(3.) The financial assistance to a State under this section in relation to a University is granted on the conditions that—

- (a) the State will, in respect of each payment in respect of that financial assistance and without undue delay, pay to the University an amount equal to that payment; and

(4.) In the application of this section in relation to the South Australian Institute of Technology—

- (a) the reference in sub-section (1.) of this section to fees and State grants received by a University shall be read as a reference to fees and State grants received by the South Australian Institute of Technology and expended on courses of study at that Institute recognized by the University of Adelaide for the purposes of courses for degrees at that University; and

(3.) Where the Minister is satisfied that a University, in a year to which this Part applies, pays basic professorial remuneration at a rate higher than the approved rate for the purposes of financial assistance under this Act, the Minister may, by instrument under his hand, determine that the amount payable under sub-section (2.) of the last preceding section in relation to that University in respect of that year shall be limited to such amount as he considers would have been the amount so payable but for increases in State grants received by the University by reason of the payment of basic professorial remuneration at a rate in excess of the approved rate and by reason of the effect of the adoption of that rate on other rates of remuneration paid by the University.

(4.) Where the Minister signs an instrument under this section, he shall—
