Part VIAA—Superannuation guarantee top-up benefit

110SA Purpose of Part

The purpose of this Part is to establish, in respect of certain persons who cease to be eligible employees, an entitlement to a benefit (called *superannuation guarantee top-up benefit*) so that an employer of such a person while the person was an eligible employee does not have an individual superannuation guarantee shortfall within the meaning of the *Superannuation Guarantee (Administration) Act 1992* in relation to that person in respect of the period, or any part of the period, during which the person was an eligible employee.

110SB Interpretation

- (1) In this Part, unless the contrary intention appears:

accumulated government body contributions, in relation to a person's relevant period of employment, means the total of:

- (a) the total amount of the productivity contributions applicable to the person in respect of the period; and
- (b) notional interest on the amount worked out under paragraph (a).

government body scheme means a superannuation scheme:

- (a) established by, or operating for the benefit of employees of:
 - (i) an authority of the Commonwealth; or
 - (ii) a State or an authority of a State; or
 - (iii) a Territory or an authority of a Territory; or
 - (iv) a body corporate in which the Commonwealth, or a person of the kind referred to in paragraph (i), (ii) or (iii), either individually or in combination with one or more other such persons, has a controlling interest; and

Section 110SB

- (b) that has eligible employees as members; and
- (c) under which productivity contributions accrue in respect of those eligible employees.

notional accumulated SG contributions, in relation to a person's relevant period of employment, means an amount equal to the sum of:

- (a) the person's SG minimum contributions in relation to that period as reduced by an amount specified in, or worked out in accordance with, a determination made by an actuary under subsection (5); and
- (b) notional interest on the amount worked out under paragraph (a).

other vested benefit, in relation to a person, means the value that CSC, having regard to the advice of the Australian Government Actuary, determines to be the value that the benefits paid or payable in respect of the person's relevant period of employment would have if the total amount of these benefits were taken not to include:

- (a) the amount equal to the total of whichever of the following amounts is, or are, applicable:
 - (i) the amount equal to that part of the accumulated employer contributions in respect of the person that is based on the operation of paragraphs 110Q(1)(a) and (b) in relation to productivity contributions paid or payable after 30 June 1992;
 - (ii) the amount equal to that part of an amount paid by or in respect of the person that is based on the operation of paragraphs 110Q(1)(e) and (f) in relation to payments made under section 110L in relation to any period commencing after 30 June 1992;
 - (iii) the amount equal to that part of an amount paid by or in respect of the person that is based on the operation of paragraphs 110Q(1)(e) and (f) in relation to payments made under section 110M in relation to any period commencing after 30 June 1992;

- (iv) the amount equal to that part of an amount paid by or in respect of the person that is based on the operation of paragraphs 110Q(1)(e) and (f) in relation to payments made under section 110MA in relation to any period commencing after 30 June 1992;
- (b) the amount equal to that part of the person's accumulated contributions based on contributions that became payable, by the person, after 30 June 1992;
- (c) if a benefit is payable in respect of the person under Part VIAB—the amount equal to that benefit;
- (d) if a benefit is payable in respect of the person under Subdivision B of Division 2 of Part IX—the amount equal to that benefit.

period of actual contributory service, in relation to a person, means the person's period of contributory service other than any part of that period added by the operation of subsection 128(5) that is not attributable to a transfer value previously paid under Division 3 of Part IX.

productivity contribution means:

- (a) in relation to a person who is a productivity employee within the meaning of Part VIA—a productivity contribution within the meaning of that Part (other than an amount taken to be a productivity contribution by virtue of the operation of paragraph 128(2)(c)); or
- (b) in relation to any other person—an amount similar in kind to such a productivity contribution, whether worked out under an industrial award or otherwise.

rate of fund contribution tax means 15% or such other rate as is determined by CSC under section 110SD.

relevant period of employment, in relation to a person, means:

- (a) if the whole of the person's period of actual contributory service occurred after 30 June 1992—that period; or

Section 110SB

- (b) if part only of the person's period of actual contributory service occurred after that date—that part of the person's period of actual contributory service.

SG minimum contribution has the meaning given by section 110SC.

top-up benefit means superannuation guarantee top-up benefit payable under section 110SE.

- (2) For the purposes of paragraph (a) of the definition of ***accumulated government body contributions*** in subsection (1), the amount of a productivity contribution applicable to a person in relation to a particular period (***the accrual period***) is:
 - (a) if the relevant government body scheme provides for productivity contributions (applicable to all eligible employees who are members of the scheme) that may be expressed as a percentage of the earnings (as described for the purposes of the scheme) of each employee—that percentage of the earnings of the person for the accrual period based on the person's fortnightly rate of salary that, for the purposes of section 46, was payable on the most recent anniversary of birth of the person; or
 - (b) if the relevant government body scheme provides for productivity contributions (applicable to a class of eligible employees identified by the scheme) that may be expressed as a percentage of the earnings (as described for the purposes of the scheme) of each employee in the class, and the percentage is lower than the corresponding percentage for any other class of eligible employees—that percentage of the earnings of the person for the accrual period based on the person's fortnightly rate of salary that, for the purposes of section 46, was payable on the most recent anniversary of birth of the person; or
 - (c) if the relevant government body scheme is a defined benefit superannuation scheme within the meaning of the *Superannuation Guarantee (Administration) Act 1992* that provides for a productivity related benefit applicable to all

eligible employees who are members of the scheme—the contribution percentage, in relation to that benefit, of the earnings of the person for the accrual period based on the person's fortnightly rate of salary that, for the purposes of section 46, was payable on the most recent anniversary of birth of the person.

- (3) For the purposes of paragraph (2)(c), **contribution percentage** means the rate of contribution, expressed as a percentage of the eligible employees' earnings and certified by an actuary, required to provide the productivity related benefit.
- (4) The percentage referred to in paragraph (2)(a) or (b) must be certified by the person's employer.
- (5) For the purposes of the definition of **notional accumulated SG contributions** in subsection (1), an actuary is to determine:
 - (a) an amount representing the cost of death and invalidity cover relevant to the person's SG minimum contributions; or
 - (b) a means of working out such an amount.

110SC Interpretation—SG minimum contribution

- (1) The SG minimum contribution in respect of an eligible employee on a contribution day during the eligible employee's relevant period of employment is 4% of the fortnightly rate of salary that, for the purposes of section 46, was payable to the eligible employee on the anniversary of his or her birth immediately preceding the contribution day.
- (2) CSC may vary the percentage mentioned in subsection (1) by determination.
- (3) In so determining, CSC is to have regard to the charge percentage as specified in subsection 19(2) of the *Superannuation Guarantee (Administration) Act 1992*.
- (4) A determination by CSC under subsection (2) takes effect on:
 - (a) a day stated in the determination; or

Section 110SD

- (b) if no day is stated—the day of the making of the determination;
- and CSC must cause a copy of the determination to be published in the *Gazette*.

110SD CSC may determine rate of fund contribution tax

- (1) CSC may vary the percentage mentioned in the definition of *rate of fund contribution tax* in subsection 62A(1) or 110SB(1) by determination.
- (2) The determination:
 - (a) takes effect from such date as is specified in the determination; and
 - (b) may provide for a percentage of nil.
- (3) In making the determination, CSC is to have regard to the rate of tax payable on employer contributions paid to a superannuation fund.
- (4) CSC must cause a copy of the determination to be published in the *Gazette*.

110SE Superannuation guarantee top-up benefit

- (1) Superannuation guarantee top-up benefit is payable to or in respect of a person who ceases to be an eligible employee in respect of his or her relevant period of employment if an amount greater than nil is worked out, under whichever of subsections (3) and (4) is applicable, in relation to the person for that period.
- (2) The top-up benefit is:
 - (a) if paragraph (b) does not apply—a lump sum benefit equal to the amount referred to in subsection (1); or
 - (b) if:
 - (i) the person's surcharge debt account is in debit when the top-up benefit becomes payable; and

- (ii) the top-up benefit is to be paid to the person or to a preservation fund for the benefit of the person; a lump sum benefit equal to the difference between the amount referred to in subsection (1) (**basic amount**); and
 - (iii) if subparagraphs (iv) and (v) do not apply—the person’s surcharge deduction amount; or
 - (iv) if part of the person’s surcharge deduction amount has, under another provision of this Act, been deducted from a benefit payable to the person—the balance of the surcharge deduction amount; or
 - (v) if the person’s surcharge deduction amount, or the balance of the surcharge deduction amount referred to in subparagraph (iv), is greater than the basic amount—so much of the surcharge deduction amount, or of the balance of the surcharge deduction amount, as is equal to the basic amount.
- (2A) Paragraph (2)(b) does not apply if the whole of the person’s surcharge deduction amount has, under another provision of this Act, been deducted from a benefit payable to the person.
- (3) If the person’s employer was liable to pay productivity contributions under section 110H in respect of the person for his or her relevant period of employment, the amount mentioned in subsection (1) is the amount worked out using the formula:

$$\text{NASGC} - \frac{\text{AEC} \times 100}{(100 - \text{TR})} - \text{OVB}$$

where:

NASGC is the notional accumulated SG contributions in respect of the person for the person’s relevant period of employment.

AEC is that part of the accumulated employer contributions in respect of the person that is based on the operation of paragraphs 110Q(1)(a) and (b) in relation to productivity contributions paid or payable after 30 June 1992.

Section 110SE

TR is the percentage figure representing the rate of fund contribution tax applicable to that period.

OVB is the person's other vested benefit in respect of that period.

- (3A) Reductions under Division 3 of Part IXB are to be disregarded in applying subsection (3) of this section.
- (4) If the person's employer was liable to pay productivity contributions to a government body scheme in respect of the person for his or her relevant period of employment, the amount mentioned in subsection (1) is whichever of the following amounts is determined by CSC after having regard to the views of the government body:

(a) an amount of nil;

(b) an amount worked out using the formula:

$$\text{NASGC} - \text{AGBC} - \text{OVB};$$

(c) an amount worked out using the formula:

$$\text{NASGC} - \frac{\text{GBB} \times 100}{(100 - \text{TR})} - \text{OVB},$$

(d) an amount worked out using the formula:

$$\text{NASGC} - \frac{\text{GBPROD} \times 100}{(100 - \text{TR})} - \text{OVB},$$

where:

NASGC is the notional accumulated SG contributions in respect of the person for the person's relevant period of employment.

AGBC is the accumulated government body contributions in respect of the person for the relevant period of employment.

OVB is the person's other vested benefit in respect of that period.

- (a) the person had not ceased to be an eligible employee; and
 - (b) the person had continued to occupy the office or position in respect of which the person's final annual rate of salary was calculated; and

 - (ii) in respect of so much of the period as occurred on or after 1 July 2003—the person's annual rate of salary

had been increased by the same percentage as any overall percentage increase in AWOTE that occurred over the period (being an overall percentage increase worked out from estimates of changes in AWOTE in respect of the period published by the Australian Statistician, other than estimates published in substitution for earlier estimates).

- (3) For the purposes of paragraph (2)(c), an *excluded increase* is an increase that falls within either or both of the following paragraphs:

then, whether or not the person made an election under subsection 64(2), the spouse may make, not later than 3 months after the death of the person, by notice in writing to CSC, an election to commute that pension into a lump sum benefit payable to him or her.
- (2) If a spouse makes an election under subsection (1) to commute a pension, a lump sum benefit equal to the amount of the accumulated contributions of the deceased person is payable to the spouse and spouse's additional pension is not payable under paragraph 93(1)(b) to the spouse.

 - (b) after that amount was, or those amounts were, paid, the person makes an election under section 110T;
- the election does not have effect unless an amount equal to that amount or to the aggregate of those amounts, as the case requires, is paid to CSC within 7 days after the date of the election or within such further period as CSC, in special circumstances, allows.
- (2) Where an amount is paid to CSC by a person under subsection (1), CSC must pay that amount to the Commonwealth and there must be paid out of the Consolidated Revenue Fund (which is appropriated accordingly) into the Superannuation Fund an amount equal to so much of the amount paid to CSC as is equal to the amount that was paid to the Commonwealth under section 112 at the time that the person ceased to be an eligible employee.

- (4) Where a transfer value is, by virtue of subsection (3), to be deemed, for the purposes of this Division, to have become payable in respect of a person upon the termination of any employment by reason that, upon the termination of that employment, the person was the owner of a life policy, or was entitled to have the rights of the owner of a life policy assigned to him or her, a transfer value

where:

conversion factor means the factor that is applicable to the person under the determination made by CSC under section 146D.

pre-commutation election pension rate means the annual rate at which the pension was payable to the person immediately before the election was made.

Additional age retirement pension or additional early retirement pension

- (2) CSC must, in accordance with advice received from an actuary, determine in writing, in relation to persons to whom an additional age retirement pension, an additional early retirement pension or a

deferred benefit by way of any such pension has become payable, the conversion factor that, having regard to:

- (a) a person's age when he or she makes an election under section 146C; and
- (b) other relevant factors (if any);

is applicable for the purpose of working out, in relation to the person, the yearly amount that would have to be paid to discharge a liability equal to the person's surcharge commutation amount (within the meaning of section 146C).

Part of spouse's pension

- (10) To avoid doubt, if subsection 109AB(9) or 110(12) applies to an election under subsection (1) of this section, this section has effect, in relation to the election, as if a reference to the spouse's pension were a reference to the part of the spouse's pension concerned.

- (1) CSC must, following consultation with an actuary, determine in writing, in relation to persons who are receiving a spouse's pension, the method that, having regard to:
- (a) a person's age when he or she makes an election under section 146E; and
 - (b) other relevant factors (if any);
- is applicable for the purpose of working out, in relation to the person, the yearly amount that would have to be paid to discharge a liability equal to the person's surcharge commutation amount (within the meaning of section 146E).
- (2) A determination under this section is to be published in the *Gazette*.

Division 2—Benefits for non-member spouse

146MB Associate pension or deferred benefits for non-member spouse

- (1) This section applies to a superannuation interest under this Act (the *original interest*) if:
 - (a) CSC receives a splitting agreement or splitting order in respect of the original interest; and
 - (b) the original interest is not an entitlement to an orphan pension; and
 - (c) the member spouse and the non-member spouse are both alive at the operative time; and
 - (d) if a base amount applies—the base amount at the operative time is not more than the family law value or the scheme value.

Pension if operative time in payment phase

- (2) If, at the operative time, standard pension is payable in respect of the original interest, then the non-member spouse is entitled to associate standard pension from the operative time, at the rate calculated under the Orders by reference to the transfer amount.
- (3) If, at the operative time, additional pension is payable in respect of the original interest, then the non-member spouse is entitled to associate additional pension from the operative time, at the rate calculated under the Orders by reference to the transfer amount.

Deferred benefits if operative time in growth phase

- (4) If, at the operative time, standard pension is not payable in respect of the original interest, then the non-member spouse is entitled to associate deferred benefits in accordance with section 146MC.

146MC Associate deferred benefits

- (1) Associate deferred benefits consist of:
 - (a) a lump sum equal to the funded component of the transfer amount, plus interest determined under section 154A; and
 - (b) an associate deferred pension at an annual rate calculated under the Orders by reference to the unfunded component.
- (2) The benefits become payable at the later of:
 - (a) the operative time; and
 - (b) the earliest of the following dates:
 - (i) if CSC is satisfied that the non-member spouse has, because of invalidity or physical or mental incapacity, become totally and permanently incapacitated within the meaning of Part IVA—the date that CSC considers to have been the date on which the person became so incapacitated;
 - (ii) a date notified to CSC under subsection (3);
 - (iii) the 65th anniversary of the non-member spouse's birth.
- (3) The non-member spouse may give a written notice to CSC specifying a date that is not earlier than the 55th anniversary of the non-member spouse's birth. However, the notice has no effect if, under the SIS Act, the associate deferred pension is not permitted to be paid in cash to the non-member spouse from the specified date.
- (4) The benefits are not payable unless:
 - (a) a written application has been made to CSC requesting payment of the benefits; and
 - (b) the applicant has given CSC any information that is necessary to enable CSC to determine whether the benefits are payable.
- (5) If the non-member spouse dies before the benefits become payable, CSC must pay the following amounts to the legal personal representative or, if no legal personal representative can be found, to any individual or individuals that CSC determines:

Section 146MD

- (a) the amount referred to in paragraph (1)(a);
 - (b) an amount calculated under the Orders in respect of the associate deferred pension.
- (6) When the amount referred to in paragraph (1)(a) becomes payable, or is paid under paragraph (5)(a), an equal amount must be paid out of the Superannuation Fund to the Commonwealth.

146MD Commutation of small associate pension

- (1) If:
- (a) the total annual rate of associate standard pension and associate additional pension (if any) to which the non-member spouse becomes entitled; or
 - (b) the annual rate of associate deferred pension to which the non-member spouse becomes entitled;
- is less than the amount determined under the Orders, then the non-member spouse may elect to commute those pensions or that pension.
- (2) The election must be made in writing to CSC not later than 3 months after the non-member spouse becomes entitled to the pensions or pension.
- (3) If the non-member spouse makes the election, then the non-member spouse is entitled instead to:
- (a) if paragraph (1)(a) applies—a lump sum equal to the transfer amount; or
 - (b) if paragraph (1)(b) applies—a lump sum calculated under the Orders.

Division 3—Reduction of benefits for member spouse

146ME Operative time during growth phase—reduction of benefits

- (1) This section applies if:
- (a) at the operative time, standard pension is not payable in respect of the original interest; and
 - (b) the original interest is not an entitlement to associate deferred benefits.

Reduction of accumulated contributions etc.

- (2) The following amounts are reduced in respect of the original interest:
- (a) the accumulated basic contributions are reduced by the sum of:
 - (i) the basic contributions component; and
 - (ii) the interest accruing on that component after the operative time;
 - (b) the accumulated supplementary contributions are reduced by the sum of:
 - (i) the supplementary contributions component; and
 - (ii) the interest accruing on that component after the operative time;
 - (c) the accumulated employer contributions are reduced by the sum of:
 - (i) the employer contributions component; and
 - (ii) the interest accruing on that component after the operative time;
 - (d) any benefit under section 110SN is reduced by the sum of:
 - (i) the section 110SL component; and
 - (ii) the interest accruing on that component after the operative time;
 - (e) any benefit under section 130D is reduced by the sum of:
 - (i) the section 130B component; and

Section 146ME

- (ii) the interest accruing on that component after the operative time.

Reduction of later salary-based pension

- (3) If, after the operative time, salary-based pension (the **original pension**) becomes payable to the member spouse in respect of the original interest, then the annual rate of the original pension is reduced to the amount worked out using the formula:

$$\text{Final annual rate of salary} \times \left(\frac{\text{Original pension amount}}{\text{Final salary amount}} - \text{Reduction factor} \right)$$

Note: If the member spouse dies without becoming entitled to salary-based pension, then subsection (3) will nevertheless result in an indirect reduction of any spouse's pension that becomes payable to a surviving spouse. This happens because the amount of the spouse's pension is based on the amount of invalidity pension (salary-based pension) that would have become payable to the member spouse at the time of death.

Multiple interest splits for same original interest

- (4) If, before the original pension becomes payable, the original interest has been split more than once (that is to say, section 146MB has applied more than once), then, in applying the formula in subsection (3), the reduction factor is to be replaced by the number calculated using the following steps, based on the chronological order of the operative times (starting with the earliest):
- calculate a factor (the **interim factor**) using the steps in paragraphs (a) to (c) of the definition of **reduction factor** in subsection (6);
 - calculate a factor (the **interim factor**) for the next split (the **current split**), using the formula:

$$\left(\text{Unreduced current factor} - \frac{\text{Interim factor for previous split}}{\text{for previous split}} \right) \times \frac{\text{Transfer factor for current split}}{\text{for current split}}$$

where:

unreduced current factor means the number calculated using the steps in paragraphs (a) and (b) of the definition of **reduction factor** in subsection (6);

- (c) calculate a factor for each remaining split (if any), using the formula in paragraph (b);
- (d) add together the factors calculated under paragraphs (a) to (c).

Reduction not to affect later non-standard pension

- (5) A reduction under subsection (3) is to be disregarded in calculating the amount of any non-standard pension that later becomes payable.

Note: For example, the reduction will be disregarded in calculating the amount of orphan pension payable in respect of a child of the member spouse after the member spouse's death.

- (6) In this section:

age factor means:

- (a) if the age in full years is 65 or more—1; or

Division 4—Miscellaneous

146MH Ministerial Orders

- (1) The Minister may, by legislative instrument, make Orders prescribing matters required or permitted by this Part to be prescribed.
- (2) Despite anything in regulations made for the purposes of paragraph 44(2)(b) of the *Legislation Act 2003*, section 42 (disallowance) of that Act applies to an Order made under subsection (1) of this section.

Part IXC—Sustaining the superannuation contribution concession: release of benefits to meet deferred tax liability

146RA Definitions

In this Part:

release authority lump sum has the meaning given by
section 146RB.

146RB Release of benefits under a release authority

- (1) A lump sum (the *release authority lump sum*) may be paid at a time in compliance with a release authority issued to a person under item 3 of the table in subsection 135-10(1) in Schedule 1 to the *Taxation Administration Act 1953* and given to CSC in accordance with Subdivision 135-B in that Schedule if:
- (a) at or before that time, the person gives CSC written notice of the person's election under section 146RC of this Act (which deals with the reduction of benefits to reflect the release authority lump sum); and
 - (b) at that time, either:
 - (i) there is no surcharge deduction amount in relation to the person; or
 - (ii) subsection (2) applies.

Note: The purpose of the release authority is to allow a lump sum to be paid to the Commissioner to meet a debt the person has under Subdivision 133-C in Schedule 1 to the *Taxation Administration Act 1953*.

Surcharge election must be made or forgone

- (2) This subsection applies if any of the following are satisfied:

Section 146RC

- (a) the person has made an election under section 80B or 80C (which deal with the adjustment of benefits to take account of the surcharge deduction amount);
- (b) the person has not made an election under either of those sections and the periods within which such elections may be made have expired;
- (c) the person gives CSC written notice that the person forgoes making an election under both of those sections.

146RC Election specifying which benefit is to be reduced

- (1) A person who gives CSC a release authority in accordance with Division 135 in Schedule 1 to the *Taxation Administration Act 1953* may make an election specifying which of the following is to be reduced to reflect the release authority lump sum:
 - (a) a lump sum benefit to which the person is (or is about to become) entitled under this Act (unless the lump sum benefit has already been paid);
 - (b) a pension to which the person is (or is about to become) entitled under this Act (whether or not the pension has started to be paid).
- (2) However, a person cannot specify that 2 or more benefits are to be reduced to reflect a release authority lump sum, unless the person elects to reduce all, or all but one, of the specified benefits to zero.

146RD Limit on amount that may be released

- (1) In addition to any requirements in Division 135 in Schedule 1 to the *Taxation Administration Act 1953*, the amount of a release authority lump sum must not have the effect that a benefit specified in an election under section 146RC is reduced below zero.
- (2) For the purpose of subsection (1), the effect of a release authority lump sum on the amount of a benefit specified in an election under section 146RC is to be worked out after taking account of:
 - (a) the person's surcharge deduction amount (if any); and

Section 146RE

- (b) any reduction under section 79D (which deals with reductions for early release lump sums); and
 - (c) any reductions under Division 3 of Part IXB (which deals with family law splitting).
- (3) Apart from subsection (2), the amount of a release authority lump sum is not to be reduced under any provision of this Act.

146RE Calculation of benefits after payment of release authority lump sum

- (1) If a release authority lump sum is paid in relation to a release authority issued to a person, the benefits to which the person is entitled under this Act must be reduced to reflect the release authority lump sum, in accordance with the person's election under section 146RC.
- (2) If the election specifies that a pension is to be reduced (but not to zero), the annual rate of the pension is to be reduced so that it equals the amount worked out using this formula:

$$\text{Pre-reduction rate} = \frac{\text{Reduced release authority lump sum}}{\text{Conversion factor}}$$

where:

conversion factor means the factor that is applicable to the person under the determination made by CSC under subsection (4).

pre-reduction rate means the annual rate of the pension that would, apart from this section (but having regard to any other provisions of this Act that affect that rate), be payable to the person on the pension reduction day mentioned in subsection (3).

reduced release authority lump sum means the amount of the release authority lump sum, reduced by the sum of each reduction made under a previous application of this section to a benefit to which the person is entitled.

Section 146RE

- (3) The reduction mentioned in subsection (2) takes effect from the day (the *pension reduction day*) that is:
 - (a) if the pension has not started to be paid—the first pension pay day; or
 - (b) if the pension has started to be paid—the first pension pay day that occurs 14 days after the release authority was given to CSC.
- (4) CSC may, by legislative instrument, determine the conversion factor, or the method for working out the conversion factor, for the purposes of subsection (2).

- (3) If at any time, whether before or after the commencement of this Act, the Statistician has changed or changes the index reference period for the Consumer Price Index, then, for the purposes of the application of this Part after the change took place or takes place, regard shall be had only to index numbers published in terms of the new index reference period.

(2) The increase provided for by subsection (1) in the rate at which a pension was payable to a person immediately before the commencement of a prescribed half-year is the prescribed percentage of that rate or, in the case of a pension in respect of which provision is made by section 149, the prescribed percentage of such rate as is applicable under that section to the pension for the purposes of this subsection.

(3) For the purposes of this section, the prescribed percentage, in relation to a prescribed half-year, is the percentage that represents $A - B$ expressed as a percentage of **B**, where:

A is the all groups consumer price index number for the weighted average of the 8 capital cities published by the Statistician in respect of the first quarter of the half-year immediately preceding the prescribed half-year; and

B is the highest all groups consumer price index number for the weighted average of the 8 capital cities published by the Statistician in respect of the first quarter of any half-year earlier than the half-year immediately preceding the prescribed half-year but not being earlier than the half-year that commenced on 1 July 1985.

(4) Where, by reason of the death on 30 June or 31 December (as the case requires) in the half-year immediately preceding a prescribed half-year of a person in receipt of a pension under this Act, a pension to which this Part applies becomes payable on the following day to another person, that other person shall be entitled to such an increase in the rate of that pension as the person would have been entitled to had the pension become payable to the person on that 30 June or 31 December (as the case requires).

150 Adjustment of increase in case of certain pensions

- (1) Where a person to whom pension has become payable (whether or not it has become payable to the person by virtue of section 136) would, but for this section, be entitled to an increase in the rate at which the pension was payable to or in respect of the person immediately before the commencement of a prescribed half-year and:
- (a) in a case where the pension is age retirement pension, early retirement pension or invalidity pension—it became payable to the person during the half-year (in this section referred to as the *preceding half-year*) immediately preceding the prescribed half-year;

became payable on or before 16 June or 16 December (as the case requires) in the preceding half-year, the amount of the increase is so much only of the amount that but for this section would have been the amount of the increase as bears to that last-mentioned amount the same proportion as the number of months in the period that commenced on the day on which the pension referred to in whichever of paragraphs (a), (b), (c) and (d) is applicable became payable and ended on 30 June or 31 December (as the case requires) in the preceding half-year bears to 6.

- (b) it is not possible to make such a determination:

- (ii) for any other reason that CSC thinks sufficient for this section to apply;

- the annual rate of salary as at the later time in respect of the office or position, or in respect of the duties, is taken, for the purposes of the relevant provision, to be the same as the annual rate of salary in respect of the office or position, or in respect of the duties, as at the earlier time.
- (4) If:
- (a) the Australian Statistician has published, at or before the later time, an estimate or successive estimates of the change or changes (expressed as a percentage or percentages) in AWOTE in respect of the period between the earlier time and the later time; and

- the annual rate of salary as at the later time in respect of the office or position, or in respect of the duties, is taken, for the purposes of the relevant provision, to be the annual rate of salary in respect of the office or position, or in respect of the duties, as at the earlier time increased by the relevant percentage.
- (5) If at any time, whether before or after the commencement of this section, the Australian Statistician has published or publishes for a particular period an estimate of a change (including an estimate that no change has occurred) in AWOTE in substitution for an estimate of such a change for that period previously published by the Australian Statistician, the publication of the later estimate is to be disregarded for the purposes of this section.

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe the amendment to be made. If, despite the misdescription, the amendment can

be given effect as intended, the amendment is incorporated into the compiled law and the abbreviation “(md)” added to the details of the amendment included in the amendment history.

If a misdescribed amendment cannot be given effect as intended, the abbreviation “(md not incorp)” is added to the details of the amendment included in the amendment history.
