts meeting the requirements of paragraph 266-180(4)(a) or (b).

Trustee knowledge

- (2) The information need not be within the knowledge of the trustee at the time the notice is given.

Period for giving information

- (3) The notice must specify a period within which the trustee is to give the information. The period must not end earlier than 21 days after the day on which the Commissioner gives the notice.

Consequence of not giving the information

- (4) If the trustee does not give the information within the period or within such further period as the Commissioner allows, the primary trust is taken not to meet, and never to have met, the condition or conditions in the conditions provision.
- (5) If, because of subsection (4), the fixed trust is required to work out under Division 268 its net income and tax loss for the income year mentioned in subsection 266-180(2), that Division is to be applied as if Subdivision 268-B required the income year to be divided into such periods as would result in the highest possible net income for the income year.

No offences or penalties

- (6) To avoid doubt, subsections (4) and (5) do not cause the trustee of the primary trust to commit any offence or be liable to any penalty under Part 4-25 in Schedule 1 to the *Taxation Administration Act 1953* for deducting the amount concerned, or for not working out the trust's net income and tax loss under Division 268, in the trust's return.

Division 267 Income tax consequences for non-fixed trusts of change in ownership or control

Section 267-15

Subdivision 267-B—Deducting tax losses, and certain amounts in respect of debts, from earlier years

267-15 What this Subdivision is about

A non-fixed trust cannot deduct:

- a tax loss from a loss year; or
- certain amounts in respect of debts incurred in earlier income years;

unless:

- if applicable, it meets an ownership test based on income and capital distributions; and
- it did not fail that test in a previous year; and
- if applicable, it meets an ownership test based on fixed entitlements to income and capital; and
- its control has stayed the same.

Note: The exceptions mentioned in this section apply differently in relation to designated infrastructure project entities: see sections 415-25 and 415-30 of the *Income Tax Assessment Act 1997*.

267-20 Non-fixed trust may be denied tax loss deduction

Type of trust to which this Subdivision applies

- (1) This section applies to a trust that:
- (a) can deduct in the income year a tax loss from a loss year; and

- (b) was a non-fixed trust at any time in the period (the *test period*) from the beginning of the loss year until the end of the income year; and
- (c) was not an excepted trust at all times in the test period.

To find out the meaning of *non-fixed trust*: see section 272-70.

To find out the meaning of *excepted trust*: see section 272-100.

Conditions for deducting tax loss

- (2) The trust cannot deduct the tax loss unless it meets:
- the condition in subsection 267-30(2) (if applicable); and
 - the condition in section 267-35; and
 - the condition in subsection 267-40(2) (if applicable); and
 - the condition in section 267-45.

267-25 Non-fixed trust may be denied debt deduction

Type of trust to which this section applies

- (1) This section applies to a trust that:
- (a) can deduct in the income year an amount:
- (i) under section 51 or 63, or under section 8-1 or 25-35 of the *Income Tax Assessment Act 1997*, in respect of the writing off of the whole or part of a debt, incurred in an earlier income year, as bad; or
 - (ii) under subsection 63E(3) or (4) in respect of a debt/equity swap relating to the whole or part of a debt incurred in an earlier income year; and
- (b) was a non-fixed trust at any time in the period (the *test period*) beginning on the day the debt was incurred and ending at the end of the income year; and
- (c) was not an excepted trust at all times in the test period.

Schedule 2F Trust losses and other deductions

Division 267 Income tax consequences for non-fixed trusts of change in ownership or control

Section 267-30

Note: Subdivisions 709-D and 719-I of the *Income Tax Assessment Act 1997* also affect when a trust that used to be a member of a consolidated group or MEC group may deduct a debt that used to be owed to a member of the group and that the trust writes off as bad.

Condition for deducting amount

- (2) The trust cannot deduct the amount unless it meets:
- the condition in subsection 267-30(2) (if applicable); and
 - the condition in section 267-35; and
 - the condition in subsection 267-40(2) (if applicable); and
 - the condition in section 267-45.

267-30 If certain distributions are made, the trust must pass the pattern of distributions test

When trust must meet the condition

- (1) If either or both of the following happened, the trust must meet the condition in subsection (2):
- (a) the trust distributed income:
 - (i) in the income year or within 2 months after its end; and
 - (ii) in at least one of the 6 earlier income years; or
 - (b) the trust distributed capital:
 - (i) in the income year or within 2 months after its end; and
 - (ii) in at least one of the 6 earlier income years.

The condition

- (2) The condition is that the trust must pass the pattern of distributions test for the income year.

To find out whether the trust passes the pattern of distributions test for the income year: see Subdivision 269-D.

267-35 The trust must not have previously failed to meet the condition in subsection 267-30(2)

The trust must not have been prevented from deducting the tax loss in an earlier income year because of a failure to meet the condition in subsection 267-30(2) or conditions that included that condition.

267-40 If there are individuals with more than a 50% stake in income or capital, more than a 50% stake in income or capital must be maintained

When trust must meet condition

- (1) If at any time (the *test time*) in the test period, individuals (the *threshold group*) have more than a 50% stake in the income or capital of the trust, the trust must meet the condition in subsection (2).

To find out whether individuals have more than a 50% stake in the income or capital of the trust: see Subdivision 269-C.

Condition

- (2) The condition is that, during the period beginning at the test time and finishing at the end of the test period, the same individuals (who must be some or all of the threshold group) must have had more than a 50% stake in the income or the capital, respectively, of the trust.

Commissioner discretion

- (3) If:
- (a) after the test time, some or all of the threshold group cease to have a 50% stake in the income or capital of the trust at a particular time; and
 - (b) having regard to the likely manner of exercise of any discretion of the trustee to distribute income or capital of the trust after the particular time and to any other relevant matter, the Commissioner considers it fair and reasonable that the

Schedule 2F Trust losses and other deductions

Section 267-45

individuals should be taken to have the stake at the particular time and at all later times in the test period;
the individuals are taken to have that stake at the particular time and at all later times in the test period.

267-45 Group must not begin to control the trust

A group must not, during the test period, begin to control the trust directly or indirectly.

To find out what it means for a group to control the trust: see Subdivision 269-E.

267-50 Deducting part of a tax loss

- (1) If section 267-20 prevents a trust from deducting a tax loss because the trust does not meet the condition in section 267-40 or 267-45 or both conditions, it can deduct the part of the tax loss that is attributable to a part of the loss year.
- (2) However, the trust can do this only if, assuming that that part of the loss year had been treated as the whole of the loss year for the purposes of sections 267-40 and 267-45, the trust would have been entitled to deduct the tax loss.

Subdivision 267-C—Current year net income and tax loss, and certain debts incurred in current year

267-55 What this Subdivision is about

A non-fixed trust:

- must work out its net income and tax loss for the income year in a special way; or
- cannot deduct certain amounts in respect of debts incurred in the income year;

unless:

- if applicable, it meets an ownership test relating to fixed entitlements to shares of income and capital; and
- its control has stayed the same.

Note: The exceptions mentioned in this section apply differently in relation to designated infrastructure project entities: see sections 415-25 and 415-30 of the *Income Tax Assessment Act 1997*.

267-60 Trust may be required to work out its net income and tax loss in a special way

Type of trust to which this Subdivision applies

A trust that:

- (a) was a non-fixed trust at any time in the income year (the **test period**); and
 - (b) was not an excepted trust at all times in the test period;
- must work out its net income and tax loss for the income year under Division 268 (How to work out a trust's net income and tax loss for the income year), unless it meets:

- the condition in subsection 267-70(2) (if applicable); and
- the condition in section 267-75.

To find out the meaning of **excepted trust**: see section 272-100.

Note: See section 415-25 of the *Income Tax Assessment Act 1997* if the trust was a designated infrastructure project entity during part, but not the whole, of the test period.

267-65 Non-fixed trust may be denied debt deduction

Type of trust to which this section applies

- (1) This section applies to a trust that:
 - (a) can deduct in the income year (the **test period**) an amount:

Schedule 2F Trust losses and other deductions

Division 267 Income tax consequences for non-fixed trusts of change in ownership or control

Section 267-70

- (i) under section 51 or 63 in respect of the writing off of the whole or part of a debt, incurred in the income year, as bad; or
 - (ii) under subsection 63E(3) or (4) in respect of a debt/equity swap relating to the whole or part of a debt incurred in the income year; and
- (b) was a non-fixed trust at any time in the test period; and
- (c) was not an excepted trust at all times in the test period.

Note: Subdivisions 709-D and 719-I of the *Income Tax Assessment Act 1997* also affect when a trust that used to be a member of a consolidated group or MEC group may deduct a debt that used to be owed to a member of the group and that the trust writes off as bad.

Condition for deducting amount

- (2) The trust cannot deduct the amount unless it meets
- the condition in subsection 267-70(2) (if applicable); and
 - the condition in section 267-75.

267-70 If there are individuals with more than a 50% stake in income or capital, more than a 50% stake in income or capital must be maintained

When trust must meet condition

- (1) If at any time (the **test time**) in the test period, individuals (the **threshold group**) have more than a 50% stake in the income or capital of the trust, the trust must meet the condition in subsection (2).

To find out whether individuals have more than a 50% stake in the income or capital of the trust: see Subdivision 268-C.

Condition

- (2) The condition is that, during the period beginning at the test time and finishing at the end of the test period, the same individuals
-

Division 267**Section 267-75**

(who must be some or all of the threshold group) must have more than a 50% stake in the income or the capital, respectively, of the trust.

Commissioner discretion

- (3) If:
- (a) after the test time, some or all of the threshold group cease to have a 50% stake in the income or capital of the trust at a particular time; and
 - (b) having regard to the likely manner of exercise of any discretion of the trustee to distribute income or capital of the trust after the particular time and to any other relevant matter, the Commissioner considers it fair and reasonable that the individuals should be taken to have the stake at the particular time and at all later times in the test period;
- the individuals are taken to have that stake at the particular time and at all later times in the test period.

267-75 Group must not begin to control trust

A group must not, during the test period, begin to control the trust directly or indirectly.

To find out what it means for a group to control the trust: see Subdivision 269-E.

Subdivision 267-D—Information about family trusts with interests in other trusts**267-80 What this Subdivision is about**

If a trust would only avoid the tax consequences of this Division because of interests held by a non-resident family trust, the Commissioner may require the trust to give certain information about the non-resident family trust. If it is not given, the trust does not avoid the tax consequences of this Division.

Division 267 Income tax consequences for non-fixed trusts of change in ownership or control

267-85 Information about family trusts with interests in other trusts

Notice about family trust

- (1) The Commissioner may give the trustee of a trust (the **primary trust**) a notice in accordance with section 267-90 if the requirements of subsections (2) to (5) of this section are met.

First requirement

- (2) In its return of income for an income year, the primary trust:
- (a) must have deducted a tax loss from an earlier income year; or
 - (b) must not have worked out its net income and tax loss for the income year under Division 268; or
 - (c) must have deducted an amount in relation to a debt; where it would not be allowed to deduct the tax loss or amount in respect of the debt, or would be required to work out its net income and loss under that Division, if it did not meet a condition or conditions as mentioned in section 267-40 or 267-70 (the **conditions provision**).

Second requirement

- (3) The Commissioner must be satisfied that the primary trust would not meet the condition or conditions if one or more trusts were not family trusts.

Third requirement

- (4) When the Commissioner gives the notice, for at least one of the family trusts:
- (a) a trustee of the trust must be a non-resident; or
 - (b) the central management and control of the trust must be outside Australia.

Fourth requirement

- (5) The Commissioner must give the notice before the later of:
-

- (a) 5 years after the end of the income year to which the return relates; and
- (b) the end of the period during which the trustee of the primary trust is required by section 262A to retain records in relation to that income year.

267-90 Notices where requirements of section 267-85 are met

Information required

- (1) The notice that the Commissioner may give if the requirements of subsections 267-85(2) to (5) are met must require the trustee to give the Commissioner specified information about conferrals of present entitlements to, and distributions of, income and capital, since the beginning of the test period mentioned in the conditions provision, by all of the family trusts meeting the requirements of paragraph 267-85(4)(a) or (b).

Trustee knowledge

- (2) The information need not be within the knowledge of the trustee at the time the notice is given.

Period for giving information

- (3) The notice must specify a period within which the trustee is to give the information. The period must not end earlier than 21 days after the day on which the Commissioner gives the notice.

Consequence of not giving the information

- (4) If the trustee does not give the information within the period or within such further period as the Commissioner allows, the primary trust is taken not to meet, and never to have met, the condition or conditions in the conditions provision.

Schedule 2F Trust losses and other deductions

Division 267 Income tax consequences for non-fixed trusts of change in ownership or control

Section 267-90

Application of Division 268

- (5) If, because of subsection (4), the fixed trust is required to work out under Division 268 its net income and tax loss for the income year mentioned in subsection 267-85(2), that Division is to be applied as if Subdivision 268-B required the income year to be divided into such periods as would result in the highest possible net income for the income year.

No offences or penalties

- (6) To avoid doubt, subsections (4) and (5) do not cause the trustee of the primary trust to commit any offence or be liable to any penalty under Part VII for deducting the amount concerned, or for not working out the trust's net income and tax loss under Division 268, in the trust's return.

Division 268—How to work out a trust's net income and tax loss for the income year

Subdivision 268-A—Overview of Division

268-5 What this Division is about

This Division requires a trust's net income and tax loss to be worked out in a special way. The income year is divided into periods as the basis for the calculation.

Subdivision 268-B—Dividing the income year into periods

268-10 Income year of fixed trust to be divided into periods—first case

- (1) If:
 - (a) a trust's net income and tax loss for the income year are required by section 266-30 to be worked out under this Division; and
 - (b) the trust did not meet the requirements of subsections 266-45(2) and (4);the income year is divided into periods as follows.
- (2) The first period begins at the beginning of the income year. Each later period begins immediately after the end of the previous period.
- (3) The last period ends at the end of the income year. Each period (except the last) ends at the latest time that would result in the trust passing the 50% stake test for the whole of the period.

268-15 Income year of fixed trust to be divided into periods—second case

- (1) If:
 - (a) a trust's net income and tax loss for the income year are required by section 266-30 to be worked out under this Division; and
 - (b) the trust met the requirements of subsections 266-45(2) and (4);the income year is divided into periods as follows.
- (2) The first period begins at the beginning of the income year. Each later period begins immediately after the end of the previous period.
- (3) The last period ends at the end of the income year. Each period (except the last) ends at the earliest of:
 - (a) the latest time that would result in the persons holding fixed entitlements to shares of the income or shares of the capital of:
 - (i) if the trust met the requirements of paragraph 266-45(2)(a)—the trust; or
 - (ii) if the trust met the requirements of paragraph 266-45(2)(b)—the holding entity mentioned in that paragraph;and the percentages of the shares that they hold, remaining the same during the whole of the period; and
 - (b) the times that, for all of the non-fixed trusts (other than excepted trusts) holding directly or indirectly a fixed entitlement to a share of the income or capital of the trust at any time during the income year, are the latest times that would result in individuals having more than a 50% stake in their income or capital; and
 - (c) the earliest time in the period when a group begins to control a non-fixed trust (other than an excepted trust) that holds directly or indirectly a fixed entitlement to a share of the

income or capital of the trust at any time during the income year.

To find out when a group begins to control a trust: see Subdivision 269-E.

268-20 Income year of widely held unit trust to be divided into periods

- (1) If a trust's net income and tax loss for the income year are required by section 266-80, 266-115 or 266-155 to be worked out under this Division, the income year is divided into periods as follows.
- (2) The first period begins at the beginning of the income year. Each later period begins immediately after the end of the previous period.
- (3) The last period ends at the end of the income year. Each period (except the last) ends at the earliest time at which there is an abnormal trading in the trust's units, where the trust does not pass the 50% stake test in respect of the following times:
 - (a) the beginning of the period;
 - (b) immediately after the abnormal trading.
- (4) However, what would, apart from this subsection, be 2 or more successive periods are treated as a single period if:
 - (a) the trust is a listed widely held trust; and
 - (b) during all of the periods the trust passed the business continuity test in relation to the time immediately before the end of the first of the successive periods.

268-25 Income year of non-fixed trust to be divided into periods

- (1) If a trust's net income and tax loss for the income year are required by section 267-60 to be worked out under this Division, the income year is divided into periods as follows.
- (2) The first period begins at the beginning of the income year. Each later period begins immediately after the end of the previous period.

- (3) The last period ends at the end of the income year.
- (4) If the condition in subsection 267-70(2) applies but the trust does not meet the condition, each period (except the last) ends at the earlier of:
 - (a) the latest time, after the test time mentioned in that section, that would result in the same individuals having more than a 50% stake in the income or the capital, as the case requires, of the trust during the whole of the period; or
 - (b) the earliest time when a group begins to control the trust directly or indirectly.
- (5) If the condition in subsection 267-70(2) does not apply, or does apply and the trust meets the condition, each period (except the last) ends at the earliest time when a group begins to control the trust directly or indirectly.

Subdivision 268-C—Other steps in working out the net income and tax loss

268-30 Calculate the notional loss or net income for each period

- (1) A notional loss or notional net income of the trust must be worked out for each period into which the income year has been divided in accordance with Subdivision 268-B.
- (2) The trust has a notional loss for a period if the deductions attributed to the period under section 268-35 exceed the assessable income attributed to the period under section 268-40. The **notional loss** is the amount of the excess.

For a period during which the trust was in partnership, the notional loss is worked out under Subdivision 268-D.
- (3) On the other hand, if that assessable income exceeds those deductions, the trust has a **notional net income** for the period, equal to the excess.

For a period during which the trust was in partnership, the notional net income is worked out under Subdivision 268-D.

- (4) If the trust has a notional loss for *none* of the periods in the income year, this Subdivision has no further application, and the trust's net income for the income year is calculated in the usual way.

The usual way of working out net income is set out in section 95.

268-35 How to attribute deductions to periods

- (1) The trust's deductions for the income year are attributed to periods in the income year as follows.

- (2) The following deductions are attributed to each period in proportion to the length of the period:

- (aa) deductions for the decline in value of a depreciating asset;

See Division 40 of the *Income Tax Assessment Act 1997*.

- (c) deductions for expenditure, deductions for which are spread over 2 or more years, but not full year deductions (see subsection (5));

- (d) deductions for expenditure of capital monies in connection with an Australian film.

See former section 124ZAFA.

- (3) All other deductions (except full year deductions) are attributed to periods as if each period were an income year.

- (4) Full year deductions are not attributed to any of the periods. They are brought in at a later stage of the process of calculating the trust's net income for the income year.

- (5) These are **full year deductions**:

- (a) deductions for bad debts under section 8-1 (about general deductions) of the *Income Tax Assessment Act 1997*;

- (b) deductions for bad debts under section 25-35 (about bad debts) of the *Income Tax Assessment Act 1997*, or for losses on debt/equity swaps under section 63E;

- (c) deductions, so far as they are allowable under Division 8 (which is about deductions) of the *Income Tax Assessment Act 1997*, because Subdivision H (Period of deductibility of

certain advance expenditure) of Division 3 of Part III applies to the trust in relation to the income year;

(d) deductions allowable under Division 30 of the *Income Tax Assessment Act 1997*;

(e) deductions for payments of pensions, gratuities or retiring allowances under section 25-50 of the *Income Tax Assessment Act 1997*;

(f) deductions for tax losses of earlier income years;

See Division 36 of the *Income Tax Assessment Act 1997*.

(j) deductions for farm management deposits.

Note: See Division 393 of the *Income Tax Assessment Act 1997*.

(6) However, a deduction for the balance of capital expenditure is *not* a full year deduction if the deduction results from the disposal, loss, lapse, termination of use or destruction of the property.

See Subdivision 40-D of the *Income Tax Assessment Act 1997*.

268-40 How to attribute assessable income to periods

(1) The trust's assessable income for the income year is attributed to periods in the income year as follows.

(2) The following amounts are attributed to periods so far as they are reasonably attributable to those periods:

(a) amounts included in the trust's assessable income under section 97 (Beneficiary of a trust estate not under a legal disability); or

(b) amounts included in the trust's assessable income under section 98A (Non-resident beneficiaries assessable in respect of certain income).

(3) The following items of assessable income are attributed to each period in proportion to the length of the period:

(a) insurance recoveries for loss of livestock or trees;

See section 385-130 of the *Income Tax Assessment Act 1997*.

- (b) amounts included in assessable income as a result of elections relating to the forced disposal of livestock;

See Subdivision 385-E and section 385-160 of the *Income Tax Assessment Act 1997*.

- (c) recoupment of mains electricity connection expenditure.

See item 1.25 in section 20-30, which lists deductions for which recoupments are assessable under Subdivision 20-A, of the *Income Tax Assessment Act 1997*.

- (4) An amount included in the trust's assessable income under section 385-185 (Election to defer including profit on second wool clip) of the *Income Tax Assessment Act 1997* is attributed to the period when the wool would ordinarily have been shorn.
- (5) An amount included in the trust's assessable income that is a dividend under:
- (a) section 65 (Payments to associated persons); or
 - (c) section 109 (Excessive payments to shareholders and associates); or
 - (d) Division 7A of Part III (Distributions to entities connected with a private company);
- is attributed to the period when the amount was paid or credited, whichever occurred first.
- (6) All other items of assessable income (except full year amounts) are attributed to periods as if each period were an income year.
- (7) **Full year amounts** are amounts referred to in paragraphs (2)(a) and (b), so far as they are not reasonably attributable to a period. They are brought in at a later stage of the process of calculating the trust's net income for the income year.

268-45 How to calculate the trust's net income for the income year

- (1) The trust's **net income** for the income year is worked out as follows.
- (2) Add up the notional net incomes (if any) worked out under section 268-30 or 268-70.

Schedule 2F Trust losses and other deductions

Division 268 How to work out a trust's net income and tax loss for the income year

Section 268-60

Note: A notional *loss* for a period is *not* taken into account, but counts towards the trust's tax loss for the income year.

- (3) Add the full year amounts referred to in subsection 268-40(7) (if any).
- (4) Subtract the trust's full-year deductions of these kinds:
 - (a) deductions for bad debts under section 8-1 (about general deductions) of the *Income Tax Assessment Act 1997*;
 - (b) deductions for bad debts under section 25-35 (about bad debts) of the *Income Tax Assessment Act 1997*;
 - (c) deductions, so far as they are allowable under Division 8 (which is about deductions) of the *Income Tax Assessment Act 1997* because Subdivision H (Period of deductibility of certain advance expenditure) of Division 3 of Part III applies to the trust in relation to the income year;unless they exceed the total of the notional net incomes and the full year amounts. (If they equal or exceed that total, the trust does not have a net income for the income year.)
- (5) If an amount remains, subtract from it the trust's other full year deductions, in the order shown in subsection 268-35(5), unless they exceed the amount remaining. (If they equal or exceed that amount, the trust does not have a net income for the income year.)
- (6) The amount (if any) remaining is the trust's *net income* for the income year.

268-60 How to work out the trust's section 36-10 tax loss for the income year

- (1) For the purposes of Division 36 (Tax losses of earlier income years) of the *Income Tax Assessment Act 1997*, instead of working out the trust's tax loss for the year under section 36-10 of that Act, it is worked out as follows.
- (2) Total the notional losses.

- (3) Add the amount (if any) by which the trust's full year deductions of these kinds:
- (a) deductions for bad debts under section 8-1 (about general deductions) of the *Income Tax Assessment Act 1997*;
 - (b) deductions for bad debts under section 25-35 (about bad debts) of the *Income Tax Assessment Act 1997*;
 - (c) deductions, so far as they are allowable under Division 8 (which is about deductions) of the *Income Tax Assessment Act 1997* because Subdivision H (Period of deductibility of certain advance expenditure) of Division 3 of Part III applies to the trust in relation to the income year;
- exceed the total of:
- (d) the notional net incomes (if any); and
 - (e) the full year amounts referred to in section 268-40 (if any).
- (4) If the trust derived exempt income, subtract its net exempt income as defined in section 36-20 of the *Income Tax Assessment Act 1997*.
- (5) Any amount remaining is the trust's tax loss for the income year.

To find out *how much* of the tax loss can be deducted in later income years, see Division 266 or 267.

To find out *how* to deduct it, see section 36-15 or 36-17 of the *Income Tax Assessment Act 1997*.

Subdivision 268-D—Rules that supplement Subdivision 268-C if the trust is in partnership

268-70 How to calculate the trust's notional loss or net income for a period when the trust was a partner

- (1) This section applies if at any time during a period the trust was a partner in one or more partnerships.
- (2) The trust has a notional loss for the period if the total (the *loss total*) of:

Schedule 2F Trust losses and other deductions

Division 268 How to work out a trust's net income and tax loss for the income year

Section 268-75

- (a) the deductions attributed to the period under section 268-35; and
 - (b) the trust's share of each notional loss (if any) of a partnership for the period;
- exceeds the total (the *income total*) of:
- (c) the assessable income attributed to the period under section 268-40; and
 - (d) the trust's share of each notional net income (if any) of a partnership for the period.

The *notional loss* is the amount of the excess.

Note: A notional loss is taken into account in working out the trust's tax loss under section 268-60.

- (3) On the other hand, if the income total exceeds the loss total, the trust has a *notional net income* for the period, equal to the excess.

Note: A notional net income is taken into account in working out the trust's net income under section 268-45.

- (4) If the trust has a notional net income for *all* periods in the income year, this Subdivision has no further application, and the trust's net income for the income year is worked out in the usual way.

The usual way of working out net income is set out in section 95.

268-75 How to calculate the trust's share of a partnership's notional loss or notional net income for a period if both entities have the same income year

- (1) This section applies if at any time during a period the trust is a partner in a partnership that has an income year that begins and ends when the trust's income year begins and ends.
- (2) The partnership's notional loss or notional net income for the period is worked out in the same way as the notional loss or notional net income of a trust.
- (3) The trust's share is calculated by dividing:
 - (a) the trust's interest in the partnership's net income or partnership loss of the income year;

by:

(b) the amount of that net income or partnership loss;
and expressing the result as a percentage.

- (4) However, if the partnership had neither a net income nor a partnership loss, the trust's share is a percentage that is fair and reasonable having regard to the extent of the trust's interest in the partnership.

268-80 How to calculate the trust's share of a partnership's notional loss or notional net income for a period if the entities have different income years

- (1) This section applies if at any time during a period the trust is a partner in a partnership that has an income year that begins and ends at a different time from when the trust's income year begins and ends.
- (2) So much of the partnership's net income or partnership loss of an income year as was derived during the period is a notional net income or notional loss of the partnership for the period. (For the purposes of this subsection, the partnership's net income or partnership loss is calculated without taking account of the partnership's full year deductions for that income year.)

Note: The partnership's full year deductions are dealt with in section 268-85.

- (3) The trust's share is calculated by dividing:
- (a) the trust's interest in the partnership's net income or partnership loss of the income year;
- by:
- (b) the amount of that net income or partnership loss;
and expressing the result as a percentage.

268-85 Trust's full year deductions include a share of partnership's full year deductions

- (1) This section applies if at any time during the income year the trust is a partner in a partnership that has one or more full year deductions for the income year of the partnership that corresponds to the income year of the trust.
- (2) The partnership's full year deductions are treated as full year deductions of the trust, but only to the extent of the trust's share.
- (3) If the partnership's income year is the same as the trust's, the trust's share is calculated by dividing:
 - (a) the trust's interest in the partnership's net income or partnership loss of the income year;by:
 - (b) the amount of that net income or partnership loss;and expressing the result as a percentage.
- (4) However, if the partnership had neither a net income nor a partnership loss, the trust's share is a percentage that is fair and reasonable having regard to the extent of the trust's interest in the partnership.
- (5) If the partnership's income year does not begin and end at the same time as the trust's income year, the trust's share is a percentage that is fair and reasonable having regard to all relevant circumstances.

Division 269—Concepts and tests applied in Divisions 266 and 267

Subdivision 269-A—Overview of Division

269-5 What this Division is about

This Division explains the following concepts or tests that are used in preceding Divisions of this Schedule:

- abnormal trading;
- 50% stake test etc.;
- pattern of distributions test;
- control;
- business continuity test.

Subdivision 269-B—Abnormal trading

269-10 Trading

A *trading* in units in a unit trust occurs if there is an issue, redemption or transfer of, or other dealing in, the units.

269-15 Abnormal trading—general

- (1) There is an *abnormal trading* in units in a unit trust if there is a trading in the units that is abnormal having regard to all relevant factors, including:
 - (a) the timing of the trading, when compared to the normal timing for trading in its units; and

- (b) the number of units traded, when compared to the normal number of units traded; and
 - (c) any connection between the trading and any other trading in units in the trust; and
 - (d) any connection between the trading and a tax loss or other deduction of the trust.
- (2) There may also be an *abnormal trading* under any of the following provisions.

269-20 Abnormal trading—suspected acquisition or merger

There is an *abnormal trading* in units in a unit trust if a trading occurs in its units that the trustee knows or reasonably suspects is part of an acquisition of the trust or merger of the trust with another trust.

269-25 Abnormal trading—5% of units in a single transaction

There is an *abnormal trading* in units in a unit trust (other than a wholesale widely held trust) if 5% or more of the units are traded in one transaction.

269-30 Abnormal trading—suspected 5% of units in a series of transactions

- (1) There is an *abnormal trading* in units in a unit trust (other than a wholesale widely held trust) if the trustee knows or reasonably suspects that a person, or a person and one or more associates of the person, have acquired or redeemed 5% or more of the units in 2 or more transactions and would not have done so if the trust did not have a tax loss or other deduction.
- (2) For the purposes of other provisions of this Schedule, the abnormal trading occurs at the time of the particular transaction that causes the 5% figure to be exceeded.

269-35 Abnormal trading—20% of units traded, issued or redeemed over 60 day period

- (1) There is an *abnormal trading* in units in a unit trust (other than a wholesale widely held trust) if more than 20% of the units on issue at the end of any 60 day period were traded during the period.
- (2) For the purposes of other provisions of this Schedule, the abnormal trading occurs at the end of the 60 day period.

269-40 Abnormal trading—50% stake not maintained

- (1) There is an *abnormal trading* in units in a wholesale widely held trust during a period if the trustee knows or reasonably suspects that the same persons did not hold more than 50% of its units at the beginning and end of the period.
- (2) For the purposes of other provisions of this Schedule, the abnormal trading occurs immediately before the end of the period.

269-45 Time at which trustee to have knowledge or suspicion

For the purposes of section 269-20, 269-30 or 269-40, the trustee must have the knowledge or reasonable suspicion mentioned in that section:

- (a) if the section is being applied in determining for the purposes of section 268-20 whether an abnormal trading occurred—at some time during the income year mentioned in that section; or
- (b) if it is being applied in determining for the purposes of any other provision whether an abnormal trading occurred during a period—at some time during the period.

269-47 Abnormal trading where holding trust

Holding trust and subsidiary trust

- (1) If a unit trust has fixed entitlements directly or indirectly to all of the income and capital of another unit trust:

- (a) the first trust is a **holding trust** of the second; and
- (b) the second is a **subsidiary trust** of the first.

Abnormal trading causing or ending holding-subsidiary relationship

- (2) The transaction that causes a trust to become, or to cease to be, a holding trust of a subsidiary trust (the **bottom subsidiary trust**) is an **abnormal trading** in units in the bottom subsidiary trust unless:
 - (a) the holding trust is itself a subsidiary trust of one or more holding trusts (each of which is a **higher holding trust**); and
 - (b) immediately before and after the transaction, the bottom subsidiary trust is a subsidiary trust of one or more of the higher holding trusts.

Abnormal trading while holding-subsidiary relationship exists

- (3) While one or more trusts are holding trusts of the same subsidiary trust, there is an **abnormal trading** in units in the subsidiary trust if and only if, and at the time at which, there is an abnormal trading in units in the holding trust that is not itself a subsidiary trust of another holding trust.

269-49 No abnormal trading where proportionate issue of units

If the issue of units in a unit trust to existing unit holders does not cause each unit holder's proportion of the total fixed entitlements to shares of the income and capital of the trust to change, then, except for the purposes of section 269-20, the issue is disregarded in determining whether there has been an abnormal trading in units in the unit trust.

Subdivision 269-C—Passing the 50% stake test etc.

269-50 More than a 50% stake in income or capital

More than a 50% stake in income

- (1) If there are individuals who have (between them), directly or indirectly, and for their own benefit, fixed entitlements to a greater than 50% share of the income of a trust, those individuals have ***more than a 50% stake*** in the income of the trust.

More than a 50% stake in capital

- (2) If there are individuals who have (between them), directly or indirectly, and for their own benefit, fixed entitlements to a greater than 50% share of the capital of the trust, those individuals have ***more than a 50% stake*** in the capital of the trust.

269-55 Passing the 50% stake test

- (1) If, at all times during a period, or at 2 times:
 - (a) the same individuals have more than a 50% stake in the income of a trust; and
 - (b) the same individuals (who may be different from those in paragraph (a)) have more than a 50% stake in the capital of the trust;the trust ***passes the 50% stake test*** for the period or in respect of the 2 times.
- (2) If a trust is a widely held unit trust it is taken to ***pass the 50% stake test*** for a period or in respect of 2 times if it is reasonable to assume that the requirements of paragraphs (1)(a) and (b) are satisfied in respect of the period or the 2 times.

Subdivision 269-D—Pattern of distributions test

269-60 Pattern of distributions test

A trust *passes the pattern of distributions test* for an income year if, before the end of 2 months after the end of the income year:

- (a) the trust distributed directly or indirectly to the same individuals, for their own benefit, a greater than 50% share of all test year distributions of income (see subsection 269-65(1)); and
- (b) the trust distributed directly or indirectly to the same individuals (who may be different from those in paragraph (a)), for their own benefit, a greater than 50% share of all test year distributions of capital (see subsection 269-65(3)).

269-65 Test year distribution of income or capital

Test year distribution of income

- (1) A *test year distribution of income* is the total of all distributions of income made by the trust in any of the following periods, provided the period does not begin more than 6 years before the beginning of the income year:
 - (a) the period from the beginning of the income year until 2 months after its end;
 - (b) if the trust distributed income before the trigger year (see subsection (2))—the income year, before the trigger year, that is closest to the trigger year;
 - (c) if paragraph (b) does not apply and the trust distributed income in the trigger year—the trigger year;
 - (d) if neither paragraph (b) nor paragraph (c) applies—the income year, closest to the trigger year, in which the trust distributed income;
 - (e) each intervening income year (if any) between the one in paragraph (a) and the one in paragraph (b), (c) or (d).

Trigger year

- (2) If this Subdivision is being applied for the purposes of section 267-20, the **trigger year** is the loss year mentioned in that section. If it is being applied for the purposes of section 267-25, the **trigger year** is the year in which the debt mentioned in that section was incurred.

Test year distribution of capital

- (3) Subsection (1) applies in the same way to distributions of capital made by the trust, to determine what is a **test year distribution of capital**.

269-70 When individual receives different percentages

For the purposes of section 269-60, if the trust does not distribute to an individual the same percentage of income or capital for every test year distribution, the trust is taken to have distributed to the individual, for every test year distribution, the smallest percentage that it distributed to the individual for any of the test year distributions.

269-75 Incomplete distributions

For the purposes of section 269-60, if, before the end of 2 months after the end of the income year:

- (a) the trust has distributed directly or indirectly the whole or part of a test year distribution of income or test year distribution of capital to a company, partnership or trust (the **entity**); and
- (b) an amount (the **undistributed amount**) consisting of the whole or part of the income or capital so distributed to the entity satisfies the following requirements:
- (i) the amount has not been distributed by the entity; and
 - (ii) an individual, directly or indirectly, and for his or her own benefit, has a fixed entitlement to a share of the amount;

the entity is taken to have distributed the share of the undistributed amount to the individual immediately before the end of 2 months after the end of the income year.

269-80 Where individual's death or breakdown of marriage or relationship

- (1) For the purposes of section 269-60, if:
- (a) the trust distributes, directly or indirectly to an individual as mentioned in that section, income or capital that is included in a test year distribution; and
 - (b) a later distribution of income or capital is made that is included in the same or a different test year distribution; and
 - (c) either the individual dies before the later distribution is made or:
 - (i) before it is made, there is a breakdown in the marriage or relationship (see section 272-140) of the individual; and
 - (ii) after the breakdown, no distribution of income or capital of the trust, that is included in a test year distribution, is made directly or indirectly to the individual; and
 - (iii) it is reasonable to assume that the breakdown in the marriage or relationship is the reason for no such distribution being made;
- then subsections (2) and (3) apply.
- (2) No income or capital distributed to the individual by the trust, directly or indirectly as mentioned in section 269-60, is to be included in any test year distribution.
- (3) If:
- (a) the requirements of subsection (1) are met because the individual has died; and
 - (b) immediately before his or her death, the individual had directly or indirectly, and for his or her own benefit, a fixed entitlement to a share of the income or capital of the trust; and

- (c) after the individual's death, the fixed entitlement is held by a person as trustee of the individual's estate or by a person who received it as a beneficiary of the estate;
- no income or capital distributed to the person as such a trustee or beneficiary, directly or indirectly as mentioned in section 269-60, is to be included in any test year distribution.

269-85 Arrangements to pass pattern of distributions test

- (1) The trust is taken for the purposes of section 269-60 not to have distributed, directly or indirectly to an individual, and for the individual's own benefit, a share of a test year distribution of income or capital of the trust if the condition in subsection (2) is met.
- (2) The condition is that an arrangement was entered into where:
- (a) the arrangement in some way (directly or indirectly) related to, affected or depended for its operation on the share or its value; and
 - (b) the purpose, or one of the purposes, of the arrangement was to ensure that the trust would meet the condition in subsection 267-30(2).

Subdivision 269-E—Control a non-fixed trust**269-95 Control a non-fixed trust***Basic meaning*

- (1) Subject to this section, a group (see subsection (5)) ***controls a non-fixed trust*** if:
- (a) the group has the power, by means of the exercise of a power of appointment or revocation or otherwise, to obtain beneficial enjoyment (directly or indirectly) of the capital or income of the trust; or
 - (b) the group is able (directly or indirectly) to control the application of the capital or income of the trust; or

- (c) the group is capable, under a scheme, of gaining the beneficial enjoyment in paragraph (a) or the control in paragraph (b); or
- (d) the trustee is accustomed, under an obligation or might reasonably be expected, to act in accordance with the directions, instructions or wishes of the group; or
- (e) the group is able to remove or appoint the trustee; or
- (f) the group acquires more than a 50% stake in the income or capital of the trust.

Replacement group after death etc.

- (2) The consequences set out in subsection (3) apply if:
 - (a) a group (the **original group**) ceases to control a non-fixed trust only because of the death, incapacitation or breakdown in the marriage or relationship of the individual comprising, or an individual included in, the group; and
 - (b) another group (the **replacement group**) begins to control the trust within the following period (whether or not any other group controlled the trust in the interim):
 - (i) one year after the death, incapacitation or breakdown in the marriage or relationship; or
 - (ii) such longer period as the Commissioner determines in relation to the death, incapacitation or breakdown in the marriage or relationship; and
 - (c) the replacement group consists of:
 - (i) if the individual who died or became incapacitated or whose marriage or relationship broke down comprised the original group—one or more individuals who are members of the individual's family (see section 272-95); or
 - (ii) in any other case—one or more such individuals together with all of the persons who were members of the original group, other than any individual who has died or become incapacitated or whose marriage or relationship has broken down; and

- (d) the replacement group began to control the trust only because of the death, incapacitation or breakdown in the marriage or relationship of the individual; and
- (e) disregarding any individual who died or became incapacitated or whose marriage or relationship broke down and the one or more individuals covered by paragraph (c)—the beneficiaries of the trust immediately before the original group ceased to control the trust are the beneficiaries of the trust immediately after the replacement group begins to control the trust.

Consequences of subsection (2)

- (3) For the purposes of subsection (2), the consequences are that:
 - (a) the replacement group is taken to have controlled the trust from the time when the original group began to control it until the time when the replacement group actually began to control it; and
 - (b) the original group is taken *not* to have controlled the trust; and
 - (c) if:
 - (i) a person or persons (other than a replacement group) began to control the trust at some time during the period from the time the original group ceased to control the trust until the replacement group began to do so; and
 - (ii) the person or persons began to control the trust only because of the death, incapacitation or breakdown in the marriage or relationship of the individual; and
 - (iii) the control did not continue after the replacement group began to control the trust;the person or persons are taken *not* to have controlled the trust.

Deemed absence of control

- (4) If:
 - (a) at a particular time, a group controls a non-fixed trust; and
-

- (b) the Commissioner, having regard to:
- (i) the identity of the beneficiaries of the trust at any time before and at any time after the group began to control the trust; and
 - (ii) all other relevant circumstances;
- considers that it is reasonable that the group be taken not to control the trust at the particular time;
- the group is taken *not* to control the trust at the particular time.

Group

- (5) A **group** is:
- (a) a person; or
 - (b) a person and one or more associates; or
 - (c) 2 or more associates of a person.

Subdivision 269-F—Business continuity test

269-100 Passing the business continuity test

Basic meaning

- (1) A listed widely held trust **passes the business continuity test** during a period (the **business continuity test period**) in relation to a time (the **test time**) if throughout the business continuity test period it carries on the same business as it carried on immediately before the test time.

Relevance of being a trust

- (2) The mere fact of being a trust does not mean that the trust cannot carry on a business.

First exception

- (3) However, the trust does *not* pass the business continuity test under this section if, at any time during the business continuity test period, it derives assessable income from:

- (a) a business of a kind that it did not carry on before the test time; or
- (b) a transaction of a kind that it had not entered into in the course of its business operations before the test time.

Second exception

- (4) The trust also does *not* pass the business continuity test under this section if, before the test time, it:
 - (a) began to carry on a business it had not previously carried on; or
 - (b) in the course of its business operations, entered into a transaction of a kind that it had not previously entered into; and did so for the purpose, or for purposes including the purpose, of being taken to have carried on throughout the business continuity test period the same business as it carried on immediately before the test time.

Third exception

- (5) So far as the test is applied for the purpose of section 266-115 (Listed widely held trust may be required to work out its net income and tax loss in a special way) and section 268-20 (Widely held unit trust's income year to be divided into periods), the trust also does *not* pass the business continuity test under this section if, at any time during the business continuity test period, it incurs expenditure:
 - (a) in carrying on a business of a kind that it did not carry on before the test time; or
 - (b) as a result of a transaction of a kind that it had not entered into in the course of its business operations before the test time.

269-105 Modified test for income years starting on or after 1 July 2015

Cases in which businesses need only be similar

- (1) A listed widely held trust also **passes the business continuity test** during a period (the **business continuity test period**) in relation to a time (the **test time**) and in relation to:
- (a) a tax loss for a loss year starting on or after 1 July 2015; or
 - (b) net income for an income year starting on or after 1 July 2015; or
 - (c) a debt, incurred in an income year starting on or after 1 July 2015, that the trust writes off as bad; or
 - (d) a debt, incurred in an income year starting on or after 1 July 2015, in relation to which a debt/equity swap (within the meaning of section 63E) occurs;

if throughout the business continuity test period it carries on a business (its **current business**) that is similar to the business it carried on immediately before the test time (its **former business**).

Relevance of being a trust

- (2) The mere fact of being a trust does not mean that the trust cannot carry on a business.

Matters to be considered

- (3) Without limiting the matters that may be taken into account in ascertaining whether the trust's current business is similar to its former business, the following must be taken into account:
- (a) the extent to which the assets (including goodwill) that are used in its current business to generate assessable income throughout the business continuity test period were also used in its former business to generate assessable income;
 - (b) the extent to which the activities and operations from which its current business generated assessable income throughout the business continuity test period were also the activities and

operations from which its former business generated assessable income;

- (c) the identity of its current business and the identity of its former business;
- (d) the extent to which any changes to its former business result from development or commercialisation of assets, products, processes, services or marketing or organisational methods of the former business.

Exception

- (4) However, the trust does *not* pass the business continuity test under this section if, before the test time, it:
 - (a) began to carry on a business it had not previously carried on;
or
 - (b) in the course of its business operations, entered into a transaction of a kind that it had not previously entered into;
and did so for the purpose, or for purposes including the purpose, of being taken to have carried on throughout the business continuity test period a business that is similar to the business it carried on immediately before the test time.

Division 270—Schemes to take advantage of deductions

270-5 What this Division is about

A trust may be prevented from making any use of deductions, or full use of deductions in an income year, if a scheme to take advantage of the deductions exists.

270-10 Schemes to take advantage of deductions

Basic case

- (1) The consequences set out in section 270-15 result if:
- (a) a deduction is allowable to a trust for the income year; and
 - (b) under a scheme, the following happen (in any order):
 - (i) the trust derives an amount of assessable income (the ***scheme assessable income***) in the income year; and
 - (ii) an outsider to the trust (see section 270-25) directly or indirectly provides a benefit (see section 270-20) to the trustee, to a beneficiary in the trust or to an associate of the trustee or of a beneficiary; and
- Note: The benefit may constitute all or any of the scheme assessable income.
- (iii) the trustee, a beneficiary in the trust or an associate of the trustee or of a beneficiary, directly or indirectly provides a benefit to the outsider to the trust or to an associate of the outsider (other than an associate covered by any of paragraphs 270-25(1)(a) to (f)); and
- Note: The benefit may constitute all or any of the deduction.
- (c) it is reasonable to conclude that:
 - (i) the trust derived the scheme assessable income; or
 - (ii) the outsider provided the benefit as mentioned in subparagraph (b)(ii); or

- (iii) the trustee, beneficiary or associate provided the benefit as mentioned in subparagraph (b)(iii); wholly or partly, but not merely incidentally, because the deduction would be allowable; and
- (d) the trust is not an excepted trust under paragraph 272-100(b), (c) or (d).

Special case

- (2) If:
- (a) under a scheme, a person who, before the scheme was entered into, was an outsider to a trust becomes:
 - (i) the trustee of the trust; or
 - (ii) a person with a fixed entitlement to a share of the income or capital of the trust; and
 - (b) if the person had not ceased to be an outsider to the trust, the requirements of subsection (1) would have been satisfied in relation to the scheme;
- the requirements of subsection (1) are taken to have been satisfied in relation to the scheme.

270-15 Tax consequences of schemes

If the requirements of subsection 270-10(1) are satisfied, the consequences are that:

- (a) to the extent (if any) that the deduction mentioned in paragraph 270-10(1)(a) relates exclusively, or may appropriately be related, to the scheme assessable income, the deduction is not allowable; and
- (b) if the net income of the trust is less than the scheme assessable income or there is no net income—the trust has a net income equal to, or the net income is increased so that it equals, the scheme assessable income; and

- (1) A person or persons may make a written request to the Commissioner to be given a notice under subsection 271-90(1) or (2) in respect of specified circumstances in which family trust distribution tax may be payable.

Compliance with request for subsection 271-90(1) notice

- (2) In the case of a notice under subsection 271-90(1), the Commissioner must, subject to subsection (4) of this section, comply with the request if it is lodged with the Commissioner before the end of the 21 days mentioned in subsection 271-75(1) or (2), or before the end of such later day as the Commissioner allows.

Compliance with request for subsection 271-90(2) notice

271-105 Amounts subject to family trust distribution tax not assessable

- (1) If:
- (a) family trust distribution tax (the **tax payable**) becomes payable under any of sections 271-15 to 271-30 and 271-55 on the amount or value of income or capital of a company, partnership or trust; and
 - (b) a payment (the **tax payment amount**) of the whole or part of the tax payable is made, or a reduction (also the **tax payment amount**) in the whole or part of the tax payable takes place under paragraph 271-70(b); and
 - (c) taking into account any previous application of this subsection, the whole or part of the amount or value of the income or capital is included in the assessable income of the company, partnership or trust or of any other person;
- the amount included in the assessable income is reduced by the amount worked out using the formula in subsection (2).

- (2) The formula is:

$$\frac{\text{Tax payment amount}}{\text{Tax payable}} \times \text{Original assessable amount}$$

Schedule 2F Trust losses and other deductions

Division 271 Family trust distribution tax

Section 271-105

The *original assessable amount* is so much of the amount or value of the income or capital as, disregarding any previous reductions under this section, is included in the assessable income of the company, partnership or trust or of any other person.

- (3) The amount of the reduction is not assessable income and is not exempt income.

Division 272—Interpretation**Subdivision 272-A—Fixed entitlement to share of income or capital****272-5 Fixed entitlement to share of income or capital of a trust**

- (1) If, under a trust instrument, a beneficiary has a vested and indefeasible interest in a share of income of the trust that the trust derives from time to time, or of the capital of the trust, the beneficiary has a ***fixed entitlement*** to that share of the income or capital.

Case where interest not defeasible

- (2) If:
- (a) a person holds units in a unit trust; and
 - (b) the units are redeemable or further units are able to be issued; and
 - (c) if units in the unit trust are listed for quotation in the official list of an approved stock exchange—the units held by the person will be redeemed, or any further units will be issued, for the price at which other units of the same kind in the unit trust are offered for sale on the approved stock exchange at the time of the redemption or issue; and
 - (d) if the units are not listed as mentioned in paragraph (c)—the units held by the person will be redeemed, or any further units will be issued, for a price determined on the basis of the net asset value, according to Australian accounting principles, of the unit trust at the time of the redemption or issue;

then the mere fact that the units are redeemable, or that the further units are able to be issued, does not mean that the person's interest, as a unit holder, in the income or capital of the unit trust is defeasible.

Deemed fixed entitlement

- (3) If:
- (a) a beneficiary with an interest in a share of income that the trust derives from time to time, or of the capital of a trust, does not have a fixed entitlement to the share; and
 - (b) the Commissioner considers that the beneficiary should be treated as having the fixed entitlement, having regard to:
 - (i) the circumstances in which the entitlement is capable of not vesting or the defeasance can happen; and
 - (ii) the likelihood of the entitlement not vesting or the defeasance happening; and
 - (iii) the nature of the trust;
- the beneficiary has the fixed entitlement.

272-10 Fixed entitlement to share of income or capital of a company

- (1) If a shareholder in a company holds shares carrying the right to receive some or all of the dividends that may be paid by the company, the shareholder has a ***fixed entitlement*** to a share of the income of the company equal to the percentage of the total dividends represented by the dividends that the shareholder has a right to receive.
- (2) If a shareholder in a company holds shares carrying the right to receive the whole or part of any distribution of the paid-up share capital of the company in the event of any return of capital to shareholders, the shareholder has a ***fixed entitlement*** to a share of the capital of the company equal to the percentage of the total distribution represented by the amount that the shareholder has a right to receive.

272-15 Fixed entitlement to share of income or capital of a partnership

- (1) If, under a partnership agreement:

- (a) a partner is entitled to a share of income that the partnership derives from time to time, or of the capital of the partnership; and
 - (b) the share is not able to be varied;
- the partner has a ***fixed entitlement*** to that share of the income or capital.

Deemed fixed entitlement

- (2) If:
- (a) a partner does not have a fixed entitlement to a share of income that the partnership derives from time to time, or of the capital of a partnership, only because the partner's share of the income or capital is able to be varied; and
 - (b) the Commissioner considers that the partner should be treated as having the fixed entitlement, having regard to:
 - (i) the circumstances in which the share is able to be varied; and
 - (ii) the likelihood of the variation happening; and
 - (iii) the nature of the partnership;
- the partner has the fixed entitlement.

272-20 Fixed entitlement to share of income or capital held indirectly

A person holds a fixed entitlement to a share of the income or capital of a company, partnership or trust ***indirectly*** if the person holds the entitlement indirectly through fixed entitlements to shares of the income or capital, respectively, of interposed companies, partnerships or trusts.

then:

- (d) subsection (4) or (5) does not apply in relation to the special company during the whole or the part of the special company period; and

the shares held on behalf of the member or to dispose of those shares on behalf of the member;

 - (i) to take up shares in the demutualised entity or in a holding company to which shares in the demutualised entity are issued; or
 - (ii) to have shares in the demutualised entity issued to a trustee on behalf of the member; and

326-75 Capital losses made from certain disposals to be disregarded

A capital loss that the disposer makes from a disposal to which section 326-80 or 326-100 applies is to be disregarded.

326-80 Disposal by pre-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share before demutualisation listing day where member did not acquire membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of a demutualisation share (other than a demutualisation original share) or an interest in such a share; and
 - (b) the disposer did not acquire membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
 - (c) the disposer is a pre-CGT member; and
 - (d) the disposal occurs before the demutualisation listing day;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:
- (e) to have paid for the acquisition of the share or interest the amount worked out by using the formula:

$$\text{Adjusted market value} \times \frac{\text{Share or interest disposed of}}{\text{Total number of shares}}$$

- (f) to have paid that amount on the demutualisation resolution day;
- (g) to have acquired the share or interest on the demutualisation resolution day.

(2) In the formula in paragraph (1)(e):

total number of shares means the total number of demutualisation shares issued.

326-85 Disposal by pre-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share on or after demutualisation listing day where member did not acquire membership rights by disposing of membership rights in another mutual entity

(1) If:

- (a) the disposal is a disposal of a demutualisation share (other than a demutualisation original share) or an interest in such a share; and
- (b) the disposer did not acquire membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
- (c) the disposer is a pre-CGT member; and
- (d) the disposal occurs on or after the demutualisation listing day;

then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:

- (e) to have paid for the acquisition of the share or interest the lesser of the following amounts:
 - (i) the amount worked out by using the formula:

$$\text{Adjusted market value} \times \frac{\text{Share or interest disposed of}}{\text{Total number of shares}}$$

- (ii) the amount worked out by using the formula:
-

Division 326 Demutualisation

Section 326-90

$$\frac{\text{Adjusted first day trading price of the demutualisation shares}}{\times} \text{Share or interest disposed of}$$

- (f) to have paid the amount referred to in paragraph (e) on the demutualisation resolution day;
 - (g) to have acquired the share or interest on the demutualisation resolution day.
- (2) In the formula in subparagraph (1)(e)(i):

total number of shares means the total number of demutualisation shares issued.

326-90 Disposal by pre-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share where member acquired membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of a demutualisation share (other than a demutualisation original share) or an interest in such a share; and
 - (b) the disposer acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
 - (c) the disposer is a pre-CGT member;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:
- (d) to have paid for the acquisition of the share or interest both of the following amounts:
 - (i) the amount worked out by using the formula:

$$\left(\frac{\text{Undeducted membership costs}}{\text{Number of members}} + \frac{\text{Adjusted market value}}{\text{Number of members}} \right) \times \frac{\text{Share or interest disposed of}}{\text{Number of disposer's shares}}$$

- (ii) any amount actually paid for the acquisition;
 - (e) to have paid the amount referred to in subparagraph (d)(i) on the demutualisation resolution day;
 - (f) to have paid any amount referred to in subparagraph (d)(ii) when it was actually paid;
 - (g) to have acquired the share or interest on the demutualisation resolution day.
- (2) In the formula in subparagraph (1)(d)(i):

number of disposer's shares means the number of demutualisation shares issued to the disposer or in which the disposer had an interest.

number of members means the total number of members of the other mutual entity at the time of the disposal of the membership rights in that entity.

326-95 Disposal by post-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share

- (1) If:
- (a) the disposal is a disposal of a demutualisation share (other than a demutualisation original share) or an interest in such a share; and
 - (b) the disposer is a post-CGT member;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:
- (c) to have paid for the acquisition of the share or interest both of the following amounts:

Division 326 Demutualisation

Section 326-100

- (i) the amount worked out by using the formula:

$$\text{Undeducted membership costs} \times \frac{\text{Share or interest disposed of}}{\text{Number of disposer's shares}}$$

- (ii) any amount actually paid for the acquisition;
- (d) to have paid the amount referred to in subparagraph (c)(i) on the demutualisation resolution day;
- (e) to have paid any amount referred to in subparagraph (c)(ii) when it was actually paid;
- (f) to have acquired the share or interest on the demutualisation resolution day.
- (2) In the formula in subparagraph (1)(c)(i):

number of disposer's shares means the number of demutualisation shares issued to the disposer or in which the disposer had an interest.

326-100 Disposal by pre-CGT member of a demutualisation original share or a non-demutualisation bonus share, or an interest in such a share, before demutualisation listing day where member did not acquire membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of either:
- (i) a demutualisation original share or an interest in such a share; or
 - (ii) a non-demutualisation bonus share or an interest in such a share; and
- (b) the disposer did not acquire membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
- (c) the disposer is a pre-CGT member; and
- (d) the disposal occurs before the demutualisation listing day;
-

then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the following paragraphs have effect:

- (e) for the purpose of applying Subdivision 130-A of the *Income Tax Assessment Act 1997*, the amount paid for the acquisition of all the demutualisation original shares that is to be taken into account under that Division or Subdivision, as the case may be, is taken to be the amount worked out by using the formula:

$$\text{Adjusted market value} \times \frac{\text{Number of disposer's shares}}{\text{Total number of shares}}$$

- (f) if the disposal is a disposal of a demutualisation original share or an interest in such a share, the disposer is taken:
- (i) to have paid the amount referred to in paragraph (e) on the demutualisation resolution day; and
 - (ii) to have acquired the share or interest on the demutualisation resolution day.

- (2) In the formula in paragraph (1)(e):

number of disposer's shares means the number of demutualisation original shares issued to the disposer or in which the disposer had an interest.

total number of shares means the total number of demutualisation shares issued.

326-105 Disposal by pre-CGT member of a demutualisation original share or a non-demutualisation bonus share, or an interest in such a share, on or after demutualisation listing day where member did not acquire membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of either:

Schedule 2H Demutualisation of mutual entities other than insurance companies and health insurers

Division 326 Demutualisation

Section 326-105

- (i) a demutualisation original share or an interest in such a share; or
- (ii) a non-demutualisation bonus share or an interest in such a share; and
- (b) the disposer did not acquire membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
- (c) the disposer is a pre-CGT member; and
- (d) the disposal occurs on or after the demutualisation listing day;

then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the following paragraphs have effect:

- (e) for the purpose of applying Subdivision 130-A of the *Income Tax Assessment Act 1997*, the amount paid for the acquisition of all the demutualisation original shares that is to be taken into account under that Division or Subdivision, as the case may be, is taken to be the lesser of the following amounts:

- (i) the amount worked out by using the formula:

$$\frac{\text{Adjusted market value}}{\text{value}} \times \frac{\text{Number of disposer's shares}}{\text{Total number of shares}}$$

- (ii) the amount worked out by using the formula:

$$\frac{\text{Adjusted first day trading price of the demutualisation shares}}{\text{shares}} \times \text{Number of disposer's shares}$$

- (f) if the disposal is a disposal of a demutualisation original share or an interest in such a share, the disposer is taken:
 - (i) to have paid the amount referred to in paragraph (e) on the demutualisation resolution day; and
 - (ii) to have acquired the share or interest on the demutualisation resolution day.

- (2) In the formulas in subparagraphs 1(e)(i) and (ii):
-

number of disposer's shares means the number of demutualisation original shares issued to the disposer or in which the disposer had an interest.

total number of shares means the total number of demutualisation shares issued.

326-110 Disposal by pre-CGT member of a demutualisation original share or a non-demutualisation bonus share, or an interest in such a share, where member acquired membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of either:
 - (i) a demutualisation original share or an interest in such a share; or
 - (ii) a non-demutualisation bonus share or an interest in such a share; and
 - (b) the disposer acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
 - (c) the disposer is a pre-CGT member;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the following paragraphs have effect:

Division 326 Demutualisation

Section 326-115

- (e) if the disposal is a disposal of a demutualisation original share or an interest in such a share, the disposer is taken:

326-120 Adjusted market value

Where membership rights not acquired by disposal of rights in another entity

- (1) For the purposes of this Subdivision, the **adjusted market value**, when the expression is used in relation to a disposer who did not acquire membership rights in the demutualising entity by disposing of membership rights in another mutual entity, is the market value, as determined by a qualified valuer, of the demutualising entity on the demutualisation resolution day. However, in making the determination the valuer is to disregard the franking surplus of that entity on that day.

Where membership rights acquired by disposal of rights in another entity

- (2) For the purposes of this Subdivision but subject to subsection (3), the **adjusted market value**, when the expression is used in relation to a disposer who acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity, is the market value, as determined by a qualified valuer, of the other entity at the time immediately before the disposer disposed of membership rights in the other entity. However, in making the determination the valuer is to disregard the franking surplus of the other entity at that time.

Division 326 Demutualisation

Section 326-125

Indexation of amount mentioned in subsection (2)

- (3) If the indexation factor (see section 326-235) of the amount worked out under subsection (2) is more than one, that amount is taken to be replaced by that amount as indexed under Subdivision 326-M.

326-125 Undeducted membership costs

- (1) For the purposes of this Subdivision, the ***undeducted membership costs***, when the expression is used in relation to a disposer who did not acquire membership rights in the demutualising entity by the disposal of membership rights in another mutual entity, are the sum of the undeducted amounts of the costs that were incurred by the disposer in acquiring and maintaining membership in the demutualising entity less any distributions that:
- (a) were made by the demutualising entity to the disposer before any shares in the demutualised entity were issued; and
 - (b) were not included in the disposer's assessable income of any year of income.
- (2) For the purposes of this Subdivision, the ***undeducted membership costs***, when the expression is used in relation to a disposer who acquired membership rights in the demutualising entity by the disposal of membership rights in another mutual entity, are:

- (i) the undeducted amounts of the costs that were incurred by the disposer in acquiring and maintaining membership in the other entity; and
 - (ii) the undeducted amounts of the costs that were incurred by the disposer in maintaining membership in the demutualising entity;
- less any distributions that:
- (iii) were made by the demutualising entity or the other entity to the disposer before any shares in the demutualised entity were issued; and
 - (iv) were not included in the disposer's assessable income of any year of income.
- (3) If at any time 2 or more persons were joint members of a mutual entity, any costs incurred by any one or more of them in acquiring or maintaining the joint membership are taken to have been incurred by each of them.

- (5) If:
- (a) an amount of a cost referred to in subsection (1) or (2) was incurred before the demutualisation resolution day; and
 - (b) the indexation factor (see section 326-235) of the amount is more than one;
- a reference in this section to the undeducted amount of that cost is a reference to the undeducted amount as indexed under Subdivision 326-M.

- (2) For the purposes of this Subdivision, if any of the original equities mentioned in Subdivision 130-A of the *Income Tax Assessment Act 1997*, is a demutualisation share, it is called a *demutualisation original share*.

Division 326 Demutualisation

Section 326-140

326-140 Disposal by pre-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share where a member did not acquire membership rights by disposing of membership rights in another mutual entity

- (1) If:
- (a) the disposal is a disposal of a demutualisation share (other than a demutualisation original share) or an interest in such a share; and
 - (b) the disposer did not acquire membership rights in the demutualisation entity by disposing of membership rights in another mutual entity; and
 - (c) the disposer is a pre-CGT member;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:
- (d) to have paid for the acquisition of the share or interest the amount worked out by using the formula:
$$\text{Adjusted market value} \times \frac{\text{Share or interest disposed of}}{\text{Total number of shares}}$$
 - (e) to have paid that amount on the demutualisation resolution day;
 - (f) to have acquired the share or interest on the demutualisation resolution day.

- (2) In the formula in paragraph (1)(d):

total number of shares means the total number of demutualisation shares issued.

326-145 Disposal by pre-CGT member of a demutualisation share (other than a demutualisation original share) or an interest in such a share where member acquired membership rights by disposing of membership rights in another mutual entity

- (b) the disposer acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
- (c) the disposer is a pre-CGT member;

then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the disposer is taken to have done the following:

(d) to have paid for the acquisition of the share or interest both of the following amounts:

(i) the amount worked out by using the formula:

$$\left(\frac{\text{Undeducted membership costs}}{\text{Number of members}} + \frac{\text{Adjusted market value}}{\text{Number of members}} \right) \times \frac{\text{Share or interest disposed of}}{\text{Number of disposer's shares}}$$

- (ii) any amount actually paid for the acquisition;

- (f) to have paid any amount referred to in subparagraph (d)(ii) when it was actually paid;
- (g) to have acquired the share or interest on the demutualisation resolution day.

(2) In the formula in subparagraph (1)(d)(i):

$$\text{Undeducted membership costs} \times \frac{\text{Share or interest disposed of}}{\text{Number of disposer's shares}}$$

(ii) any amount actually paid for the acquisition;

(d) to have paid the amount referred to in subparagraph (c)(i) on the demutualisation resolution day;

- (d) for the purpose of applying Subdivision 130-A of the *Income Tax Assessment Act 1997*, the amount paid for the acquisition of all the demutualisation original shares that is to be taken into account under that Division or Subdivision, as the case may be, is taken to be the amount worked out by using the formula:

$$\text{Adjusted market value} \times \frac{\text{Number of disposer's shares}}{\text{Total number of shares}}$$

- (e) if the disposal is a disposal of a demutualisation original share or an interest in such a share, the disposer is taken:

Division 326 Demutualisation

Section 326-160

- (i) to have paid the amount referred to in paragraph (d) on the demutualisation resolution day; and

 - (b) the disposer acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity; and
 - (c) the disposer is a pre-CGT member;
- then, for the purpose of working out whether the disposer made a capital gain or capital loss from the disposal, the following paragraphs have effect:

(d) for the purpose of applying Subdivision 130-A of the *Income Tax Assessment Act 1997*, the amount paid for the acquisition of all the demutualisation original shares that is to be taken into account under that Division or Subdivision, as the case may be, is taken to be both of the following amounts:

(i) the amount worked out by using the formula:

$$\frac{\text{Undeducted membership costs}}{\text{Number of members}} + \frac{\text{Adjusted market value}}{\text{Number of members}}$$

(ii) any amount actually paid for the acquisition; and

(e) if the disposal is a disposal of a demutualisation original share or an interest in such a share, the disposer is taken to have done the following:

- (c) for the purpose of applying Subdivision 130-A of the *Income Tax Assessment Act 1997*, the amount paid for the acquisition of all the demutualisation original shares that is to be taken into account under that Division or Subdivision, as the case may be, is taken to be both of the following amounts:

326-170 Various adjusted market values

Application

- (1) This section has effect for the purposes of this Subdivision.

Where membership rights not acquired by disposal of rights in another entity

- (2) The **adjusted market value**, when the expression is used in relation to a disposer who did not acquire membership rights in the demutualising entity by disposing of membership rights in another

mutual entity, is the lesser of the issue day adjusted market value and the resolution day adjusted market value.

- (3) The **adjusted market value**, when the expression is used in relation to a disposer who acquired membership rights in the demutualising entity by disposing of membership rights in another mutual entity, is the disposal day adjusted market value.

Issue day adjusted market value

- (4) The **issue day adjusted market value** is the market value, as determined by a qualified valuer, of the demutualised entity on the day on which the demutualisation shares were issued. However, in making the determination the valuer is to disregard the franking surplus of the demutualised entity on that day.

Resolution day adjusted market value

- (5) The **resolution day adjusted market value** is the market value, as determined by a qualified valuer, of the demutualising entity on the demutualisation resolution day. - (6) Subject to subsection (7), the **disposal day adjusted market value** is the market value, as determined by a qualified valuer, of the other entity at the time immediately before the disposer disposed of membership rights in the other entity. However, in making the determination the valuer is to disregard the franking surplus of the other entity at that time.

Indexation of amount mentioned in subsection (6)

- (7) If the indexation factor (see section 326-235) of the amount worked out under subsection (6) is more than one, that amount is
-

taken to be replaced by that amount as indexed under Subdivision 326-M.

326-175 Undeducted membership costs

- (1) For the purposes of this Subdivision, the ***undeducted membership costs***, when the expression is used in relation to a disposer who did not acquire membership rights in the demutualising entity by the disposal of membership rights in another mutual entity, are the sum of the undeducted amounts of the costs that were incurred by the disposer in acquiring and maintaining membership in the demutualising entity less any distributions that:
 - (a) were made by the demutualising entity to the disposer before any shares in the demutualised entity were issued; and
 - (b) were not included in the disposer's assessable income of any year of income.

- (2) For the purposes of this Subdivision, the ***undeducted membership costs***, when the expression is used in relation to a disposer who acquired membership rights in the demutualising entity by the disposal of membership rights in another mutual entity, are the sum of:
 - (a) if the disposer was a pre-CGT member—the undeducted amounts of the costs that were incurred by the disposer in maintaining membership in the demutualising entity less any distributions that:
 - (i) were made by the demutualising entity to the disposer before any shares in the demutualised entity were issued; and
 - (ii) were not included in the disposer's assessable income of any year of income; or

less any distributions that:
 - (iii) were made by the demutualising entity or the other entity to the disposer before any shares in the demutualised entity were issued; and
 - (iv) were not included in the disposer's assessable income of any year of income.
- (3) If at any time 2 or more persons were joint members of a mutual entity, any costs incurred by any one or more of them in acquiring or maintaining the joint membership are taken to have been incurred by each of them.
- (4) Subject to subsection (5), the **undeducted amount of a cost** is the amount of the cost to the extent to which a deduction has not been allowed, and is not allowable, in respect of it.
- (5) If:
 - (a) an amount of a cost referred to in subsection (1) or (2) was incurred before the demutualisation resolution day; and
 - (b) the indexation factor (see section 326-235) of the amount is more than one;a reference in this section to the undeducted amount of that cost is a reference to the undeducted amount as indexed under Subdivision 326-M.
