###### **315-1 What this Division is about**

This Division sets out the taxation consequences of the demutualisation of private health insurers.

Policy holders, demutualising health insurers and certain other entities can disregard capital gains and losses arising under a demutualisation (see Subdivision 315-A).

Shares and rights issued under the demutualisation are given a cost base based on the market value of the demutualising health insurer at the time of issue (see Subdivisions 315-B and 315-D).

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 315-1

---

Assets held by a lost policy holders trust are given roll-over relief if transferred to the lost policy holder, or if the lost policy holder becomes absolutely entitled to them. Otherwise the trustee of the lost policy holders trust is taxed on any capital gains (see Subdivision 315-C).

A legal personal representative can disregard capital gains and losses made when passing an asset to a beneficiary of a policy holder's estate (see Subdivision 315-E).

Shares, rights or cash received under a demutualisation are not assessable income and not exempt income (see Subdivision 315-F).

Section 315-80

---

**315-80 Cost base and acquisition time of demutualisation assets**

*Cost base adjustment*

- (1) The first element of the \*cost base and \*reduced cost base of a \*CGT asset is its \*market value on the day it is issued if:
- (a) the asset is covered by section 315-85 (a **demutualisation asset**); and
  - (b) the asset is issued to an entity (a **participating policy holder**) covered by section 315-90.

Note: There is an exception to this rule in Subdivision 315-D where the asset is a share or right in a holding company with other assets.

*Acquisition rule*

- (2) The participating policy holder is taken to have \*acquired the demutualisation asset at the time it is issued.

**315-85 Demutualisation asset**

- (1) This section covers an asset if:
- (a) the asset is:
    - (i) a share in the demutualising health insurer; or
    - (ii) a right to \*acquire a share in the demutualising health insurer; or
    - (iii) a share in an entity that owns all of the shares in the demutualising health insurer; or
    - (iv) a right to acquire a share in an entity mentioned in subparagraph (iii); and
  - (b) the share or right is issued under a demutualisation to which this Division applies; and
  - (c) the share or right is issued in connection with:
    - (i) the variation or abrogation of rights attaching to or consisting of a \*CGT asset covered by section 315-20; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (ii) the conversion, cancellation, extinguishment or redemption of such a CGT asset.

*Exclusion for rights with an exercise price*

- (2) Despite subsection (1), this section does not cover a right to \*acquire a share in an entity if the holder of the right must pay an amount to exercise the right.

*Exclusion where assets not issued simultaneously*

- (3) Despite subsection (1), an asset is not covered by this section unless all of the assets covered by subsection (1) for the demutualisation in question are issued:
  - (a) at the same time; and
  - (b) to an entity that is either:
    - (i) a participating policy holder (see section 315-90); or
    - (ii) the trustee of a trust covered by Subdivision 315-C (about the lost policy holders trust).

### **315-90 Participating policy holders**

- (1) This section covers an individual who:
  - (a) is, or has been, a policy holder (within the meaning of the *Private Health Insurance (Prudential Supervision) Act 2015*) of, or another person insured through, the demutualising health insurer; and
  - (b) is entitled, under the demutualisation, to an allocation of demutualisation assets.
- (2) This section also covers an entity who became entitled to an allocation of demutualisation assets because of the death of an individual mentioned in subsection (1).

Section 315-140

**Subdivision 315-C—Lost policy holders trust**

**Table of sections**

315-140	Lost policy holders trust
315-145	CGT treatment of demutualisation assets in lost policy holders trust
315-150	Roll-over where assets transferred to lost policy holder
315-155	Trustee assessed if assets dealt with not for benefit of lost policy holder
315-160	Subdivision 126-E does not apply to lost policy holders trust

**315-140 Lost policy holders trust**

This Subdivision covers a trust (a *lost policy holders trust*) in relation to a demutualisation to which this Division applies if:

- (a) the conversion scheme mentioned in paragraph 20(2)(a) of the *Private Health Insurance (Prudential Supervision) Act 2015* for the demutualisation provides for the trust; and
- (b) under the demutualisation, demutualisation assets (see section 315-85) are issued to the trustee of the trust; and
- (c) the trust exists solely for the purpose of holding shares or rights to \*acquire shares on behalf of:
  - (i) individuals (*lost policy holders*) who are, or have been, policy holders (within the meaning of the *Private Health Insurance (Prudential Supervision) Act 2015*) of, or other persons insured through, the demutualising health insurer; or
  - (ii) if the lost policy holder has died—the \*legal personal representative of the lost policy holder or a beneficiary in the estate of the lost policy holder.

Example: An example of an individual on whose behalf the trust might hold assets would be an individual who has not completed a formal step required for them to be issued with demutualisation assets directly. Another example might be an individual living overseas.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **315-145 CGT treatment of demutualisation assets in lost policy holders trust**

#### *Cost base adjustment*

- (1) The first element of the \*cost base and \*reduced cost base of a demutualisation asset issued to the trustee of a lost policy holders trust is its \*market value on the day it is issued.

Note: There is an exception to this rule in Subdivision 315-D where the asset is a share or right in a holding company with other assets.

#### *Acquisition rule*

- (2) The trustee is taken to have \*acquired the demutualisation asset at the time it is issued.

### **315-150 Roll-over where assets transferred to lost policy holder**

- (1) This section applies in relation to a \*CGT event if:
  - (a) the CGT event happens in relation to an asset held by the trustee of a lost policy holders trust on behalf of a lost policy holder; and
  - (b) the CGT event happens because the lost policy holder (or, if the lost policy holder has died, the \*legal personal representative of the lost policy holder or a beneficiary in the estate of the lost policy holder) either:
    - (i) is transferred the asset by the trustee; or
    - (ii) becomes absolutely entitled to the asset.

Note: The asset may be a demutualisation asset, or some other asset.

#### *Consequence for trustee*

- (2) Disregard a \*capital gain or \*capital loss the trustee makes from the \*CGT event.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 315-155

---

*Consequence for lost policy holder*

- (3) The \*cost base of the asset in the hands of the trustee of the lost policy holders trust just before the \*CGT event becomes the first element of the cost base and \*reduced cost base of the asset in the hands of the lost policy holder, \*legal personal representative or beneficiary.
- (4) The lost policy holder, \*legal personal representative or beneficiary is taken to have \*acquired the asset when the trustee of the lost policy holders trust acquired it.

**315-155 Trustee assessed if assets dealt with not for benefit of lost policy holder**

- (1) This section applies in relation to a \*capital gain from a \*CGT event if:
  - (a) the CGT event happens in relation to an asset held by the trustee of a lost policy holders trust; and
  - (b) section 315-150 does not apply to the CGT event.
- (2) If this section applies:
  - (a) sections 115-215 and 115-220 do not apply in relation to the \*capital gain; and
  - (b) for the purposes of this Act, the trustee is taken to be \*specifically entitled to all of the capital gain.

**315-160 Subdivision 126-E does not apply to lost policy holders trust**

Subdivision 126-E does not apply in relation to a demutualisation to which this Division applies.

**Subdivision 315-D—Special cost base rules for certain shares and rights in holding companies**

**Table of sections**

315-210 Cost base for shares and rights in certain holding companies

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

### **315-210 Cost base for shares and rights in certain holding companies**

- (1) This section applies in relation to a \*CGT asset that is a demutualisation asset if:
- (a) the demutualisation asset is:
    - (i) a share in an entity mentioned in subparagraph 315-85(1)(a)(iii); or
    - (ii) a right to \*acquire a share in an entity mentioned in that subparagraph; and
  - (b) the entity owns other assets in addition to the shares in the demutualising health insurer; and
  - (c) the share or right is issued to a participating policy holder or the trustee of a lost policy holders trust.

This section applies despite sections 315-80 and 315-145.

#### *Cost base adjustment*

- (2) The first element of the \*cost base and \*reduced cost base of the \*CGT asset is worked out under the method statement.

#### *Method statement*

Step 1. Start with the \*market value of the demutualising health insurer on the day the asset is issued.

Step 2. Divide the result of step 1 by the sum of:

- (a) the number of shares in the entity that are issued under the demutualisation; and
- (b) the number of shares in the entity that can be \*acquired under rights that are demutualisation assets issued under the demutualisation.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 315-210

---

Step 3. The result of step 2 is the first element of the \*cost base and \*reduced cost base of the asset, unless the asset is a right.

Step 4. If the asset is a right, multiply the result of step 2 by the number of shares that can be \*acquired under the right. The result is the first element of the \*cost base and \*reduced cost base of the asset.

Example: Wellbeing Health demutualises on 1 April 2008 and has a market value of \$400 million on that day. It distributes its accumulated mutual surplus in the form of rights to acquire shares in its holding company Healthiness Insurance Ltd (Healthiness). The rights do not have an exercise price.

A total of 800 million shares can be acquired in Healthiness under rights issued under the demutualisation. Each right allows the holder to acquire 50 shares. No shares in Healthiness are issued.

Under the method statement, the first element of the cost base and reduced cost base of each right is worked out by dividing the market value of Wellbeing Health (step 1) by the number of shares in Healthiness that can be acquired under the demutualisation (step 2) and multiplying the result by the number of shares that can be acquired under the right (step 4):

$$\frac{\$400 \text{ million}}{800 \text{ million}} \times 50 = \$25$$

*Acquisition rule*

- (3) The participating policy holder or trustee is taken to have \*acquired the \*CGT asset at the time it is issued.

**Table of sections**

315-260 Special CGT rule for legal personal representatives and beneficiaries

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **315-260 Special CGT rule for legal personal representatives and beneficiaries**

- (1) This section sets out what happens if a \*CGT asset:
  - (a) is a demutualisation asset; and
  - (b) forms part of the estate of a participating policy holder mentioned in subsection 315-90(1) who has died, but was not owned by the policy holder just before dying; and
  - (c) \*passes to a beneficiary in the policy holder's estate because the asset is transferred to the beneficiary by the policy holder's \*legal personal representative.

Note: Division 128 deals with the effect of death in relation to CGT assets a person owns just before dying.

- (2) Disregard a \*capital gain or \*capital loss the \*legal personal representative makes if the asset \*passes to a beneficiary in the policy holder's estate.

#### *Consequence for beneficiary*

- (3) The \*cost base and \*reduced cost base of the asset in the hands of the \*legal personal representative just before the asset \*passes to the beneficiary becomes the first element of the cost base and reduced cost base of the asset in the hands of the beneficiary.
- (4) The beneficiary is taken to have \*acquired the asset when the \*legal personal representative acquired it.

---

**315-310 General taxation consequences of issue of demutualisation assets etc.**

- (1) An amount of \*ordinary income or \*statutory income of an entity to which subsection (2) applies is not assessable and not \*exempt income if:
- (a) the amount would otherwise be included in the ordinary income or statutory income of the entity only because a demutualisation asset was issued to the entity; or
  - (b) the amount is a payment made to the entity, under a demutualisation to which this Division applies, in connection with:
    - (i) the variation or abrogation of rights attaching to or consisting of a \*CGT asset covered by section 315-20; or
    - (ii) the conversion, cancellation, extinguishment or redemption of such a CGT asset.
- (2) This subsection applies to an entity that:
- (a) is, or has been, a policy holder (within the meaning of the *Private Health Insurance (Prudential Supervision) Act 2015*) of, or another person insured through, the demutualising health insurer; or
  - (b) is issued with the demutualisation asset, or receives the payment, because of the death of a policy holder mentioned in paragraph (a).

    - (i) the entity is one described in paragraph 316-55(1)(a); or
    - (ii) the entity is one described in paragraph 316-55(2)(a) and the interest is a \*CGT asset described in paragraph 316-55(2)(b); and
  - (d) the \*capital proceeds from the event include or consist of money received by the entity.
- (2) Work out whether the entity makes a \*capital gain or \*capital loss from the \*CGT event, and the amount of the gain or loss, assuming that:
  - (a) the \*capital proceeds from the CGT event were the amount they would be if they did not include any \*market value of property other than money; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the \*cost base and \*reduced cost base for the interest were the amount worked out using the formula:

$$\frac{\text{*Capital proceeds from the *CGT event}}{\text{Valuation factor worked out under section 316-65}}$$

Example: Assume the entity receives \$50 in money and 10 shares with a market value of \$4 each in respect of CGT event C2 happening, and that the valuation factor worked out under section 316-65 is 0.9. The entity makes a capital gain from the event of \$5, worked out as follows:

$$\$50 - (\$50 \times 0.9)$$

This ignores the market value of the shares because they are property other than money.

Note: Division 114 (Indexation of cost base) is not relevant, because this section provides exhaustively for working out the amount of the cost base.

- (3) The \*capital gain or \*capital loss is not to be disregarded, despite:
- (a) section 316-55; and
  - (b) any provision of this Act for disregarding the \*capital gain or \*capital loss because the interest affected by demutualisation was \*acquired before 20 September 1985.

Note: The capital gain is not a discount capital gain: see section 115-55.

### **316-65 Valuation factor for sections 316-60, 316-105 and 316-165**

- (1) For the purposes of sections 316-60, 316-105 and 316-165, the valuation factor is the amount worked out using the formula:

$$\frac{\text{Market value of the friendly society's health insurance business (if any)} + \text{Embedded value of the friendly society's other business (if any)}}{\text{Total *capital proceeds for all entities from *CGT events happening under the demutualisation to interests affected by demutualisation (except those described in subparagraph 316-55(1)(b)(iv))}}$$

where:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 316-70

---

***embedded value of the friendly society's other business (if any)*** means the amount that would be the value of the \*friendly society worked out under section 316-70 assuming that neither the friendly society, nor any health/life insurance subsidiary of it, carried on any health insurance business within the meaning of the *Private Health Insurance (Prudential Supervision) Act 2015*.

***market value of the friendly society's health insurance business (if any)*** means the total \*market value of every health insurance business, within the meaning of the *Private Health Insurance (Prudential Supervision) Act 2015*, carried on by either or both of the \*friendly society and its health/life insurance subsidiaries (if any), taking account of any consideration paid to the society or subsidiary for disposal or control of that business.

- (2) Disregard paragraph 316-60(2)(a) for the purposes of the formula in subsection (1) of this section.

**316-70 Value of the friendly society**

- (1) The value of the \*friendly society is the sum, worked out in accordance with this section, of the friendly society's existing business value and its adjusted net worth on the day (the ***applicable accounting day***) identified under subsection (3).

*Eligible actuary and Australian actuarial practice*

- (2) The sum is to be worked out, according to Australian actuarial practice, by an \*actuary who is not an employee of:
- (a) the \*friendly society; or
  - (b) a health/life insurance subsidiary of the friendly society; or
  - (c) an entity of which the friendly society is to become a \*wholly-owned subsidiary under the demutualisation.

*Applicable accounting day*

- (3) The applicable accounting day is:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) if an accounting period of the \*friendly society ends on the day (the *demutualisation resolution day*) identified under subsection (4)—that day; or
- (b) in any other case—the last day of the most recent accounting period of the friendly society ending before the demutualisation resolution day.

*Demutualisation resolution day*

- (4) The demutualisation resolution day is:
  - (a) the day on which the resolution to proceed with the demutualisation is passed; or
  - (b) if, under the demutualisation, the whole of the \*life insurance business of the \*friendly society or of a health/life insurance subsidiary of the friendly society is transferred to another company under a scheme confirmed by the Federal Court of Australia—the day (or the last day) on which the transfer takes place.

*Adjustment for changes after applicable accounting day*

- (5) In a case covered by paragraph (3)(b), if any significant change in the amount of the existing business value or adjusted net worth occurs between the applicable accounting day and the demutualisation resolution day, the amount is to be adjusted to take account of the change.

*Continued business assumption*

- (6) In working out the existing business value or the adjusted net worth, assume:
  - (a) that after the applicable accounting day the \*friendly society, and any health/life insurance subsidiary of the friendly society, will continue to conduct \*business and any other activity in the same way as before that day, and will not conduct any different business or other activity; and
  - (b) that the demutualisation will not occur; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 316-75

---

- (c) that any health/life insurance subsidiary of the friendly society will continue to be a \*wholly-owned subsidiary of the friendly society.

*Expenditure assumption*

- (7) In working out the existing business value, assume that expenditure that the \*friendly society and any of its health/life insurance subsidiaries will incur, in conducting \*business, on recurring items after the demutualisation resolution day will be of the same kinds and amounts (increased to take account of any inflation) as it incurred in the accounting period, or part of an accounting period, ending on the demutualisation resolution day.

**Friendly society's gains and losses**

**316-75 Disregarding friendly society's capital gains and losses**

Disregard the \*friendly society's \*capital gain or \*capital loss from a \*CGT event that happens under the demutualisation.

**Other entities' gains and losses**

**316-80 Disregarding other entities' capital gains and losses**

Disregard an entity's \*capital gain or \*capital loss from a \*CGT event that happens under the demutualisation if:

- (a) the entity is established solely for the purpose of participating in the demutualisation and is not a lost policy holders trust (see section 316-155); and
- (b) the CGT event:
  - (i) happens before or at the same time as the allocation or distribution of the accumulated surplus of the \*friendly society; and
  - (ii) is connected to that allocation or distribution.

Note: The allocation or distribution of the accumulated surplus could happen through an arrangement involving more than one transaction.

## **Subdivision 316-C—Cost base of shares and rights issued under the demutualisation**

### **Guide to Subdivision 316-C**

#### **316-100 What this Subdivision is about**

The value of the friendly society and its business affects cost bases of shares and certain rights issued under the demutualisation to:

- (a) entities that are or were members of the friendly society; or
- (b) entities insured through the society or its subsidiaries; or
- (c) successors of such entities; or
- (d) the trustee of the lost policy holders trust.

#### **316-105 Cost base and time of acquisition of shares and certain rights issued under demutualisation**

##### *First element of cost base*

- (1) The first element of the \*cost base and \*reduced cost base of a \*CGT asset is the amount worked out using the formula in subsection (2) if:
- (a) the asset is a CGT asset (a **demutualisation asset**) covered by section 316-110; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 316-110

---

(b) the asset is issued to an entity covered by section 316-115.

(2) The formula is:

$$\text{Value of the *CGT asset when it was issued} \times \text{Valuation factor worked out under section 316-65}$$

*Time of acquisition*

(3) The entity is taken to have \*acquired the \*CGT asset at the time it is issued.

**316-110 Demutualisation assets**

(1) This section covers a \*CGT asset that:

(a) is:

- (i) a \*share in the \*friendly society; or
- (ii) a right to \*acquire a share in the friendly society; or
- (iii) a share in an entity that owns all of the shares in the friendly society; or
- (iv) a right to acquire a share in an entity mentioned in subparagraph (iii); and

(b) is issued under the demutualisation; and

(c) is issued in connection with:

- (i) the variation or abrogation of rights attaching to or consisting of an interest affected by demutualisation (see paragraph 316-55(1)(b)); or
- (ii) the conversion, cancellation, extinguishment or redemption of an interest affected by demutualisation.

*Exclusion for rights with an exercise price*

(2) Despite subsection (1), this section does not cover a right to \*acquire a \*share in an entity if the holder of the right must pay an amount to exercise the right.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Exclusion where assets not issued simultaneously*

- (3) Despite subsection (1), a \*CGT asset is not covered by this section unless all of the CGT assets covered by subsection (1) for the demutualisation are issued:
- (a) at the same time; and
  - (b) to entities that are covered by section 316-115.

**316-115 Entities to which section 316-105 applies**

- (1) This section covers an entity that:
- (a) either:
    - (i) is or has been a \*member of the \*friendly society; or
    - (ii) is or has been insured through the friendly society or a health/life insurance subsidiary of the friendly society; and
  - (b) is entitled under the demutualisation to an allocation of demutualisation assets.
- (2) This section also covers an entity that has become entitled to an allocation of demutualisation assets because of the death of an individual who was an entity described in subsection (1).
- (3) This section also covers the trustee of a lost policy holders trust (see section 316-155).

**Subdivision 316-D—Lost policy holders trust**

**Guide to Subdivision 316-D**

**316-150 What this Subdivision is about**

If the demutualisation creates a trust just to hold shares, rights to acquire shares or money for entities that were members of the friendly society or insured through the society or its subsidiary, or are successors of such entities, then:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 316-150

---

- (a) capital gains or losses from CGT events happening to beneficiaries' interests in the trust are disregarded, except where the capital proceeds include money; and
- (b) when a CGT event happens involving the transfer of the shares or rights to a beneficiary, or a beneficiary's absolute entitlement to them, the trustee's capital gain or loss is disregarded and the beneficiary has the same cost base and time of acquisition as the trustee; and
- (c) the trustee is assessed on any capital gains from other CGT events happening to the shares or rights.

## Application

### 316-155 Lost policy holders trust

- (1) This Subdivision applies if the conditions in subsections (2) and (5) are met.

*First condition*

- (2) The first condition is that, under the demutualisation, a trust (the **lost policy holders trust**) exists solely for one or both of the purposes that are described in subsection (3) in relation to persons (**beneficiaries of the lost policy holders trust**) covered by subsection (4).
- (3) The purposes are as follows:
- (a) holding demutualisation assets (see section 316-110) that are \*shares or rights to \*acquire shares, or proceeds from disposal of those assets, on behalf of one or more beneficiaries of the lost policy holders trust and transferring those assets or proceeds to those beneficiaries;
  - (b) holding on behalf of one or more beneficiaries of the lost policy holders trust, and paying to them, money payable to them for:
    - (i) the variation or abrogation of rights attaching to or consisting of the beneficiaries' interests affected by demutualisation (see paragraph 316-55(1)(b)); or
    - (ii) the conversion, cancellation, extinguishment or redemption of those interests.
- (4) This subsection covers:
- (a) a person who is or has been a \*member of the friendly society or is or has been insured through the \*friendly society or a health/life insurance subsidiary of the friendly society; and
  - (b) a \*legal personal representative, or beneficiary in the estate, of such a person who has died.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 316-160

---

*Second condition*

- (5) The second condition is that, under the demutualisation, the trustee of the lost policy holders trust is:
- (a) issued with demutualisation assets that are \*shares, or rights to \*acquire shares; or
  - (b) paid money described in paragraph (3)(b) to hold and pay to beneficiaries of the lost policy holders trust.

**Effects of CGT events happening to interests and assets in trust**

**316-160 Disregarding beneficiaries' capital gains and losses, except some involving receipt of money**

Disregard a \*capital gain or \*capital loss of a beneficiary of the lost policy holders trust from a \*CGT event that happens to the beneficiary's interest in the trust.

**316-165 Taking account of some capital gains and losses involving receipt of money by beneficiaries**

- (1) This section applies if:
- (a) a \*CGT event happens to an interest of a beneficiary of the lost policy holders trust in that trust; and
  - (b) the \*capital proceeds from the event include or consist of money received by the beneficiary.
- (2) Work out whether the beneficiary makes a \*capital gain or \*capital loss from the \*CGT event, and the amount of the gain or loss, assuming that:
- (a) the \*capital proceeds from the CGT event were the amount they would be if they did not include any \*market value of property other than money; and
  - (b) the \*cost base and \*reduced cost base for the interest were the amount worked out using the formula:

$$\frac{\text{*Capital proceeds from the *CGT event}}{\text{the *CGT event}} \times \text{Valuation factor worked out under section 316-65}$$

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Example: Assume that the beneficiary of the lost policy holders trust is paid \$50 in money by the trustee to satisfy the beneficiary's interest in the trust so that a CGT event happens, and that the valuation factor worked out under section 316-65 is 0.9. The beneficiary makes a capital gain from the event of \$5, worked out as follows:

$$\$50 - (\$50 \times 0.9)$$

Note: Division 114 (Indexation of cost base) is not relevant, because this section provides exhaustively for working out the amount of the cost base.

- (3) The \*capital gain or \*capital loss is not to be disregarded, despite sections 316-55 and 316-160.

Note: The capital gain is not a discount capital gain: see section 115-55.

### **316-170 Roll-over where shares or rights to acquire shares transferred to beneficiary of lost policy holders trust**

- (1) This section applies in relation to a \*CGT event if:
- (a) the CGT event happens in relation to an asset that:
    - (i) is a \*share or a right to \*acquire one or more shares; and
    - (ii) is held by the trustee of the lost policy holders trust on behalf of a beneficiary of the lost policy holders trust; and
  - (b) the CGT event happens because the beneficiary of the lost policy holders trust either:
    - (i) is transferred the asset by the trustee; or
    - (ii) becomes absolutely entitled to the asset.

#### *Consequence for trustee*

- (2) Disregard a \*capital gain or \*capital loss the trustee makes from the \*CGT event.

#### *Consequences for beneficiary*

- (3) The \*cost base and \*reduced cost base of the asset in the hands of the trustee of the lost policy holders trust just before the \*CGT

event becomes the first element of the cost base and reduced cost base of the asset in the hands of the beneficiary of the lost policy holders trust.

Note: Section 316-105 affects the cost base of the asset in the hands of the trustee of the lost policy holders trust if the asset is covered by section 316-110.

- (4) The beneficiary of the lost policy holders trust is taken to have \*acquired the asset when the trustee acquired it.

**316-175 Trustee assessed if shares or rights dealt with not for benefit of beneficiary of lost policy holders trust**

- (1) This section applies in relation to a \*capital gain from a \*CGT event if:
- (a) the CGT event happens in relation to a demutualisation asset that:
    - (i) is a \*share or a right to \*acquire a share; and
    - (ii) is held by the trustee of a lost policy holders trust; and
  - (b) section 316-170 does not apply to the CGT event.
- (2) If this section applies:
- (a) sections 115-215 and 115-220 do not apply in relation to the \*capital gain; and
  - (b) for the purposes of this Act, the trustee is taken to be \*specifically entitled to all of the capital gain.

**316-180 Subdivision 126-E does not apply**

Subdivision 126-E does not apply in relation to the demutualisation.

Note: Subdivision 126-E is about an entitlement to shares after demutualisation and scrip for scrip roll-over.

316-200	Demutualisation assets not owned by deceased but passing to beneficiary in deceased estate
316-205	Interest in lost policy holders trust not owned by deceased but passing to beneficiary in deceased estate

### **316-200 Demutualisation assets not owned by deceased but passing to beneficiary in deceased estate**

- (1) This section sets out what happens if a \*CGT asset:
- (a) is a demutualisation asset (see section 316-110); and
  - (b) forms part of the estate of an individual who is an entity described in subsection 316-115(1) and has died; and
  - (c) was not owned by the individual just before dying; and
  - (d) \*passes to a beneficiary in the individual's estate because the asset is transferred to the beneficiary by the individual's \*legal personal representative.

Note: Division 128 deals with the effect of death in relation to CGT assets a person owns just before dying.

#### *Consequence for legal personal representative*

- (2) Disregard a \*capital gain or \*capital loss the \*legal personal representative makes because the asset \*passes to the beneficiary.

#### *Consequence for beneficiary*

- (3) The \*cost base and \*reduced cost base of the asset in the hands of the \*legal personal representative just before the asset \*passes to the beneficiary becomes the first element of the cost base and reduced cost base of the asset in the hands of the beneficiary.
- (4) The beneficiary is taken to have \*acquired the asset when the \*legal personal representative acquired it.

**316-205 Interest in lost policy holders trust not owned by deceased but passing to beneficiary in deceased estate**

- (1) This section sets out what happens if a \*CGT asset:
- (a) is an interest in a lost policy holders trust (see section 316-155); and
  - (b) forms part of the estate of an individual who is an entity described in subsection 316-115(1) and has died; and
  - (c) was not owned by the individual just before dying; and
  - (d) \*passes to a beneficiary in the individual's estate because the asset is transferred to the beneficiary by the individual's \*legal personal representative.

Note: Division 128 deals with the effect of death in relation to CGT assets a person owns just before dying.

*Consequence for legal personal representative*

- (2) Disregard a \*capital gain or \*capital loss the \*legal personal representative makes because the asset \*passes to the beneficiary.

**Subdivision 316-F—Non-CGT consequences of the demutualisation**

**Guide to Subdivision 316-F**

**316-250 What this Subdivision is about**

In many cases, income from demutualisation is assessed through the CGT provisions rather than as ordinary income or other statutory income.

Franking debits arise for the friendly society and its subsidiaries to ensure they do not enjoy a franking surplus. Franking debits and credits arise to negate credits and debits from things attributable to the time before demutualisation.

### 316-255 General taxation consequences of issue of demutualisation assets etc.

- (1) An amount of \*ordinary income or \*statutory income (other than a \*net capital gain) of an entity covered by subsection (2) is not assessable income and is not \*exempt income if:
- (a) the amount would otherwise be included in the ordinary income or statutory income of the entity only because a demutualisation asset (see section 316-110) was issued to the entity; or
  - (b) the amount is a payment made to the entity, under the demutualisation, in connection with:
    - (i) the variation or abrogation of rights attaching to or consisting of an interest affected by demutualisation (see paragraph 316-55(1)(b)); or
    - (ii) the conversion, cancellation, extinguishment or redemption of an interest affected by demutualisation; or
  - (c) the amount would otherwise be included in the ordinary income or statutory income of the entity only because a \*share or a right to \*acquire one or more shares was transferred to the entity by the trustee of a lost policy holders trust (see section 316-155); or
  - (d) the amount is a payment made to the entity from a lost policy holders trust in connection with:

- (i) the variation or abrogation of rights attaching to or consisting of an interest affected by demutualisation; or
  - (ii) the conversion, cancellation, extinguishment or redemption of an interest affected by demutualisation.
- (2) This subsection covers an entity that:
- (a) is or has been a \*member of the \*friendly society; or
  - (b) is or has been insured through the friendly society or a health/life insurance subsidiary of the friendly society; or

  - (d) is a beneficiary of a lost policy holders trust (see section 316-155).

**316-260 Franking debits to stop the friendly society and its subsidiaries having franking surpluses**

- (1) A \*franking debit arises in the \*franking account of the \*friendly society or a \*wholly-owned subsidiary of the society if the account is in \*surplus immediately before the demutualisation resolution day identified under subsection 316-70(4).
- (2) The amount of the \*franking debit equals the \*surplus.
- (3) The \*franking debit arises at the start of that day.

**316-265 Franking debits to negate franking credits from some distributions to friendly society and subsidiaries**

- (1) This section applies if a \*franking credit arises in the \*franking account of the \*friendly society or a \*wholly-owned subsidiary of the society because a \*distribution declared before the demutualisation resolution day identified under subsection 316-70(4) is made to the society or subsidiary on or after that day.
- (2) A \*franking debit arises in that account.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**316-270 Franking debits to negate franking credits from post-demutualisation payments of pre-demutualisation tax**

- (1) This section applies if a \*franking credit arises in the \*franking account of the \*friendly society or a \*wholly-owned subsidiary of the society because, on or after the demutualisation resolution day identified under subsection 316-70(4), the society or subsidiary \*pays a PAYG instalment, or \*pays income tax, that is wholly or partly attributable to a period before that day.
- (2) A \*franking debit arises in that account.
- (3) The amount of the \*franking debit is so much of the \*franking credit as is attributable to the period before that day.
- (4) The \*franking debit arises at the same time as the \*franking credit arises.

**316-275 Franking credits to negate franking debits from refunds of tax paid before demutualisation**

- (1) This section applies if a \*franking debit arises in the \*franking account of the \*friendly society or a \*wholly-owned subsidiary of the society because, on or after the demutualisation resolution day identified under subsection 316-70(4), the society or subsidiary \*receives a refund of income tax that is wholly or partly attributable to a period before that day.
- (2) A \*franking credit arises in that account.

Those rules:

- include certain amounts in assessable income;
- identify certain amounts of exempt income and non-assessable non-exempt income;
- identify specific deductions.

Life insurance companies can have one or both of these taxable incomes for any income year for the purposes of working out their income tax for that year:

- a taxable income of the complying superannuation class, which consists of taxable income that relates to complying superannuation business, and is taxed at the rate of tax that applies to complying superannuation funds;
- a taxable income of the ordinary class, which consists of taxable income that relates to other businesses and is taxed at the corporate tax rate.

Life insurance companies can also have tax losses that correspond to those 2 classes. The Division provides that tax losses of a particular class can be deducted only from incomes in respect of that class.

The Division ensures that the income tax worked out on the basis of these taxable incomes and tax losses is a single amount of income tax on one taxable income.

The Division also contains rules for segregating the assets of life insurance companies into:

- assets that relate to complying superannuation business;
- assets that relate to immediate annuity and other exempt business.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

This Division also ensures that life insurance companies that are RSA providers are liable to pay tax on no-TFN contributions income.

- (2) If some or all of a \*capital loss from a \*complying superannuation asset cannot be applied in an income year, the unapplied amount can be applied in the next income year in which the company's \*capital gains from \*complying superannuation assets exceed the company's capital losses (if any) from complying superannuation assets.
- (3) If the company has 2 or more unapplied \*net capital losses from \*complying superannuation assets, the company must apply them in the order in which they were made.

Note: This section affects the amount of assessable income that is to be taken into account in working out a taxable income or tax loss of the complying superannuation class: see sections 320-137 and 320-141.

**Subdivision 320-D—Income tax, taxable income and tax loss of life insurance companies**

**Guide to Subdivision 320-D**

**320-130 What this Subdivision is about**

This Subdivision explains how a life insurance company's income tax is worked out.

For that purpose, this Subdivision enables a life insurance company to have taxable incomes and tax losses of the following classes:

- the complying superannuation class;
- the ordinary class.

**320-131 Overview of Subdivision**

*Working out the income tax*

- (1) In any income year, a life insurance company can have:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) a taxable income of the complying superannuation class and/or a taxable income of the ordinary class; or
- (b) a tax loss of the complying superannuation class and/or a tax loss of the ordinary class; or
- (c) a taxable income of one class and a tax loss of the other class.

Note: The taxable incomes mentioned in paragraph (a) are taxed at different rates: see section 23A of the *Income Tax Rates Act 1986*.

- (2) Taxable incomes and tax losses of both classes are taken into account in working out the amount of income tax that the company has to pay for the income year (see section 320-134). That amount is then taken to be the income tax on the company's taxable income for that income year.

*Working out taxable income and tax loss of each class*

- (3) In general, the rules in this Act about working out a company's taxable income or tax loss, or deducting a company's tax loss, apply to a life insurance company in relation to:
  - (a) working out a taxable income or tax loss of a particular class; or
  - (b) deducting a tax loss of a particular class.
- (4) However, that general rule is subject to the following:
  - (a) sections 320-137 to 320-143, which allocate amounts of incomes and deductions for the purposes of working out a taxable income or tax loss of a particular class;
  - (b) subsections 320-141(2) and 320-143(2), which provide that tax losses of a particular class can be deducted only from incomes in respect of that class;
  - (c) section 320-149, which sets out the provisions in this Act that have effect only in relation to a taxable income or tax loss of the ordinary class.

- 320-143 Tax loss—ordinary class
- 320-149 Provisions that apply only in relation to the ordinary class

**General rules**

**320-133 Object of Subdivision**

- (1) The object of this Subdivision is to ensure that:
  - (a) for the purposes of working out the amount of a \*life insurance company's income tax for an income year:
    - (i) the company's taxable income or \*tax loss of one \*class is worked out separately from its taxable income or tax loss of the other class; and
    - (ii) the company's tax losses of a particular class can be deducted only from its incomes in respect of that class; and
  - (b) for the purposes of this Act, that amount of income tax is treated as the company's income tax on its taxable income for that income year.
- (2) In subsection (1), a *class* means the \*complying superannuation class or the \*ordinary class.

### **320-134 Income tax of a life insurance company**

#### *Working out the income tax*

- (1) Work out a \*life insurance company's income tax for an income year under section 4-10 as follows:
  - (a) apply steps 1 and 2 of the method statement in subsection 4-10(3) to work out separately the amount that would be the company's basic income tax liability for its taxable income of each \*class for that year;
  - (b) treat the sum of these amounts as the company's basic income tax liability for that year and apply step 4 of the method statement to subtract its \*tax offsets from that sum.
- (2) For the purposes of this Act:
  - (a) the income tax worked out in accordance with subsection (1) is taken to be the company's income tax on its taxable income for the income year; and
  - (b) except as provided by subsection (1) of this section and sections 320-135 to 320-149, the company's taxable income for that year is taken to be equal to the sum of the company's taxable incomes of the 2 \*classes for that year.

Note: This means that there is only one assessment in respect of the company's taxable income for the income year and that the income tax constitutes only one debt to the Commonwealth.

#### *Working out the income tax on certain assumptions*

- (3) Subsection (1) also has effect in relation to working out an amount that would be the company's income tax if certain assumptions were made. It has that effect in the same way as it has effect in relation to working out the company's income tax under section 4-10 (except in regard to those assumptions).

Note: This means, for example, subsection (1) also has effect in relation to working out the amount of a life insurance company's income tax on the basis of the tax offset priority rules in Division 63.

**320-135 Taxable income and tax loss of each of the 2 classes**

- (1) Subject to the other provisions in this Subdivision:
  - (a) this Act has effect for a \*life insurance company in relation to working out a taxable income of a particular \*class in the same way as it has effect in relation to working out a taxable income of any other company; and
  - (b) this Act has effect for a life insurance company in relation to working out or deducting a \*tax loss of a particular class in the same way as it has effect in relation to working out or deducting a tax loss of any other company.
- (2) Sections 320-137 to 320-143 have effect in addition to other provisions in this Act that relate to working out a taxable income or \*tax loss, or deducting a tax loss (as appropriate).
- (3) Nothing in this Subdivision prevents a \*life insurance company from:
  - (a) having taxable incomes, or \*tax losses, of both \*classes for the same income year; or
  - (b) having a taxable income of one class and a tax loss of the other class for the same income year.

Note: In certain circumstances, a life insurance company can have a taxable income and a tax loss of the same class in an income year (see Subdivision 165-B as it has effect under this Subdivision).

  - (c) if an asset (other than money) is transferred by the company from a complying superannuation asset pool under subsection 320-180(1) or 320-195(2) or (3)—amounts that are included in the company's assessable income because of section 320-200;

$$\text{Total amount credited to the *RSA during the income year} \times \frac{\text{Number of days in the part of the income year in which the *annuity covered by subsection (3A) was paid}}{\text{Number of days in the income year in which the RSA existed}}$$

- (5) If a segregation of assets is made in accordance with the above subsections, the company must use the segregated assets, and any other assets afterwards included among the segregated assets, only for the purpose of discharging its \*complying superannuation liabilities.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) determines, at a time other than a \*valuation time, that the total \*transfer value of the company's complying superannuation assets as at that time exceeds the sum of:
- (i) the company's \*complying superannuation liabilities at that time; and
  - (ii) any reasonable provision made by the company at that time in its accounts for liability for income tax in respect of those assets;

the company must, when the fees or charges are imposed or the excess is determined, as the case may be, transfer, from the \*complying superannuation asset pool, assets having a total transfer value equal to the fees, charges or excess, as the case may be.

(4) If:

- (a) any liabilities arise for the discharge of which a \*life insurance company's \*complying superannuation asset pool is established; or
- (b) any expenses are incurred by a life insurance company directly in respect of \*complying superannuation assets in relation to a period during which the assets are complying superannuation assets; or
- (c) any liabilities to pay \*PAYG instalments, or income tax, that are attributable to the company's \*complying superannuation assets;

the life insurance company must pay, from the complying superannuation asset pool, any amounts required to discharge the liabilities, or amounts equal to the expenses (as appropriate).

**320-200 Consequences of transfer of assets to or from complying superannuation asset pool**

(1) This section applies if:

- (a) an asset (other than money) is transferred from a \*complying superannuation asset pool under subsection 320-180(1) or 320-195(2) or (3); or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) an asset (other than money) is transferred to a complying superannuation asset pool under subsection 320-180(3) or section 320-185.
- (2) In determining:
- (a) for the purposes of this Act (other than Parts 3-1 and 3-3) whether an amount is included in, or can be deducted from, the assessable income of a \*life insurance company in respect of the transfer of the asset; or
  - (b) for the purposes of Parts 3-1 and 3-3:
    - (i) whether the company made a \*capital gain in respect of the transfer of the asset; or
    - (ii) whether the company made a \*capital loss in respect of the transfer of the asset;
- the company is taken:
- (c) to have sold, immediately before the transfer, the asset transferred for a consideration equal to its \*market value; and
  - (d) to have purchased the asset again at the time of the transfer for a consideration equal to its market value.
- (2A) Without limiting subsection (2), where the asset transferred is a \*depreciating asset, Division 40 has effect for the company as if:
- (a) in relation to the sale of the asset that is taken to have occurred under paragraph (2)(c):
    - (i) the sale were a \*balancing adjustment event; and
    - (ii) the \*termination value of the asset for that event were equal to the consideration for the sale under that paragraph; and
    - (iii) the company had stopped \*holding the asset at the time of the sale; and
  - (b) in relation to the purchase of the asset that is taken to have occurred under paragraph (2)(d):
    - (i) the company had only begun to hold the asset after the purchase; and
    - (ii) the first element of the asset's \*cost were equal to the consideration for the purchase under that paragraph; and

(iii) the company had acquired the asset from an \*associate of the company.

Note: This means that, amongst other things, as a result of the transfer:

- the asset's cost for the purposes of working out a deduction under Division 40 is reset; and
- the company's assessable income might be adjusted under section 40-285.

- (3) If, apart from this subsection and section 320-55, a \*life insurance company could deduct an amount or make a \*capital loss as a result of a transfer of an asset to or from its \*complying superannuation asset pool, the deduction or capital loss is disregarded until:
- (a) the asset ceases to exist; or
  - (b) the asset, or a greater than 50% interest in it, is \*acquired by an entity other than an entity that is an \*associate of the company immediately after the transfer.
- (4) Subsection (3) does not apply in relation to an amount that the company can deduct under a provision in Division 40.

## Operative provisions

### 320-225 Segregation of assets for purpose of discharging exempt life insurance policy liabilities

- (1) A \*life insurance company may, on or after 1 July 2000, segregate in accordance with subsections (2) and (3) any of its assets for the sole purpose of discharging its \*exempt life insurance policy liabilities out of those assets.

Note: Section 320-225 of the *Income Tax (Transitional Provisions) Act 1997* provides that a life insurance company may transfer a part of an asset to its segregated exempt assets before 1 October 2000.

- (1A) Except as provided by section 320-225 of the *Income Tax (Transitional Provisions) Act 1997*, an asset is taken not to be included in the segregated assets under this Subdivision unless the whole of the asset is included among the segregated assets.
- (2) The assets segregated must, at the time of the segregation, be a representative sample of all the company's assets that support its \*exempt life insurance policy liabilities immediately before the segregation.
- (3) The assets segregated must have, as at the time of the segregation, a total \*transfer value that does not exceed the amount of the company's \*exempt life insurance policy liabilities as at that time.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 320-230**

---

- (4) A \*life insurance company that segregates assets as mentioned in subsections (1) to (3) at a time after 1 July 2000 but before 1 October 2000 is taken to have segregated those assets in accordance with those subsections on 1 July 2000.
- (5) If a segregation of assets is made in accordance with the above subsections, the company must use the \*segregated exempt assets, and any other assets afterwards included among the segregated assets, only for the purpose of discharging its \*exempt life insurance policy liabilities.
- (6) In this Subdivision:
  - (a) a reference to the transfer of an asset to, or from, a \*life insurance company's \*segregated exempt assets:
    - (i) is a reference to the inclusion of an asset among the segregated exempt assets, or the exclusion of an asset from the segregated exempt assets, as the case may be; and
    - (ii) includes a reference to the transfer of money to, or from, those assets, as the case may be; and
  - (b) if an asset transferred to or from those assets is money, a reference to the \*transfer value of the asset transferred is a reference to the amount of the money.

**320-230 Valuations of segregated exempt assets and exempt life insurance policy liabilities for each valuation time**

- (1) A \*life insurance company that has segregated any of its assets in accordance with section 320-225 must cause the following amounts to be calculated within the period of 60 days starting immediately after each \*valuation time:
  - (a) the total \*transfer value of the company's \*segregated exempt assets as at the valuation time;
  - (b) the amount of the company's \*exempt life insurance policy liabilities as at the valuation time.

Note: The time when a life insurance company joins or leaves a consolidated group is also a valuation time: see section 713-525.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (2) These are the *valuation times*:
- (a) the end of the income year in which the segregation occurred;
  - (b) the end of each later income year.

Note 1: The time when a life insurance company joins or leaves a consolidated group is also a valuation time: see sections 713-525 and 713-585.

Note 2: A life insurance company that fails to comply with this section is liable to an administrative penalty: see section 288-70 in Schedule 1 to the *Taxation Administration Act 1953*.

### **320-235 Consequences of a valuation under section 320-230**

#### *Transfer from the segregated exempt assets*

- (1) If:
- (a) the total \*transfer value of the company's \*segregated exempt assets as at a \*valuation time;  
*exceeds*
  - (b) the amount of the company's \*exempt life insurance policy liabilities as at that time;
- the company must transfer, from the segregated exempt assets, assets of any kind having a total transfer value equal to the excess.
- (2) A transfer under subsection (1) must be made within the period of 30 days starting immediately after:
- (a) the day on which the total \*transfer value and the \*exempt life insurance policy liabilities (as at the \*valuation time) were calculated; or
  - (b) if those amounts were calculated on different days—the later of those days.

The transfer, once made, is taken to have been made at the valuation time (whether or not the transfer is made within those 30 days).

Note: A life insurance company that fails to comply with subsections (1) and (2) is liable to an administrative penalty: see section 288-70 in Schedule 1 to the *Taxation Administration Act 1953*.

- (a) the total \*transfer value of the company's \*segregated exempt assets as at a \*valuation time;  
*is less than*
  - (b) the amount of the company's \*exempt life insurance policy liabilities as at that time;
- the company can transfer, to the segregated exempt assets, assets of any kind having a total transfer value not exceeding the difference.
- (4) A transfer under subsection (3) is taken to have been made at the \*valuation time if it is made within the period of 30 days starting immediately after:
- (a) the day on which the total \*transfer value and the \*exempt life insurance policy liabilities (as at the valuation time) were calculated; or
  - (b) if those amounts were calculated on different days—the later of those days.

**320-240 Transfer of assets to segregated exempt assets otherwise than as a result of a valuation under section 320-230**

- (1) If a \*life insurance company determines, at a time other than a \*valuation time, that:

(1A) If:

- (a) a \*life insurance policy issued by a \*life insurance company becomes a policy referred to in subsection 320-190(1); and
- (b) immediately before the policy became a policy referred to in subsection 320-190(1), the policy was an \*exempt life insurance policy;

- the company must, when the fees or charges are imposed or the excess is determined, as the case may be, transfer from the segregated exempt assets, assets having a total transfer value equal to the fees, charges or excess, as the case may be.
- (3) If:
- (a) any liabilities arise for the discharge of which a \*life insurance company has \*segregated exempt assets; or

- (2) In determining:
- (a) for the purposes of this Act (other than Division 40 and Parts 3-1 and 3-3) whether an amount is included in, or can be deducted from, the assessable income of a \*life insurance company in respect of the transfer of the asset; or
  - (b) for the purposes of Parts 3-1 and 3-3:
    - (i) whether the company made a \*capital gain in respect of the transfer; or

- the company is taken:
- (c) to have sold, immediately before the transfer, the asset transferred for a consideration equal to its \*market value; and
  - (d) to have purchased the asset again at the time of the transfer for a consideration equal to its market value.
- (3) If, apart from this subsection, section 320-60 and subsection 320-105(1), a \*life insurance company could deduct an amount or apply a \*capital loss as a result of the transfer of an asset to its \*segregated exempt assets, the deduction or capital loss is disregarded until:
- (a) the asset ceases to exist; or

  - (b) to have, at the time of the transfer, purchased the asset again for a consideration equal to its market value at that time.
- (7) If a \*depreciating asset that has been included in the \*segregated exempt assets of a \*life insurance company since the asset was acquired by the company or the initial segregation of those assets took place is transferred from those assets, then the company must assume for the purposes of Division 40 that:
- (a) if the asset's \*market value at the time of the transfer is greater than its \*adjustable value at that time, the company:
    - (i) had, at the time immediately before the transfer, sold the asset for a consideration equal to its adjustable value at that time; and
    - (ii) had, at the time of the transfer, purchased the asset again for a consideration equal to its adjustable value at that time; or

    - (ii) had, at the time of the transfer from those assets, purchased the asset again for a consideration equal to its market value at that time.
- (9) Division 40 has effect in relation to an asset covered by subsection (6), (7) or (8) as if:

#### *Amount included in originating company's assessable income*

- (2) If the originating company receives an amount from the recipient company in respect of liabilities under the \*net risk components of \*life insurance policies transferred to the recipient company, that amount is included in the assessable income of the originating company for the income year in which the transfer took place.

### **320-315 Complying superannuation asset pool and segregated exempt assets**

- (2) Assets that were \*segregated exempt assets of the originating company just before the transfer took place and that are transferred to the recipient company become segregated exempt assets of the recipient company.

### **320-320 Certain amounts treated as life insurance premiums**

- (1) This Division applies to the recipient company as if the amount or value of any consideration received by the recipient company in respect of liabilities under \*life insurance policies transferred to the company were \*life insurance premiums paid to the company at the time the transfer took place.
- (2) However, subsection (1) does not apply to consideration:
  - (a) that relates to liabilities that, just before the transfer took place, were discharged out of the originating company's \*complying superannuation assets or \*segregated exempt assets; or
  - (b) that relates to the part of a \*life insurance policy that has been reinsured under a \*contract of reinsurance (except consideration that relates to a risk, or part of a risk, in relation to which subsection 148(1) of the *Income Tax Assessment Act 1936* applies).

**320-330 Immediate annuities**

For the purposes of section 320-246, a \*life insurance policy that provides for an \*immediate annuity issued by the recipient company in substitution for a policy (also the *original policy*) transferred from the originating company is taken to have been issued at the time the original policy was issued if the terms of the substituted policy are not materially different from those of the original policy.

**320-335 Parts of assets treated as separate assets**

- (3) The amount worked out using this formula is included in the assessable income of the originating company for the income year in which the transfer took place:

$$\text{Section 320-30 amount} \times \frac{\text{Continuous disability policy days}}{365}$$

where:

**continuous disability policy days** means the number of days during the income year in which the transfer took place that the originating company held \*continuous disability policies.

- (4) The section 320-30 amount, reduced by the amount included in the assessable income of the originating company under subsection (3), is included in the assessable income of the recipient company for the income year in which the transfer took place.
- (5) For each income year after the year in which the transfer took place and that is a relevant income year for the purposes of section 320-30, the recipient company's assessable income includes the amount that would have been included in the originating company's assessable income under that section for that year if the transfer had not taken place.

- (3) Subsection 320-40(4) applies to so much of the sum of the amounts applicable in respect of the substituted policy under subsections 320-40(5), (6) and (7) as does not exceed any fees or charges made by the recipient company that the originating company would have been entitled to make under the terms of the original policy as applying just before 1 July 2000.

- (a) you carry on a \*business in the current year; and
  - (b) one or both of the following applies:
    - (i) you carried on a business in the income year (the ***previous year***) before the current year and your \*aggregated turnover for the previous year was less than \$10 million;
    - (ii) your aggregated turnover for the current year is likely to be less than \$10 million.
- Note 1: If you are a small business entity for an income year, you may apply to the Commissioner under section 61C of the *Excise Act 1901* for permission to deliver goods for home consumption (without entering them for that purpose) in respect of a calendar month.
- Note 2: If you are a small business entity for an income year, you may apply under section 69 of the *Customs Act 1901* for permission to deliver like customable goods or excise-equivalent goods into home consumption (without entering them for that purpose) in respect of a calendar month.
- Note 3: The \$10 million thresholds in this subsection and in subsections (3) and (4) have been increased to \$50 million for certain concessions (for example, see subsection 328-285(2)).
- (2) You work out your \*aggregated turnover for the current year for the purposes of subparagraph (1)(b)(ii):
- (a) as at the first day of the current year; or
  - (b) if you start to carry on a \*business during the current year— as at the day you start to carry on the business.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: Subsection 328-120(5) provides for how to work out your annual turnover (which is relevant to working out your aggregated turnover) if you do not carry on a business for the whole of an income year.

*Exception: aggregated turnover for 2 previous income years was \$10 million or more*

- (3) However, you are not a **small business entity** for an income year (the **current year**) because of subparagraph (1)(b)(ii) if:
- (a) you carried on a \*business in each of the 2 income years before the current year; and
  - (b) your \*aggregated turnover for each of those income years was \$10 million or more.

Note: Section 328-110 of the *Income Tax (Transitional Provisions) Act 1997* affects the operation of this subsection in relation to the 2007-08 and 2008-09 income years.

*Additional rule: based on aggregated turnover worked out as at the end of the current income year*

- (4) You are also a **small business entity** for an income year (the **current year**) if:
- (a) you carry on a \*business in the current year; and
  - (b) your \*aggregated turnover for the current year, worked out as at the end of that year, is less than \$10 million.

Note: If you are a small business entity only because of subsection (4), you cannot choose any of the following concessions:

- (a) paying PAYG instalments based on GDP-adjusted notional tax: see section 45-130 in Schedule 1 to the *Taxation Administration Act 1953*;
- (b) accounting for GST on a cash basis: see section 29-40 of the GST Act;
- (c) making an annual apportionment of input tax credits for acquisitions and importations that are partly creditable: see section 131-5 of the GST Act;
- (d) paying GST by quarterly instalments: see section 162-5 of the GST Act;
- (e) applying for permission under the *Excise Act 1901* to deliver goods for home consumption (without entering them for that

purpose) in respect of a calendar month: see section 61C of that Act;

- (f) applying for permission under the *Customs Act 1901* to deliver like customable goods or excise-equivalent goods for home consumption (without entering them for that purpose) in respect of a calendar month: see section 69 of that Act.

*Winding up a business previously carried on*

- (5) This Subdivision applies to you as if you carried on a \*business in an income year if:
- (a) in that year you were winding up a business you previously carried on; and
  - (b) you were a \*small business entity for the income year in which you stopped carrying on that business.

Note 1: Subsection 328-120(5) provides for how to work out your annual turnover (which is relevant to working out your aggregated turnover) if you do not carry on a business for the whole of an income year.

Note 2: A special rule applies if you were an STS taxpayer under this Division (as in force immediately before the commencement of this section) in the income year in which you stopped carrying on the business: see section 328-111 of the *Income Tax (Transitional Provisions) Act 1997*.

*Partners in a partnership*

- (6) A person who is a partner in a partnership in an income year is not, in his or her capacity as a partner, a **small business entity** for the income year.

**328-115 Meaning of aggregated turnover**

- (1) Your **aggregated turnover** for an income year is the sum of the relevant annual turnovers (see subsection (2)) excluding any amounts covered by subsection (3).

Note: For small business CGT relief purposes, additional entities may be treated as being connected with you or your affiliate under sections 152-48 and 152-78.

- (2) The **relevant annual turnovers** are:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) your \*annual turnover for the income year; and
  - (b) the annual turnover for the income year of any entity (a **relevant entity**) that is \*connected with you at any time during the income year; and
  - (c) the annual turnover for the income year of any entity (a **relevant entity**) that is an \*affiliate of yours at any time during the income year.
- (3) Your **aggregated turnover** for an income year does not include the following amounts:
- (a) amounts \*derived in the income year by you or a relevant entity from dealings between you and the relevant entity while the relevant entity is \*connected with you or is your \*affiliate;
  - (b) amounts derived in the income year by a relevant entity from dealings between the relevant entity and another relevant entity while each relevant entity is connected with you or is your affiliate;
  - (c) amounts derived in the income year by a relevant entity while the relevant entity is not connected with you and is not your affiliate.

### **328-120 Meaning of *annual turnover***

#### *General rule*

- (1) An entity's **annual turnover** for an income year is the total \*ordinary income that the entity \*derives in the income year in the ordinary course of carrying on a \*business.

#### *Exclusion of amounts relating to GST*

- (2) In working out an entity's \*annual turnover for an income year, do not include any amount that is \*non-assessable non-exempt income under section 17-5 (which is about GST).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 328-125**

---

*Exclusion of amounts derived from sales of retail fuel*

- (3) In working out an entity's \*annual turnover for an income year, do not include any amounts of \*ordinary income the entity \*derives from sales of \*retail fuel.

*Amounts derived from dealings with associates*

- (4) In working out an entity's \*annual turnover for an income year, the amount of \*ordinary income the entity \*derives from any dealing with an \*associate of the entity is the amount of ordinary income the entity would derive from the dealing if it were at \*arm's length.

Note: Amounts derived in an income year from any dealings between an entity and an associate that is a relevant entity within the meaning of section 328-115 are not included in the entity's aggregated turnover for that year: see subsection 328-115(3).

*Business carried on for part of income year only*

- (5) If an entity does not carry on a \*business for the whole of an income year, the entity's \*annual turnover for the income year must be worked out using a reasonable estimate of what the entity's annual turnover for the income year would be if the entity carried on a business for the whole of the income year.

*Regulations may provide for different calculation of annual turnover*

- (6) The regulations may provide that an entity's \*annual turnover for an income year is to be calculated in a different way, but only so that it would be less than the amount worked out under this section.

**328-125 Meaning of *connected with* an entity**

- (1) An entity is ***connected with*** another entity if:
- (a) either entity controls the other entity in a way described in this section; or
  - (b) both entities are controlled in a way described in this section by the same third entity.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- Note 1: See Subdivision 106-B if a CGT asset of yours is vested in a trustee in bankruptcy or a liquidator.
- Note 2: See Subdivision 106-C if you are absolutely entitled to a CGT asset as against the trustee of a trust.
- Note 3: See Subdivision 106-D if you provided security over an asset to another entity.

*Direct control of an entity other than a discretionary trust*

- (2) An entity (the **first entity**) controls another entity if the first entity, its \*affiliates, or the first entity together with its affiliates:
- (a) except if the other entity is a discretionary trust—own, or have the right to acquire the ownership of, interests in the other entity that carry between them the right to receive a percentage (the **control percentage**) that is at least 40% of:
    - (i) any distribution of income by the other entity; or
    - (ii) if the other entity is a partnership—the net income of the partnership; or
    - (iii) any distribution of capital by the other entity; or
  - (b) if the other entity is a company—own, or have the right to acquire the ownership of, \*equity interests in the company that carry between them the right to exercise, or control the exercise of, a percentage (the **control percentage**) that is at least 40% of the voting power in the company.

*Direct control of a discretionary trust*

- (3) An entity (the **first entity**) controls a discretionary trust if a trustee of the trust acts, or could reasonably be expected to act, in accordance with the directions or wishes of the first entity, its \*affiliates, or the first entity together with its affiliates.
- (4) An entity (the **first entity**) controls a discretionary trust for an income year if, for any of the 4 income years before that year:
- (a) the trustee of the trust paid to, or applied for the benefit of:
    - (i) the first entity; or
    - (ii) any of the first entity's \*affiliates; or

Section 328-125

---

(iii) the first entity and any of its affiliates;  
any of the income or capital of the trust; and

- (b) the percentage (the **control percentage**) of the income or capital paid or applied is at least 40% of the total amount of income or capital paid or applied by the trustee for that year.

Note: Section 328-112 of the *Income Tax (Transitional Provisions) Act 1997* affects the operation of this subsection in relation to the 2007-08, 2008-09, 2009-10 and 2010-11 income years.

- (5) An entity does not control a discretionary trust because of subsection (4) if the entity is:
- (a) an \*exempt entity; or
  - (b) a \*deductible gift recipient.

*Commissioner may determine that an entity does not control another entity*

- (6) If the control percentage referred to in subsection (2) or (4) is at least 40%, but less than 50%, the Commissioner may determine that the first entity does not control the other entity if the Commissioner thinks that the other entity is controlled by an entity other than, or by entities that do not include, the first entity or any of its \*affiliates.

*Indirect control of an entity*

- (7) This section applies to an entity (the **first entity**) that directly controls another entity (the **second entity**) as if the first entity also controlled any other entity that is directly, or indirectly by any other application or applications of this section, controlled by the second entity.
- (8) However, subsection (7) does not apply if the second entity is an entity of any of the following kinds:
- (a) a company \*shares in which (except shares that carry the right to a fixed rate of \*dividend) are listed for quotation in the official list of an \*approved stock exchange;
  - (b) a \*publicly traded unit trust;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) a \*mutual insurance company;
- (d) a \*mutual affiliate company;
- (e) a company (other than one covered by paragraph (a)) all the shares in which are owned by one or more of the following:
  - (i) a company covered by paragraph (a);
  - (ii) a publicly traded unit trust;
  - (iii) a mutual insurance company;
  - (iv) a mutual affiliate company.

### **328-130 Meaning of *affiliate***

- (1) An individual or a company is an *affiliate* of yours if the individual or company acts, or could reasonably be expected to act, in accordance with your directions or wishes, or in concert with you, in relation to the affairs of the \*business of the individual or company.
- (2) However, an individual or a company is not your *affiliate* merely because of the nature of the business relationship you and the individual or company share.

Note: For small business relief purposes, a spouse or a child under 18 years may also be an affiliate under section 152-47.

Example: A partner in a partnership would not be an affiliate of another partner merely because the first partner acts, or could reasonably be expected to act, in accordance with the directions or wishes of the second partner, or in concert with the second partner, in relation to the affairs of the partnership.

Directors of the same company, or the company and a director of that company, would be in a similar position.

## **Subdivision 328-D—Capital allowances for small business entities**

### **Guide to Subdivision 328-D**

#### **328-170 What this Subdivision is about**

If you are a small business entity, you can choose to deduct amounts for most of your depreciating assets on a diminishing value basis using a pool that is treated as a single depreciating asset.

Broadly, the pool is made up of the costs of the depreciating assets that are allocated to it or, in some cases, a proportion of those costs.

The pool rate is 30%.

There is a deduction for assets whose cost is less than \$1,000 in the income year in which you start to use the asset or have it installed ready for use.

This Subdivision sets out how to calculate the pool deductions, and also sets out the consequences of:

- (a) disposal of depreciating assets; and
- (b) not choosing to use this Subdivision for an income year after having chosen to do so for an earlier income year; and
- (c) changing the business use of depreciating assets.

## Operative provisions

### 328-175 Calculations for depreciating assets

- (1) You can choose to calculate your deductions and some amounts of assessable income under this Subdivision instead of under Division 40 for an income year for all the \*depreciating assets that you \*hold if:
  - (a) you are a \*small business entity for the income year; and
  - (b) you started to use the assets or have them \*installed ready for use, for a \*taxable purpose during or before that income year.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 328-175

---

This subsection has effect subject to subsections (2) to (10).

Note: If you choose to use this Subdivision for an income year, you continue to use this Subdivision for your general small business pool for a later income year even if you are not a small business entity, or do not choose to use this Subdivision, for the later year: see section 328-220.

*Exception: assets to which Division 40 does not apply*

- (2) This Subdivision does not apply to a \*depreciating asset to which Division 40 does not apply because of section 40-45.

*Exception: primary production*

- (3) If you are a \*small business entity for the income year, for each \*depreciating asset you use to carry on a \*primary production business and for which you could deduct amounts under Subdivision 40-F (about primary production depreciating assets) or Subdivision 40-G (about capital expenditure of primary producers and other landholders) apart from subsection (1), you can choose:
- (a) to deduct amounts for it under Subdivision 40-F or 40-G; or
  - (b) to calculate your deductions for it under this Subdivision.

Note: A choice made by a transferor under this subsection for an asset applies also to the transferee if roll-over relief under subsection 40-340(1) or (3) is chosen: see section 328-245.

- (4) You must make the choice under subsection (3) for each \*depreciating asset of the kind referred to in that subsection for the later of:
- (a) the first income year for which you are, or last were, a \*small business entity; or
  - (b) the income year in which you started to use the asset, or have it \*installed ready for use, for a \*taxable purpose.

Once you have made the choice for an asset, you cannot change it.

*Exception: horticultural plants*

- (5) You cannot deduct amounts for \*horticultural plants (including grapevines) under this Subdivision.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Exception: asset let on depreciating asset lease*

- (6) You cannot deduct amounts for a \*depreciating asset under this Subdivision if the asset is being or might reasonably be expected to be let predominantly on a \*depreciating asset lease.

*Exception: assets in a low-value or software development pool*

- (7) You cannot deduct amounts for a \*depreciating asset under this Subdivision if:
- (a) the asset was allocated to your low-value pool under Subdivision 40-E, or to your pool under the former Subdivision 42-L, during an income year for which you were not a \*small business entity or had not chosen to use this Subdivision; or
  - (b) the asset is \*in-house software and expenditure on the asset is allocated to a software development pool under that Subdivision.

Note: You will have to continue deducting amounts for these assets under Division 40.

- (8) A \*depreciating asset referred to in subsection (7) is not allocated to your \*general small business pool under this Subdivision and does not qualify for a deduction under section 328-180.

*Exception: assets for which previously entitled to a tax offset under the R&D provisions*

- (9) You cannot deduct amounts for a \*depreciating asset for any period under this Subdivision if you are entitled under section 355-100 to a \*tax offset for a deduction under section 355-305 for the asset for the same or an earlier period.

*Exception: second-hand assets used in residential property*

- (9A) You cannot deduct amounts for a \*depreciating asset under this Subdivision to the extent that section 40-27 prevents you from deducting amounts under subsection 40-25(1) for the asset.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 328-180**

---

*Exception: restriction on choosing to use this Subdivision*

- (10) If:
- (a) you choose to use this Subdivision to deduct amounts for your \*depreciating assets for an income year; and
  - (b) you do not choose to use this Subdivision for a later income year for which you satisfy the conditions to make this choice (see subsection (1));

you cannot choose to use this Subdivision until at least 5 years after the first later income year for which you satisfied the conditions to make this choice but did not do so.

Note 1: Your ability to choose to use this Subdivision may also be restricted by section 328-440 of the *Income Tax (Transitional Provisions) Act 1997*.

Note 2: If you choose to use this Subdivision for an income year, you continue to use it for assets that have been allocated to your general small business pool for a later income year even if you are not a small business entity, or do not choose to use this Subdivision, for the later year: see section 328-220.

Note 3: Subsections 328-180(2) and (3) of the *Income Tax (Transitional Provisions) Act 1997* affect the operation of this subsection in relation to income years ending on or after 12 May 2015.

**328-180 Assets costing less than \$1,000**

- (1) You deduct the \*taxable purpose proportion of the \*adjustable value of a \*depreciating asset for the income year in which you start to use the asset, or have it \*installed ready for use, for a \*taxable purpose if:
- (a) you were a \*small business entity for that year and the year in which you started to \*hold it; and
  - (ab) you chose to use this Subdivision for each of those years; and
  - (b) the asset is a depreciating asset whose \*cost as at the end of the income year in which you start to use it, or have it installed ready for use, for a taxable purpose is less than \$1,000.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Note: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (2) You can also deduct, for an income year for which you are a \*small business entity and you choose to use this Subdivision, the \*taxable purpose proportion of an amount included in the second element of the \*cost of an asset for which you have deducted an amount under subsection (1) if:

- (a) the amount so included is less than \$1,000; and

Note: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (b) you started to use the asset, or have it \*installed ready for use, for a \*taxable purpose during an earlier income year.

Note: Paragraph (b) may not apply for costs included after 31 December 2020 for assets you first acquire between 12 May 2015 and 31 December 2020: see subsection 328-180(5A) of the *Income Tax (Transitional Provisions) Act 1997*.

- (3) An asset for which you have deducted an amount under this section is allocated to your \*general small business pool if:

- (a) an amount of \$1,000 or more is included in the second element of the asset's \*cost; or

Note: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (b) any amount is included in the second element of the asset's cost and you have deducted or can deduct an amount under subsection (2) for an amount previously included in the second element of the asset's cost.

- (4) This Division applies to the asset as if its \*adjustable value were the amount included in the second element of its \*cost as mentioned in subsection (3).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 328-185

---

- (5) Subsection (3) applies even if the amount is included in the second element of the asset's \*cost during an income year for which you are not a \*small business entity or do not choose to use this Subdivision.

**328-185 Pooling**

- (1) If you are a \*small business entity for an income year and you have chosen to use this Subdivision for that year, you deduct amounts for your \*depreciating assets (except assets for which you have deducted or can deduct an amount under section 328-180) through a pool, which allows you to deduct amounts for them as if they were a single asset, thereby simplifying your calculations. You use one rate for the pool.
- (2) There is a **general small business pool** to which \*depreciating assets are allocated.

*Allocating assets to a pool*

- (3) A \*depreciating asset:
- (a) that you \*hold just before, and at the start of, the first income year for which you are, or last were, a \*small business entity; and
  - (b) for which you calculate your deductions under this Subdivision instead of under Division 40; and
  - (c) that has not previously been allocated to your \*general small business pool; and
  - (d) that you have started to use, or have \*installed ready for use, for a \*taxable purpose;
- is automatically allocated to your general small business pool.
- (4) A \*depreciating asset that you start to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you are a \*small business entity and you choose to use this Subdivision is allocated to the \*general small business pool at the end of that year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Note: The allocation happens even if you no longer hold the asset at the end of that income year.

*Exception for assets used or installed before 1 July 2001*

- (5) You can choose not to have a \*depreciating asset allocated to the \*general small business pool if you started to use it, or have it \*installed ready for use, for a \*taxable purpose before 1 July 2001.

Note: If you make this choice, you would continue to deduct amounts for the asset under Division 40.

- (6) You must make that choice for the first income year for which you are a \*small business entity and you choose to use this Subdivision. Once you have made the choice for an asset, you cannot change it.

*No re-allocation*

- (7) Once a \*depreciating asset is allocated to your \*general small business pool, it is not re-allocated, even if you are not a \*small business entity for a later income year or you do not choose to use this Subdivision for that later year.

Note: If you chose to use this Subdivision for an income year, you continue to use it for your general small business pool for a later income year even if you are not a small business entity, or do not choose to use this Subdivision, for the later year: see section 328-220.

### **328-190 Calculation**

- (1) You calculate your deduction for your \*general small business pool for an income year using this formula:

\*Opening pool balance × 30%

Note: You use section 328-210 instead if the pool has a low pool value.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 328-195

---

- (2) Your deduction for each \*depreciating asset that you start to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you are a \*small business entity and choose to use this Subdivision is 15% of the \*taxable purpose proportion of its \*adjustable value.
- (3) You can also deduct for an income year for which you are a \*small business entity and choose to use this Subdivision the amount worked out under subsection (4) for an amount (the **cost addition amount**) included in the second element of the \*cost of a \*depreciating asset for that year if you started to use the asset, or have it \*installed ready for use, for a \*taxable purpose during an earlier income year.

Note: The second element of cost is worked out under section 40-190.

- (4) The amount you can deduct is 15% of the \*taxable purpose proportion of the cost addition amount.

Note: The amounts that a transferor and transferee can deduct under this section are modified if roll-over relief under section 40-340 is chosen: see sections 328-243 and 328-247.

### **328-195 Opening pool balance**

- (1) For the first income year for which you are a \*small business entity and choose to use this Subdivision, the **opening pool balance** of your \*general small business pool is the sum of the \*taxable purpose proportions of the \*adjustable values of \*depreciating assets allocated to the pool under subsection 328-185(3).
- (2) For a later income year, the **opening pool balance** of your \*general small business pool is that pool's \*closing pool balance for the previous income year, reduced or increased by any adjustment required under section 328-225 (about change in the business use of an asset).

Note: You continue to deduct amounts using your general small business pool even if you are not a small business entity, or do not choose to use this Subdivision, for a later income year: see section 328-220.

- (3) However, if:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (a) you are not a \*small business entity for an income year or you do not choose to use this Subdivision for that year; but
  - (b) you are a small business entity for a later income year and you choose to use this Subdivision for the later year;
- the **opening pool balance** of your \*general small business pool includes the sum of the \*taxable purpose proportions of the \*adjustable values of \*depreciating assets allocated to the pool under subsection 328-185(3) for that year.

### 328-200 Closing pool balance

You work out the **closing pool balance** of your \*general small business pool for an income year in this way:

*Method statement*

Step 1. Add to the \*opening pool balance of the pool for the income year:

- (a) the sum of the \*taxable purpose proportions of the \*adjustable values of \*depreciating assets you started to use, or have \*installed ready for use, for a \*taxable purpose during the income year and that are allocated to the pool; and
- (b) the taxable purpose proportion of any cost addition amounts (see subsection 328-190(3)) for the income year for assets allocated to the pool.

Step 2. Subtract from the step 1 amount:

- (a) the \*taxable purpose proportions of the \*termination values of \*depreciating assets allocated to the pool and for which a \*balancing adjustment event occurred during the income year; and

Section 328-205

---

- (b) your deduction under subsection 328-190(1) for the pool for the income year; and
- (c) your deductions under subsection 328-190(2) for \*depreciating assets you started to use, or have \*installed ready for use, for a \*taxable purpose during the income year and that are allocated to the pool; and
- (d) your deductions under subsection 328-190(3) for the income year for cost addition amounts for assets allocated to the pool.

Step 3. The result is the ***closing pool balance*** of the pool for the income year.

Note: A transferor does not subtract anything for certain balancing adjustment events under paragraph (a) of step 2 if roll-over relief under section 40-340 is chosen: see sections 328-243 and 328-245.

**328-205 Estimate of taxable use**

- (1) You must, for the first income year for which you are, or last were, a \*small business entity, make a reasonable estimate for that year of the proportion you will use, or have \*installed ready for use, each \*depreciating asset that you \*held just before, and at the start of, that year for a \*taxable purpose if:
- (a) the asset has not previously been allocated to your \*general small business pool; and
  - (b) you have started to use it, or have it installed ready for use, for a taxable purpose; and
  - (c) you have chosen to calculate your deductions for it under this Subdivision.

Note 1: That proportion will be 100% for an asset that you expect to use, or have installed ready for use, solely for a taxable purpose.

Note 2: Your estimate will be zero for an income year if another provision of this Act denies a deduction for that year: see section 328-230.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Note 3: This subsection does not apply to a transferee for certain assets if roll-over relief under section 40-340 is chosen: see sections 328-243 and 328-257.

- (2) You must also make this estimate for each \*depreciating asset that you \*hold and start to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you are a \*small business entity and you choose to use this Subdivision. You must make the estimate for the income year in which you start to use it, or have it installed ready for use, for such a purpose.
- (3) The **taxable purpose proportion** of a \*depreciating asset's \*adjustable value, or of an amount included in the second element of its \*cost, is that part of that amount that represents:
- (a) the proportion you estimated under subsection (1) or (2); or
  - (b) if you have had to make an adjustment under section 328-225 for the asset—the proportion most recently applicable to the asset under that section.

Note: An amount included in the second element of the cost of a depreciating asset is referred to in this Division as a cost addition amount: see subsection 328-190(3).

- (4) The **taxable purpose proportion** of a \*depreciating asset's \*termination value is that part of that amount that represents:
- (a) if you have not had to make an adjustment under section 328-225 for the asset—the proportion you estimated under subsection (1) or (2); or
  - (b) if you have had to make at least one such adjustment—the average of:
    - (i) the proportion you estimated under subsection (1) or (2); and
    - (ii) the proportion applicable to the asset for each of the 3 income years you \*held the asset after the one in which the asset was allocated to the pool.

Example: When Bria's computer was allocated to her general small business pool for the 2012-13 income year, she estimated that it would be used 50% for her florist business. Due to increasing business, Bria estimates the computer's use to be 70% for the 2013-14 year, and 90%

---

## Section 328-210

---

for the 2014-15 year. She makes an adjustment under section 328-225 for both those years.

Bria sells the computer for \$1,000 at the start of the 2016-17 income year. She must now average the business use estimates for the computer for the year it was allocated to the pool and the next 3 years to work out the taxable purpose proportion of its termination value.

The average is worked out as follows:

- 50% (original estimate); plus
- 70% (2013-14 estimate); plus
- 90% (2014-15 estimate); plus
- 90% (no change on previous year);

$$=300\% \div 4 = 75\%$$

The taxable purpose proportion of the computer's termination value is, therefore:

$$75\% \text{ of } \$1,000 = \$750$$

### 328-210 Low pool value

- (1) Your deduction for a \*general small business pool for an income year is the amount worked out under subsection (2) (instead of an amount calculated under section 328-190) if that amount is less than \$1,000 but more than zero.

Note 1: See section 328-215 for the result when the amount is less than zero.

Note 2: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (2) The amount is the sum of:
- (a) the pool's \*opening pool balance for the income year; and
  - (b) the \*taxable purpose proportion of the \*adjustable value of each \*depreciating asset you started to use, or have \*installed ready for use, for a \*taxable purpose during the income year and that is allocated to the pool; and
  - (c) the taxable purpose proportion of any cost addition amounts (see subsection 328-190(3)) for the income year for assets allocated to the pool;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

less the sum of the taxable purpose proportion of the \*termination values of depreciating assets allocated to the pool and for which a \*balancing adjustment event occurred during the income year.

- (3) In that case, the \*closing pool balance of the pool for that income year then becomes zero.

Example: Amanda's Graphics is a small business entity for the 2014-15 income year and chooses to use this Subdivision for that year. The business has an opening pool balance of \$8,500 for its general small business pool for that year.

During that year, Amanda acquired a new computer for \$2,000. The taxable purpose proportion of its adjustable value is:

$$\$2,000 \times 80\% \text{ business use estimate} = \$1,600$$

Amanda also sold her business car for \$9,600 during that year. The car was used 100% in the business.

To work out whether she can deduct an amount under this section, Amanda uses this calculation:

$$\$8,500 + \$1,600 - \$9,600 = \$500$$

Because the result is less than \$1,000, Amanda can deduct the \$500 for the income year. The pool's closing balance for the year is zero.

### **328-215 Disposal etc. of depreciating assets**

- (1) This section sets out adjustments you may have to make if a \*balancing adjustment event occurs for a \*depreciating asset for which you calculate your deductions under this Subdivision.
- (2) If the asset is allocated to your \*general small business pool and:
- (a) the \*closing pool balance of the pool for the income year in which the event occurred is less than zero; or
  - (b) the amount worked out under subsection 328-210(2) for that income year is less than zero;
- the amount by which that balance or amount is less than zero is included in your assessable income for that year.
- (3) In that case, the \*closing pool balance of the pool for that income year then becomes zero.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 328-220

---

- (4) If the asset was one for which you deducted an amount under section 328-180 (about assets costing less than \$1,000), you include the \*taxable purpose proportion of the asset's \*termination value in your assessable income.

**328-220 What happens if you are not a small business entity or do not choose to use this Subdivision for an income year**

- (1) If you are not a \*small business entity for an income year or you do not choose to use this Subdivision for that year, this Subdivision continues to apply to your \*general small business pool for that year and later income years.
- (2) However, \*depreciating assets you started to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you are not a \*small business entity or do not choose to use this Subdivision cannot be allocated to your \*general small business pool under this Subdivision until an income year for which you are a small business entity and you choose to use this Subdivision.
- (3) This section applies to a transferee referred to in subsection 328-243(1) or (1A) who:
- (a) was not a \*small business entity for the income year in which the relevant \*balancing adjustment events occurred; or
  - (b) did not choose to use this Subdivision for that year;
- as if the transferee had been a small business entity for an earlier income year and had chosen to use this Subdivision for the earlier year. This rule applies even if roll-over relief is not chosen.

**328-225 Change in business use**

- (1) You must, for each income year (the *present year*) after the year in which a \*depreciating asset is allocated to a pool, make a reasonable estimate of the proportion you use the asset, or have it \*installed ready for use, for a \*taxable purpose in that year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: This section is modified in its application to a transferee for certain assets if roll-over relief under section 40-340 is chosen: see sections 328-243 and 328-257.

- (1A) You must make an adjustment for the present year if your estimate for that year under subsection (1) is different by more than 10 percentage points from:
- (a) your original estimate (see section 328-205); or
  - (b) if you have made an adjustment under this section—the most recent estimate you made under subsection (1) that resulted in an adjustment under this section.
- (2) The adjustment is made to the \*opening pool balance of the \*general small business pool to which the asset was allocated, and it must be made before you calculate your deduction under this Subdivision for the present year.

Note: The opening pool balance will be reduced if the adjustment worked out under subsection (3) is a negative amount. It will be increased if the adjustment is positive.

- (3) The adjustment is:

$$\text{Reduction factor} \times \text{Asset value} \times \left[ \begin{array}{c} \text{Present year} \\ \text{estimate} \end{array} - \text{Last estimate} \right]$$

where:

**asset value** is:

- (a) for a \*depreciating asset you started to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you were a \*small business entity and chose to use this Subdivision—the asset's \*adjustable value at that time; or
- (b) for an asset you started to use, or have installed ready for use, for a taxable purpose during an income year for which you were not a \*small business entity or did not choose to use this Subdivision—its adjustable value at the start of the income year for which it was allocated to a \*general small business pool;

---

Section 328-225

---

increased by any amounts included in the second element of the asset's \*cost from the time mentioned in paragraph (a) or (b) until the beginning of the income year for which you are making the adjustment.

**last estimate** is:

- (a) your original estimate of the proportion you use, or have \*installed ready for use, a \*depreciating asset for a \*taxable purpose (see section 328-205); or
- (b) if you have made an adjustment under this section—the latest estimate taken into account under this section.

**present year estimate** is your reasonable estimate of the proportion you use the asset, or have it \*installed ready for use, for a \*taxable purpose during the present year.

**reduction factor** is the number worked out under subsection (4).

- (4) The **reduction factor** in the formula in subsection (3) is:
  - (a) for a \*depreciating asset you started to use, or have \*installed ready for use, for a \*taxable purpose during an income year for which you were a \*small business entity and chose to use this Subdivision:

$$\left[ 1 - \left( \frac{\text{rate}}{2} \right) \right] \times \left[ 1 - \text{rate} \right]^{n-1}$$

- (b) for an asset you started to use, or have \*installed ready for use, for a taxable purpose during an income year for which you were not a \*small business entity or did not choose to use this Subdivision:

$$\left[ 1 - \text{rate} \right]^n$$

where:

**n** is the number of income years (counting part of an income year as a whole year) before the present year for which you have

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

deducted or can deduct an amount for the \*depreciating asset under this Subdivision.

*rate* is the rate applicable to the pool to which the asset is allocated.

Note: The reduction factor for a depreciating asset in your general small business pool which you started to use, or have installed ready for use, for a taxable purpose during an income year for which you were not a small business entity or did not choose to use this Subdivision is:

- 0.7 for the income year after it is allocated to the pool; and
- 0.49 for the income year after that; and
- 0.343 for the income year after that.

The reduction factor for a depreciating asset in your general small business pool which you started to use, or have installed ready for use, for a taxable purpose during an income year for which you were a small business entity and chose to use this Subdivision is:

- 0.85 for the income year after it is allocated to the pool; and
- 0.595 for the income year after that; and
- 0.417 for the income year after that.

### *Exceptions*

(5) However:

- (a) you do not need to make an estimate or an adjustment under this section for a \*depreciating asset for an income year that is at least 3 income years after the income year in which the asset was allocated; and
- (b) you cannot make an adjustment for a depreciating asset if your reasonable estimate of the proportion you use a depreciating asset, or have it \*installed ready for use, for a \*taxable purpose changes in a later income year by the 10 percentage points mentioned in subsection (1) or less.

## **328-230 Estimate where deduction denied**

This Subdivision applies to you as if you had estimated that you will not use, or have \*installed ready for use, a \*depreciating asset at all for a \*taxable purpose during an income year if a provision of

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 328-235

---

this Act outside this Division denies a deduction for the asset for that year.

**328-235 Interaction with Divisions 85 and 86**

- (1) Despite sections 85-10 and 86-60, if you are a \*small business entity for an income year you can deduct amounts for \*depreciating assets under this Subdivision.
- (2) However, you cannot deduct an amount for a \*car under this Subdivision if, had you not been a \*small business entity and chosen to use this Subdivision, sections 86-60 and 86-70 would have prevented you deducting an amount for it.

**Special rules about roll-overs**

**328-243 Roll-over relief**

- (1A) There is roll-over relief under subsection 40-340(1) (as affected by subsection 40-340(2)) if:
  - (a) \*balancing adjustment events occur for \*depreciating assets on a day (the **BAE day**) because an entity (the **transferor**) disposes of the assets in an income year to another entity (the **transferee**); and
  - (b) the disposal involves a \*CGT event; and
  - (c) the conditions in item 1, 2, 3 or 8 of the table in subsection 40-340(1) are satisfied; and
  - (d) deductions for the assets are calculated under this Subdivision; and
  - (e) the transferor and the transferee jointly choose the roll-over relief; and
  - (f) the condition in subsection (2) is met.
- (1) Roll-over relief can be chosen under subsection 40-340(3) if:
  - (a) \*balancing adjustment events occur for \*depreciating assets on a day (the **BAE day**) because of subsection 40-295(2); and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) deductions for the assets are calculated under this Subdivision; and
  - (c) the entity or entities that had an interest in the assets just before the balancing adjustment events occurred (the *transferor*) and the entity or entities that have an interest in the assets just after the events occurred (the *transferee*) jointly choose the roll-over relief; and
  - (d) the condition in subsection (2) is met.
- (2) All of the \*depreciating assets that, just before the \*balancing adjustment events occurred, were:
- (a) \*held by the transferor; and
  - (b) allocated to the transferor's \*general small business pool; must be held by the transferee just after those events occurred.

### **328-245 Consequences of roll-over**

- (1) The transferor does not subtract anything for the \*balancing adjustment events under:
  - (a) paragraph (a) of step 2 in the method statement in section 328-200; or
  - (b) subsection 328-210(2).
- (2) Subsection 328-215(4) does not apply to the \*balancing adjustment events for the transferor.
- (3) A choice made by the transferor for a \*depreciating asset under subsection 328-175(3) (about primary production assets) applies to the transferee as if it had been made by the transferee.
- (4) Sections 328-247 to 328-257 have effect.

### **328-247 Pool deductions**

- (1) The amount that can be deducted for the transferor's \*general small business pool for the income year (the *BAE year*) in which the \*balancing adjustment events occurred under

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 328-250**

---

subsection 328-190(1) or section 328-210 for the BAE year is split equally between:

- (a) the transferor and the transferee; or
- (b) if there are 2 or more occurrences of balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—the entities concerned.

**Example:** John and Dave operate a dry cleaning business in partnership (the transferor). The transferor is a small business entity for the relevant income year and has chosen to use this Subdivision for that year. On the 90th day of an income year, Jonathan joins the partnership. The new partnership (the transferee) is a small business entity for the income year and chooses to use this Subdivision for that year. Had there been no partnership change, a deduction of \$6,600 would have been available for the transferor's general small business pool. The transferor and transferee jointly choose the roll-over.

The deduction available to the transferor and the transferee for the pool under section 328-210 is \$3,300 each.

- (2) The transferor cannot deduct any amount for the transferor's \*general small business pool for an income year after the BAE year.

**328-250 Deductions for assets first used in BAE year**

- (1) This section applies in working out the amount that the transferor or transferee can deduct for the BAE year under subsection 328-180(1) (assets costing less than \$1,000) or subsection 328-190(2) (assets that will be pooled) for a \*depreciating asset that the transferor or transferee started to use, or have \*installed ready for use, for a \*taxable purpose during the BAE year.

**Note:** This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

*Asset first used by transferor*

- (2) If the asset was first used or \*installed ready for use by the transferor, the amount that can be deducted under subsection 328-180(1) or 328-190(2) for the asset for the BAE year is split equally between:
- (a) the transferor and the transferee; or
  - (b) if there are 2 or more occurrences of \*balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—the entities concerned.

*Asset first used by transferee*

- (3) If the asset was first used or \*installed ready for use by the transferee:
- (a) the transferor cannot deduct anything for the asset for the BAE year; and
  - (b) the amount that can be deducted under subsection 328-180(1) or 328-190(2) for the asset for the BAE year is:
    - (i) deductible by the transferee; or
    - (ii) if there are 2 or more occurrences of \*balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—split equally between the entities concerned (except ones that did not use the asset or have it installed ready for use).

**Example:** To continue the example from section 328-247, the transferee buys an asset on the 150th day of the BAE year for \$800.

On the 250th day of the year, Evan joins the transferee partnership. The new transferee partnership is a small business entity for the BAE year, and chooses to use this Subdivision for that year, and a further roll-over is chosen.

The original transferor cannot deduct anything for the asset. The original transferee (now a transferor) and the new transferee can deduct \$400 each.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 328-253**

---

*Special rule for assets costing less than \$1,000*

- (4) Subsection (5) applies if:
- (a) the transferor started to use, or have \*installed ready for use, an asset of a kind mentioned in paragraph 328-180(1)(b) during the BAE year; and
  - (b) a \*balancing adjustment event occurs for that asset before the BAE day.

Note: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (5) The transferee cannot deduct anything for the asset for the BAE year, and subsection 328-215(4) does not apply to the transferee in relation to the asset.

**328-253 Deductions for cost addition amounts**

- (1) This section applies in working out the amount that the transferor or transferee can deduct for the BAE year under subsection 328-180(2) or 328-190(3) for expenditure incurred by the transferor or transferee during the BAE year that is included in the second element of the \*cost of a depreciating asset.

*Expenditure incurred by transferor*

- (2) If the expenditure was incurred by the transferor, the amount that can be deducted under subsection 328-180(2) or 328-190(3) for the BAE year is split equally between:
- (a) the transferor and the transferee; or
  - (b) if there are 2 or more occurrences of \*balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—the entities concerned.

*Expenditure incurred by transferee*

- (3) If the expenditure was incurred by the transferee:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) the transferor cannot deduct anything for the expenditure for the BAE year; and
- (b) the amount that can be deducted under subsection 328-180(2) or 328-190(3) for the expenditure for the BAE year is:
  - (i) deductible by the transferee; or
  - (ii) if there are 2 or more occurrences of \*balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—split equally between the entities concerned.

*Special rule for expenditure on assets costing less than \$1,000*

- (4) Subsection (5) applies if:
  - (a) the transferor incurred the expenditure in relation to an asset of a kind mentioned in paragraph 328-180(1)(b); and
  - (b) a \*balancing adjustment event occurs for that asset before the BAE day.

Note: This threshold may be affected by section 328-180 (about temporary increased access to accelerated depreciation) or 328-181 (about temporary full expensing) of the *Income Tax (Transitional Provisions) Act 1997*.

- (5) The transferee cannot deduct anything for the expenditure for the BAE year, and subsection 328-215(4) does not apply to the transferee in relation to the asset.

### **328-255 Closing pool balance etc. below zero**

- (1) This section applies if:
  - (a) the \*closing pool balance of the transferor's \*general small business pool for the BAE year is less than zero; or
  - (b) the amount worked out under subsection 328-210(2) for the pool for the BAE year is less than zero;because a \*balancing adjustment event occurred for an asset allocated to that pool during that year.
- (2) The amount included in assessable income under subsection 328-215(2) is split equally between:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 328-257

---

- (a) the transferor and transferee; or
- (b) if there are 2 or more occurrences of \*balancing adjustment events for relevant entities for the BAE year and a roll-over is chosen for each occurrence—the entities concerned.

**328-257 Taxable use**

- (1) This section applies to \*depreciating assets (the *previously held assets*) that were \*held by the transferor just before the \*balancing adjustment events occurred.
- (2) Subsection 328-205(1) (about estimates of taxable use) does not apply to previously held assets in the hands of the transferee for the BAE year. Instead, the transferee uses for the BAE year:
  - (a) the estimate made by the transferor under that subsection for the asset; or
  - (b) if the transferor had made one or more estimates for the asset under subsection 328-225(1) that resulted in an adjustment under section 328-225 (about change in business use)—that estimate or the most recent of those estimates.
- (3) Section 328-225 applies to the transferee for each previously held asset for income years after the BAE year as if:
  - (a) the transferee had \*held the asset during the period that the transferor held it; and
  - (b) estimates applicable to the transferor for the asset under that section were also applicable to the transferee.

### **Guide to Subdivision 328-E**

#### **Operative provisions**

##### **328-285 Trading stock for small and medium business entities**

- (1) You can choose not to account for changes in the \*value of your \*trading stock for an income year if:
- (a) you are a \*small business entity, or an entity covered by subsection (2), for that year; and
  - (b) the difference between the value of all your trading stock on hand at the start of that year and the value you reasonably estimate of all your trading stock on hand at the end of that year is not more than \$5,000.

Note 1: As a result, sections 70-35 and 70-45 (about comparing the value of each item of trading stock on hand at the start and end of an income year) will not apply to you for the income year.

Note 2: When making a reasonable estimate of the value of trading stock on hand:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 328-295**

---

- (a) special valuation rules may be used, for example, obsolete stock, natural increase of live stock, horse breeding stock; and
- (b) the estimated value disregards an amount equal to the amount of input tax credits (if any) to which you would be entitled for an item if the acquisition of the item had been solely for a creditable purpose: see subsection 70-45(1A).

Note 3: If you choose to account for changes in the value of your trading stock for an income year, you will have to do a stocktake and account for the change in the value of all your trading stock: see Subdivision 70-C.

- (2) An entity is covered by this subsection for an income year if:
  - (a) the entity is not a \*small business entity for the income year; and
  - (b) the entity would be a small business entity for the income year if:
    - (i) each reference in Subdivision 328-C (about what is a small business entity) to \$10 million were instead a reference to \$50 million; and
    - (ii) the reference in paragraph 328-110(5)(b) to a small business entity were instead a reference to an entity covered by this subsection.

**328-295 Value of trading stock on hand**

- (1) If you make a choice under section 328-285 for an income year, the \*value of all your \*trading stock on hand at the start of the income year is:
  - (a) the same amount as was taken into account under this Act at the end of the previous income year; or
  - (b) zero if no item of trading stock was taken into account under this Act at the end of the previous income year.

Note: The amount taken into account at the end of the previous income year is worked out under either section 70-45 or subsection (2) of this section.

- (2) If you make a choice under section 328-285 for an income year, this Act applies to you as if the \*value of all your \*trading stock on

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

hand at the end of the year were equal to the value of all your trading stock on hand at the start of the year.

**Note:** If you do not make a choice under section 328-285, the value of trading stock on hand at the end of the year is worked out using section 70-45.

**Example:** Angela operates a riding school, and also sells riding gear. Her business is a small business entity for the 2008-09 income year and makes a choice under section 328-285 for that year.

At the start of the 2008-09 income year, the opening value of Angela's trading stock is \$30,000. Using her reliable inventory system, she estimates the closing value to be \$34,000.

The closing value for the 2008-09 income year, and the opening value for the 2009-10 income year, will be \$30,000.

## **Subdivision 328-F—Small business income tax offset**

### **Guide to Subdivision 328-F**

#### **328-350 What this Subdivision is about**

You may be entitled to a tax offset if you are an individual:

- (a) who is a small business entity; or
- (b) whose assessable income includes a share of the net small business income of an unincorporated small business entity; or
- (c) whose assessable income includes an amount because you are a partner in a partnership, or a beneficiary in a trust, that is a small business entity.

In working out whether you or another entity is a small business entity, a special \$5 million turnover threshold applies (see section 328-357).

## **Table of sections**

### **Operative provisions**

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 328-355**

---

- 328-355 Entitlement to the small business income tax offset
- 328-357 Special meaning of *small business entity* for the purposes of this Subdivision—\$5 million turnover threshold
- 328-360 Amount of your tax offset
- 328-365 *Net small business income*
- 328-370 Relevant attributable deductions
- 328-375 Modification if you are under 18 years old

**Operative provisions**

**328-355 Entitlement to the small business income tax offset**

You are entitled to a \*tax offset for an income year if you are an individual:

- (a) who is a \*small business entity for the income year; or
- (b) whose assessable income for the income year includes an amount that is a share of the \*net small business income, for the income year, of a small business entity that is not a \*corporate tax entity; or
- (c) whose assessable income for the income year includes an amount that:
  - (i) would not have been so included if you had not been a partner in a partnership, or a beneficiary in a trust, that is a small business entity for the income year; and
  - (ii) is not included in the partnership's or trust's assessable income for an income year; and
  - (iii) would have formed part of the partnership's or trust's net small business income for an income year if the amount were included in the partnership's or trust's assessable income for an income year.

Note: This section does not apply to an individual in his or her capacity as the trustee of a trust (see subsection 960-100(4)).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**328-357 Special meaning of *small business entity* for the purposes of this Subdivision—\$5 million turnover threshold**

For the purposes of this Subdivision, in working out whether you are a \*small business entity for an income year, assume that each reference in section 328-110 to \$10 million were a reference to \$5 million.

**328-360 Amount of your tax offset**

- (1) The amount of your \*tax offset is equal to 16% of the following:

$$\frac{\text{Your total net small business income for the income year}}{\text{Your taxable income for the income year}} \times \text{Your basic income tax liability for the income year}$$

where:

***your total net small business income for the income year*** means so much of the sum of the following as does not exceed your taxable income for the income year:

- (a) your \*net small business income for the income year, if you are a \*small business entity for the income year;
- (b) an amount referred to in paragraph 328-355(b) or (c) that is included in your assessable income for the income year, reduced (but not below zero) by your deductions to the extent that they are attributable to that amount and covered by section 328-370.

Note: If you are under 18 years old, your total net small business income will probably be worked out under section 328-375.

- (2) However, the amount of your \*tax offset is \$1,000 if the amount worked out under subsection (1) exceeds \$1,000.

Note: Your tax offset is capped at \$1,000 regardless of the number of small business entities that cause you to be entitled to the tax offset for the income year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 328-365

---

**328-365 Net small business income**

- (1) A \*small business entity's **net small business income** for an income year is the result of:
  - (a) working out the entity's assessable income for the income year to the extent that it relates to the entity carrying on a \*business, but disregarding:
    - (i) any \*net capital gain; and
    - (ii) any \*personal services income not produced from conducting a \*personal services business; and
  - (b) subtracting the entity's deductions to the extent that they are attributable to that assessable income and covered by section 328-370.
- (2) However, the entity's **net small business income** for the income year is zero if that result is less than zero.

**328-370 Relevant attributable deductions**

For the purposes of this Subdivision, this section covers all attributable deductions other than any under:

- (a) section 25-5 (about tax-related expenses); or
- (b) Division 30 (about gifts or contributions); or
- (c) Subdivision 290-C (about personal superannuation contributions).

**328-375 Modification if you are under 18 years old**

- (1) Despite subsection 328-360(1), your total net small business income for the income year is worked out under this section if you are a prescribed person (within the meaning of section 102AC of the *Income Tax Assessment Act 1936*) for the income year.
- (2) **Your total net small business income for the income year** is the result of:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) working out your business income (within the meaning of subsection 102AE(5) of that Act) for the income year to the extent that it relates to you carrying on:
    - (i) a \*business as a \*small business entity for the income year; or
    - (ii) a business as a partner in a partnership, if the partnership is a small business entity for the income year; and
  - (b) subtracting your deductions, and each partnership's deductions, to the extent that they are attributable to that business income and covered by section 328-370.
- (3) However, *your total net small business income for the income year* is:
- (a) zero if that result is less than zero; or
  - (b) equal to your taxable income for the income year if that result exceeds that taxable income.

## **Subdivision 328-G—Restructures of small businesses**

### **Guide to Subdivision 328-G**

#### **328-420 What this Subdivision is about**

There are tax-neutral consequences for a small business entity that restructures the ownership of the assets of the business, without changing the ultimate economic ownership of the assets.

#### **Table of sections**

##### **Object of this Subdivision**

328-425 Object of this Subdivision

**Section 328-425**

---

- 328-430 When a roll-over is available
- 328-435 Genuine restructures—safe harbour rule
- 328-440 Ultimate economic ownership—discretionary trusts
- 328-445 Residency requirement

**Consequences of a roll-over under this Subdivision**

- 328-450 Small business transfers not to affect income tax positions
- 328-455 Effect of small business restructures on transferred cost of assets
- 328-460 Effect of small business restructures on acquisition times of pre-CGT assets
- 328-465 New membership interests as consideration for transfer of assets
- 328-470 Membership interests affected by transfers of assets
- 328-475 Small business restructures involving assets already subject to small business roll-over

**Object of this Subdivision**

**328-425 Object of this Subdivision**

The object of this Subdivision is to facilitate flexibility for owners of small business entities to restructure their businesses, and the way their business assets are held, while disregarding tax gains and losses that would otherwise arise.

**Requirements for a roll-over under this Subdivision**

**328-430 When a roll-over is available**

- (1) A roll-over under this Subdivision is available in relation to an asset that, under a transaction, an entity (the *transferor*) transfers to one or more other entities (*transferees*) if:
  - (a) the transaction is, or is a part of, a genuine restructure of an ongoing \*business; and
  - (b) each party to the transfer is an entity to which any one or more of the following applies:
    - (i) it is a \*small business entity for the income year during which the transfer occurred;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) it has an \*affiliate that is a small business entity for that income year;
  - (iii) it is \*connected with an entity that is a small business entity for that income year;
  - (iv) it is a partner in a partnership that is a small business entity for that income year; and
- (c) the transaction does not have the effect of materially changing:
- (i) which individual has, or which individuals have, the ultimate economic ownership of the asset; and
  - (ii) if there is more than one such individual—each such individual’s share of that ultimate economic ownership; and
- (d) the asset is a \*CGT asset (other than a \*depreciating asset) that is, at the time the transfer takes effect:
- (i) if subparagraph (b)(i) applies—an \*active asset; or
  - (ii) if subparagraph (b)(ii) or (iii) applies—an active asset in relation to which subsection 152-10(1A) is satisfied in that income year, or would be satisfied in that income year if paragraph 152-10(1AA)(b) were disregarded; or
  - (iii) if subparagraph (b)(iv) applies—an active asset and an interest in an asset of the partnership referred to in that subparagraph; and
- (e) the transferor and each transferee meet the residency requirement in section 328-445 for an entity; and
- (f) the transferor and each transferee choose to apply a roll-over under this Subdivision in relation to the assets transferred under the transaction.

Note: The roll-over of a depreciating asset transferred in the restructuring of a small business is addressed in item 8 of the table in subsection 40-340(1).

- (2) However, a roll-over under this Subdivision is not available if the transferor, or any transferee, is either an \*exempt entity or a \*complying superannuation entity.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 328-435

---

**328-435 Genuine restructures—safe harbour rule**

For the purposes of paragraph 328-430(1)(a) (but without limiting that paragraph), a transaction is, or is a part of, a genuine restructure of an ongoing \*business if, in the 3 year period after the transaction takes effect:

- (a) there is no change in ultimate economic ownership of any of the significant assets of the business (other than \*trading stock) that were transferred under the transaction; and
- (b) those significant assets continue to be \*active assets; and
- (c) there is no significant or material use of those significant assets for private purposes.

**328-440 Ultimate economic ownership—discretionary trusts**

For the purposes of paragraph 328-430(1)(c), a transaction does not have the effect of changing the ultimate economic ownership of an asset, or any individual's share of that ultimate economic ownership, if:

- (a) either or both of the following applies:
  - (i) just before the transaction took effect, the asset was included in the property of a \*non-fixed trust that was a \*family trust;
  - (ii) just after the transaction takes effect, the asset is included in the property of a non-fixed trust that is a family trust; and
- (b) every individual who, just before the transfer took effect, had the ultimate economic ownership of the asset was a member of the family group (within the meaning of Schedule 2F to the *Income Tax Assessment Act 1936*) relating to the trust or trusts referred to in paragraph (a); and
- (c) every individual who, just after the transfer takes effect, has the ultimate economic ownership of the asset is a member of that family group.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **328-445 Residency requirement**

For the purposes of paragraph 328-430(1)(e), the residency requirement for an entity is that:

- (a) if the entity is an individual or a company—the entity is an Australian resident; or
- (b) if the entity is a trust—it is a \*resident trust for CGT purposes; or
- (c) if the entity is a partnership (other than a \*corporate limited partnership)—at least one of the partners is an Australian resident; or
- (d) if the entity is a corporate limited partnership—it is, under section 94T of the *Income Tax Assessment Act 1936*, a resident for the purposes of the \*income tax law.

### **Consequences of a roll-over under this Subdivision**

#### **328-450 Small business transfers not to affect income tax positions**

- (1) Except as provided by this Subdivision, a transfer of an asset has no direct consequences under the \*income tax law if:
  - (a) the transfer occurs under a transaction in relation to which section 328-430 applies; and
  - (b) a roll-over under this Subdivision is available under that section in relation to the asset.

Example: If the transfer were a transfer of the asset from a company to a shareholder, it would not be treated as a payment of a dividend under Division 7A of Part III of the *Income Tax Assessment Act 1936*.

- (2) To avoid doubt, this section does not affect the application of the \*income tax law in relation to:
  - (a) anything that happens in relation to the asset that does not directly relate to the transfer; or
  - (b) the ownership of the asset at any time.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 328-455

---

**328-455 Effect of small business restructures on transferred cost of assets**

- (1) The \*income tax law applies to an entity in relation to the transfer of an asset by the entity, or to the entity, as if the transfer takes place for the asset's \*roll-over cost if:
  - (a) the transfer occurs under a transaction in relation to which section 328-430 applies; and
  - (b) a roll-over under this Subdivision is available under that section in relation to the asset.
- (2) The asset's **roll-over cost** is whichever of the following amounts is applicable in relation to the transfer:
  - (a) in relation to the application of subsection (1) to the asset as a \*CGT asset (other than \*trading stock, a \*revenue asset or a \*depreciating asset)—the transferor's \*cost base for the asset just before the transfer takes effect;
  - (b) in relation to the application of subsection (1) to the asset as trading stock—the amount equal to:
    - (i) the \*cost of the item for the transferor; or
    - (ii) if the transferor held the item as trading stock at the start of the income year—the \*value of the item for the transferor then;
  - (c) in relation to the application of subsection (1) to the asset as a revenue asset—the amount that would give rise to the transferor not making a profit or a loss on the transfer.

**328-460 Effect of small business restructures on acquisition times of pre-CGT assets**

For the purposes of applying subsection 328-455(1) to the asset as a \*CGT asset (other than a \*revenue asset) that is a \*pre-CGT asset, a transferee is taken to have \*acquired the asset before 20 September 1985.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**328-465 New membership interests as consideration for transfer of assets**

- (1) If:
- (a) section 328-455 applies in relation to the transfer of an asset under a transaction; and
  - (b) the transaction provides for \*membership interests to be issued; and
  - (c) the membership interests constitute all or part of the consideration provided for the transfer of assets (***transferred assets***) under the transaction;
- then:
- (d) the first element of the membership interests' \*cost base is the sum of:
    - (i) the \*roll-over costs of the transferred assets that are neither \*depreciating assets nor \*pre-CGT assets; and
    - (ii) the \*adjustable values of the transferred assets that are depreciating assets;(less any liabilities that a transferee of any of the transferred assets undertakes to discharge in respect of the transferred assets) divided by the number of membership interests; and
  - (e) the first element of the membership interests' \*reduced cost base is worked out similarly.
- (2) However, if the \*membership interests constituted only a part of the total consideration provided for the transfer of the transferred assets, reduce accordingly the amounts worked out under paragraphs (1)(d) and (e).

**328-470 Membership interests affected by transfers of assets**

- If:
- (a) section 328-455 applies in relation to the transfer of an asset under a transaction; and
  - (b) an entity holds, either directly or indirectly:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 328-475

---

- (i) a \*membership interest in the transferor or a transferee;  
or
- (ii) a membership interest that was issued as provided for  
by the transaction;

disregard a \*capital loss from a \*CGT event that arises in relation to the membership interest after the transaction takes effect, except to the extent that the entity can demonstrate that the loss is attributable to a matter other than the transaction.

**328-475 Small business restructures involving assets already subject to small business roll-over**

If:

- (a) section 328-455 applies in relation to the transfer of an asset (the *transferred asset*) of the transferor's business to one or more transferees; and
- (b) the transferor has previously chosen a small business roll-over under Subdivision 152-E for a \*CGT event that happened in relation to a \*CGT asset for which the transferred asset is a replacement asset (within the meaning of sections 104-185, 104-190, 104-197 and 104-198);

sections 104-185, 104-190, 104-197 and 104-198 apply to each transferee (to the extent of the transferee's interest in the asset) as if the transferee, and not the transferor, made that choice.

Note: Sections 104-185, 104-190, 104-197 and 104-198 provide for capital gains to arise under CGT events J2, J5 and J6, after the choice of a small business roll-over under Subdivision 152-E has deferred the making of a capital gain.

### **Guide to Division 355**

#### **355-1 What this Division is about**

An R&D entity may be entitled to a tax offset for R&D activities. The tax offset may be a refundable tax offset if the R&D entity's aggregated turnover is less than \$20 million.

To be entitled to the tax offset, the R&D entity needs one or more notional deductions under this Division.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-5

---

There are 2 main kinds of notional deductions. One is for expenditure on R&D activities. The other is for the decline in value of tangible depreciating assets used for R&D activities.

Note: All of these notional deductions require the R&D entity to be registered for the R&D activities under Part III of the *Industry Research and Development Act 1986*.

**Subdivision 355-A—Object**

**Table of sections**

355-5 Object

**355-5 Object**

- (1) The object of this Division is to encourage industry to conduct research and development activities that might otherwise not be conducted because of an uncertain return from the activities, in cases where the knowledge gained is likely to benefit the wider Australian economy.
- (2) This object is to be achieved by providing a tax incentive for industry to conduct, in a scientific way, experimental activities for the purpose of generating new knowledge or information in either a general or applied form (including new knowledge in the form of new or improved materials, products, devices, processes or services).

**Subdivision 355-B—Meaning of R&D activities and other terms**

### **355-20 R&D activities**

**R&D activities** are \*core R&D activities or \*supporting R&D activities.

### **355-25 Core R&D activities**

- (1) **Core R&D activities** are experimental activities:
  - (a) whose outcome cannot be known or determined in advance on the basis of current knowledge, information or experience, but can only be determined by applying a systematic progression of work that:
    - (i) is based on principles of established science; and
    - (ii) proceeds from hypothesis to experiment, observation and evaluation, and leads to logical conclusions; and
  - (b) that are conducted for the purpose of generating new knowledge (including new knowledge in the form of new or improved materials, products, devices, processes or services).
- (2) However, none of the following activities are **core R&D activities**:
  - (a) market research, market testing or market development, or sales promotion (including consumer surveys);
  - (b) prospecting, exploring or drilling for minerals or \*petroleum for the purposes of one or more of the following:
    - (i) discovering deposits;
    - (ii) determining more precisely the location of deposits;
    - (iii) determining the size or quality of deposits;
  - (c) management studies or efficiency surveys;
  - (d) research in social sciences, arts or humanities;
  - (e) commercial, legal and administrative aspects of patenting, licensing or other activities;
  - (f) activities associated with complying with statutory requirements or standards, including one or more of the following:
    - (i) maintaining national standards;
    - (ii) calibrating secondary standards;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-30

---

- (iii) routine testing and analysis of materials, components, products, processes, soils, atmospheres and other things;
- (g) any activity related to the reproduction of a commercial product or process:
  - (i) by a physical examination of an existing system; or
  - (ii) from plans, blueprints, detailed specifications or publically available information;
- (h) developing, modifying or customising computer software for the dominant purpose of use by any of the following entities for their internal administration (including the internal administration of their business functions):
  - (i) the entity (the *developer*) for which the software is developed, modified or customised;
  - (ii) an entity \*connected with the developer;
  - (iii) an \*affiliate of the developer, or an entity of which the developer is an affiliate.

**355-30 Supporting R&D activities**

- (1) **Supporting R&D activities** are activities directly related to \*core R&D activities.
- (2) However, if an activity:
  - (a) is an activity referred to in subsection 355-25(2); or
  - (b) produces goods or services; or
  - (c) is directly related to producing goods or services;the activity is a **supporting R&D activity** only if it is undertaken for the dominant purpose of supporting \*core R&D activities.

**355-35 R&D entities**

- (1) Each of the following is an **R&D entity**:
  - (a) a body corporate incorporated under an \*Australian law;
  - (b) a body corporate incorporated under a \*foreign law that is an Australian resident.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: Each of the above paragraphs extends to a body corporate acting in its capacity as trustee of a public trading trust (see subsection 102T(9) of the *Income Tax Assessment Act 1936*).

- (2) A body corporate incorporated under a \*foreign law that:
- (a) is a resident of a foreign country for the purposes of an agreement in force between that country and Australia that:
    - (i) is a double tax agreement (as defined in Part X of the *Income Tax Assessment Act 1936*); and
    - (ii) includes a definition of *permanent establishment*; and
  - (b) carries on business in Australia through a permanent establishment (within the meaning of that definition) of the body corporate in Australia;
- is an **R&D entity** to the extent that it carries on business through that permanent establishment.
- (3) However, an \*exempt entity cannot be an **R&D entity**.

#### 355-100 Entitlement to tax offset

*If notional deductions are between \$20,000 and \$150 million*

- (1) An \*R&D entity is entitled to a \*tax offset for an income year equal to the percentage, set out in the table, of the total of the amounts (if any) that the entity can deduct for the income year under any or all of the following provisions:
- (a) section 355-205 (R&D expenditure);
  - (b) section 355-305 (decline in value of R&D assets);
  - (d) section 355-480 (earlier year associate R&D expenditure);

Section 355-100

- (e) section 355-520 (decline in value of R&D partnership assets);  
(g) section 355-580 (CRC contributions).

<b>Rate of R&amp;D tax offset</b>		
<b>Item</b>	<b>In this case:</b>	<b>The percentage is:</b>
1	the *R&D entity's *aggregated turnover for the income year is less than \$20 million (and item 2 of this table does not apply)	the R&D entity's *corporate tax rate for the income year, plus 18.5 percentage points
2	at any time during the income year an *exempt entity, or combination of exempt entities, would control the *R&D entity in a way described in section 328-125 (connected entities) if: (a) references in section 328-125 to 40% were references to 50%; and (b) subsection 328-125(6) were ignored	the R&D entity's *corporate tax rate for the income year
3	any other case	the R&D entity's *corporate tax rate for the income year

Note 1: The tax offset will be a refundable tax offset if item 1 of the table applies (see section 67-30).

Note 2: The tax offset is increased under subsection (1A) of this section if item 2 or 3 of the table applies.

*R&D premium*

- (1A) If item 2 or 3 of the table in subsection (1) applies to the \*R&D entity, the amount of the \*tax offset for the income year is increased by the sum of the amounts (if any) worked out for each item of the following table for that entity:

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Tiered offset rates**

---

Item	Work out the part of the total amount mentioned in subsection 355-100(1) that:	Multiply that part by this percentage:
1	exceeds nil but does not exceed 2% of the *R&D entity's total expenses for the income year worked out under section 355-115	8.5%
2	exceeds 2% of the *R&D entity's total expenses for the income year worked out under section 355-115	16.5%

---

*If notional deductions are less than \$20,000*

- (2) However, if the total amount mentioned in subsection (1) is less than \$20,000, the \*R&D entity is instead entitled to a \*tax offset for the income year, worked out in accordance with subsections (1) and (1A), as if that amount were instead the total of the following kinds of expenditure (if any):

---

**Expenditure not subject to \$20,000 threshold**

---

Item	Kind of expenditure
1	Expenditure: <ul style="list-style-type: none"> <li>(a) that the *R&amp;D entity can deduct under section 355-205 (R&amp;D expenditure) for the income year; and</li> <li>(b) that was incurred to a research service provider (within the meaning of the <i>Industry Research and Development Act 1986</i>) that is not an *associate of the R&amp;D entity or of the relevant *R&amp;D partnership (as appropriate); and</li> <li>(c) that was for the provider to provide services, within a research field for which the provider is registered under Division 4 of Part III of that Act, applicable to one or more of the *R&amp;D activities to which the deduction relates</li> </ul>
2	Expenditure that the *R&D entity can deduct under section 355-580 (CRC contributions) for the income year

Section 355-105

---

*If notional deductions exceed \$150 million*

- (3) Despite subsections (1) and (1A), if the total amount mentioned in subsection (1) exceeds \$150 million, the \*R&D entity is instead entitled to a \*tax offset for the income year equal to the sum of:
- (a) the amount worked out in accordance with those subsections as if that amount were \$150 million; and
  - (b) the product of the excess and the R&D entity's \*corporate tax rate for the income year.

**355-105 Deductions under this Division are notional only**

- (1) An amount (the *notional amount*) that an \*R&D entity can deduct under this Division is disregarded except for the purposes of:
- (a) working out whether the R&D entity is entitled under section 355-100 to a \*tax offset; and
  - (b) a provision (of this Act or any other Act) that refers to an entitlement of the R&D entity under section 355-100 to a tax offset; and
  - (c) a provision (of this Act or any other Act) that:
    - (i) prevents some or all of the notional amount from being deducted; or
    - (ii) changes the income year for which some or all of the notional amount can be deducted; and
- Note: Examples are Divisions 26 and 27 of this Act, Subdivision H of Division 3 of Part III of the *Income Tax Assessment Act 1936* and Part IVA of that Act.
- (d) a provision (of this Act or any other Act) that includes an amount in assessable income wholly or partly because of the notional amount; and
- Note: An example is Subdivision 20-A, which may include in assessable income a recoupment of a loss or outgoing if the entity can deduct an amount for the loss or outgoing.
- (e) a provision (of this Act or any other Act) that excludes expenditure from:
- (i) the \*cost base or \*reduced cost base of a \*CGT asset; or
  - (ii) an element of that cost base or reduced cost base.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Note: An example is section 110-45, which may exclude deductible expenditure from elements of the cost base of an asset.

- (2) Subsection (1) does not apply to amounts that the \*R&D entity can deduct under the following:
- (a) subsection 355-315(2);
  - (b) subsection 355-475(1);
  - (c) subsection 355-525(2).

### **355-110 Notional deductions include prepaid expenditure**

For the purposes of this Division, if:

- (a) apart from Subdivision H (prepaid expenditure) of Division 3 of Part III of the *Income Tax Assessment Act 1936*, an \*R&D entity can deduct an amount under section 355-205 or 355-480 for an income year (the *present year*) or an earlier income year; and
  - (b) that Subdivision applies to the calculation of that amount; and
  - (c) the entity can deduct an amount, as a result of that application of that Subdivision, for the present year;
- the entity is taken to be able to deduct under section 355-205 or 355-480 (as appropriate) the amount referred to in paragraph (c) for the present year.

Note: Section 355-205 is about deductions for R&D expenditure.  
Section 355-480 is about deductions for earlier year associate R&D expenditure.

### **355-115 Working out an R&D entity's total expenses**

- (1) For the purposes of subsection 355-100(1A), an \*R&D entity's total expenses for an income year is the sum of the amounts covered by subsection (2).
- (2) The following amounts are covered by this subsection:
  - (a) the \*R&D entity's total expenses for the income year worked out in accordance with:

---

- (i) the \*accounting principles; or
- (ii) if accounting principles do not apply in relation to the R&D entity—commercially accepted principles relating to accounting;
- (b) any amount the R&D entity can deduct for the income year as mentioned in subsection 355-100(1), to the extent the amount is not covered by paragraph (a) for the income year.

*Amounts counted once only*

- (3) For the purposes of subsection (2):
  - (a) disregard an amount to which paragraph (2)(a) otherwise applies if paragraph (2)(b) has previously applied in relation to the amount; and
  - (b) disregard an amount to which paragraph (2)(b) otherwise applies if paragraph (2)(a) has previously applied in relation to the amount.

**Subdivision 355-D—Notional deductions for R&D expenditure**

**Table of sections**

355-200	What this Subdivision is about
355-205	When notional deductions for R&D expenditure arise
355-210	Conditions for R&D activities
355-215	R&D activities conducted by a permanent establishment for other parts of the body corporate
355-220	R&D activities conducted for a foreign entity
355-225	Expenditure that cannot be notionally deducted

**355-200 What this Subdivision is about**

An R&D entity can notionally deduct its expenditure on registered R&D activities for which certain conditions are met.

There are special conditions for R&D activities conducted for foreign residents.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **355-205 When notional deductions for R&D expenditure arise**

- (1) An \*R&D entity can deduct for an income year (the *present year*) expenditure it incurs during that year to the extent that the expenditure:
    - (a) is incurred on one or more \*R&D activities:
      - (i) for which the R&D entity is registered under section 27A of the *Industry Research and Development Act 1986* for an income year; and
      - (ii) that are activities to which section 355-210 (conditions for R&D activities) applies; and
    - (b) if the expenditure is incurred to the R&D entity's \*associate—is paid to that associate during the present year.
- Note 1: If the matters in subparagraphs (a)(i) and (ii) are not satisfied until a later income year, the R&D entity will need to wait until then before it can deduct the expenditure for the present year.
- Note 2: The R&D activities will need to be conducted during the income year the R&D entity is registered for those activities (see sections 27A and 27J of the *Industry Research and Development Act 1986*).
- Note 3: The entity may also be able to deduct expenditure incurred to an associate in an earlier income year (see section 355-480).
- Note 4: Expenditure incurred in income years starting on or after 1 July 2011 may be deductible for activities registered for income years starting before 1 July 2011 (see section 355-200 of the *Income Tax (Transitional Provisions) Act 1997*).
- (2) This section has effect subject to section 355-225 (excluded expenditure), Subdivision 355-F (integrity rules) and subsection 355-580(3) (CRC contributions).

### **355-210 Conditions for R&D activities**

- (1) An \*R&D activity covered by one or more of the following paragraphs is an activity to which this section applies:
  - (a) the R&D activity is conducted for the \*R&D entity solely within Australia;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 355-210

---

- (b) if the R&D entity is a body corporate carrying on business through a permanent establishment (as described in subsection 355-35(2))—the R&D activity is conducted:
  - (i) for the body corporate; but
  - (ii) not for the purposes of that permanent establishment; and the conditions in section 355-215 (activities conducted for a body corporate by its permanent establishment) are met for the R&D activity;
- (c) the R&D activity is conducted for one or more foreign residents who are each:
  - (i) incorporated under a \*foreign law; and
  - (ii) a resident of a foreign country for the purposes of an agreement of a kind described in subsection 355-35(2); and the conditions in section 355-220 (activities conducted for a foreign entity) are met for the R&D activity;
- (d) the R&D activity is:
  - (i) conducted for the R&D entity solely outside Australia; and
  - (ii) covered by a finding in force under paragraph 28C(1)(a) of the *Industry Research and Development Act 1986*;
- (e) the R&D activity consists of several parts, with:
  - (i) some parts being conducted for the R&D entity solely within Australia; and
  - (ii) the other parts being conducted for the R&D entity outside Australia while covered by a finding in force under paragraph 28C(1)(a) of the *Industry Research and Development Act 1986*.

Note: An activity can be covered by a finding under paragraph 28C(1)(a) of the *Industry Research and Development Act 1986* if the activity cannot be conducted in Australia.

- (2) However, an \*R&D activity is not an activity to which this section applies if the activity is conducted, to a significant extent, for one or more other entities not covered by any paragraph of subsection (1).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: An entity would not be covered by, for example, paragraph (1)(c) if the conditions in section 355-220 were not met for the R&D activity in relation to that entity.

### **355-215 R&D activities conducted by a permanent establishment for other parts of the body corporate**

For the purposes of paragraph 355-210(1)(b), the conditions for an \*R&D activity are as follows:

- (a) the R&D activity is conducted solely within Australia;
- (b) if the R&D activity is a \*supporting R&D activity, each corresponding \*core R&D activity must be:
  - (i) an activity conducted, or to be conducted, solely within Australia; and
  - (ii) an activity for which the \*R&D entity is or has been registered under section 27A of the *Industry Research and Development Act 1986*, or could be registered for an income year if that core R&D activity were conducted during the income year;
- (c) there is written evidence that the R&D activity is conducted for the body corporate but not for the purposes of that permanent establishment.

Note: The body corporate is the R&D entity to the extent that it carries on business through that permanent establishment (see subsection 355-35(2)).

### **355-220 R&D activities conducted for a foreign entity**

- (1) For the purposes of paragraph 355-210(1)(c), the conditions for an \*R&D activity conducted for one or more foreign residents are as follows:
  - (a) the R&D activity is conducted solely within Australia;
  - (b) if the R&D activity is a \*supporting R&D activity, each corresponding \*core R&D activity must be:
    - (i) an activity conducted, or to be conducted, solely within Australia; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-220

---

- (ii) an activity for which the \*R&D entity is or has been registered under section 27A of the *Industry Research and Development Act 1986*, or could be registered for an income year if that core R&D activity were conducted during the income year;
- (c) when the R&D activity is conducted:
  - (i) each foreign resident is \*connected with the R&D entity; or
  - (ii) for each foreign resident—either the foreign resident is an \*affiliate of the R&D entity or the R&D entity is an affiliate of the foreign resident;
- (d) the R&D activity is conducted:
  - (i) in accordance with a written agreement binding on only the R&D entity and each foreign resident; and
  - (ii) either directly by the R&D entity, or indirectly by another entity under an agreement binding on the R&D entity;
- (e) the R&D activity is not conducted in connection with an agreement covered by subsection (2).

Note: An example of conducting an R&D activity indirectly under a contract is conducting the R&D activity under a subcontract, or one of a chain of subcontracts, under the contract.

- (2) An agreement is covered by this subsection if:
  - (a) the agreement is binding on the R&D entity (the **first entity**) and an R&D entity that:
    - (i) is \*connected with the first entity; or
    - (ii) has the first entity as an \*affiliate, or is an affiliate of the first entity;while the \*R&D activity is conducted; and
  - (b) the R&D activity is to be conducted under the agreement by the first entity or by an entity:
    - (i) who is not bound by the agreement; and
    - (ii) who is to conduct the R&D activity directly or indirectly under another agreement to which the first entity is, or will become, bound.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- Note: One effect of this subsection is that, even if the R&D entity has an agreement with the foreign resident for conducting the R&D activity, the R&D entity cannot deduct expenditure incurred:
- (a) for conducting the R&D activity as a subcontractor under a subcontract with an affiliated R&D entity; or
  - (b) if the R&D entity is a subcontractor to an affiliated R&D entity—for further subcontracting the conducting of the R&D activity.

### **355-225 Expenditure that cannot be notionally deducted**

#### *Expenditure on buildings, certain assets and interest*

- (1) Sections 355-205 (deductions for R&D expenditure) and 355-480 (deductions for earlier year associate R&D expenditure) do not apply to the following expenditure:
- (a) expenditure incurred to acquire or construct:
    - (i) a building or a part of a building; or
    - (ii) an extension, alteration or improvement to a building;
  - (b) expenditure included in the \*cost of a tangible \*depreciating asset for the purposes of Division 40 (as that Division applies as described in section 355-310 or otherwise);
  - (c) expenditure incurred for interest (within the meaning of Division 11A of Part III of the *Income Tax Assessment Act 1936*) payable to an entity.

Note 1: Expenditure covered by paragraph (a) may be deductible under Division 43 (capital works).

Note 2: The decline in value of an asset covered by paragraph (b) may be notionally deductible under section 355-305.

Note 3: Expenditure covered by paragraph (c) may be deductible under section 8-1.

#### *Expenditure on core technology*

- (2) Sections 355-205 (deductions for R&D expenditure) and 355-480 (deductions for earlier year associate R&D expenditure) do not apply to expenditure incurred in acquiring, or in acquiring the right

to use, technology wholly or partly for the purposes of one or more  
\*R&D activities if:

- (a) a purpose of the R&D activities was or is:
  - (i) to obtain new knowledge based on that technology; or
  - (ii) to create new or improved materials, products, devices, processes, techniques or services to be based on that technology; or
- (b) the R&D activities were or are an extension, continuation, development or completion of the activities that produced that technology.

**Subdivision 355-E—Notional deductions etc. for decline in value of depreciating assets used for R&D activities**

**Table of sections**

355-300	What this Subdivision is about
355-305	When notional deductions for decline in value arise
355-310	Notional application of Division 40
355-315	Balancing adjustments—assets only used for R&D activities

**355-300 What this Subdivision is about**

An R&D entity can notionally deduct the decline in value of a tangible depreciating asset used for R&D activities.

If a balancing adjustment event later happens for the asset, the R&D entity may be able to actually deduct a further amount. Alternatively, an amount may be included in the R&D entity's assessable income.

**355-305 When notional deductions for decline in value arise**

- (1) If:
  - (a) an \*R&D entity is registered under section 27A of the *Industry Research and Development Act 1986* for an income

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- year (the *present year*) for one or more \*R&D activities that are activities to which section 355-210 (conditions for R&D activities) applies; and
- (b) while a tangible \*depreciating asset is \*held by the R&D entity during the present year, the asset is used for the purpose of conducting one or more of those R&D activities; and
  - (c) the R&D entity could deduct an amount under section 40-25 for the asset for the present year if Division 40 applied with the changes described in section 355-310; and
  - (d) the R&D entity cannot deduct an amount for the asset for:
    - (i) an earlier income year under Subdivision 328-D (capital allowances for small business entities); or
    - (ii) an earlier income year under Division 40 (as that Division applies apart from this Division), in a case where section 40-440 (low-value pools) applied;the R&D entity can deduct the amount referred to in paragraph (c) for the present year.
- (2) This section has effect subject to subsection 355-580(4) (CRC contributions).

### **355-310 Notional application of Division 40**

- (1) In addition to its application apart from this section, Division 40 also applies with the changes set out in this section for the purposes of:
  - (a) paragraph 355-225(1)(b) (excluded expenditure); and
  - (b) paragraph 355-305(1)(c); and
  - (c) section 355-315 (balancing adjustments).
- (2) Firstly, substitute the following for references to a \*taxable purpose in Subdivisions 40-A to 40-D (other than for the purposes of sections 40-100, 40-105 and 40-110):

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 355-310

**Replacing references to a taxable purpose**

Item	If this application of Division 40 is for the purposes of:	Substitute a reference to:
1	paragraph 355-225(1)(b) or 355-305(1)(c)	the purpose of conducting one or more of the *R&D activities covered by paragraph 355-305(1)(b)
2	section 355-315	the purpose of conducting one or more of the *R&D activities to which the R&D deductions (within the meaning of that section) relate

Note: Sections 40-100, 40-105 and 40-110 are about working out an asset's effective life. Those sections already refer to the use of the asset for R&D activities.

- (3) Secondly, assume that Division 40 does not apply to a building, nor to an extension, alteration or improvement to a building, (the **building works**) for which the \*R&D entity:
- (a) can deduct amounts under Division 43 (capital works); or
  - (b) could deduct amounts under Division 43:
    - (i) apart from expenditure being incurred, or the building works being started, before a particular day; or
    - (ii) had the R&D entity used the building works for a purpose relevant to those building works under section 43-140 (using an area in a deductible way).
- (4) Finally, assume that the following provisions had not been enacted:
- (a) subsection 40-25(7) (meaning of taxable purpose);
  - (b) subsection 40-45(2) (assets to which Division 40 does not apply);
  - (c) section 40-425 (low-value pools);
  - (d) Subdivision 328-D (capital allowances for small business entities).

Note: Subsection (3) and paragraph (4)(b) mean that deductions under section 355-305 may be available for capital works other than building works.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**355-315 Balancing adjustments—assets only used for R&D activities**

- (1) This section applies to an \*R&D entity if:
- (a) a \*balancing adjustment event happens in an income year (the *event year*) for an asset \*held by the R&D entity; and
  - (b) the R&D entity cannot deduct an amount under section 40-25, as that section applies apart from:
    - (i) this Division; and
    - (ii) former section 73BC of the *Income Tax Assessment Act 1936*; for the asset for an income year; and
  - (c) the R&D entity is entitled under section 355-100 to \*tax offsets for one or more income years for deductions (the *R&D deductions*) under section 355-305 for the asset; and
  - (d) the entity is registered under section 27A of the *Industry Research and Development Act 1986* for one or more \*R&D activities for the event year; and
  - (e) if Division 40 applied with the changes described in section 355-310:
    - (i) the entity could deduct for the event year an amount under subsection 40-285(2) for the asset and the balancing adjustment event; or
    - (ii) an amount would be included in the entity's assessable income for the event year under subsection 40-285(1) for the asset and the balancing adjustment event.
- Note 1: This section applies in a modified way if the entity also has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-320 of the *Income Tax (Transitional Provisions) Act 1997*).
- Note 2: Section 40-292 applies if the entity can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.
- (2) If the \*R&D entity could deduct for the event year an amount under subsection 40-285(2) for the asset and the event if Division 40 applied as described in paragraph (1)(e), the R&D entity can deduct that amount for the event year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 355-400**

---

Note 1: A deduction under this subsection is not a notional deduction (see subsection 355-105(2)).

Note 2: A deduction under this subsection results in a catch up amount for the R&D entity (see section 355-465).

- (3) If an amount would be included in the \*R&D entity's assessable income for the event year under subsection 40-285(1) for the asset and the event if Division 40 applied as described in paragraph (1)(e), that amount is included in the R&D entity's assessable income for the event year.

Note: Some or all of the amount included in the R&D entity's assessable income may result in a clawback amount for the R&D entity (see section 355-446).

**Subdivision 355-F—Integrity Rules**

**Table of sections**

355-400	Expenditure incurred while not at arm's length
355-405	Expenditure not at risk
355-410	Disposal of R&D results
355-415	Reducing deductions to reflect mark-ups within groups

**355-400 Expenditure incurred while not at arm's length**

If:

- (a) an \*R&D entity incurs expenditure to another entity on all or part of an \*R&D activity; and
- (b) either:
  - (i) when the R&D entity incurs the expenditure, the R&D entity and the other entity do not deal with each other at \*arm's length; or
  - (ii) the other entity is the R&D entity's \*associate; and
- (c) the expenditure exceeds the \*market value of the relevant R&D activity or part (as appropriate);

for the purposes of this Division, the R&D entity is treated as if the amount of expenditure it incurred on the relevant R&D activity or part (as appropriate) were equal to that market value.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: For the purposes of a deduction under section 355-305 or 355-520 for an asset's decline in value, the arm's length rules in Division 40 apply as part of the notional application of that Division under that section.

### **355-405 Expenditure not at risk**

- (1) An \*R&D entity cannot deduct expenditure under section 355-205 or 355-480 if:
- (a) when it incurs the expenditure, the R&D entity or its \*associate had received, or could reasonably be expected to receive, consideration:
    - (i) as a direct or indirect result of the expenditure being incurred; and
    - (ii) regardless of the results of the activities on which the expenditure is incurred; and
  - (b) that consideration is equal to or greater than the expenditure.

Note: Section 355-205 is about deductions for R&D expenditure.  
Section 355-480 is about deductions for earlier year associate R&D expenditure.

- (2) If:
- (a) when an \*R&D entity incurs expenditure, the R&D entity or its \*associate had received, or could reasonably be expected to receive, consideration:
    - (i) as a direct or indirect result of the expenditure being incurred; and
    - (ii) regardless of the results of the activities on which the expenditure is incurred; and
  - (b) that consideration is less than the expenditure;
- the R&D entity cannot deduct under section 355-205 or 355-480 so much of the expenditure as is equal to the consideration.
- (3) For the purposes of paragraphs (1)(a) and (2)(a), have regard to:
- (a) anything that happened or existed before or at the time the expenditure is incurred; and
  - (b) anything that is likely to happen or exist after that time.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-410

---

- (4) This section does not apply to expenditure incurred on \*R&D activities covered by paragraph 355-210(1)(b) or (c).

Note: Those paragraphs cover R&D activities conducted for foreign residents.

**355-410 Disposal of R&D results**

- (1) This section applies to an \*R&D entity if:
- (a) the R&D entity is entitled under section 355-100 to a \*tax offset because it can:
    - (i) deduct under section 355-205 or 355-480 expenditure incurred on \*R&D activities; or
    - (ii) deduct under section 355-305 or 355-520 an amount for an asset (the **R&D asset**) used for the purpose of conducting one or more R&D activities; and
  - (b) the R&D entity receives or becomes entitled to receive one or more of the following amounts (the **results amounts**) in an income year (the **results year**):
    - (i) an amount for the results of any of the R&D activities;
    - (ii) an amount from granting access to, or the right to use, any of those results;
    - (iii) an amount attributable to the R&D entity having incurred the expenditure, including an amount it is entitled to receive regardless of the results of the R&D activities;
    - (iv) an amount attributable to the R&D asset being used for the purpose mentioned in subparagraph (a)(ii), including an amount the R&D entity is entitled to receive regardless of the results of the R&D activities;
    - (v) an amount from \*disposing of a \*CGT asset, or from granting a right to occupy or use a CGT asset, where the disposal or grant resulted in another person acquiring a right to access or use any of those results.

Note: This section also applies with changes to the partners of an R&D partnership (see section 355-535).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) For each results amount, the following amount is included in the \*R&D entity's assessable income for the results year:
- (a) if the results amount is only a results amount because of subparagraph (1)(b)(v), and the asset referred to in that subparagraph is a \*depreciating asset—an amount equal to the extent (if any) that the results amount exceeds the asset's \*cost just before the disposal or grant;
  - (b) if the results amount is only a results amount because of subparagraph (1)(b)(v), and the asset referred to in that subparagraph is not a depreciating asset—an amount equal to the extent (if any) that the results amount exceeds the asset's \*cost base just before the disposal or grant;
  - (c) otherwise—the results amount.
- (3) For the purposes of paragraph (2)(a), assume that subsection 40-45(2) did not, except in the case of buildings and extensions, alterations and improvements to buildings, prevent Division 40 from applying to certain capital works.

### **355-415 Reducing deductions to reflect mark-ups within groups**

- (1) This section applies to an \*R&D entity if:
- (a) the R&D entity can deduct an amount under section 355-205 or 355-480 for an income year for one or more \*R&D activities; and
  - (b) one or more other entities (the *grouped entities*) incurred expenditure during the income year, or an earlier income year, on one or more of those \*R&D activities; and
  - (c) when each grouped entity incurred the expenditure:
    - (i) the grouped entity was \*connected with the R&D entity; or
    - (ii) the grouped entity was an \*affiliate of the R&D entity or the R&D entity was an affiliate of the grouped entity.

Note: Section 355-205 is about deductions for R&D expenditure.  
Section 355-480 is about deductions for earlier year associate R&D expenditure.

Section 355-415

---

*Reducing deductions by group mark-ups*

- (2) The amount the \*R&D entity can deduct, apart from this section, under section 355-205 or 355-480 for the income year is reduced by the amount (the **reduction amount**) worked out as follows:

*Method statement*

- Step 1. For each grouped entity, work out the sum of the amounts derived during the income year, or an earlier income year, by the grouped entity for goods or services relating to one or more of the \*R&D activities while:
- (a) the grouped entity was \*connected with the \*R&D entity; or
  - (b) the grouped entity was an \*affiliate of the R&D entity or the R&D entity was an affiliate of the grouped entity.
- Step 2. From the sum of those amounts, subtract the actual cost to each grouped entity of providing the goods or services that correspond to those amounts.

*If R&D entity has deductions for both R&D expenditure and earlier year associate R&D expenditure*

- (3) However, if the \*R&D entity can deduct amounts under both sections 355-205 and 355-480 for the income year, those amounts are reduced as follows:
- (a) apply the reduction amount to reduce the amount otherwise deductible under section 355-205 (but not below zero); and
  - (b) then apply any remainder of the reduction amount to reduce the amount otherwise deductible under section 355-480 (but not below zero).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

*Disregard mark-ups already taken into account*

- (4) For the purposes of step 1 of the method statement in subsection (2), disregard any of the amounts from that step that have already been taken into account under this section for the \*R&D entity and the \*R&D activities for an earlier income year.

### **Subdivision 355-G—Clawback of R&D recoupments, feedstock adjustments and balancing adjustments**

#### **Guide to Subdivision 355-G**

#### **355-430 What this Subdivision is about**

An amount is included in an R&D entity's assessable income if:

- (a) the R&D entity receives a recoupment from government of expenditure on R&D activities for which it has obtained tax offsets under this Division; or
- (b) the R&D entity can deduct under this Division expenditure on goods, materials or energy used during R&D activities to produce marketable products or products applied to the R&D entity's own use; or
- (c) a balancing adjustment event happens for an asset held by the R&D entity (or an R&D partnership in which the R&D entity is a partner) for which tax offsets have been obtained under this Division and for which an amount is otherwise included in the R&D entity's (or R&D partnership's) assessable income.

- 355-449 Balancing adjustments for R&D partnership assets partially used for R&D activities
- 355-450 Amount to be included in assessable income

**Operative provisions**

**355-435 When this Subdivision applies**

This Subdivision applies to an \*R&D entity for an income year (the *present year*) if:

- (a) the R&D entity has an amount (a *clawback amount*) under section 355-440, 355-445, 355-446, 355-447, 355-448 or 355-449 for the present year; and
- (b) the R&D entity has received, or is entitled to receive, a \*tax offset under section 355-100 for one or more income years (each an *offset year*) in relation to that clawback amount.

**355-440 R&D recoupments**

- (1) The \*R&D entity has an amount under this section if:
  - (a) the entity, or another entity mentioned in subsection (5), receives or becomes entitled to receive a \*recoupment from either of the following (otherwise than under the \*CRC program):
    - (i) an \*Australian government agency;
    - (ii) an STB (within the meaning of Division 1AB of Part III of the *Income Tax Assessment Act 1936*); and
  - (b) the recoupment is received, or the entitlement to receive the recoupment arises, during the present year; and
  - (c) either:
    - (i) the recoupment is of expenditure incurred on or in relation to certain activities; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) the recoupment requires expenditure (the *project expenditure*) to have been incurred, or to be incurred, on certain activities.

Note: Paragraph (c) includes expenditure incurred in purchasing a tangible depreciating asset to be used when conducting R&D activities.

- (2) The amount is equal to the sum of:
- (a) so much of the expenditure referred to in subsection (1) that is deducted under this Division; and
  - (b) for each asset (if any) for which expenditure referred to in subsection (1) is included in the asset's \*cost—each amount (if any) equal to the asset's decline in value that is deducted under this Division;

that is taken into account in working out \*tax offsets under section 355-100 obtained by the \*R&D entity for one or more income years.

Note: Paragraphs (a) and (b) of this subsection refer to amounts notionally deducted under this Division (see section 355-105).

*Amount is reduced by any repayments of the recoupment*

- (3) For the purposes of subsection (2), reduce the expenditure referred to in subparagraph (1)(c)(i) by any repayments of the \*recoupment during an income year.

*Cap on extra income tax if recoupment relates to a project*

- (4) Despite subsection (2), if the \*recoupment is covered by subparagraph (1)(c)(ii), the amount mentioned in subsection (2) for the present year cannot exceed the amount worked out using the following formula:

$$\text{Net amount of the recoupment} \times \frac{\text{R\&D expenditure}}{\text{Project expenditure}}$$

where:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-445

---

**net amount of the recoupment** means the total amount of the \*recoupment, less any repayments of the recoupment during an income year.

**R&D expenditure** means the amount mentioned in subsection (2), disregarding subsection (3).

*Related entities*

- (5) The other entities for the purposes of paragraph (1)(a) are as follows:
- (a) an entity \*connected with the \*R&D entity;
  - (b) an \*affiliate of the R&D entity or an entity of which the R&D entity is an affiliate.

**355-445 Feedstock adjustments**

- (1) The \*R&D entity has an amount under this section if:
- (a) it incurs expenditure in one or more income years in acquiring or producing goods, or materials, (the **feedstock inputs**) transformed or processed during \*R&D activities in producing one or more tangible products (the **feedstock outputs**); and
  - (b) it obtains under section 355-100 \*tax offsets for one or more income years (each an **offset year**) for deductions under this Division:
    - (i) for the expenditure; or
    - (ii) for expenditure it incurs on any energy input directly into the transformation or processing; or
    - (iii) for the decline in value of assets used in acquiring or producing the feedstock inputs; and
  - (c) during the present year, a feedstock output, or a transformed feedstock output, (the **marketable product**), is:
    - (i) \*supplied by the R&D entity to another entity; or
    - (ii) applied by the R&D entity to the R&D entity's own use, other than use for the purpose of transforming that product for supply.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) The amount is equal to the lesser of:
- (a) the \*feedstock revenue for the feedstock output; and
  - (b) so much of the total of the amounts deducted as described in paragraph (1)(b) as is reasonably attributable to the production of the feedstock output.
- (3) Subsection (2) does not apply to the feedstock output if:
- (a) it becomes, or is transformed into, a feedstock input; or
  - (b) that subsection already applies to the feedstock output because of the application of paragraph (1)(c) to:
    - (i) an earlier time during the present year; or
    - (ii) an earlier income year.
- (4) The **feedstock revenue**, for the feedstock output, is worked out using the following formula:

$$\text{Market value of the marketable product} \times \frac{\text{Cost of producing the feedstock output}}{\text{Cost of producing the marketable product}}$$

where:

**market value of the marketable product** means the marketable product's \*market value at the time it is:

- (a) \*supplied by the \*R&D entity to the other entity; or
  - (b) first applied by the R&D entity to the R&D entity's own use, other than use for the purpose of transforming that product for supply.
- (5) This section applies to a \*supply or use of the marketable product by:
- (a) an entity \*connected with the \*R&D entity; or
  - (b) an \*affiliate of the R&D entity or an entity of which the R&D entity is an affiliate;
- as if it were by the R&D entity.

Section 355-446

---

**355-446 Balancing adjustments for assets only used for R&D activities**

- (1) The \*R&D entity has an amount under this section if:
- (a) a \*balancing adjustment event happens in the present year for an asset \*held by the R&D entity; and
  - (b) the R&D entity cannot deduct, for the asset for an income year, an amount under section 40-25 as that section applies apart from:
    - (i) this Division; and
    - (ii) former section 73BC of the *Income Tax Assessment Act 1936*; and
  - (c) the R&D entity is entitled under section 355-100 to \*tax offsets for one or more income years for deductions under section 355-305 for the asset; and
  - (d) the R&D entity is registered under section 27A of the *Industry Research and Development Act 1986* for one or more \*R&D activities for the present year; and
  - (e) an amount (the **section 40-285 amount**) is included in the R&D entity's assessable income for the present year under subsection 355-315(3) for the asset and the balancing adjustment event.

Note 1: This section applies in a modified way if the entity also has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-320 of the *Income Tax (Transitional Provisions) Act 1997*).

Note 2: Section 40-292 applies if the entity can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.

- (2) The amount is so much of an amount equal to the section 40-285 amount as does not exceed the difference between:
- (a) the asset's \*cost; and
  - (b) the asset's \*adjustable value, worked out under Division 40 as if that Division applied with the changes described in section 355-310.

- (2) The amount is worked out as follows:

$$\frac{\text{Total R\&D deductions}}{\text{Total decline in value}} \times \text{Adjusted section 40-285 amount}$$

where:

**adjusted section 40-285 amount** means so much of an amount equal to the section 40-285 amount as does not exceed the total decline in value.

**total decline in value** means the \*cost of the asset less its \*adjustable value.

  - (f) an amount (the *section 40-285 amount*) would, as mentioned in subsection 355-525(3), be included in the R&D partnership's assessable income for the present year for the asset and the balancing adjustment event.
- Note 1: This section applies in a modified way if the partner has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-325 of the *Income Tax (Transitional Provisions) Act 1997*).
- Note 2: Section 40-293 applies if the R&D partnership can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.
- (2) The amount is the partner's proportion of the amount that is so much of an amount equal to the section 40-285 amount as does not exceed the difference between:
- (a) the asset's \*cost; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (b) the asset's \*adjustable value, worked out under Division 40 as if that Division applied with the changes described in section 355-310.

**355-449 Balancing adjustments for R&D partnership assets partially used for R&D activities**

- (1) The \*R&D entity (the *partner*) has an amount under this section if:
- (a) the partner is a partner in an \*R&D partnership; and
  - (b) a \*balancing adjustment event happens in the present year for a \*depreciating asset \*held by the R&D partnership and for which:
    - (i) the R&D partnership can deduct, for an income year, an amount under section 40-25, as that section applies apart from Division 355 and former section 73BC of the *Income Tax Assessment Act 1936*; or
    - (ii) the R&D partnership could have deducted, for an income year, an amount as described in subparagraph (i) if it had used the asset; and

where:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-450

---

**adjusted section 40-285 amount** means so much of an amount equal to the section 40-285 amount as does not exceed the total decline in value.

**total decline in value** means the \*cost of the asset less its \*adjustable value.

**total R&D deductions** means the sum of each partner's deductions mentioned in paragraph (1)(c) of this section.

**355-450 Amount to be included in assessable income**

- (1) The \*R&D entity must include, in the entity's assessable income for the present year, the sum of the following amounts for each offset year relating to the clawback amount:

$$\frac{\text{Starting offset} - \text{Adjusted offset} - \text{Deduction amount}}{\text{R\&D entity's *corporate tax rate for the present year}}$$

where:

**adjusted offset** means the \*tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) for that tax offset were reduced by the portion of the clawback amount that is attributable to the offset year.

**deduction amount** means the portion of the clawback amount that is attributable to the offset year, multiplied by the R&D entity's \*corporate tax rate for the offset year.

**starting offset** means the amount of the \*tax offset the R&D entity has received, or is entitled to receive, under section 355-100 for the offset year.

- (2) However, if this section, or section 355-475, has previously applied (whether in the present year or an earlier income year) in relation to another clawback amount, or catch up amount, the \*R&D entity has that relates to the offset year, subsection (1) of this section applies as if:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) the starting offset were the \*tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) were:
  - (i) decreased by the sum of the portions of any such other clawback amounts that are attributable to the offset year; and
  - (ii) increased by the sum of the portions of any such other catch up amounts that are attributable to the offset year; and
- (b) the reference to the “total amount” in the definition of *adjusted offset* were a reference to that amount as so adjusted.

### **Subdivision 355-H—Catch up deductions for balancing adjustment events for assets used for R&D activities**

#### **Guide to Subdivision 355-H**

#### **355-455 What this Subdivision is about**

An R&D entity can deduct an amount under this Subdivision if:

- (a) a balancing adjustment event happens for an asset held by the R&D entity (or an R&D partnership in which the R&D entity is a partner); and
- (b) tax offsets have been obtained under this Division for deductions for the asset; and
- (c) the R&D entity (or the R&D partnership) can otherwise deduct an amount for the asset and the balancing adjustment event.

### 355-465 Assets only used for R&D activities

- (1) The \*R&D entity has an amount under this section if:

Note 2: Section 40-292 applies if the entity can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.

- (2) The amount is an amount equal to the amount mentioned in paragraph (1)(e).

### **355-466 Assets partially used for R&D activities**

- (1) The \*R&D entity has an amount under this section if:
- (a) a \*balancing adjustment event happens in the present year for an asset \*held by the R&D entity for which:
    - (i) the R&D entity can deduct, for an income year, an amount under section 40-25, as that section applies apart from Division 355 and former section 73BC of the *Income Tax Assessment Act 1936*; or
    - (ii) the R&D entity could have deducted, for an income year, an amount as described in subparagraph (i) if the R&D entity had used the asset; and
  - (b) the R&D entity is entitled under section 355-100 to \*tax offsets for one or more income years for deductions (the **R&D deductions**) under section 355-305 for the asset; and
  - (c) the R&D entity can deduct an amount (the **section 40-285 amount**) for the asset under section 40-285 (after applying subsection 40-292(2)) for the present year.

Note: This section applies in a modified way if you have deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 40-292 of the *Income Tax (Transitional Provisions) Act 1997*).

- (2) The amount is worked out as follows:

Section 355-467

---

$$\frac{\text{Total R\&D deductions}}{\text{Total decline in value}} \times \text{Section 40-285 amount}$$

where:

**total decline in value** means the \*cost of the asset less its \*adjustable value.

**355-467 R&D partnership assets only used for R&D activities**

- (1) The \*R&D entity (the *partner*) has an amount under this section if:
  - (a) the partner is a partner in an \*R&D partnership; and
  - (b) a \*balancing adjustment event happens in the present year for an asset \*held by the \*R&D partnership; and
  - (c) the R&D partnership cannot deduct, for the asset for an income year, an amount under section 40-25, as that section applies apart from:
    - (i) this Division; and
    - (ii) former section 73BC of the *Income Tax Assessment Act 1936*; and
  - (d) the partner is entitled under section 355-100 to \*tax offsets for one or more income years for deductions under section 355-520 for the asset; and
  - (e) the partner is registered under section 27A of the *Industry Research and Development Act 1986* for one or more \*R&D activities for the present year; and
  - (f) the partner can deduct an amount under subsection 355-525(2) for the present year for the asset and the balancing adjustment event.
- (2) The amount is an amount equal to the amount mentioned in paragraph (1)(f).

**355-468 R&D partnership assets partially used for R&D activities**

- (1) The \*R&D entity (the *partner*) has an amount under this section if:
  - (a) the partner is a partner in an \*R&D partnership; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a \*balancing adjustment event happens in the present year for a \*depreciating asset \*held by the R&D partnership and for which:
- (i) the R&D partnership can deduct, for an income year, an amount under section 40-25, as that section applies apart from Division 355 and former section 73BC of the *Income Tax Assessment Act 1936*; or
  - (ii) the R&D partnership could have deducted, for an income year, an amount as described in subparagraph (i) if it had used the asset; and
- (c) one or more partners (including the partner) in the R&D partnership are entitled under section 355-100 to \*tax offsets for one or more income years for deductions under section 355-520 for the asset; and
- (d) the R&D partnership can deduct an amount (the **section 40-285 amount**) for the asset under section 40-285 (after applying subsection 40-293(2)) for the present year.

Note: This section applies in a modified way if the partners have deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 40-293 of the *Income Tax (Transitional Provisions) Act 1997*).

- (2) The amount is the partner's proportion of the amount worked out as follows:

$$\frac{\text{Total R\&D deductions}}{\text{Total decline in value}} \times \text{Section 40-285 amount}$$

where:

**total decline in value** means the \*cost of the asset less its \*adjustable value.

**total R&D deductions** means the sum of each partner's deductions mentioned in paragraph (1)(c) of this section.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-475

---

**355-475 Amount that can be deducted**

- (1) The \*R&D entity can deduct, for the present year, the sum of the following amounts for each offset year relating to the catch up amount:

$$\frac{\text{Adjusted offset} - \text{Starting offset} - \text{Deduction amount}}{\text{R\&D entity's } * \text{corporate tax rate for the present year}}$$

where:

**adjusted offset** means the \*tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) for that tax offset were increased by the portion of the catch up amount that is attributable to the offset year.

**deduction amount** means the portion of the catch up amount that is attributable to the offset year, multiplied by the R&D entity's \*corporate tax rate for the offset year.

**starting offset** means the amount of the \*tax offset the R&D entity has received, or is entitled to receive, under section 355-100 for the offset year.

Note: A deduction under this subsection is not a notional deduction: see subsection 355-105(2).

- (2) However, if this section, or section 355-450, has previously applied (whether in the present year or an earlier income year) in relation to another catch up amount, or clawback amount, the \*R&D entity has that relates to the offset year, subsection (1) of this section applies as if:
- (a) the starting offset were the \*tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) were:
- (i) increased by the sum of the portions of any such other catch up amounts that are attributable to the offset year; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) decreased by the sum of the portions of any such other clawback amounts that are attributable to the offset year; and
- (b) the reference to the “total amount” in the definition of *adjusted offset* were a reference to that amount as so adjusted.

### **Subdivision 355-I—Application to earlier income year R&D expenditure incurred to associates**

#### **Table of sections**

355-480 Notional deductions for expenditure incurred to associate in earlier income years

### **355-480 Notional deductions for expenditure incurred to associate in earlier income years**

#### *Notional deductions for earlier year associate expenditure*

- (1) An \*R&D entity can deduct for an income year (the *present year*) expenditure it incurred to its \*associate during an earlier income year to the extent that:
  - (a) the expenditure was incurred on one or more \*R&D activities:
    - (i) for which the R&D entity is registered under section 27A of the *Industry Research and Development Act 1986* for an income year; and
    - (ii) that are activities to which section 355-210 (conditions for R&D activities) applies; and
  - (b) the expenditure is paid to that associate during the present year; and
  - (c) subsection (2) applies to the expenditure.

Note 1: This section applies in a modified way to R&D partnership expenditure (see sections 355-510 and 355-515).

Note 2: Expenditure paid in income years starting on or after 1 July 2011 may be deductible for activities registered for income years starting before

**Section 355-480**

---

1 July 2011 (see section 355-200 of the *Income Tax (Transitional Provisions) Act 1997*).

*Expenditure cannot have been otherwise deducted etc.*

- (2) This subsection applies to the expenditure if:
- (a) the \*R&D entity can deduct the expenditure, or is entitled to a \*tax offset for the expenditure, under any other Division of this Act for an earlier income year; and
  - (b) by the time of lodging its \*income tax return for the most recent income year before the present year, the R&D entity had neither:
    - (i) deducted the expenditure; nor
    - (ii) obtained a tax offset for the expenditure;as described in paragraph (a).
- (3) The entitlement to the deduction, or \*tax offset, described in paragraph (2)(a) ceases to the extent that subsection (2) applies to the expenditure.

Example: If, by the time mentioned in paragraph (2)(b), an R&D entity chose to deduct only a third of the expenditure it could have deducted under another Division, then the remaining 2 thirds of that expenditure:

- (a) can be deducted under this section; but
- (b) can no longer be deducted under the other Division.

*Notional deduction is subject to integrity rules etc.*

- (4) This section has effect subject to section 355-225 (excluded expenditure), Subdivision 355-F (integrity rules) and subsection 355-580(3) (CRC contributions).

- 355-540 Application of recoupment rules
- 355-545 Relevance for net income, and losses, of the R&D partnership

### **355-500 What this Subdivision is about**

This Subdivision modifies the rules in this Division for partners of R&D partnerships.

In particular, the rules about deducting R&D expenditure are modified to allow a partner to deduct the partner's proportion of the R&D partnership's expenditure on R&D activities.

A partner of an R&D partnership may also be able to deduct under this Subdivision the decline in value of partnership assets used for R&D activities.

### **355-505 Meaning of *R&D partnership* and *partner's proportion***

- (1) A partnership is an ***R&D partnership*** at a particular time if, at that time, each of the partners is an \*R&D entity.
- (2) For an amount attributable to an \*R&D partnership for an income year, each partner of the R&D partnership is taken to bear or be entitled to (as appropriate) this proportion (the ***partner's proportion***) of the amount:
  - (a) the proportion the partners agreed the partner should bear or be entitled to (as appropriate); or
  - (b) if there is no such agreement—the proportion of the partner's interest in the \*net income or \*partnership loss of the R&D partnership for the income year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-510

---

**355-510 R&D partnership expenditure on R&D activities**

If an \*R&D partnership incurs expenditure on one or more R&D activities during an income year, this Division applies in relation to each \*R&D entity that is a partner of the R&D partnership at some time during the income year as if:

- (a) the partner incurred the partner's proportion of that expenditure when the R&D partnership incurred that expenditure; and
- (b) neither the R&D partnership, nor any other partner of the R&D partnership, incurred expenditure during the income year on the R&D activities; and
- (c) such other changes were made to this Division as are appropriate having regard to that partner's proportion of amounts attributable to the R&D partnership.

Note: This section and section 355-515 may result in:

- (a) the partner being able to deduct the partner's proportion of the partnership expenditure under section 355-205 (R&D expenditure) or 355-480 (earlier year associate R&D expenditure) for the R&D activities; and
- (b) the partner being affected by the integrity rules in Subdivisions 355-F, 355-G and 355-H.

**355-515 R&D activities conducted by or for an R&D partnership**

If one or more \*R&D activities are conducted by or for an \*R&D partnership during an income year, this Division applies in relation to each \*R&D entity that is a partner of the R&D partnership at some time during the income year as if:

- (a) the R&D activities were conducted by or for the partner in a corresponding way to the way the R&D activities were conducted by or for the R&D partnership; and
- (b) the partner had relationships with other entities in relation to the R&D activities that corresponded to the relationships the R&D partnership had with those other entities in relation to the R&D activities; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) a thing done by, or in relation to, the R&D partnership in relation to the R&D activities were a thing done by, or in relation to, the partner; and
- (d) the R&D activities were neither:
  - (i) conducted by or for the R&D partnership; nor
  - (ii) conducted by or for any other partner of the R&D partnership; and
- (e) such other changes were made to this Division as are appropriate having regard to that partner's proportion of amounts attributable to the R&D partnership.

Note 1: For the purposes of this Division, entities that are associates or affiliates of, or connected with, the R&D partnership are taken to be associates or affiliates of, or connected with, the partner (see paragraph (b)).

Note 2: For the purposes of this Division, payments and agreements made by the R&D partnership for the R&D activities are taken to be made by the partner (see paragraph (c)).

### **355-520 When notional deductions arise for decline in value of depreciating assets of R&D partnerships**

*When notional deductions arise*

- (1) If:
    - (a) an \*R&D entity is a partner of an \*R&D partnership at some time during an income year (the *present year*); and
    - (b) the partner is registered under section 27A of the *Industry Research and Development Act 1986* for the present year for one or more \*R&D activities that are activities to which section 355-210 (conditions for R&D activities) applies; and
- Note: Section 355-210 applies with changes for this paragraph (see section 355-515).
- (c) while a tangible \*depreciating asset is \*held by the R&D partnership during the present year, the asset is used for the purpose of conducting one or more of those R&D activities; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 355-525**

---

- (d) the R&D partnership could deduct an amount under section 40-25 for the asset for the present year if Division 40 applied with the changes described in section 355-310; and

Note: Section 355-310 applies with changes for this paragraph (see subsection (2) of this section).

- (e) the R&D partnership cannot deduct an amount for the asset for:
- (i) an earlier income year under Subdivision 328-D (capital allowances for small business entities); or
  - (ii) an earlier income year under Division 40 (as that Division applies apart from this Division), in a case where section 40-440 (low-value pools) applied;
- the partner can deduct the partner's proportion of the amount referred to in paragraph (d) for the present year.

*Changed application of Division 40 for this Subdivision*

- (2) For the purposes of this Subdivision, section 355-310 applies as if the following changes were made:

<b>Changes to be made</b>		
<b>Item</b>	<b>For a reference in section 355-310 to...</b>	<b>substitute a reference to...</b>
1	paragraph 355-305(1)(c)	paragraph 355-520(1)(d)
2	section 355-315	section 355-525
3	paragraph 355-305(1)(b)	paragraph 355-520(1)(c)
4	*R&D entity	*R&D partnership

*Disregard certain assets held because of CRC contributions*

- (3) This section has effect subject to subsection 355-580(4) (CRC contributions).

**355-525 Balancing adjustments for R&D partnership assets only used for R&D activities**

- (1) This section applies to an \*R&D entity (the *partner*) if:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) a \*balancing adjustment event happens in an income year (the **event year**) for an asset \*held by an \*R&D partnership; and
- (b) the R&D partnership cannot deduct an amount under section 40-25, as that section applies apart from:
  - (i) this Division; and
  - (ii) former section 73BC of the *Income Tax Assessment Act 1936*;  
for the asset for an income year; and
- (c) the partner is entitled under section 355-100 to \*tax offsets for one or more income years for deductions (the **R&D deductions**) under section 355-520 for the asset; and
- (d) the partner is registered under section 27A of the *Industry Research and Development Act 1986* for one or more \*R&D activities for the event year; and
- (e) if Division 40 applied with the changes described in section 355-310 (as affected by subsection 355-520(2)):
  - (i) the R&D partnership could deduct for the event year an amount under subsection 40-285(2) for the asset and the balancing adjustment event; or
  - (ii) an amount would be included in the R&D partnership's assessable income for the event year under subsection 40-285(1) for the asset and the balancing adjustment event.

Note 1: This section applies in a modified way if the partner has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-325 of the *Income Tax (Transitional Provisions) Act 1997*).

Note 2: Section 40-293 applies if the R&D partnership can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.

- (2) If the \*R&D partnership could deduct for the event year an amount under subsection 40-285(2) for the asset and the event if Division 40 applied as described in paragraph (1)(e), the partner can deduct the partner's proportion of that amount for the event year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 355-530**

---

Note 1: A deduction under this subsection is not a notional deduction (see subsection 355-105(2)).

Note 2: A deduction under this subsection will result in a catch up amount for the partner (see section 355-467).

- (3) If an amount would be included in the \*R&D partnership's assessable income for the event year under subsection 40-285(1) for the asset and the event if Division 40 applied as described in paragraph (1)(e), the partner's proportion of that amount is included in the partner's assessable income for the event year.

Note: Some or all of the amount included in the partner's assessable income may result in a clawback amount for the partner (see section 355-448).

**355-530 Implications for partner's aggregated turnover**

For the purposes of section 355-100 (tax offsets for R&D), if:

- (a) an \*R&D entity is a partner of an \*R&D partnership at some time during an income year; and
- (b) the partner's \*aggregated turnover for the income year does not include the R&D partnership's \*annual turnover for the income year;

the partner's aggregated turnover for the income year includes the \*partner's proportion of the R&D partnership's annual turnover for the income year.

**355-535 Disposal of R&D results for R&D partnerships**

In addition to its application apart from this section, section 355-410 (disposal of R&D results) also applies to each partner of an \*R&D partnership with such changes as are appropriate having regard to:

- (a) amounts (the *results amounts*) of a kind set out in subparagraphs 355-410(1)(b)(i) to (v) that the R&D partnership receives or becomes entitled to receive in an income year; and
- (b) the principle that any amount to be included in the partner's assessable income for the income year for a results amount

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

should be the partner's proportion of the amount arising under subsection 355-410(2) for the results amount.

Note: The ordinary application of section 355-410 will apply to any of the partner's deductions under this Division that do not relate to the R&D partnership.

### **355-540 Application of recoupment rules**

(1) If:

- (a) an \*R&D partnership incurs expenditure (the *partnership expenditure*) on \*R&D activities; and
- (b) an \*R&D entity (the *partner*) is entitled under section 355-100 to a \*tax offset because it can, under section 355-205 or 355-480, deduct some or all of that expenditure; and
- (c) the R&D partnership receives an amount as a \*recoupment of any or all of the partnership expenditure;  
the partner is taken, for the purposes of Subdivisions 20-A and 355-G:
- (d) to have incurred the partner's proportion of the partnership expenditure when the R&D partnership incurred that expenditure; and
- (e) to have received the partner's proportion of the recoupment when the R&D partnership received the recoupment.

(2) If:

- (a) an \*R&D entity (the *partner*) is entitled under section 355-100 to a \*tax offset because it can, under section 355-520, deduct an amount for an income year for an asset; and
- (b) the applicable \*R&D partnership receives an amount as a \*recoupment of any or all of the R&D partnership's expenditure included in the \*cost of the asset for the purposes of the application of Division 40 as described in paragraph 355-520(1)(d);

the partner is taken, for the purposes of Subdivisions 20-A and 355-G:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 355-545

---

- (c) to have incurred the partner's proportion of that expenditure when the R&D partnership incurred that expenditure; and
- (d) to have received the partner's proportion of the recoupment when the R&D partnership received the recoupment.

**355-545 Relevance for net income, and losses, of the R&D partnership**

For an \*R&D entity that is a partner of an \*R&D partnership, none of the following:

- (a) any expenditure the R&D entity is taken to have incurred because of this Subdivision;
- (b) any amount the R&D entity can deduct under this Subdivision;
- (c) any \*recoupment the R&D entity is taken to have received because of this Subdivision;

are to be taken into account in determining the \*net income of the R&D partnership, or any \*partnership loss of the R&D partnership, for an income year.

entity is registered under section 27A of the *Industry Research and Development Act 1986* for an income year.

- Note 1: The R&D activities will need to be conducted during the income year the R&D entity is registered for those activities (see sections 27A and 27J of the *Industry Research and Development Act 1986*).
- Note 2: Expenditure incurred in income years starting on or after 1 July 2011 may be deductible for activities registered for income years starting before 1 July 2011 (see section 355-200 of the *Income Tax (Transitional Provisions) Act 1997*).

- (2) Subsection (1) does not apply to expenditure to the extent that it is incurred out of Commonwealth funding.

*No other deductions arise for monetary contributions etc.*

- (3) Neither:

    - (ii) Commonwealth funding;
- can be deducted by any R&D entity under any other provision of this Division for any income year.
- (4) If an asset's \*cost includes expenditure incurred under the \*CRC program out of:
- (a) a contribution an \*R&D entity can deduct under subsection (1); or

    - (i) a finding under section 27B of that Act about an \*R&D entity's application for registration under section 27A of that Act for an income year; or

- (3) However, if:
- (a) an activity is completed during an income year; and
  - (b) an \*R&D entity applies in the income year for a finding under section 28A of the *Industry Research and Development Act 1986* about the activity; and
  - (c) Industry Innovation and Science Australia makes the finding and gives the Commissioner a certificate under that Act setting out the finding;

the finding binds the Commissioner for the purposes of assessments of the R&D entity for the income year.

**355-710 Amendment of assessments**

*Dealing with findings of Industry Innovation and Science Australia*

- (1) If:
- (a) a certificate given to the Commissioner under the *Industry Research and Development Act 1986* sets out:
    - (i) a finding under section 27B of that Act about an \*R&D entity's application for registration under section 27A of that Act for an income year; or
    - (ii) a finding under section 27J of that Act about an R&D entity's registration under section 27A of that Act for an income year; or
    - (iii) a finding under section 28A or 28C of that Act made on application by an R&D entity during an income year; or
    - (iv) a finding under section 28E of that Act about an R&D entity and one or more R&D activities conducted or to be conducted during one or more income years; and
  - (b) the finding was made within 4 years after the end of the income year or the last of the income years (as appropriate);
- despite section 170 of the *Income Tax Assessment Act 1936*, the Commissioner may amend the R&D entity's assessment for an income year affected by the finding at any time for the purposes of giving effect to the finding.
- (2) However, the Commissioner may only do so within 2 years after the Commissioner is given the certificate if giving effect to the finding would increase the R&D entity's liability.

*Dealing with key decisions of Industry Innovation and Science Australia and others*

- (3) If:
- (a) an internal review decision (the **key decision**) under subsection 30D(2) of the *Industry Research and Development Act 1986* relates to an \*R&D entity; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a decision (also the **key decision**) under the *Administrative Appeals Tribunal Act 1975*:
    - (i) varies a decision covered by paragraph (a); or
    - (ii) sets aside a decision covered by paragraph (a), whether or not that key decision also includes a decision made in substitution for the decision covered by paragraph (a);  
or
  - (c) a decision (also the **key decision**) of a court is about:
    - (i) a decision under Part III of the *Industry Research and Development Act 1986* relating to an R&D entity; or
    - (ii) a decision covered by paragraph (b);
- despite section 170 of the *Income Tax Assessment Act 1936*, the Commissioner may amend the R&D entity's assessment for an income year affected by the key decision at any time for the purposes of giving effect to that decision.

### **355-715 Implications for other deductions and tax offsets**

- (1) If an \*R&D entity is entitled under section 355-100 to a \*tax offset for an income year for expenditure it can deduct under section 355-205, 355-480 or 355-580, that expenditure:
    - (a) cannot be taken into account by any entity in working out a deduction under any other Division of this Act for any income year; and
    - (b) cannot be taken into account by any entity in working out a tax offset under any other Division of this Act for any income year.
- Note: Section 355-205 is about R&D expenditure, section 355-480 is about earlier year associate R&D expenditure, and section 355-580 is about CRC contributions.
- (2) If an \*R&D entity is entitled under section 355-100 to a \*tax offset for an income year for a deduction under section 355-305 or 355-520 of an amount equal to the decline in value of an asset, that decline in value:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 355-715**

---

- (a) cannot be taken into account by any entity in working out a deduction under any other Division of this Act (other than section 40-292 or 40-293) for any income year; and
- (b) cannot be taken into account by any entity in working out a tax offset under any other Division of this Act for any income year;

to the extent that the decline in value is attributable to the use of the asset for the purpose of conducting one or more of the \*R&D activities to which the deduction relates.

- Note 1: A deduction may be available under section 40-25 to the extent that the asset's decline in value is attributable to another purpose. If so, that deduction under section 40-25 will not take into account the asset's decline in value to the extent that it is attributable to the R&D activities (see also subsection 40-25(2)).
- Note 2: Section 355-305 is about the decline in value of R&D assets and section 355-520 is about the decline in value of R&D partnership assets.
- Note 3: Sections 40-292 and 40-293 deal with balancing adjustments when deductions have been available for the asset's decline in value both under this Division and section 40-25.

**Operative provisions**

**360-10 Object of this Subdivision**

The object of this Subdivision is to encourage new investment in small Australian innovation companies with high-growth potential by providing qualifying investors with a tax offset and a modified CGT treatment.

**360-15 Entitlement to the tax offset**

*General case*

- (1) You are entitled to a \*tax offset for an income year if:
  - (a) you are none of the following:
    - (i) a trust or a partnership;
    - (ia) an \*ESVCLP;
    - (ii) a \*widely held company or a \*100% subsidiary of a widely held company; and
  - (b) at a particular time during the income year, a company issues you with \*equity interests that are \*shares in the company; and
  - (c) subsection 360-40(1) (about early stage innovation companies) applies to the company immediately after that time; and
  - (d) neither you nor the company is an \*affiliate of each other at that time; and
  - (e) the issue of those shares is not an \*acquisition of \*ESS interests under an \*employee share scheme; and
  - (f) immediately after the issue of those shares, you do not hold equity interests in the company, or in an entity \*connected with the company, that carry the right to:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (i) receive more than 30% of any distribution of income by the company or the entity; or
- (ii) receive more than 30% of any distribution of capital by the company or the entity; or
- (iii) exercise, or control the exercise of, more than 30% of the total voting power in the company or the entity.

*Members of trusts or partnerships*

- (2) A \*member of a trust or partnership (other than a partnership that is an \*ESVCLP) at the end of an income year is entitled to a \*tax offset for the income year if:
  - (a) the trust or partnership would be entitled to a tax offset, under this section, for the income year if the trust or partnership were an individual; and
  - (b) the member is not a \*widely held company or a \*100% subsidiary of a widely held company.

*Trustees*

- (3) A trustee of a trust is entitled to a \*tax offset for an income year if:
  - (a) the trustee would be entitled to a tax offset, under subsection (1), for the income year if the trustee were an individual; and
  - (b) the trustee is liable to be assessed or has been assessed, and is liable to pay \*tax, on a share of, or all or a part of, the trust's \*net income under section 98, 99 or 99A of the *Income Tax Assessment Act 1936* for the income year.

**360-20 Limited entitlement for certain kinds of investors**

- (1) You do not satisfy paragraph 360-15(1)(b) if:
  - (a) for each offer resulting in \*equity interests that are \*shares in the company being issued to you during the income year, none of subsections 708(8), (10) or (11) of the *Corporations Act 2001* removed the need for a disclosure document; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 360-25

---

- (b) a total of more than \$50,000 was paid for the issue to you of the shares resulting from all of those offers.
- (2) For the purposes of this section, assume that Chapter 6D of the *Corporations Act 2001* applies to those offers.

**360-25 Amount of the tax offset—general case**

- (1) If subsection 360-15(1) applies, the amount of your \*tax offset is 20% of the sum of the following:
  - (a) an amount equal to any money received, or entitled to be received, by the company referred to in paragraph 360-15(1)(b) for the issue to you of the \*shares as described in that paragraph;
  - (b) an amount equal to the \*market value of any \*non-cash benefit received, or entitled to be received, by the company referred to in paragraph 360-15(1)(b) for the issue to you of the shares as described in that paragraph, as at the time the shares were issued to you.
- (2) However, reduce this amount to the extent necessary to ensure that the sum of the following does not exceed \$200,000:
  - (a) the sum of the \*tax offsets under this Subdivision for the income year for which you and your \*affiliates (if any) are entitled;
  - (b) the sum of the tax offsets under this Subdivision that you and your affiliates (if any) carry forward to the income year.

**360-30 Amount of the tax offset—members of trusts or partnerships**

- (1) If subsection 360-15(2) applies, the amount of the \*member's \*tax offset for the income year is as follows:

Determined share of notional tax offset  $\times$  Notional tax offset amount  
where:

*determined share of notional tax offset* is the percentage determined under subsection (2) for the \*member.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**notional tax offset amount** is what would, under section 360-25, have been the amount of the trust's or partnership's \*tax offset (the **notional tax offset**) if the trust or partnership had been an individual.

- (1A) However, reduce the amount worked out under subsection (1) to the extent necessary to ensure that the sum of the following does not exceed \$200,000:
- (a) the sum of the \*tax offsets under this Subdivision for the income year for which the member and the member's \*affiliates (if any) are entitled;
  - (b) the sum of the tax offsets under this Subdivision that the member and the member's affiliates (if any) carry forward to the income year.
- (2) The trustee or partnership may determine the percentage of the notional tax offset that is the \*member's share of the notional tax offset.
- (3) If, under the terms and conditions under which the trust or partnership operates, the \*member would be entitled to a fixed proportion of any \*capital gain from a \*disposal:
- (a) relating to the trust or partnership; and
  - (b) of the \*shares that gave rise to the notional tax offset; and
  - (c) happening at the end of the income year to which the notional tax offset relates;
- the percentage determined under subsection (2) must be equivalent to that fixed proportion, and a determination of any other percentage has no effect.
- (4) The trustee or partnership must give the \*member written notice of the determination. The notice:
- (a) must enable the member to work out the amount of the member's \*tax offset by including enough information to enable the member to work out the member's share of the notional tax offset; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 360-35

---

- (b) must be given to the member within 3 months after the end of the income year, or within such further time as the Commissioner allows.
- (5) The sum of all the percentages determined under subsection (2) in relation to the \*members of the trust or partnership must not exceed 100%.

**360-35 Amount of the tax offset—trustees**

If subsection 360-15(3) applies, the amount of the \*tax offset is the difference between:

- (a) what would, under section 360-25, have been the amount of the tax offset to which the trustee would have been entitled if the trustee had been an individual; and
- (b) if \*members of the trust are entitled to tax offsets under subsection 360-15(2) arising from the same \*shares to which the trustee's entitlement arises under subsection 360-15(3)—the sum of the amounts worked out under section 360-30 (disregarding any reductions under subsection 360-30(1A)) for those tax offsets.

**360-40 Early stage innovation companies**

- (1) This subsection applies to a company at a particular time (the *test time*) in an income year (the *current year*) if:
  - (a) the company was:
    - (i) incorporated in Australia within the last 3 income years (the latest being the current year); or
    - (ii) incorporated in Australia within the last 6 income years (the latest being the current year), and across the last 3 of those income years before the current year it and its \*100% subsidiaries (if any) incurred total expenses of \$1 million or less; or
    - (iii) registered in the \*Australian Business Register within the last 3 income years (the latest being the current year); and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the company and its 100% subsidiaries (if any) incurred total expenses of \$1 million or less in the income year before the current year; and
- (c) the company and its 100% subsidiaries (if any) had a total assessable income of \$200,000 or less in the income year before the current year; and
- (d) at the test time, none of the company's \*equity interests are listed for quotation in the official list of any stock exchange in Australia or a foreign country; and
- (e) at the test time, the company has at least 100 points under section 360-45, or:
  - (i) the company is genuinely focussed on developing for commercialisation one or more new, or significantly improved, products, processes, services or marketing or organisational methods; and
  - (ii) the business relating to those products, processes, services or methods has a high growth potential; and
  - (iii) the company can demonstrate that it has the potential to be able to successfully scale that business; and
  - (iv) the company can demonstrate that it has the potential to be able to address a broader than local market, including global markets, through that business; and
  - (v) the company can demonstrate that it has the potential to be able to have competitive advantages for that business; and
- (f) at the test time, the company is not a foreign company (within the meaning of the *Corporations Act 2001*).

Note: For the purposes of paragraph (e), one way a company can demonstrate something is by engaging the services of another entity.

- (2) For the purposes of paragraph (1)(c), disregard any of the following:
  - (a) an Accelerating Commercialisation Grant under the program administered by the Commonwealth known as the Entrepreneurs' Programme;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 360-45

---

- (b) an amount required to be included in the company's assessable income under subsection 355-450(1).
- (3) Subparagraphs (1)(e)(i) to (v) cannot be satisfied for:
  - (a) a product, process, service or method; or
  - (b) an improvement to a product, process, service or method; that is of a kind prescribed by regulations made for the purposes of this subsection.
- (4) Subsection (1) does not apply to a company if, before the test time, the company engaged in an activity of a kind prescribed by regulations made for the purposes of this subsection.

**360-45 100 point innovation test**

- (1) At a particular time (the *test time*) in an income year (the *current year*), a company has the points mentioned in an item of the following table if that item applies to the company at that time.

<b>Innovation points potentially available at that time in the current year</b>		
	<b>Column 1</b>	<b>Column 2</b>
<b>Item</b>	<b>Points</b>	<b>Innovation criteria</b>

Section 360-50

---

---

<b>Innovation points potentially available at that time in the current year</b>		
	<b>Column 1</b>	<b>Column 2</b>
<b>Item</b>	<b>Points</b>	<b>Innovation criteria</b>
7	25	Unless item 6 applies to the company at the test time: (a) the company has rights (including equitable rights) under a *Commonwealth law as: (i) the patentee, or a licensee, of an innovation patent granted and certified in Australia; or (ii) the owner, or a licensee, of a registered design registered in Australia; within the last 5 years (ending at the test time); or (b) the company has equivalent rights under a *foreign law.
8	25	The company has a written agreement with: (a) an institution or body listed in Schedule 1 to the <i>Higher Education Funding Act 1988</i> (about institutions or bodies eligible for special research assistance); or (b) an entity registered under section 29A of the <i>Industry Research and Development Act 1986</i> (about research service providers); to co-develop and commercialise a new, or significantly improved, product, process, service or marketing or organisational method.

---

- (2) At the test time, the company also has the points prescribed by regulations made for the purposes of this subsection if the prescribed innovation criteria for those points apply to the company at that time.

**360-50 Modified CGT treatment**

- (1) This section applies if the issuing of a \*share to an entity gives rise to an entitlement to a \*tax offset under this Subdivision.

Note: This section applies to any share that gives rise to the entitlement, regardless of whether subsection 360-25(2) reduces the amount of the tax offset.

- (2) The entity is taken to hold the \*share on capital account.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (3) The entity must disregard any \*capital loss it makes from any \*CGT event happening in relation to the \*share if:
  - (a) the entity has continuously held the share since its issue; and
  - (b) the CGT event happens before the tenth anniversary of the issue of the share.
- (4) The entity may disregard any \*capital gain it makes from any \*CGT event happening in relation to the \*share if:
  - (a) the entity has continuously held the share since its issue; and
  - (b) the CGT event happens on or after the first anniversary, but before the tenth anniversary, of the issue of the share.
- (5) If the entity has continuously held the \*share since its issue, the \*first element of its \*cost base and \*reduced cost base becomes, on the tenth anniversary of its issue, its \*market value on that anniversary.

### **360-55 Modified CGT treatment—partnerships**

- (1) The purpose of this section is to ensure that the modifications made by section 360-50 apply to each partner in a partnership in a case where the partnership is the entity that is issued with the \*share mentioned in subsection 360-50(1).
  - (2) In such a case, subsections 360-50(2) to (4) apply as if:
    - (a) the first reference in those subsections to the entity were a reference to each partner in the partnership; and
    - (b) the first reference in those subsections to the \*share were a reference to the partner's interest in the share.
- Note: The references to the entity and the share in the paragraphs of subsections 360-50(3) and (4) continue to apply unchanged.
- (3) In such a case, treat subsection 360-50(5) as if it read as follows:

“If the partnership has continuously held the \*share since its issue, on the tenth anniversary of its issue:

    - (a) the \*first element of the \*cost base for a partner's interest in the share becomes so much of the share's \*market value on

---

Section 360-60

---

that anniversary as is calculated by reference to the partnership agreement, or partnership law if there is no agreement; and

- (b) the \*first element of the \*reduced cost base is worked out similarly.”.

**360-60 Modified CGT treatment—not affected by certain roll-overs**

- (1) The purpose of this section is to ensure that the modifications made by section 360-50 are not affected merely because of one or more \*same-asset roll-overs or \*replacement-asset roll-overs (other than roll-overs under Division 122 or Subdivision 124-M).
- (2) If, apart from those roll-overs, the entity (the *original entity*) mentioned in subsection 360-50(1) would continue to hold the \*share (the *original share*) mentioned in that subsection, then subsections 360-50(2) to (5) apply as if:
- (a) the following asset were the original share:
- (i) if the last roll-over is a \*same-asset roll-over—the asset for the roll-over;
- (ii) if the last roll-over is a \*replacement-asset roll-over—the replacement asset for the roll-over; and
- Note: The asset for subparagraph (i) will be the original share unless a replacement-asset roll-over happened beforehand.
- (b) that asset was issued when the original share was issued; and
- (c) the entity that \*acquired that asset for the roll-over had continuously held that asset since the original share was issued; and
- (d) that entity were the original entity; and
- (e) in a case where that entity is a partnership—paragraphs (a) to (d) modify subsections 360-50(2) to (5) as they apply with the modifications in section 360-55; and
- (f) in a case where that entity is not a partnership but the entity that owned the original asset for the roll-over is—paragraphs (a) to (d) modify subsections 360-50(2) to (5) as they apply without the modifications in section 360-55.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: A roll-over under Division 122 (about wholly-owned companies) or Subdivision 124-M (about scrip for scrip roll-overs) will stop the modified CGT treatment under section 360-50 from continuing to apply.

**360-65 Separate modified CGT treatment for roll-overs about wholly-owned companies or scrip for scrip roll-overs**

- (1) If:
- (a) a \*share mentioned in subsection 360-50(1) has been continuously held by the entity mentioned in that subsection; and
  - (b) then:
    - (i) the share, or interests in the share, are \*disposed of in a way that gives rise to a trigger event (see section 122-15 or 122-125) for a roll-over under Division 122; or
    - (ii) the share becomes the original interest (see paragraph 124-780(1)(a)) for a roll-over under Subdivision 124-M; and
  - (c) the roll-over happens on or after the first anniversary, but before the tenth anniversary, of the issue of the share;
- the \*first element of the \*cost base and \*reduced cost base of the share just before the roll-over is taken to be its \*market value at that time.

Note: This subsection is a separate modified CGT treatment, and not a continuation of the modifications made by section 360-50.

- (2) If:
- (a) an asset mentioned in paragraph 360-60(2)(a) for a roll-over has been continuously held by the entity that \*acquired that asset for that roll-over; and
  - (b) then:
    - (i) that asset, or interests in that asset, are \*disposed of in a way that gives rise to a trigger event (see section 122-15 or 122-125) for a roll-over under Division 122; or

- (ii) that asset becomes the original interest (see paragraph 124-780(1)(a)) for a roll-over under Subdivision 124-M; and
- (c) the later roll-over happens on or after the first anniversary, but before the tenth anniversary, of the issue of the original share (see subsection 360-60(2) for the earlier roll-over; the \*first element of the \*cost base and \*reduced cost base of that asset just before the later roll-over is taken to be its \*market value at that time.

Note: This subsection is a separate modified CGT treatment, and not a continuation of the modifications made by section 360-50.

**Expenditure generally—common rules**

- 376-175 Expenditure to be worked out on an arm's length basis
- 376-180 Expenditure incurred by prior production companies
- 376-185 Expenditure to be worked out excluding GST

**Production expenditure—common rules**

**376-125 Production expenditure—general test**

- (1) A company's **production expenditure** on a \*film is expenditure that the company incurs to the extent to which it:
  - (a) is incurred in, or in relation to, the \*making of the film; or
  - (b) is reasonably attributable to:
    - (i) the use of equipment or other facilities for; or
    - (ii) activities undertaken in;  
the making of the film.
- (2) The **making** of a \*film means the doing of the things necessary for the production of the first copy of the film.
- (3) The **making** of a \*film includes:
  - (a) pre-production activities in relation to the film; and
  - (b) post-production activities in relation to the film; and
  - (c) any other activities undertaken to bring the film up to the state where it could reasonably be regarded as ready to be distributed, broadcast or exhibited to the general public.
- (4) The **making** of a \*film does not include:
  - (a) developing the proposal for the \*making of the film; or
  - (b) arranging or obtaining finance for the film; or
  - (c) distributing the film (other than the activities listed in paragraphs (a) to (e) of item 7 of the table in subsection 376-170(2)); or
  - (d) promoting the film.
- (5) Without limiting subsection (1), a company's **production expenditure** on a \*film:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) may be expenditure that is incurred in the income year for which the \*tax offset is sought or in an earlier income year; and
- (b) may be expenditure of either a capital or a revenue nature; and
- (c) may be expenditure that gives rise to a deduction.

Paragraph (c) has effect subject to item 10 of the table in section 376-135 (which deals with capital allowances).

(6) If:

- (a) a company:
  - (i) \*holds a \*depreciating asset; and
  - (ii) uses the asset, while held, in the \*making of a \*film; and
- (b) deductions in relation to the asset are available under Division 40 (which deals with capital allowances);

the **production expenditure** of the company on the film includes an amount equal to the decline in the value of the asset to the extent to which that decline is reasonably attributable to the use of the asset in the making of the film (the **film proportion**). The decline in value of the asset is to be worked out using Division 40.

Note: Under item 10 of the table in section 376-135, expenditure that sets or increases the cost of the asset does not count as production expenditure.

(7) If a \*balancing adjustment event occurs for the asset before the film is \*completed:

- (a) if the asset's \*termination value is more than its \*adjustable value just before the event occurred—the **production expenditure** of the company on the film is reduced by the film proportion of the difference; or
- (b) if the asset's termination value is less than its adjustable value just before the event occurred—the **production expenditure** of the company on the film includes the film proportion of the difference.

Note: This means that the special qualifying Australian production expenditure in sections 376-150 and 376-165 is taken into account both in working out the total amount of the company's qualifying Australian production expenditure and in working out the total amount of all the company's production expenditure on the film.

**376-135 Production expenditure—specific exclusions**

**total rent** means:

- (a) if \*NRAS rent was payable for the \*NRAS dwelling in relation to the whole of the \*NRAS year—the rent \*derived from the NRAS dwelling during the NRAS year; or
- (b) if NRAS rent was payable for the NRAS dwelling in relation to only part of the NRAS year—the rent derived from the NRAS dwelling during that part of the NRAS year.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) The \*tax offset to which the electing member would otherwise be entitled under section 380-10 for the income year because of the \*NRAS certificate and the \*NRAS dwelling is reduced by the same amount.
- (4) Treat the references in subsection (2) to the \*NRAS year as being references to a period that occurs during the NRAS year, if the \*NRAS certificate is apportioned for the period.

*Amount of tax offset—rent that passes through NRAS approved participant*

- (5) For the purposes of the references in the definitions in subsection (2) to rent \*derived from the \*NRAS dwelling during the \*NRAS year, disregard \*NRAS rent derived by a \*member of the \*NRAS consortium from the NRAS dwelling during a period in the NRAS year, to the extent that another member derives rent from the NRAS dwelling during the period because:
- (a) the first member is the \*NRAS approved participant of the NRAS consortium throughout the period; and
  - (b) the first member, in accordance with the contractual \*arrangements that established the NRAS consortium, passes the NRAS rent on to the other member.

Note: There may be more than one NRAS approved participant during an NRAS year. The electing member may be the NRAS approved participant for only part of the NRAS year.

- (6) For the purposes of paragraph (5)(b), treat any \*NRAS rent retained by the first \*member under the \*arrangements as management fees or commission as having been passed on to the other member.

**380-13 Elections by NRAS approved participants—special rule for partnerships and trustees**

For the purposes of sections 380-14 to 380-30 (which apply if a partnership or the trustee of a trust derives NRAS rent), for each \*NRAS dwelling:

Section 380-14

---

- (a) from which the electing member \*derived \*NRAS rent during the \*NRAS year; and
- (b) that is covered by the \*NRAS certificate; and
- (c) from which a partnership, or the trustee of a trust, that is a \*member of the \*NRAS consortium derived rent during the NRAS year;

treat the following proportion of the NRAS rent as being NRAS rent derived during the NRAS year by the member mentioned in paragraph (c):

$$\frac{\text{Member's rent}}{\text{Total rent}}$$

where:

**member's rent** has the same meaning as in subsection 380-12(2).

**total rent** has the same meaning as in subsection 380-12(2).

**380-14 Members of NRAS consortiums—partnerships and trustees**

- (1) This section applies if:
  - (a) the \*Housing Secretary issues an \*NRAS certificate in relation to an \*NRAS year to the \*NRAS approved participant of an \*NRAS consortium; and
  - (b) the NRAS certificate covers one or more \*NRAS dwellings; and
  - (c) a \*member of the NRAS consortium, other than the NRAS approved participant, \*derives \*NRAS rent during the NRAS year from any of those NRAS dwellings; and
  - (d) the member is a partnership or a trustee of a trust.
- (2) For the purposes of sections 380-15 to 380-20, assume that:
  - (a) the \*member has been issued with an \*NRAS certificate in relation to the \*NRAS year; and
  - (b) the NRAS certificate covers each \*NRAS dwelling:
    - (i) covered by the NRAS certificate mentioned in paragraph (1)(b) of this section; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) from which the member \*derives \*NRAS rent during the NRAS year; and
- (c) the amount stated in the NRAS certificate for each of those NRAS dwellings is the amount worked out using the formula in subsection 380-10(2) in relation to the NRAS dwelling for the NRAS year for the member.

## **NRAS certificates issued to partnerships and trustees**

### **380-15 Entities to whom NRAS rent flows indirectly**

- (1) An entity is entitled to a \*tax offset for an income year (the *offset year*) if:
  - (a) the \*Housing Secretary issues an \*NRAS certificate in relation to an \*NRAS year to a partnership or a trustee of a trust; and
  - (b) \*NRAS rent \*derived:
    - (i) from any of the \*NRAS dwellings covered by the NRAS certificate; and
    - (ii) during the NRAS year;  
\*flows indirectly to the entity in any income year; and
  - (c) the offset year of the partnership or trustee begins in the NRAS year; and
  - (d) the entity is:
    - (i) an individual; or
    - (ii) a \*corporate tax entity when the NRAS rent flows indirectly to it; or
    - (iii) the trustee of a trust that is liable to be assessed on a share of, or all or a part of, the trust's \*net income under section 98, 99 or 99A of the *Income Tax Assessment Act 1936* for the offset year; or
    - (v) a \*superannuation fund, an \*approved deposit fund or a \*pooled superannuation trust.

Note: The entities covered by this section are the ultimate recipients of the NRAS rent because the NRAS rent does not flow indirectly through them to other entities.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 380-16

---

- (2) The amount of the \*tax offset is the sum of the amounts worked out using the following formula for each \*NRAS dwelling from which there is \*NRAS rent covered by paragraph (1)(b):

$$\text{Amount stated in the *NRAS certificate} \times \frac{\text{The entity's *share of the *NRAS rent for the *NRAS dwelling *derived during the *NRAS year}}{\text{Total *NRAS rent *derived during the *NRAS year from *NRAS dwellings covered by the *NRAS certificate}}$$

- (3) Treat the references in subsection (2) to the \*NRAS year as being references to a period that occurs during the NRAS year, if the \*NRAS certificate is apportioned for the period.

**380-16 Elections by NRAS approved participants that are partnerships or trustees**

*Scope*

- (1) This section and sections 380-17 and 380-18 apply if:
- (a) an entity (the **indirect entity**) is entitled to a \*tax offset under section 380-15 or 380-20 for an income year because \*NRAS rent \*derived:
    - (i) from any of the \*NRAS dwellings covered by an \*NRAS certificate issued by the \*Housing Secretary in relation to an \*NRAS year to a \*member (the **electing member**) of an \*NRAS consortium; and
    - (ii) during the NRAS year;  
\*flows indirectly to the indirect entity in any income year (or would otherwise flow indirectly to the indirect entity, as mentioned in paragraph 380-20(1)(d)); and
  - (b) the electing member was the \*NRAS approved participant of the NRAS consortium at any time during the NRAS year; and
  - (c) the electing member elects to have this section apply to the NRAS certificate and NRAS dwelling for the income year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Requirements for an election*

- (2) The election must be made:
  - (a) in the \*approved form; and
  - (b) within 30 days after the day the \*Housing Secretary issues the \*NRAS certificate.
- (3) The Commissioner may require a copy or copies of the election to be given, within the 30 day period mentioned in paragraph (2)(b):
  - (a) to the Commissioner; or
  - (b) to each \*member of the \*NRAS consortium who may be entitled to a \*tax offset under section 380-17 as a result of the election; or
  - (c) both to the Commissioner and to each such member.
- (4) The election may not be revoked.

**380-17 Elections by NRAS approved participants that are partnerships or trustees—tax offsets**

*Entitlement to tax offset*

- (1) A \*member of the \*NRAS consortium (other than the electing member) is entitled to a \*tax offset for the income year if the member is an individual, a \*corporate tax entity or a \*superannuation fund.

*Amount of tax offset*

- (2) The amount of the \*tax offset is the amount worked out using the following formula:

$$\text{Total tax offsets} \times \frac{\text{Member's rent}}{\text{Total rent}}$$

where:

***member's rent*** means:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 380-17

---

- (a) if \*NRAS rent was payable for the \*NRAS dwelling in relation to the whole of the \*NRAS year—the rent \*derived by the \*member from the NRAS dwelling during the NRAS year; or
- (b) if NRAS rent was payable for the NRAS dwelling in relation to only part of the NRAS year—the rent derived by the member from the NRAS dwelling during that part of the NRAS year.

**total rent** means:

- (a) if \*NRAS rent was payable for the \*NRAS dwelling in relation to the whole of the \*NRAS year—the rent \*derived from the NRAS dwelling during the NRAS year; or
- (b) if NRAS rent was payable for the NRAS dwelling in relation to only part of the NRAS year—the rent derived from the NRAS dwelling during that part of the NRAS year.

**total tax offsets** means the total of the \*tax offsets to which entities would be entitled under section 380-15 or 380-20 because of \*NRAS rent \*derived:

- (a) from any of the \*NRAS dwellings covered by the \*NRAS certificate; and
- (b) during the \*NRAS year;

that \*flows indirectly to them from the electing member (or would otherwise flow indirectly to them from the electing member, as mentioned in paragraph 380-20(1)(d)).

- (3) The \*tax offset to which the indirect entity would otherwise be entitled under section 380-15 for the income year because of the \*NRAS certificate and the \*NRAS dwelling is reduced by the amount worked out using the following formula:

$$\text{Amount worked out under subsection (2)} \times \frac{\text{Amount of the *tax offset to which the indirect entity would otherwise be entitled under section 380-15}}{\text{Total tax offsets}}$$

where:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*total tax offsets* has the same meaning as in subsection (2).

- (4) Treat the references in subsection (2) to the \*NRAS year as being references to a period that occurs during the NRAS year, if the \*NRAS certificate is apportioned for the period.

*Amount of tax offset—rent that passes through NRAS approved participant*

- (5) For the purposes of the references in the definitions in subsection (2) to rent \*derived from the \*NRAS dwelling during the \*NRAS year, disregard \*NRAS rent derived by a \*member of the \*NRAS consortium from the NRAS dwelling during a period in the NRAS year, to the extent that another member derives rent from the NRAS dwelling during the period because:
- (a) the first member is the \*NRAS approved participant of the NRAS consortium throughout the period; and
  - (b) the first member, in accordance with the contractual \*arrangements that established the NRAS consortium, passes the NRAS rent on to the other member.

Note: There may be more than one NRAS approved participant during an NRAS year. The electing member may be the NRAS approved participant for only part of the NRAS year.

- (6) For the purposes of paragraph (5)(b), treat any \*NRAS rent retained by the first \*member under the \*arrangements as management fees or commission as having been passed on to the other member.

### **380-18 Elections by NRAS approved participants that are partnerships or trustees—special rule for partnerships and trustees**

For the purposes of sections 380-15 and 380-20 to 380-30 (which apply if a partnership or the trustee of a trust derives NRAS rent), for each \*NRAS dwelling:

- (a) from which the electing member \*derived \*NRAS rent during the \*NRAS year; and

Section 380-20

---

- (b) that is covered by the \*NRAS certificate; and
  - (c) from which a partnership or trust that is a \*member of the \*NRAS consortium derived rent during the NRAS year;
- treat the following proportion of the NRAS rent as being NRAS rent derived during the NRAS year by the member mentioned in paragraph (c):

$$\frac{\text{Member's rent}}{\text{Total rent}}$$

where:

*member's rent* has the same meaning as in subsection 380-14B(2).

*total rent* has the same meaning as in subsection 380-14B(2).

**380-20 Trustee of a trust that does not have net income for an income year**

- (1) An entity is entitled to a \*tax offset for an income year (the *offset year*) if:
  - (a) the \*Housing Secretary issues an \*NRAS certificate in relation to an \*NRAS year to a partnership or a trustee of a trust; and
  - (b) the entity is a trustee of a trust; and
  - (c) the trust mentioned in paragraph (b) does not have a \*net income for an income year; and
  - (d) \*NRAS rent \*derived during the NRAS year from an \*NRAS dwelling covered by the NRAS certificate would otherwise \*flow indirectly to the entity in the income year mentioned in paragraph (c) as if:
    - (i) the trust did have a net income for the income year; and
    - (ii) for the purposes of paragraph 380-25(4)(b), the entity has a share amount, being the net income referred to in subparagraph (i) of this paragraph; and
    - (iii) the entity's \*share of the NRAS rent under section 380-30 was a positive amount; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (e) the offset year of the partnership or trustee begins in the NRAS year.
- (2) The amount of the \*tax offset is the amount worked out in accordance with subsection 380-15(2), as if the reference in the formula to the \*NRAS certificate were a reference to the NRAS certificate mentioned in paragraph (1)(a) of this section.
- (3) For the purposes of working out the entity's \*share of \*NRAS rent for an \*NRAS dwelling, assume subparagraphs (1)(d)(i), (ii) and (iii) of this section apply.
- (4) If the trustee of a trust is entitled to a \*tax offset under this section:
  - (a) a beneficiary of the trust; or
  - (b) a subsequent entity to whom \*NRAS rent for an \*NRAS dwelling mentioned in paragraph (1)(d) \*flows indirectly; is not entitled to a tax offset under this Subdivision in relation to the NRAS rent \*derived during the \*NRAS year from for the NRAS dwelling.

### **380-25 When NRAS rent flows indirectly to or through an entity**

- (1) This section sets out the circumstances in which \*NRAS rent:
  - (a) **flows indirectly** to an entity (subsection (2), (3) or (4)); or
  - (b) **flows indirectly** through an entity (subsection (5)).

#### *Partners*

- (2) \*NRAS rent **flows indirectly** to a partner in a partnership in an income year if, and only if:
  - (a) during that income year, the NRAS rent is \*derived by the partnership, or \*flows indirectly to the partnership as a beneficiary because of a previous application of subsection (3); and
  - (b) the partner has an individual interest:
    - (i) in the partnership's \*net income for that income year that is covered by paragraph 92(1)(a) or (b) of the *Income Tax Assessment Act 1936*; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 380-25

---

- (ii) in a \*partnership loss of the partnership for that income year that is covered by paragraph 92(2)(a) or (b) of that Act;  
(whether or not that individual interest becomes assessable income in the hands of the partner); and
- (c) the partner's \*share of the NRAS rent under section 380-30 is a positive amount (whether or not the partner actually receives any of that share).

*Beneficiaries*

- (3) \*NRAS rent **flows indirectly** to a beneficiary of a trust in an income year if, and only if:
  - (a) during that income year, the NRAS rent is \*derived by the trustee of the trust, or \*flows indirectly to the trustee as a partner or beneficiary because of a previous application of subsection (2) or this subsection; and
  - (b) the beneficiary has this amount for that income year (the **share amount**):
    - (i) a share of the trust's \*net income for that income year that is covered by paragraph 97(1)(a) of the *Income Tax Assessment Act 1936*; or
    - (ii) an individual interest in the trust's net income for that income year that is covered by section 98A or 100 of that Act;  
(whether or not the share amount becomes assessable income in the hands of the beneficiary); and
  - (c) the beneficiary's \*share of the NRAS rent under section 380-30 is a positive amount (whether or not the beneficiary actually receives any of that share).

*Trustees*

- (4) \*NRAS rent **flows indirectly** to the trustee of a trust in an income year if, and only if:
  - (a) during that income year, the NRAS rent is \*derived by the trustee, or \*flows indirectly to the trustee as a partner or

beneficiary because of a previous application of subsection (2) or (3); and

- (b) the trustee is liable or, but for another provision in this Act, would be liable, to be assessed in respect of an amount (the **share amount**) that is:
  - (i) a share of the trust's \*net income for that income year under section 98 of the *Income Tax Assessment Act 1936*; or
  - (ii) all or a part of the trust's net income for that income year under section 99 or 99A of that Act;(whether or not the share amount becomes assessable income in the hands of the trustee); and
- (c) the trustee's \*share of the NRAS rent under section 380-30 is a positive amount (whether or not the trustee actually receives any of that share).

Note: A trustee to whom NRAS rent flows indirectly under this subsection is entitled to a tax offset under section 380-15 and the NRAS rent does not flow indirectly through the trustee to another entity.

- (5) \*NRAS rent **flows indirectly** through an entity (the **first entity**) to another entity if, and only if:
  - (a) the other entity is the focal entity in an item of the table in section 380-30 in relation to the NRAS rent; and
  - (b) that focal entity's \*share of the NRAS rent is based on the first entity's share of the NRAS rent as an intermediary entity in that or another item of the table.

### **380-30 Share of NRAS rent**

#### *Object of section*

- (1) The object of this section is to ensure that:
  - (a) \*NRAS rent derived by a partnership or the trustee of a trust is allocated notionally amongst entities who \*derive benefits from that NRAS rent; and
  - (b) that allocation corresponds with the way in which those benefits were derived.

- (2) An entity's *share* of \*NRAS rent is an amount notionally allocated to the entity as its share of the NRAS rent, whether or not the entity actually receives any of that NRAS rent.
- (3) That amount is equal to the entity's *share* of the \*NRAS rent as the focal entity in column 3 of an item of the table.

Note: An entity's share of the NRAS rent is based on the share of the NRAS rent of each preceding intermediary entity through which the NRAS rent flows, starting from the intermediary entity to whom the NRAS rent is paid.

This means that in some cases (see items 2 and 4 of the table), more than one item of the table will need to be applied to work out the share of the NRAS rent of an ultimate recipient of the NRAS rent.

#### **385-90 What this Subdivision is about**

The excluded profit is then brought into your assessable income over a 5 year period in one of 2 ways.

385-95 Basic principles for elections under this Subdivision

#### **Operative provisions**

385-100 Cases where you can make an election

**Section 385-95**

---

- 385-105 Election to spread tax profit over 5 years
- 385-110 Alternative election to defer tax profit and reduce cost of replacement live stock
- 385-115 Your assessable income includes an amount for replacement live stock you breed
- 385-120 Purchase price of replacement live stock is reduced
- 385-125 Alternative election because of bovine tuberculosis has effect over 10 years not 5

**385-95 Basic principles for elections under this Subdivision**

(1) You can elect:

- to spread the profit on the disposal or death over the income year of the disposal or death and the next 4 income years (*election to spread*); or
- to defer including the profit in your assessable income, if you will use the proceeds of the disposal or death mainly to replace the live stock (*election to defer*).

(2) If you make an election to defer, the profit is “used” over the next 5 income years:

- by reducing the amount for which you are taken to have bought replacement stock (as a result, your tax profit on the disposal of the replacement stock is increased); and
- by including in your assessable income amounts for replacement stock that you breed.

Any unused part of the profit is included in your assessable income for the fifth income year.

**Operative provisions**

**385-100 Cases where you can make an election**

(1) You can make an election if:

- (a) you dispose of \*live stock, or they die, because:

---

- (i) land is compulsorily acquired or resumed under an Act;

  - (ii) a State or Territory leases land for a cattle tick eradication campaign; or
  - (iii) pasture or fodder is destroyed by fire, drought or flood and you will use the \*proceeds of the disposal or death mainly to buy replacement stock or to maintain breeding stock for the purpose of replacing the live stock; or
  - (iv) they are compulsorily destroyed under an \*Australian law for the control of a \*disease or they die of such a \*disease; or
  - (v) you receive an official notification under an \*Australian law dealing with contamination of property; and
- (b) you held the live stock as assets of a \*primary production business you carry on in Australia; and
- (c) apart from this Subdivision, your assessable income for any income year would include the \*proceeds of the disposal or death.

(2) The *proceeds of the disposal or death* are:

- (a) if you dispose of the \*live stock or their carcasses in the ordinary course of \*business—the total of:
  - (i) any amount you receive as payment for the live stock or carcasses; and
  - (ii) any compensation you receive for the death or destruction, or a reduction in \*market value, of the live stock or their carcasses from an \*Australian government agency; or
- (b) if you dispose of the \*live stock or their carcasses outside the ordinary course of \*business—the total of:
  - (i) the market value of the live stock or their carcasses, at the time of disposal; and
  - (ii) any compensation you receive for the death or destruction, or a reduction in market value, of the live stock or their carcasses from an \*Australian government agency; or

Section 385-105

- (c) if the \*live stock die, and you do not dispose of their carcasses to someone else—any compensation you receive for their death or destruction from an \*Australian government agency.

**385-105 Election to spread tax profit over 5 years**

- (1) You can elect:
  - (a) to include in your assessable income for the \*disposal year the \*proceeds of the disposal or death, reduced by the \*tax profit on the disposal or death; and
  - (b) to include 20% of the tax profit on the disposal or death in your assessable income for the disposal year; and
  - (c) to include 20% of the tax profit on the disposal or death in your assessable income for each of the next 4 income years.

For rules about the making and effect of an election, see Subdivision 385-H.

- (2) The **disposal year** is the income year in which you dispose of the \*live stock, or they die, as mentioned in subsection 385-100(1).
- (3) The **tax profit on the disposal or death** is any amount remaining after subtracting from the \*proceeds of the disposal or death the sum of:
  - (a) the amount paid or payable for the purchase of as many of the \*live stock as you purchased during the income year; and
  - (b) the \*value of the rest of the live stock as \*trading stock on hand at the start of the income year.

**385-110 Alternative election to defer tax profit and reduce cost of replacement live stock**

- (1) Alternatively, you can elect:
  - (a) to include in your assessable income for the \*disposal year the \*proceeds of the disposal or death, reduced by the \*tax profit on the disposal or death; and
  - (b) to reduce the cost of replacement \*live stock you buy in the disposal year (or any of the next 5 income years) by amounts

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

totalling not more than the tax profit on the disposal or death;  
and

- (c) to include in your assessable income for the last of the 5 income years following the disposal year any \*unused tax profit on the disposal or death on the last day of that year.

Note: If the election is made because of bovine tuberculosis, it has effect over 10 income years instead of 5: see section 385-125.

For rules about the making and effect of an election, see Subdivision 385-H

- (2) However, you can only make this election if you will use the \*proceeds of the disposal or death mainly to buy replacement \*live stock, or to maintain breeding stock for the purpose of replacing the live stock that were disposed of or died.
- (3) The **unused tax profit on the disposal or death** is the \*tax profit on the disposal or death less the total of:
- (a) the amounts included in your assessable income under section 385-115 for replacement animals you breed; and
  - (b) the amounts by which the amount paid or payable for the purchase of replacement animals is reduced under section 385-120.

### **385-115 Your assessable income includes an amount for replacement live stock you breed**

If you make the election in section 385-110, then for the \*disposal year and each of the next 5 income years, your assessable income includes any amount you choose for each replacement animal you breed during that income year. (However, you can choose not to include an amount.)

### **385-120 Purchase price of replacement live stock is reduced**

- (1) If you make the election in section 385-110, then the amount paid or payable for the purchase of each replacement animal you buy in the \*disposal year, or in the next 5 income years, is treated as if it were reduced by the \*reduction amount.

Section 385-125

---

*Meaning of reduction amount*

- (2) The **reduction amount** is:
- so much of the \*tax profit on the disposal or death as is attributable to live stock of the species you are replacing;
- divided by:
- the number of animals of that species that you disposed of or that died.
- (3) However, if:
- (a) you purchase a replacement animal of a different species from the \*live stock it replaces; and
  - (b) you pay substantially more for it than you could have paid for a replacement animal of the same species;
- the **reduction amount** for the animal is any reasonable amount at least equal to the amount worked out under subsection (2).

*Exception to avoid reducing unused tax profit to less than nil*

- (4) However, if applying subsection (1) to a particular purchase would reduce the \*unused tax profit on the disposal or death to less than nil, instead reduce the amount paid or payable for the purchase of each replacement animal in that purchase by:
- the \*unused tax profit on the disposal or death;
- divided by:
- the number of animals in the purchase.

**385-125 Alternative election because of bovine tuberculosis has effect over 10 years not 5**

If you can make an election under this Subdivision because:

- (a) \*live stock are compulsorily destroyed under an \*Australian law for the control of bovine tuberculosis; or
- (b) \*live stock die of that \*disease;

385-130 Insurance for loss of live stock or trees

### **385-130 Insurance for loss of live stock or trees**

If your assessable income for an income year would otherwise include an insurance recovery for a loss of \*live stock, or for a loss by fire of trees, that you hold as assets of a \*primary production business you carry on in Australia, you can elect:

- (a) to include only 20% of the insurance recovery in your assessable income for that income year; and
- (b) to include 20% of the insurance recovery in your assessable income for each of the next 4 income years.

For rules about the making and effect of an election, see Subdivision 385-H.

### **385-135 Election to defer including profit on second wool clip**

- (1) If your assessable income for an income year would otherwise include the \*proceeds of the sale of 2 wool clips because fire, drought or flood causes you to shear your sheep earlier than normal, you can elect to include in your assessable income for the *next* income year the \*profit on the sale of the earlier than normal wool clip.

For rules about the making and effect of an election, see Subdivision 385-H.

- (2) However, at the time the wool was shorn, the sheep must have been assets of a \*primary production business you carried on in Australia. Also, the fire, drought or flood must have been in an area of Australia where you carried on that business at that time.
- (3) The *proceeds of the sale of 2 wool clips* are:
- (a) the proceeds of the sale of the earlier than normal wool clip; and
  - (b) an amount covered by one or more of the following:
    - (i) proceeds of the sale of another wool clip in the income year;
    - (ii) proceeds of the sale of wool shorn in the previous income year that you hold at the start of the income year and that you took into account at cost in working out the \*value of your \*trading stock under Division 60 at the end of the previous income year;
    - (iii) an amount for wool shorn in the previous income year that is included in your assessable income of the income year because of a previous election under this section.
- (4) The *profit on the sale of the earlier than normal wool clip* is the proceeds of the sale of the wool clip that would otherwise be included in your assessable income for the income year, less the expenses you incur in the income year that are directly attributable to the earlier shearing and sale.

### **385-145 Partnerships and trusts**

If a partnership or trustee carries on a \*primary production business, only the partnership or trustee can make an election under Subdivision 385-E, 385-F or 385-G.

### **385-150 Time for making election**

You can only make an election under Subdivision 385-E, 385-F or 385-G before you lodge your \*income tax return for the last income year for which your assessable income would (apart from the election) include any of:

- (a) the \*proceeds of the disposal or death of \*live stock; or
- (b) the insurance recovery for the loss of \*live stock or trees; or
- (c) the \*proceeds of the sale of the 2 wool clips.

The Commissioner may allow you further time to make the election.

### **385-155 Amounts are assessable income from carrying on the primary production business**

The following are taken to be assessable income from carrying on a \*primary production business in Australia:

- (a) an amount included in your assessable income because of an election under Subdivision 385-E, 385-F or 385-G; or

### **385-160 Effect of certain events on election**

- (1) You cannot make an election under Subdivision 385-E, 385-F or 385-G after a \*disentitling event happens.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 385-163

- (2) If a \*disentitling event happens *after* you make an election under Subdivision 385-E, 385-F or 385-G, your assessable income for the income year in which the event happens includes:
- (a) the \*proceeds of the disposal or death of \*live stock; or
  - (b) the insurance recovery for the loss of \*live stock or trees; or
  - (c) the \*proceeds of the sale of 2 wool clips;
- reduced by each amount that, because of the election, is included in your assessable income for that or an earlier income year.
- (3) However, if a \*disentitling event happens *after* you make an election under section 385-110 (Alternative election to defer tax profit and reduce cost of replacement live stock), your assessable income for the income year in which the event happens includes any \*unused tax profit on the disposal or death on the last day of that income year.

**385-163 Disentitling events**

- (1) A ***disentitling event*** happens when:
- (a) you die; or
  - (b) you become bankrupt, insolvent, commence to be wound up, apply to take the benefit of a law for the relief of bankrupt or insolvent debtors, compound with creditors, or make an assignment of any property for the benefit of creditors; or

  - (b) a partner leaves Australia permanently, or it appears to the Commissioner that a partner is about to do so; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) the partnership ceases to carry on the \*primary production business to which the election relates; or
  - (d) there is a variation in the constitution of the partnership or the interests of the partners.
- (3) In the case of a trust, a **disentitling event** happens when:
- (b) an order for the administration of the trust estate is made under a law relating to bankruptcy; or
  - (c) a beneficiary becomes bankrupt, insolvent, commences to be wound up, applies to take the benefit of a law for the relief of bankrupt or insolvent debtors, compounds with creditors, or makes an assignment of any property for the benefit of creditors; or
  - (d) the trustee or a beneficiary leaves Australia permanently, or it appears to the Commissioner that the trustee or a beneficiary is about to do so; or
  - (e) the trustee ceases to carry on the \*primary production business to which the election relates.
- (4) However, in the case of a trust, a **disentitling event** does not happen if:
- (a) either:
    - (i) the disentitling event is covered by paragraph 3(c); or
    - (ii) the disentitling event is covered by paragraph 3(d) and a beneficiary leaves Australia permanently, or it appears to the Commissioner that a beneficiary is about to do so; and

- (6) A determination made under subsection (5) must be made in writing.
- (7) The Commissioner must give the trustee of the trust a copy of the determination.

**385-165 New partnership can elect to be treated as same entity as old partnership**

- (1) Under Subdivision 385-E, 385-F or 385-G a new partnership can elect to be treated as a continuation of an old partnership that would otherwise cease to exist if:
  - (a) it immediately takes over the relevant \*primary production business of the old partnership; and
  - (b) partners, together entitled to at least 25% of the income of the new partnership, were also partners in the old partnership.
- (2) The new partnership must make this election before it lodges its \*income tax return for the income year in which it takes over the \*business.

**385-170 New partnership can elect to take advantage of election made by former owner of the business**

- (1) If an entity (except a partnership):
  - (a) has made an election under Subdivision 385-E, 385-F or 385-G; and
  - (b) transfers the relevant \*primary production business to a partnership; and
  - (c) is entitled to at least 25% of the income of that partnership; the partnership may elect to apply the Subdivision under which the entity made the election to all future events as if it were that entity.

## **Division 392—Long-term averaging of primary producers' tax liability**

### **Table of Subdivisions**

- Guide to Division 392
- 392-A Is your income tax affected by averaging?
- 392-B What kind of averaging adjustment must you make?
- 392-C How big is your averaging adjustment?
- 392-D Effect of permanent reduction of your basic taxable income

### **Guide to Division 392**

#### **392-1 What this Division is about**

If you are a primary producer for 2 or more years in a row, this Division evens out your income tax liability from year to year. (It does so by reducing the effect that fluctuations in your taxable income have on the marginal rates of tax that apply to you from year to year.)

### **Table of sections**

- 392-5 Overview of averaging process

#### **392-5 Overview of averaging process**

##### *How averaging adjustments work*

- (1) This Division reduces or increases your income tax liability to bring it closer to what it would have been if worked out using a special rate of income tax. That rate (the comparison rate) is based on the income tax that you would pay for the current year on the average of your taxable income for up to the last 5 income years.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Chapter 3** Specialist liability rules

**Part 3-45** Rules for particular industries and occupations

**Division 392** Long-term averaging of primary producers' tax liability

**Section 392-5**

---

Example: The graph shows how averaging taxable income reduces the effect of variations in taxable income (giving a fairly steady comparison rate from year to year).

**Basic taxable income and average income**

*Tax offset as averaging adjustment*

- (2) You may be entitled to a tax offset if the income tax you would pay on your basic taxable income for the current year at the comparison rate is *less* than the income tax you would pay on that income (apart from this Division and certain other provisions).

See the examples of years 5, 6, 7 and 9 in the graph in subsection (4).

*Extra income tax as averaging adjustment*

- (3) You may be liable to extra income tax on some or all of your basic taxable income for the current year if the income tax you would pay on your basic taxable income for the current year at the comparison rate is *more* than the income tax on that income (apart from this Division and certain other provisions).

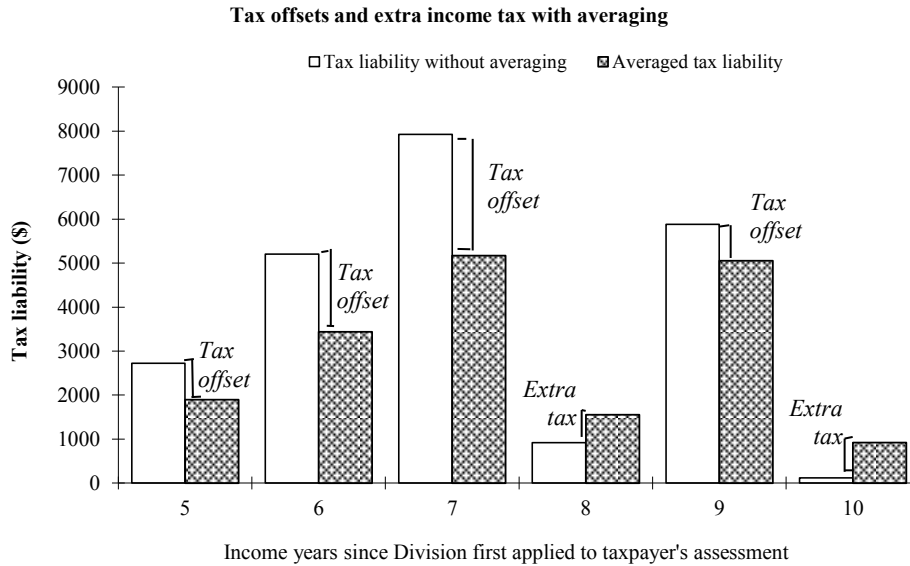

See the examples of years 8 and 10 in the graph in subsection (4).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Example of the effect of averaging*

- (4) The graph shows an example of the effect of averaging, using the same income figures as the graph in the example in subsection (1).

Note: The example assumes that all the basic taxable income was from a primary production business.

*Effect of non-primary production income on averaging adjustment*

- (5) Your income from sources other than your primary production business may affect the adjustment of your income tax. If more than \$5,000 of your basic taxable income is attributable to those sources, your averaging adjustment will be reduced to reflect the proportion of your basic taxable income attributable to primary production. (There are special shading-out arrangements if your taxable income from other sources is between \$5,000 and \$10,000.)

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 392-10

---

*No adjustment in certain cases*

- (6) Your income tax will not be adjusted under this Division in certain cases. In particular, you can choose not to have your income tax adjusted under this Division for 10 income years.

**Subdivision 392-A—Is your income tax affected by averaging?**

**Table of sections**

392-10	Individuals who carry on a primary production business
392-15	Meaning of <i>basic taxable income</i>
392-20	Trust beneficiaries taken to be carrying on primary production business
392-22	Trustee may choose that a beneficiary is a chosen beneficiary of the trust
392-25	Choosing not to have your income tax averaged

**392-10 Individuals who carry on a primary production business**

- (1) This Division applies to your assessment for the \*current year if:
- (a) you are an individual; and
  - (b) you have carried on a \*primary production business in Australia for 2 or more income years in a row (the last of which is the current year); and
  - (c) for at least one of those income years your \*basic taxable income is less than or equal to your basic taxable income for the next of those income years.

Note 1: It follows that this Division does *not* apply if your basic taxable income has decreased every income year since you started carrying on a primary production business.

Note 2: In working out whether this Division applies to your assessment for an income year, you may need to take account of income years before the 1998-99 income year: see section 392-1 of the *Income Tax (Transitional Provisions) Act 1997*.

*Continued application of this Division after you stop carrying on a primary production business*

- (2) This Division also applies to your assessment for the \*current year if:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) this Division applied to your assessment for an earlier income year during which you carried on a \*primary production business in Australia; and
- (b) you do not carry on that business during the current year; and
- (c) at least one of the following conditions is met for each income year (including the current year) after the income year in which you stopped carrying on that business:
  - (i) your assessable income for the income year included assessable income that was \*derived from, or resulted from, your having carried on that business;
  - (ii) you carried on a \*primary production business in Australia during the income year.

Note: In working out whether this Division applies to your assessment for an income year, you may need to take account of income years before the 1998-99 income year. See section 392-1 of the *Income Tax (Transitional Provisions) Act 1997*.

- (3) This section applies as if you did not carry on a \*primary production business during a particular income year if, because you made a choice under section 392-25, this Division did not apply to your assessment for that income year.

Note: A choice that you make under section 392-25 has the effect that this Division does not apply to your assessments for 10 income years. None of these income years can be taken into account in applying this section after the 10 year opt-out period.

### **392-15 Meaning of *basic taxable income***

- (1) Work out your ***basic taxable income*** for an income year as follows:

*Method statement*

Step 1. Work out what would have been your taxable income for the income year if your assessable income for the income year:

Section 392-20

---

- (a) had *not* included any amount under section 82-65, 82-70 or 302-145 of the *Income Tax Assessment Act 1997* (certain superannuation benefits and employment termination payments); and

Note: This means that certain deductions will also be excluded.

- (b) had *not* included any \*net capital gain for the income year.

Step 2. Subtract from the Step 1 amount any \*above-average special professional income included in your taxable income for the income year under Division 405.

- (2) However, your **basic taxable income** for an income year is nil if:
- (a) you do not have a taxable income for the income year; or
  - (b) the amount worked out under subsection (1) for the income year is *less* than nil.

**392-20 Trust beneficiaries taken to be carrying on primary production business**

- (1) You are taken to carry on a \*primary production business carried on by a trust during an income year if you satisfy the requirements in subsection (2), (3) or (4).

*Primary production business carried on by a trust with beneficiary presently entitled to income of the trust*

- (2) You satisfy the requirements in this subsection if:
- (a) you are a beneficiary of the trust referred to in subsection (1); and
  - (b) you are presently entitled to a share of the income of the trust for the income year; and
  - (c) if you are presently entitled to less than \$1,040 of the income of the trust for the income year—the Commissioner is satisfied that your interest in the trust was not acquired or

- (a) you are a beneficiary of the trust referred to in subsection (1); and

  - (c) the trust does not have any income of the trust for the income year to which a beneficiary of the trust could be presently entitled; and
  - (d) if the trust had income of the trust for the income year, you would have been presently entitled to a share of the income of the trust.

*Primary production business carried on by a non-fixed trust with no income of the trust*

- (4) You satisfy the requirements in this subsection if you do not satisfy the requirements in subsection (3) and you are a chosen beneficiary of the trust referred to in subsection (1) for the purposes of section 392-22 for the income year.

*Public trading trusts*

- (5) You are not taken to carry on a \*primary production business carried on by the trustee of a public trading trust (as defined in section 102R of the *Income Tax Assessment Act 1936*, which deals with public trading trusts).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 392-22

---

**392-22 Trustee may choose that a beneficiary is a chosen beneficiary of the trust**

- (1) The trustee of a trust may choose that a beneficiary of the trust is a chosen beneficiary of the trust for an income year if the trust does not have income of the trust for the income year to which a beneficiary of the trust could be presently entitled.
- (2) The maximum number of choices that the trustee may make in respect of the trust for an income year is the higher of:
  - (a) the number of individuals that were taken to be carrying on a \*primary production business carried on by the trust under subsection 392-20(1) in the income year immediately before the current income year; and
  - (b) 12.
- (3) A choice made under subsection (1) must be:
  - (a) in writing; and
  - (b) signed by the trustee and the person chosen.
- (4) The trustee can make the choice no later than the time it lodges the trust's \*income tax return for the income year to which the choice relates. However, the Commissioner can allow the trustee to make a choice at a later time.
- (5) A choice cannot be revoked or varied.

**392-25 Choosing not to have your income tax averaged**

- (1) You can choose that this Division (except this section) not apply to your assessment for an income year. If you make this choice, this Division (except this section) does not apply to your assessment for the income year or any of the next 9 income years.
  - (1A) Your choice must not cover any income year that a previous choice of yours has already covered.
  - (2) You must make your choice in writing and give it to the Commissioner by the time you lodge your \*income tax return for

the income year to which your choice relates. However, the Commissioner may allow you to give the choice later.

- (3) Your choice cannot be revoked after it is given to the Commissioner.

$\frac{\text{*Basic taxable income for *current year}}{\text{*Comparison rate}}$

- (b) the amount of income tax that you would pay on your \*basic taxable income for the \*current year at \*basic rates.

Note: You must disregard some provisions of this Act in working out amounts of income tax for the purposes of this subsection: see subsection (5).

*Tax offset*

- (2) You are entitled to a \*tax offset equal to the \*averaging adjustment worked out under Subdivision 392-C if the income tax you would pay at the comparison rate is *less* than the amount of income tax you would pay at \*basic rates.

*Extra income tax*

- (3) You must pay extra income tax on the \*averaging component of your \*basic taxable income if the income tax you would pay at the comparison rate is *more* than the amount of income tax you would pay at \*basic rates.

Note 1: Section 12A of the *Income Tax Rates Act 1986* sets the rate at which you must pay extra income tax on the averaging component of your basic taxable income.

Note 2: It does so in such a way that, generally, the extra income tax you must pay equals the averaging adjustment worked out under Subdivision 392-C.

*Meaning of basic rates*

- (4) The **basic rates** at which you would pay income tax are:
- (a) if you are a resident taxpayer as defined in the *Income Tax Rates Act 1986*—the rates of income tax in paragraph (1)(b) of Part I of Schedule 7 to that Act, taking into account the way it would apply with any changes to your tax-free threshold under section 20 of that Act; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) if you are a non-resident taxpayer as defined in the *Income Tax Rates Act 1986*—the rates of income tax in paragraph 1(b) of Part II of Schedule 7 to that Act.

*Disregard certain provisions in working out amounts*

- (5) Work out the amount of income tax mentioned in paragraph (1)(b) as if:
- (a) the following provisions did not apply:
- (i) this Division;
  - (ii) section 94 (Partner not having control and disposal of share in partnership income) of the *Income Tax Assessment Act 1936*;
  - (iii) Division 6AA (Income of certain children) of Part III of the *Income Tax Assessment Act 1936*;
  - (iv) Part VIIB (Medicare levy) of the *Income Tax Assessment Act 1936*; and
- (b) you were not entitled to any rebate or credit under the *Income Tax Assessment Act 1936* or to any \*tax offset under this Act.

*No adjustment*

- (6) This Division does not affect your income tax for the \*current year if the income tax you would pay at the \*comparison rate equals the amount of income tax you would pay at \*basic rates.

Note: The 2 amounts will be equal if:

- your basic taxable income and your average income are both below the tax-free threshold; or
- your average income equals your basic taxable income for the current year.

Section 392-40

## How to work out the comparison rate

### 392-40 Identify income years for averaging your basic taxable income

The income years over which you must average your \*basic taxable income are:

- (a) if this Division has applied to your assessment for at least 4 income years in a row (including the \*current year)—the current year and the 4 previous income years; or
- (b) if this Division has applied to your assessment for less than 4 income years in a row (including the \*current year)—those income years and the last income year before them.

Note: You may need to average your basic taxable income for one or more income years before the 1998-99 income year. See section 392-1 of the *Income Tax (Transitional Provisions) Act 1997*.

### 392-45 Work out your average income for those years

- (1) Work out your *average income* in this way:

*Method statement*

- Step 1. Add up your \*basic taxable income for each of the income years over which you must average your basic taxable income.
- Step 2. Divide the sum by the number of those income years.
- Step 3. Round the result down to the nearest whole dollar if the result is not already a number of whole dollars.

- (2) Your *basic assessable income* for an income year is your assessable income for the income year, less:
- (a) any amount included in your assessable income section 82-65, 82-70 or 302-145 of the *Income Tax Assessment Act 1997* (certain employment termination payments and superannuation benefits); and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) any \*net capital gain included in your assessable income under Division 102 of the *Income Tax Assessment Act 1997*.

**392-50 Work out the income tax on your average income at basic rates**

Work out the amount of income tax that you would pay on your \*average income for the \*current year at \*basic rates.

**392-55 Work out the comparison rate**

Work out the *comparison rate* using the formula:

$$\frac{\text{Income tax on *average income, as worked out under section 392-50}}{\text{*Average income}}$$

**Subdivision 392-C—How big is your averaging adjustment?**

**Guide to Subdivision 392-C**

**392-60 What this Subdivision is about**

This Subdivision explains how to work out the amount of the averaging adjustment of your income tax for the current year (whether it is a tax offset or is used by the *Income Tax Rates Act 1986* to set the rate at which you must pay extra income tax).

**How to work out your averaging component**

392-80 Work out your taxable primary production income

392-85 Work out your taxable non-primary production income

392-90 Work out your averaging component

**392-65 What your averaging adjustment reflects**

- (1) Your averaging adjustment is a proportion of your gross averaging amount, taking account of:
- (a) your taxable primary production income (the part of your basic taxable income from your primary production business); and
  - (b) your taxable non-primary production income (the part of your basic taxable income from other sources).

Your averaging component is the means of taking into account the different parts of your basic taxable income in working out your averaging adjustment.

- (2) If your taxable non-primary production income is less than or equal to \$5,000, your averaging component equals the whole of your basic taxable income. (In other words, your averaging component includes all of your taxable primary production income and all of your taxable non-primary production income.)
- (3) If your taxable non-primary production income is between \$5,000 and \$10,000, a shading-out system applies so that your averaging component includes some of your taxable non-primary production income as well as all of your taxable primary production income.
- (4) If your taxable non-primary production income is \$10,000 or more, your averaging component equals your taxable primary production income. Your averaging component does not include any of your taxable non-primary production income.
- (5) The following diagram shows examples of these relationships.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

The second and third columns show that as taxable non-primary production income increases above \$5,000 (up to a maximum of \$10,000), less of it is counted in the averaging component.

## Your gross averaging amount

### 392-70 Working out your gross averaging amount

Your *gross averaging amount* is the amount of the difference between the following amounts worked out under section 392-35:

- (a) the income tax you would pay at the comparison rate;
- (b) the amount of income tax that you would pay on your \*basic taxable income for the \*current year at \*basic rates.

## Your averaging adjustment

### 392-75 Working out your averaging adjustment

Work out your *averaging adjustment* for the \*current year using the formula:

$$\text{*Gross averaging amount} \times \frac{\text{*Averaging component}}{\text{*Basic taxable income}}$$

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 392-80

---

## How to work out your averaging component

### 392-80 Work out your taxable primary production income

- (1) Work out your **taxable primary production income** for the \*current year in this way:

*Method statement*

- Step 1. Compare your \*assessable primary production income for the \*current year with your \*primary production deductions for the current year.
- Step 2. If your assessable primary production income is larger than your primary production deductions, your **taxable primary production income** is the difference between them.
- Step 3. If your primary production deductions are larger than (or equal to) your assessable primary production income, your **taxable primary production income** is nil.

*Assessable primary production income*

- (2) Your **assessable primary production income** for the \*current year is the amount of your \*basic assessable income for the current year that was \*derived from, or resulted from, your carrying on a \*primary production business.

*Primary production deductions*

- (3) Your **primary production deductions** for the \*current year are:
- (a) all amounts you can deduct that relate exclusively to your \*assessable primary production income for the current year; and
  - (b) so much of any other amounts you can deduct (other than \*apportionable deductions) to the extent that they reasonably

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

relate to your assessable primary production income for the current year.

### **392-85 Work out your taxable non-primary production income**

- (1) Work out your **taxable non-primary production income** for the \*current year in this way:

*Method statement*

- Step 1. Compare your \*assessable non-primary production income for the \*current year with your \*non-primary production deductions for the current year.
- Step 2. If your assessable non-primary production income is larger than your non-primary production deductions, your **taxable non-primary production income** is the difference between them.
- Step 3. If your non-primary production deductions are larger than (or equal to) your assessable non-primary production income, your **taxable non-primary production income** is nil.

*Assessable non-primary production income*

- (2) Your **assessable non-primary production income** for the \*current year is the difference between:
- (a) your \*basic assessable income for the current year; and
  - (b) your \*assessable primary production income for the current year.

*Non-primary production deductions*

- (3) Your **non-primary production deductions** for the \*current year are the difference between:
- (a) the sum of your deductions for the current year; and
  - (b) your \*primary production deductions for the current year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 392-90

**392-90 Work out your averaging component**

- (1) Work out your *averaging component* for the \*current year using the following table, taking into account:
- (a) your \*taxable primary production income for the current year; and
  - (b) your \*taxable non-primary production income for the current year.

<b>Averaging component</b>			
<b>Item</b>	<b>If *taxable non-primary production income:</b>	<b>The averaging component equals:</b>	
		<b>for *taxable primary production income &gt; 0</b>	<b>for *taxable primary production income = 0</b>
1	is nil	*Basic taxable income	Nil
2	is more than nil but does not exceed \$5,000	*Basic taxable income	*Basic taxable income
3	exceeds \$5,000 but does not exceed \$10,000	*Taxable primary production income plus *non-primary production shade-out amount	*Non-primary production shade-out amount
4	is \$10,000 or more	*Taxable primary production income	Nil

Note: Subsections (2) and (3) explain how to work out your non-primary production shade-out amount if your taxable non-primary production income is between \$5,000 and \$10,000.

*Non-primary production shade-out amount if your taxable primary production income is more than nil*

- (2) If your \*taxable primary production income is more than nil, your *non-primary production shade-out amount* is the amount worked out using the formula:

$$\$10,000 - \text{Taxable non-PP income}$$

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Non-primary production shade-out amount if your taxable primary production income is nil*

- (3) If your \*taxable primary production income is nil, your **non-primary production shade-out amount** is the amount worked out using the formula:

$$\$10,000 - \frac{\text{Taxable non-PP income}}{\text{Taxable non-PP income}} - \left( \text{PP deductions} - \text{Assessable PP income} \right)$$

However, if that amount is less than nil, your **non-primary production shade-out amount** is nil.

- (4) In this section:

**Assessable PP income** means your \*assessable primary production income for the \*current year.

**PP deductions** means your \*primary production deductions for the \*current year.

**Taxable non-PP income** your \*taxable non-primary production income for the \*current year.

### **Subdivision 392-D—Effect of permanent reduction of your basic taxable income**

#### **Table of sections**

392-95 You are treated as if you had not carried on business before

#### **392-95 You are treated as if you had not carried on business before**

*Choosing to discontinue and restart averaging*

- (1) You can choose that this Division not affect your \*income tax liability for an income year (the **reduction year**) if you show the Commissioner that, because of retirement from your occupation or from any other cause, your \*basic taxable income for the reduction

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 392-95

---

year is permanently reduced during that year to less than two thirds of your \*average income for that year.

- (1A) You must make the choice by notifying the Commissioner in writing by the day you lodge your \*income tax return for the reduction year. However, the Commissioner can allow you to make it later.
- (1B) If you make a choice under subsection (1), this Division applies to assessments for later income years as if you had never carried on a \*primary production business before the reduction year.

*Working out the extent of the permanent reduction*

- (2) In working out the extent of the permanent reduction, you must work out your \*average income for the reduction year on the basis that your \*basic assessable income for an income year taken into account in working out your average income did *not* include any assessable income from sources from which you do not usually receive assessable income.
- (3) In working out the extent of the permanent reduction, disregard a reduction in \*basic taxable income to the extent that it results from a change of assets from which assessable income was \*derived into assets from which you derive income that is not assessable income.

## **Division 393—Farm management deposits**

### **Table of Subdivisions**

Guide to Division 393

- 393-A Tax consequences of farm management deposits
- 393-B Meaning of farm management deposit and owner
- 393-C Special rules relating to financial claims scheme for account-holders with insolvent ADIs

### **Guide to Division 393**

#### **393-1 What this Division is about**

You can deduct a farm management deposit you make, if:

- (a) you are an individual carrying on a primary production business (including a primary production business you carry on as a partner in a partnership or as a beneficiary of a trust); and
- (b) you hold the deposit for at least 12 months; and
- (c) you meet some other tests.

The amount of the deposit withdrawn is included in your assessable income in the income year in which it is repaid. Special rules apply if the deposit is repaid in the event of a severe drought or an applicable natural disaster.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 393-5

---

Farm management deposits allow you to carry over income from years of good cash flow and to draw down on that income in years when you need the cash. This enables you to defer the income tax on your taxable primary production income from the income year in which you make the deposit until the income year in which the deposit is repaid.

Note: An FMD provider must, every calendar month, give certain information to the Agriculture Secretary about farm management deposits: see section 398-5 in Schedule 1 to the *Taxation Administration Act 1953*.

**Subdivision 393-A—Tax consequences of farm management deposits**

**Table of sections**

393-5	Deduction for making farm management deposit
393-10	Assessability on repayment of deposit
393-15	Transactions to which the deduction, assessment and 12 month rules have modified application
393-16	Consolidation of farm management deposits
393-17	Tax consequences of liabilities reducing because of farm management deposits

**393-5 Deduction for making farm management deposit**

*Entitlement to deduction*

- (1) You can deduct the amount of a \*farm management deposit for an income year if:
- (a) you are the \*owner of the deposit; and
  - (b) the deposit is made at a time during the year when you are an individual carrying on a \*primary production business in Australia; and
  - (c) if during the year, at a time after the deposit was made, you stopped carrying on a primary production business in Australia—you started carrying on such a business again within 120 days (whether or not during the year); and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (d) your \*taxable non-primary production income for the year is not more than \$100,000; and
- (e) you do not die or become bankrupt during the year.

Note 1: This section does not apply if a deposit is reinvested, the term of a deposit is extended, or a deposit is transferred at the depositor's request: see sections 393-15 and 393-16.

Note 2: This Division applies to certain partners and beneficiaries as if they were individuals who carried on a primary production business: see subsections 393-25(2), (3), (4), (5) and (6).

*Sum of deductions not to exceed taxable primary production income*

- (2) The sum of the deductions that you would otherwise be entitled to under this section for \*farm management deposits made in the income year must *not* exceed your \*taxable primary production income for the income year.

*Amounts to be deducted in order of deposits*

- (3) If you are entitled to deduct amounts in respect of 2 or more deposits, deduct the amounts in the order in which the deposits were made (until you reach the limit imposed by subsection (2)).

### **393-10 Assessability on repayment of deposit**

*Amount assessable*

- (1) Your assessable income for an income year includes the amount worked out using the following formula, if:
  - (a) you are the \*owner of a \*farm management deposit; and
  - (b) the deposit is repaid in full or in part in the year; and
  - (c) the amount worked out using the formula is greater than nil:

*Unrecouped FMD deduction in respect of the deposit just before the repayment	—	Amount (if any) of the deposit that remains just after the repayment
---	---	--

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 393-10**

---

Note 1: This subsection does not apply if the deposit is reinvested, the term of the deposit is extended, or the deposit is transferred at the depositor's request: see sections 393-15 and 393-16.

Note 2: In a case where not all of the deposit is deductible under section 393-5, repayment of the non-deductible amount can take place without the amount being assessable. Once that amount is repaid, the remainder is assessable when it is repaid, so that the deduction is recouped.

Example: Matt makes a farm management deposit of \$120,000 on 1 April 2011. His taxable primary production income for the 2010—11 income year is \$50,000; therefore, the deposit is only partly deductible in the year because it exceeds his taxable primary production income. Matt makes the following withdrawals from the deposit: \$45,000 on 1 May 2013, \$40,000 on 1 March 2014 and \$35,000 on 1 September 2015.

The unrecouped FMD deduction immediately before the first repayment of \$45,000 is \$50,000. No amount is included in his assessable income for the 2012-2013 income year because the difference between the unrecouped FMD deduction (\$50,000) and the amount of the deposit remaining after the repayment (\$75,000) is less than nil.

The unrecouped FMD deduction immediately before the second repayment of \$40,000 is \$50,000. \$15,000 is included in Matt's assessable income for the 2013-2014 income year because the difference between the unrecouped FMD deduction (\$50,000) and the amount of the deposit remaining after the second repayment (\$35,000) is \$15,000, which is greater than nil.

The unrecouped FMD deduction immediately before the third repayment of \$35,000 is \$35,000; that is, \$50,000 less \$15,000. \$35,000 is included in Matt's assessable income for the 2015-2016 income year; that is, the difference between the unrecouped FMD deduction (\$35,000) and the amount of the deposit remaining after the third repayment (\$0).

*Unrecouped FMD deduction*

- (2) The ***unrecouped FMD deduction*** in respect of a \*farm management deposit at a particular time is:
- (a) if no part of the deposit has been repaid before that time—the amount of the deduction under section 393-5 for making the deposit; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) if one or more parts of the deposit have been repaid before that time—the unrecouped FMD deduction in respect of the deposit just before the most recent such repayment, reduced by any amount included in the \*owner's assessable income under this section as a result of that repayment.

**Example:** Mia makes a deposit of \$3,000, all of which is deductible. The deposit's unrecouped FMD deduction just before a first repayment of \$1,000 is the amount of the deduction (that is, \$3,000—see paragraph (2)(a)). The deposit's unrecouped FMD deduction just before a second repayment is \$2,000 (that is, according to paragraph (2)(b), the unrecouped FMD deduction immediately before the first repayment (\$3,000) reduced by the \$1,000 included in Mia's assessable income as a result of the first repayment).

**Note 1:** If the deposit was originally an income equalisation deposit, see section 393-10 of the *Income Tax (Transitional Provisions) Act 1997*.

**Note 1A:** Subsection 393-16(3) affects the unrecouped FMD deduction of a consolidated farm management deposit.

**Note 2:** Section 393-55 affects the unrecouped FMD deduction of a new deposit linked to an old deposit affected by Division 2AA (Financial claims scheme for account-holders with insolvent ADIs) of Part II of the *Banking Act 1959*.

*Application of Division to transfer, reinvestment or other dealing*

- (3) This Division applies to a transfer, reinvestment or other dealing with a \*farm management deposit as if it were a repayment of the deposit, if:
- (a) you are the depositor; and
  - (b) the transfer, reinvestment or other dealing is on your behalf or at your request.

**Note:** Section 393-15 modifies the application of the deduction, assessment and 12 month rules to certain transfers, reinvestments and other dealings.

*Deemed repayment because of death, bankruptcy etc.*

- (4) This section applies as if a \*farm management deposit had been repaid when it became repayable, rather than when it is actually repaid, if the deposit became repayable because of the requirement

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 393-15**

---

contained in the relevant agreement as set out in item 11 of the table in section 393-35 (death, bankruptcy etc.).

Note 1: This means that the amount of the deposit is included in your assessable income for the income year when the death, bankruptcy etc. occurs, rather than for any later year in which the deposit might be repaid.

Note 2: This also means that, under subsection 45-120(5) in Schedule 1 to the *Taxation Administration Act 1953* (about Pay as you go (PAYG) instalments), the amount of the deposit is included in your instalment income for the period in which the death, bankruptcy etc. occurs.

However, under section 12-140 in that Schedule, an amount may also be required to be withheld from the actual payment if you do not quote your tax file number or ABN to the relevant FMD provider.

Note 3: Section 393-60 of this Act may limit the operation of subsection (4) if the farm management deposit is with an ADI that becomes a declared ADI under Division 2AA (Financial claims scheme for account-holders with insolvent ADIs) of Part II of the *Banking Act 1959*.

**393-15 Transactions to which the deduction, assessment and 12 month rules have modified application**

- (1) The provisions mentioned in subsection (2) do not apply in relation to the following transactions:
- (a) the immediate reinvestment of a \*farm management deposit as a farm management deposit with the same \*FMD provider;
  - (b) the extension of the term of a farm management deposit (even if other terms such as those relating to interest payable are also varied);
  - (c) the transfer of a farm management deposit in accordance with a requirement of the relevant agreement as set out in item 13 of the table in section 393-35 (which allows for transfers of deposits at the request of the depositor).

Note: This means that these transactions:  
(a) will not result in assessable income for the owner; and  
(b) will not give rise to a deduction; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) will not, if the transaction occurs within 12 months after the end of the day the deposit is made, result in the deposit losing its status as a farm management deposit.
- (2) The provisions are:
- (a) section 393-5 (about deductions for making a farm management deposit); and
  - (b) subsection 393-10(1) (about assessability of the repayment of a farm management deposit); and
  - (c) subsections 393-40(1) and (2) (about repayment of a farm management deposit within the first 12 months); and
  - (ca) subsection 393-40(3) (about repayment of a farm management deposit in the event of severe drought); and
  - (d) subsections 393-40(3A) and (4) (about repayment of a farm management deposit in the event of an applicable natural disaster).
- (3) For the purposes of working out the \*unrecouped FMD deduction for a deposit that is subject to a transaction mentioned in subsection (1), the transaction does not cause the deposit to be a different deposit.

Note: This ensures that the unrecouped FMD deduction (which affects how much income tax is assessed in the event of a repayment) equals the deduction for the original deposit, less any amount included in your assessable income because of a previous repayment of the deposit.

### **393-16 Consolidation of farm management deposits**

- (1) The provisions mentioned in subsection (2) do not apply in relation to the immediate reinvestment of 2 or more \*farm management deposits (*original deposits*) if:
- (a) just before the reinvestment occurs the balance of each of the original deposits is equal to the \*unrecouped FMD deduction for the deposit; and
  - (b) the original deposits are immediately reinvested as a single farm management deposit with the same \*FMD provider, or with a different FMD provider; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 393-17**

---

- (c) just before the reinvestment occurs the original deposits have each been held for a period of at least 12 months.

Note: This means that the reinvestment:

- (a) will not result in assessable income for the owner; and  
(b) will not give rise to a deduction.

- (2) The provisions are:
- (a) section 393-5 (about deductions for making a farm management deposit); and  
(b) subsection 393-10(1) (about assessability of the repayment of a farm management deposit).
- (3) Despite paragraph 393-10(2)(a), the ***unrecouped FMD deduction*** in respect of the \*farm management deposit at a time before any part of the deposit has been repaid is the sum of the unrecouped FMD deductions in respect of each of the original deposits just before the reinvestment occurred.
- (4) Section 393-40 (about the repayment of farm management deposits within 12 months) applies as if the new \*farm management deposit was made on the same day that the most recent of the original deposits was made.

**393-17 Tax consequences of liabilities reducing because of farm management deposits**

- (1) To avoid doubt, if amounts of interest payable by the \*owner of a \*farm management deposit, or by a partnership of which the owner is a partner, to the \*FMD provider in respect of loans or other debts of the owner or partnership fall short of what they otherwise would be because the owner holds the farm management deposit, then:
- (a) any income of the owner or partnership comprising the shortfall is neither assessable income nor \*exempt income of the owner or partnership; and  
(b) any amount that any person:  
(i) is not liable to pay because of the shortfall; and

---

### **393-20 Farm management deposits**

#### *Meaning of farm management deposit*

- (1) A deposit with an \*FMD provider is a *farm management deposit* if:
- (a) the depositor applies to make the deposit in accordance with subsection (2); and
  - (b) the deposit is made under an agreement between the FMD provider and the depositor that:
    - (i) describes the deposit as a farm management deposit; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 393-20**

---

- (ii) at all times while the deposit is with the FMD provider, contains requirements to the effect set out in the table in section 393-35.

The agreement may also contain additional requirements that are not inconsistent with those set out in that table.

*Depositor to provide information in application form*

- (2) For the purposes of paragraph (1)(a), the depositor must apply to the \*FMD provider to make the deposit by completing and signing a form that:
  - (a) permits the depositor to state the \*owner's \*tax file number in the form; and
  - (b) requires the depositor to provide any other information required by regulations for the purposes of this paragraph; and
  - (c) contains any statements, required by regulations for the purposes of this paragraph, that are to be read by the depositor when completing the form.

Note 1: A depositor who makes a false or misleading statement in such a form commits an offence against section 8K or 8N of the *Taxation Administration Act 1953*.

Note 2: If the owner does not quote his or her tax file number or ABN to the FMD provider, the Pay as you go (PAYG) withholding required under section 12-140 in Schedule 1 to the *Taxation Administration Act 1953* from a repayment of the deposit is at the highest marginal tax rate.

Note 3: Division 4A of Part VA of the *Income Tax Assessment Act 1936* sets out rules for quoting tax file numbers in connection with farm management deposits.

*Meaning of FMD provider*

- (3) In this Act:

**FMD provider** means an entity that:

- (a) is an \*ADI; or
- (b) carries on in Australia the \*business of banking, so long as the Commonwealth, a State or a Territory guarantees the

repayment of any deposit taken in the course of that business;  
or

- (c) carries on in Australia a business that consists of or includes taking money on deposit, so long as the Commonwealth, a State or a Territory guarantees the repayment of any deposit taken in the course of that business.

### **393-25 Owners of farm management deposits**

#### *Meaning of owner*

- (1) The **owner** of a \*farm management deposit is:
- (a) if paragraph (b) does not apply—the individual who made or is making the deposit; or
  - (b) in the case of a deposit made or being made by the trustee of a trust on behalf of a beneficiary who is an individual—the beneficiary.

#### *Primary production business carried on by a partnership*

- (2) This Division applies to you as if you were an individual who is carrying on a \*primary production business that is actually carried on by a partnership, if you are an individual who is a partner in the partnership.

#### *Primary production business carried on by a trust*

- (3) This Division (other than subsection 393-17(2) and paragraph 393-37(b)), and section 97A of the *Income Tax Assessment Act 1936* (about beneficiaries who are owners of farm management deposits), apply to you as if you were an individual who is carrying on a \*primary production business that is actually carried on by a trust, if you satisfy the requirements in subsection (4), (5) or (6).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 393-25**

---

*Primary production business carried on by a trust with beneficiary presently entitled to income of the trust*

- (4) You satisfy the requirements in this subsection if:
- (a) you are an individual and a beneficiary of the trust referred to in subsection (3); and
  - (b) you are presently entitled to a share of the income of the trust for the income year.

*Primary production business carried on by a fixed trust with no income of the trust*

- (5) You satisfy the requirements in this subsection if:
- (a) you are an individual and a beneficiary of the trust referred to in subsection (3); and
  - (b) at all times during the income year, the manner or extent to which each beneficiary of the trust can benefit from the trust is not capable of being significantly affected by the exercise, or non-exercise, of a power; and
  - (c) the trust does not have any income of the trust for the income year to which a beneficiary of the trust could be presently entitled; and
  - (d) if the trust had income of the trust for the income year, you would have been presently entitled to a share of the income of the trust.

*Primary production business carried on by a non-fixed trust with no income of the trust*

- (6) You satisfy the requirements in this subsection if you do not satisfy the requirements in subsection (5) and you are an individual and a chosen beneficiary of the trust referred to in subsection (3) for the purposes of section 393-27 for the income year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**393-27 Trustee may choose that a beneficiary is a chosen beneficiary of the trust**

- (1) The trustee of a trust may choose that a beneficiary of the trust is a chosen beneficiary of the trust for an income year if the trust does not have any income of the trust for the income year to which a beneficiary of the trust could be presently entitled.
- (2) The maximum number of choices that the trustee may make in respect of the trust for an income year is the higher of:
  - (a) the number of individuals to which subsection 393-25(3) applied in the income year immediately before the current income year; and
  - (b) 12.
- (3) A choice made under subsection (1) must be:
  - (a) in writing; and
  - (b) signed by the trustee and the person chosen.
- (4) The trustee can make the choice no later than the time it lodges the trust's \*income tax return for the income year to which the choice relates. However, the Commissioner can allow the trustee to make a choice at a later time.
- (5) A choice cannot be revoked or varied.

**393-28 Application of Division to beneficiary no longer under legal disability**

If:

- (a) a \*farm management deposit was made by a trustee on behalf of a beneficiary of a trust; and
  - (b) the beneficiary was under a legal disability when the deposit was made; and
  - (c) the beneficiary is no longer under a legal disability;
- then this Division, and Division 4A of Part VA of the *Income Tax Assessment Act 1936*, apply as if the beneficiary had made the deposit.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 393-30

---

Note: Division 4A of Part VA of the *Income Tax Assessment Act 1936* is about quotation of tax file numbers in connection with farm management deposits.

**393-30 Effect of contravening requirements**

- (1) A deposit is not a *farm management deposit* if, when the deposit was accepted, a requirement contained in the relevant agreement as set out in items 1 to 6 of the table in section 393-35 was contravened.
- (2) A deposit is not, and is taken never to have been, a *farm management deposit* if a requirement contained in the relevant agreement as set out in items 7 and 9 of the table in section 393-35 is contravened at any time in relation to the deposit.
- (3) So much of a deposit as causes a requirement contained in the relevant agreement as set out in item 10 of the table in section 393-35 to be contravened is not a *farm management deposit*.

Note: There is an administrative penalty if a requirement contained in the relevant agreement as set out in item 8 of the table in section 393-35 is contravened: see section 288-120 in Schedule 1 to the *Taxation Administration Act 1953*.

**393-35 Requirements of agreement for a farm management deposit**

An agreement mentioned in paragraph 393-20(1)(b) must contain requirements to the effect of those set out in the following table:

---

<b>Requirements of agreement for a farm management deposit</b>	
<b>Item</b>	<b>Requirement</b>
1	The *owner must be an individual who is carrying on a *primary production business in Australia when the deposit is made. 4	The deposit must be \$1,000 or more when it is made, unless the deposit is: (a) the immediate reinvestment of a *farm management deposit as a farm management deposit with the same *FMD provider; or (b) the extension of the term of a farm management deposit (even if other terms such as those relating to interest payable are also varied).
6	Rights of the depositor in respect of the deposit must not be transferable to another entity.
7	The deposit must not be the subject of a charge or other encumbrance to secure any amount.

Section 393-37

---

**Requirements of agreement for a farm management deposit**

---

**Item Requirement**

- |    |  |
|----|--|
| 12 | The amount of any repayment of the deposit must be \$1,000 or more, except if the entire amount of the deposit is repaid.  |
| 13 | The *FMD provider must transfer the deposit by electronic means to another FMD provider that agrees to accept the deposit as a *farm management deposit, if the first FMD provider is:<br>(a) requested in writing by the depositor to do so; and<br>(b) given any information or other assistance from the depositor necessary for the purpose. |
| 14 | The *FMD provider must not deduct from the deposit (whether at the time it is made, while it is with the FMD provider or at the time of its repayment) any administration fee or other amount required by the FMD provider to be paid in respect of the deposit or otherwise.  |

**393-37 Agreements for a farm management deposit may allow for some offsets of a depositor's liabilities**

An agreement mentioned in paragraph 393-20(1)(b) does not contravene the requirements of item 8 of the table in section 393-35 to the extent that:

- (a) it provides for amounts of interest to be payable to the \*FMD provider in respect of a loan or other debt of the \*owner of the \*farm management deposit, or of a partnership of which the owner is a partner, to be reduced; and
- (b) that loan or other debt relates to a \*primary production business that the owner or partnership carries on.

**393-40 Repayment of deposit within first 12 months**

*Partial repayment within first 12 months*

- (1) Any part of a deposit repaid before the last day of the 12 months after the day the deposit is made is not, and is taken never to have been, part of a *farm management deposit*.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- Note 1: A repayment covered by subsection (3), (3A) or (5) is disregarded in applying this subsection. The normal rules in sections 393-5 (about deductions for making a farm management deposit) and 393-10 (about assessability of the repayment of a farm management deposit) apply instead.
- Note 2: This subsection does not apply if a deposit is reinvested, the term of a deposit is extended, or a deposit is transferred at the depositor's request: see section 393-15.

*Deposit not to be reduced to less than \$1,000 within first 12 months*

- (2) A deposit is not, and is taken never to have been, a **farm management deposit** if the amount of the deposit is reduced to less than \$1,000 because of one or more repayments before the last day of the 12 months after the day the deposit is made.

- Note 1: A repayment covered by subsection (3), (3A) or (5) is disregarded in applying this subsection.
- Note 2: This subsection does not apply if a deposit is reinvested, the term of a deposit is extended, or a deposit is transferred at the depositor's request: see section 393-15.

*Repayment in the event of severe drought*

- (3) Subsections (1) and (2) do not apply to a repayment of the whole or a part of a \*farm management deposit if:
- (a) the \*owner of the deposit carries on a \*primary production business that satisfies one or more of paragraphs (a), (b), (c) and (f) of the definition of **primary production business** in subsection 995-1(1); and
  - (b) any of the land on which the owner of the deposit carries on any primary production business that satisfies one or more of those paragraphs has, for the period specified in subsection (3AA), had rainfall that:
    - (i) is deficient to an extent prescribed by the regulations; or
    - (ii) if there are no such regulations—is within the lowest 5% of rainfall for that land according to records held by the Commonwealth Bureau of Meteorology; and

Section 393-40

---

- (c) for the period specified in subsection (3AA):
    - (i) the owner of the deposit has carried on, on that land, a primary production business that satisfies one or more of those paragraphs; and
    - (ii) the amount of the repayment has been held in that farm management deposit.
- (3AA) For the purposes of paragraphs (3)(b) and (c), the period is:
- (a) a period prescribed by the regulations; or
  - (b) if there are no such regulations—the most recent period of 6 consecutive months:
    - (i) that precede the repayment; and
    - (ii) for which rainfall records held by the Commonwealth Bureau of Meteorology are publicly available at the time of the repayment.

*Repayment in the event of an applicable natural disaster*

- (3A) Subsections (1) and (2) do not apply to a repayment of the whole or a part of a \*farm management deposit if:
- (a) natural disaster relief and recovery arrangements made by or on behalf of the Commonwealth apply, in a way specified in regulations made for the purposes of this subsection, to a \*primary production business of the \*owner of the deposit; and
  - (b) all of the other circumstances specified in those regulations are satisfied.

*Any later deposit not a farm management deposit*

- (4) If subsection (3) or (3A) applies to an \*owner and a repayment, any later deposit that is made by, or on behalf of, the owner in the income year in which the repayment is made is not, and is taken never to have been, a ***farm management deposit***.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Repayment in the case of death, bankruptcy or ceasing to carry on a primary production business*

- (5) Subsections (1) and (2) do not apply to a repayment of a \*farm management deposit because of the requirement contained in the relevant agreement as set out in item 11 of the table in section 393-35 (death, bankruptcy etc.).

*Certain transactions do not affect the day the deposit was made*

- (6) Subsections (1) to (4) apply as if a \*farm management deposit that:
- (a) is made as a result of a transaction mentioned in subsection 393-15(1) (about reinvesting a deposit, extending the term of a deposit and transferring a deposit at the depositor's request); or
  - (b) is affected by such a transaction;
- were made on the day on which the original deposit was made.

**Example:** A farm management deposit is made on 1 July 2010 for a term of 6 months, but is extended in December 2010 for another 6 months. For the purposes of subsections (1) to (4), the day the extended deposit was made remains as 1 July 2010.

**Note:** Section 393-40 of the *Income Tax (Transitional Provisions) Act 1997* provides for a special rule for deposits transferred under the repealed *Loan (Income Equalization Deposits) Act 1976*.

## Operative provisions

### **393-55 Farm management deposits arising from farm management deposits with ADIs subject to financial claims scheme**

#### *Application*

- (1) This section applies if an entitlement arises under Division 2AA (Financial claims scheme for account-holders with insolvent ADIs) of Part II of the *Banking Act 1959* in connection with an account containing a \*farm management deposit (the **old deposit**) with an \*ADI (the **old ADI**) and either:
  - (a) an amount (the **new deposit**) is deposited into either of the following to meet, in whole or part, so much of the entitlement as relates to the old deposit:
    - (i) an existing account for a farm management deposit;
    - (ii) an account established under section 16AH of that Act for the purposes of meeting (in whole or part) the entitlement; or
  - (b) an amount (also the **new deposit**) is deposited by a liquidator of the old ADI into either of the following as so much of a distribution from the liquidation of the old ADI as relates to the old deposit:
    - (i) an existing account for a farm management deposit;
    - (ii) an account established under section 16AR of that Act for the payment of the distribution.

Note: If an amount is deposited in connection with an account with the old ADI containing 2 or more old deposits, the amount is to be apportioned between each old deposit, so that so much of the amount as is attributable to a particular old deposit is regarded as a distinct new deposit relating to that old deposit.

#### *New deposit is a farm management deposit*

- (2) This Division (except this section) applies to the new deposit as if the new deposit were a transfer of the old deposit in accordance with a requirement contained in the relevant agreement for the old

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 393-55**

---

deposit as set out in item 13 of the table in section 393-35 (which allows for transfers of deposits at the request of the depositor). To avoid doubt, this Division applies in that way as if the amount transferred were the amount of the new deposit, even if that is more or less than the amount of the old deposit.

Note 1: The effects of this include the following:

- (a) section 393-5 (about deductions for making a farm management deposit) does not apply in relation to the making of the new deposit (see paragraphs 393-15(1)(c) and (2)(a));
- (b) subsection 393-10(1) (about assessability of the repayment of a farm management deposit) can only apply to the extent of any difference between the amount transferred and the amount of the old deposit (see paragraphs 393-15(1)(c) and (2)(b));
- (c) subsections 393-40(1), (2) and (4) (about repayment of a farm management deposit within the first 12 months) can only apply to the extent of any difference between the amount transferred and the amount of the old deposit (see paragraphs 393-15(1)(c) and (2)(c) and (d));
- (d) the day the old deposit was made, for the purposes of subsections 393-40(1) and (2) (about repayment of a farm management deposit within the first 12 months) and (3A) and (4) (about repayment in the event of an applicable natural disaster), is maintained for the new deposit (see subsection 393-40(6)).

Note 2: Also, the unrecouped FMD deduction in respect of the new deposit is the same as the unrecouped FMD deduction in respect of the old deposit (see subsection 393-15(3)), unless subsection (6) or (7) of this section applies because the new deposit is less than the old deposit.

- (3) In determining whether either of the following is a \*farm management deposit, disregard a requirement contained in an agreement as set out in item 4 of the table in section 393-35 (requiring the deposit to be \$1,000 or more):
  - (a) the new deposit;
  - (b) a deposit made later directly by the transfer of the new deposit in accordance with a requirement of the relevant agreement for the new deposit as mentioned in item 13 of that table.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Unrecouped FMD deduction for new deposit less than old deposit*

- (6) Despite subsection (2) and subsection 393-15(3), if the new deposit is less than the old deposit at the time (the **declaration time**) the old ADI became a declared ADI under the *Banking Act 1959*, the **unrecouped FMD deduction** in respect of the new deposit is the amount worked out using the following formula:

$$\begin{array}{l} \text{Unrecouped FMD deduction} \\ \text{in respect of old deposit} \\ \text{just before declaration time} \end{array} \times \frac{\text{New deposit}}{\text{Old deposit just} \\ \text{before declaration time}}$$

Note: The new deposit could be less than the old deposit if the entitlement is paid in instalments (each of which will be a separate new deposit).

- (7) However, if the amount worked out under subsection (6) is more than the difference (if any) between:
- (a) the \*unrecouped FMD deduction in respect of the old deposit just before the declaration time; and
  - (b) the total of the amounts worked out under all previous applications of subsection (6) in relation to that old deposit;
- the **unrecouped FMD deduction** in respect of the new deposit is equal to the difference (if any).

Note: This ensures that when new deposits linked to the old deposit are repaid, the total amount included in assessable income will not exceed the unrecouped FMD deduction in respect of the old deposit.

*Relationship with other provisions*

- (8) This section has effect despite Division 253 (about tax treatment of entitlements under the financial claims scheme for insolvent ADIs).

**393-60 Repayment if owner of farm management deposit with insolvent ADI dies, is bankrupt or ceases to be a primary producer**

Subsection 393-10(4) does not apply in relation to so much of a \*farm management deposit with an \*ADI as is equal to the sum of

---

**Section 393-60**

the amounts described in subparagraphs (d)(i) and (ii) of this section if:

- (a) you are the \*owner of the deposit; and
- (b) the deposit becomes repayable during an income year because of the requirement contained in the relevant agreement as set out in item 11 of the table in section 393-35 (death, bankruptcy etc.); and
- (c) during the income year, the ADI becomes a declared ADI under Division 2AA (Financial claims scheme for account-holders with insolvent ADIs) of Part II of the *Banking Act 1959*; and
- (d) at the end of the income year, you have either or both of the following:
  - (i) an unmet entitlement under that Division connected with the account for the farm management deposit;
  - (ii) an unmet claim against the ADI, or an unpaid debt owed to you by the ADI, in the winding up of the ADI connected with the account for the deposit.

Note: Subsection 393-10(4) makes the repayment of a farm management deposit assessable in the income year when the death, bankruptcy etc. occurs, rather than in any later year in which it might be repaid.

## **Division 394—Forestry managed investment schemes**

### **Guide to Division 394**

#### **394-1 What this Division is about**

This Division sets out rules about deductions for contributions to forestry managed investment schemes. It also sets out the tax treatment of proceeds from the sale of interests in such schemes, and of proceeds from harvesting trees under such schemes.

#### **Table of sections**

394-5	Object of this Division
394-10	Deduction for amounts paid under forestry managed investment schemes
394-15	Forestry managed investment schemes and related concepts
394-20	Payments on behalf of participant in forestry managed investment scheme
394-25	CGT event in relation to forestry interest in forestry managed investment scheme—initial participant
394-30	CGT event in relation to forestry interest in forestry managed investment scheme—subsequent participant
394-35	70% DFE rule
394-40	Payments under forestry managed investment scheme
394-45	Direct forestry expenditure

#### **394-5 Object of this Division**

The object of this Division is to encourage the expansion of commercial plantation forestry in Australia through the establishment and tending of new plantations for felling. This is achieved by:

- (a) permitting investors to deduct amounts paid under a forestry scheme in the year of payment, if certain conditions are met (for example, that it is reasonable to expect that the manager of the scheme will spend at least 70% of investors' contributions, on a market value basis, on activities that establish, tend, fell and harvest trees); and

Section 394-10

---

- (b) allowing secondary market trading of interests in such schemes, while minimising tax arbitrage and providing tax certainty for investors.

**394-10 Deduction for amounts paid under forestry managed investment schemes**

- (1) You can deduct an amount if:
  - (a) you hold a \*forestry interest in a \*forestry managed investment scheme; and
  - (b) you pay the amount under the scheme; and
  - (c) the scheme satisfies the \*70% DFE rule (see section 394-35) on 30 June in the income year in which a \*participant in the scheme first pays an amount under the scheme; and
  - (d) you do not have day to day control over the operation of the scheme (whether or not you have the right to be consulted or give directions); and
  - (e) at least one of these conditions is satisfied:
    - (i) there is more than one participant in the scheme;
    - (ii) the \*forestry manager of the scheme, or an \*associate of the forestry manager, manages, arranges or promotes similar schemes; and
  - (f) the condition in subsection (4) is satisfied.
- (2) You deduct the amount for the income year in which you pay it.
- (3) For the purposes of this Division, do *not* treat an amount as being paid under a \*forestry managed investment scheme if:
  - (a) you pay the amount in connection with a \*CGT event in relation to a \*forestry interest in the scheme; and
  - (b) as a result of the CGT event:
    - (i) another \*participant in the scheme no longer holds the forestry interest; and
    - (ii) you start to hold the forestry interest.
- (4) For the purposes of paragraph (1)(f), the condition in this subsection is satisfied unless:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) 18 months have elapsed since the end of the income year in which an amount is first paid under the \*forestry managed investment scheme by a \*participant in the scheme; and
  - (b) the trees intended to be established in accordance with the scheme have not all been established before the end of those 18 months.
- (5) You cannot deduct an amount under subsection (1) if:
- (a) you hold the \*forestry interest mentioned in paragraph (1)(a) as an \*initial participant; and
  - (b) a \*CGT event happens in relation to the forestry interest within 4 years after the end of the income year in which you first pay an amount under the scheme.
- If you have already deducted it, your assessment may be amended to disallow the deduction.
- (5A) Paragraph (5)(b) does not apply to a \*CGT event if:
- (a) the CGT event happens because of circumstances outside your control; and
- Example: The forestry interest is compulsorily acquired.
- (b) when you acquired the \*forestry interest, you could not reasonably have foreseen the CGT event happening.
- (6) Despite section 170 of the *Income Tax Assessment Act 1936*, the Commissioner may amend your assessment at any time within 2 years after the \*CGT event, for the purpose of giving effect to subsection (5).
- (7) Sections 82KZMD and 82KZMF of the *Income Tax Assessment Act 1936* do not affect the timing of a deduction under this section.

### **394-15 Forestry managed investment schemes and related concepts**

- (1) A \*scheme is a ***forestry managed investment scheme*** if the purpose of the scheme is for establishing and tending trees for felling in Australia.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 394-20

---

- (2) The entity that manages, arranges or promotes a \*forestry managed investment scheme is the *forestry manager* of the scheme.
- (3) A *forestry interest* in a \*forestry managed investment scheme is a right to benefits produced by the scheme (whether the right is actual, prospective or contingent and whether it is enforceable or not).
- (4) An entity that holds a \*forestry interest in a \*forestry managed investment scheme (other than the \*forestry manager of the scheme) is a *participant* in the scheme.
- (5) A \*participant in a \*forestry managed investment scheme holds a \*forestry interest in the scheme as an *initial participant* if:
  - (a) the participant obtains the forestry interest from the \*forestry manager of the scheme; and
  - (b) the payment by the participant to obtain the forestry interest results in the establishment of trees.

**394-20 Payments on behalf of participant in forestry managed investment scheme**

For the purposes of this Division, treat a payment to the \*forestry manager of a \*forestry managed investment on behalf of a \*participant in the scheme as a payment by the participant to the forestry manager.

**394-25 CGT event in relation to forestry interest in forestry managed investment scheme—initial participant**

- (1) This section applies if:
  - (a) you hold a \*forestry interest in a \*forestry managed investment scheme as an \*initial participant in the scheme; and
  - (b) at least one of these conditions is satisfied:
    - (i) you can deduct or have deducted an amount for an income year under section 394-10 in relation to the forestry interest;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) the condition in subparagraph (i) would be satisfied if subsection 394-10(5) were disregarded; and
  - (c) a \*CGT event happens in relation to the forestry interest, other than a CGT event that happens in respect of thinning.
- (2) Your assessable income for the income year in which the \*CGT event happens includes:
- (a) if, as a result of the CGT event, you no longer hold the \*forestry interest—the \*market value of the forestry interest (worked out as at the time of the event); or
  - (b) otherwise—the decrease (if any) in the market value of the forestry interest as a result of the CGT event.
- (3) Any amount that you actually receive because of the \*CGT event is not included in your assessable income (nor is it \*exempt income).

**394-30 CGT event in relation to forestry interest in forestry managed investment scheme—subsequent participant**

- (1) This section applies if:
- (a) you hold a \*forestry interest in a \*forestry managed investment scheme otherwise than as an \*initial participant in the scheme; and
  - (b) at least one of these conditions is satisfied:
    - (i) you can deduct or have deducted an amount for an income year under section 394-10 in relation to the forestry interest;
    - (ii) you could deduct an amount for an income year under section 394-10 if you had paid the amount under the scheme in that year; and
  - (c) a \*CGT event happens in relation to the forestry interest, other than a CGT event that happens in respect of thinning.
- (2) Your assessable income for the income year in which the \*CGT event happens includes the lesser of the following:
- (a) the \*market value of the forestry interest (worked out as at the time of the event);

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 394-30

---

- (b) the amount (if any) by which the \*total forestry scheme deductions in relation to the forestry interest exceeds the \*incidental forestry scheme receipts in relation to the forestry interest.
- (3) The **total forestry scheme deductions** in relation to the \*forestry interest is the total of each amount that you can deduct or have deducted under section 394-10 for each income year in relation to the forestry interest.
- (4) The **incidental forestry scheme receipts** in relation to the \*forestry interest is the total of each amount that you have received under the scheme in each income year in relation to the forestry interest for a reason otherwise than because of the \*CGT event.
- (5) However, if you still hold the forestry interest despite the \*CGT event, work out the amount included in your assessable income under subsection (2) using this formula (instead of using the amount worked out under subsection (2)):
- $$\text{Amount worked out under subsection (2)} \times \frac{\text{Decrease (if any) in the *market value of the *forestry interest as a result of the CGT event}}{\text{*Market value of the *forestry interest just before the CGT event}}$$
- (6) If this section has operated previously in relation to the \*forestry interest, disregard an amount for the purposes of subsections (3) and (4) to the extent that it has already been reflected in your assessable income under that previous operation in relation to the forestry interest.
- (7) These provisions do not apply to the \*CGT event:
- (a) section 6-5 (about \*ordinary income);
  - (b) any other provision that includes an amount in assessable income, other than the following:
    - (i) a provision in Part 3-1 or 3-3;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) subsection (2) of this section;
  - (c) section 8-1 (about amounts you can deduct);
  - (d) any other provision that allows you to deduct an amount from your assessable income;
  - (e) section 118-20.
- (8) However, the provisions referred to in subsection (7) can apply to the \*CGT event if a \*capital gain or \*capital loss from the event is disregarded because of section 118-25.
- (9) Just before the \*CGT event, increase the \*cost base and \*reduced cost base of the \*forestry interest by the amount included in your assessable income under subsection (2).

### **394-35 70% DFE rule**

- (1) A \*forestry managed investment scheme satisfies the **70% DFE rule** on 30 June in an income year if it is reasonable to expect on that 30 June that the amount of DFE under the scheme (see subsection (2)) is no less than 70% of the amount of the payments under the scheme (see subsection (3)).
- (2) The amount of DFE under the scheme is the amount of the net present value (on that 30 June) of all \*direct forestry expenditure under the scheme that the \*forestry manager of the scheme has paid or will pay under the scheme.
- (3) The amount of payments under the scheme is the amount of the net present value (on that 30 June) of all amounts that all current and future \*participants in the scheme have paid or will pay under the scheme.
- (4) In working out the net present value of an amount paid before that 30 June:
- (a) unless paragraph (b) applies—treat the amount as having been paid on that 30 June; or

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

**Section 394-40**

---

- (b) if the amount was paid in an income year ending before that 30 June—treat the amount as having been paid on the 30 June in that income year.
- (5) In working out the net present value of an amount expected to be paid after that 30 June, treat the amount as having been paid on 1 January in the income year in which it is expected to be paid.
- (6) Reduce an amount worked out under subsection (2) or (3) to the extent (if any) to which that amount can reasonably be expected to be recouped.
- (7) In working out the net present value of an amount for the purposes of this section, use the yield on Australian Government Treasury Bonds with the maturity closest to 10 years (as published by the Reserve Bank of Australia).
- (8) For the purposes of subsection (2), if:
  - (a) the \*forestry manager of the scheme has paid or will pay an amount under the scheme in a transaction; and
  - (b) the forestry manager and at least one other party to the transaction did not or will not deal at \*arm's length in relation to the transaction; and
  - (c) the amount is or will be more or less than the \*market value of what it is for;treat the amount as that market value.

**394-40 Payments under forestry managed investment scheme**

For the purposes of this Division, do *not* treat the following payments as payments under a \*forestry managed investment scheme by a \*participant in the scheme:

- (a) payments for \*borrowing money;
- (b) payments of interest and payments in the nature of interest;
- (c) payments of stamp duty;
- (d) payments of \*GST;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (e) payments that relate to one or more of the matters mentioned in paragraphs 394-45(4)(a), (b) or (c).

### **394-45 Direct forestry expenditure**

- (1) ***Direct forestry expenditure*** under a \*forestry managed investment scheme means:

- (a) an amount paid under the scheme that is attributable to establishing, tending, felling and harvesting trees; and
- (b) notional amounts reflecting the \*market value of goods, services or the use of land, provided by the \*forestry manager of the scheme, for establishing, tending, felling and harvesting trees.

Example 1: Notional amounts reflecting the value of the use of land owned by the forestry manager that is provided for establishing, tending, felling and harvesting trees.

Example 2: Notional amounts reflecting the value of tree felling services provided by the forestry manager.

- (2) Treat \*direct forestry expenditure covered by paragraph (1)(b) as paid annually for each income year of the \*forestry manager of the scheme based on the \*market value of the goods, services, or the use of the land. Treat the day on which it is paid as:

- (a) unless paragraph (b) or (c) applies—1 January in the income year; or
- (b) if the first time an amount is paid under the scheme is later than the first day of the income year—the last day of the income year; or
- (c) if the scheme comes to an end on a day before the end of the income year—that day.

#### *Exclusions—general*

- (3) However, ***direct forestry expenditure*** under the scheme does not include amounts paid under the scheme to the extent that they relate to any of the following:
- (a) marketing of the scheme;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 394-45

---

Example: Advertising, sales, sponsorship and entertainment.

- (b) insurance, contingency funds or provisions (other than provisions for employee entitlements);
- (c) financing;
- (d) lobbying;
- (e) general business overheads (but not overheads directly related to forestry);
- (f) subscriptions to industry bodies;
- (g) commissions for financial planners or financial advisers;
- (h) compliance with requirements related to the structure and operations of the \*forestry manager of the scheme;

Example: Product design and preparation of product disclosure statements.

- (i) supervision and auditing of contracts, other than direct supervision of direct forestry activities (such as establishing trees for felling);
- (j) legal fees relating to any matter mentioned in this subsection.

*Exclusions—expenditure after harvest etc.*

- (4) Also, **direct forestry expenditure** under the scheme does not include amounts paid under the scheme to the extent that they relate to any of the following:
  - (a) transportation and handling of felled trees that happens after the earliest of the following:
    - (i) sale of the trees;
    - (ii) arrival of the trees at the mill door;
    - (iii) arrival of the trees at the port;
    - (iv) arrival of the trees at the place of processing (other than where processing happens in-field);
  - (b) processing;
  - (c) stockpiling (other than in-field stockpiling);
  - (d) marketing and sale of forestry produce.

405-B	Assessable professional income
405-C	Taxable professional income and average taxable professional income

### **Guide to Division 405**

#### **405-1 What this Division is about**

Significant fluctuations can occur in the professional incomes of authors, inventors, performing artists, production associates and sportspersons.

To lessen the impact of these fluctuations on your marginal tax rates, special tax rates apply if your professional income is above your average.

This Division explains how the scheme works and sets out the rules for working out your above-average special professional income.

Section 405-5

---

**405-5 Special rate of income tax on your above-average special professional income**

- (1) If you have above-average special professional income, the *Income Tax Rates Act 1986* generally sets a special rate so that the amount of income tax you pay on the top  $\frac{4}{5}$  of your above-average special professional income is effectively 4 times what you would pay on the bottom  $\frac{1}{5}$  of that income at basic rates.

Note : Your overall income tax will be less only if 2 marginal rates of income tax would apply to your above-average special professional income if it were treated as the top slice of your taxable income.

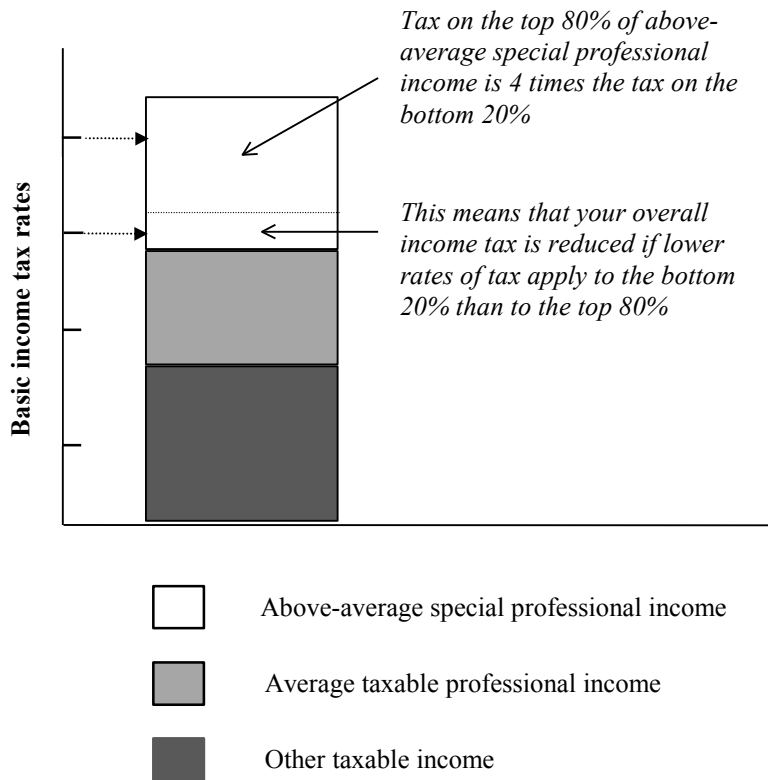

- (2) The following diagram illustrates how the special rate works.

### 405-10 Overview of the Division

*For which income years do you have above-average special professional income?*

- (1) The first income year for which you have above-average special professional income is the first income year (professional year 1):
  - (a) for which your taxable professional income is more than \$2,500; and
  - (b) during all or part of which you are an Australian resident.

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Part 3-45** Rules for particular industries and occupations

**Division 405** Above-average special professional income of authors, inventors, performing artists, production associates and sportspersons

Section 405-10

---

- (2) After professional year 1, you have above-average special professional income for any income year for all or part of which you are an Australian resident.

Note: You need not have been an Australian resident for every income year since professional year 1.

*What is above-average special professional income?*

- (3) Your above-average special professional income for the current year is the amount (if any) by which your taxable professional income *exceeds* your average taxable professional income.

See Subdivision 405-A.

*What is taxable professional income?*

- (4) Your taxable professional income depends on your assessable professional income.

See section 405-45.

- (5) Your assessable professional income is assessable income from your work as an author, inventor, performing artist, production associate or sportsperson.

See Subdivision 405-B.

*How do you work out your average taxable professional income?*

- (6) Generally, your average taxable professional income for the current year is the average of your taxable professional income for the last 4 income years.

See section 405-50.

- (7) However, special phasing-in arrangements apply to work out your average taxable professional income for an income year that is less than 4 income years after professional year 1.

These arrangements favour people who were Australian residents for at least part of the income year *before* professional year 1.

See section 405-50.

**405-30 What you *cannot* count as assessable professional income**

*Assessable income from continuous service as author or inventor*

- (1) You cannot count as \*assessable professional income any assessable income you \*derive for meeting your obligations under a \*scheme to provide services to another person by engaging in activities as the author of a literary, dramatic, musical or artistic work, or as the inventor of an invention, unless:
  - (a) the scheme was entered into solely to require you to provide services by:

    - (ii) inventing one or more specified inventions; and

- (b) the assessable income consists of a part that is counted as \*assessable professional income and another part that cannot be; and
  - (c) one component is unreasonably large and the other component is unreasonably small, for reasons that are directly or indirectly related to one another;  
you must work out your \*assessable professional income as if the unreasonably large component were reduced by a reasonable amount and the unreasonably small component were increased by the same amount.
- (3) Subsection (2) affects your \*assessable professional income:
- (a) whether you \*derived the assessable income directly or indirectly under or as a result of the \*scheme; and

### 405-45 Working out your taxable professional income

Your **taxable professional income** for an income year is the amount (if any) by which your \*assessable professional income for that year exceeds the amount of your deductions for that year worked out as follows:

*Method statement*

Step 1. Add up any amounts you can deduct for that year (except \*apportionable deductions), so far as they reasonably relate to your \*assessable professional income for the year.

Step 2. Work out the amount using the formula:

$$\text{*Apportionable deductions} \times \frac{\left( \begin{array}{c} \text{*Assessable} \\ \text{professional income} \end{array} - \text{Sum from Step 1} \right)}{\text{Taxable income} + \text{*Apportionable deductions}}$$

Note: The result may be greater than the apportionable deductions. Also, it may be negative.

Step 3. Add the sum from Step 1 to the result from Step 2. If the result is more than nil, it is the amount of your deductions to be subtracted from your \*assessable professional income.

### 405-50 Working out your average taxable professional income

*It is generally a 4-year average*

- (1) Work out your **average taxable professional income** for the \*current year by:
  - (a) adding up your \*taxable professional income for each of the last 4 income years before the current year; and
  - (b) dividing the total by 4.

- (4) **Professional year 2, professional year 3** and **professional year 4** are respectively the next 3 income years after \*professional year 1.
- (5) The table is as follows:

<b>Average taxable professional income during phase-in period</b>			
<b>Item</b>	<b>Current year</b>	<b>Average taxable professional income if you were an Australian resident for all or part of the income year immediately before professional year 1</b>	<b>Average taxable professional income if you were a foreign resident for any of the income year immediately before professional year 1</b>

## **Subdivision 415-B—Tax losses and bad debts**

### **Guide to Subdivision 415-B**

#### **415-10 What this Subdivision is about**

The unutilised amounts of a designated infrastructure project entity's tax losses are increased each year by the long term bond rate. A *designated infrastructure project entity* is a fixed trust or company that:

- (a) carries on an infrastructure project designated under Subdivision 415-C; and
- (b) only engages, and has only ever engaged, in activities for the purposes of carrying on that designated infrastructure project.

The tests that apply in relation to tax losses and bad debts if there is a change of ownership of an entity are modified so that periods during which the entity is a designated infrastructure project entity are not tested.

The loss utilisation rules in Subdivision 707-C do not apply if the head company of a consolidated group is a designated infrastructure project entity after another designated infrastructure project entity joins the group.

Note: The transfer rules in subsection 707-120(1A) do not apply if a designated infrastructure project entity joins a consolidated group: see subsection 707-120(5).

##### **Uplift of tax losses**

- 415-15 Uplift of tax losses of designated infrastructure project entities

Section 415-15

---

**Change of ownership of trusts and companies**

- 415-25 Tax losses of trusts
- 415-30 Bad debts written off etc. by trusts
- 415-35 Tax losses of companies
- 415-40 Bad debts written off by companies

**Consolidated groups**

- 415-45 Losses transferred to head companies of consolidated groups

**Uplift of tax losses**

**415-15 Uplift of tax losses of designated infrastructure project entities**

- (1) The amount of a \*tax loss of a \*loss year of an entity is increased, at the end of each later income year (and before any \*utilisation of the tax loss by the entity in the later income year), by the amount worked out using the following formula:

$$\begin{array}{r} \text{Amount of the *tax loss,} \\ \text{to the extent it has} \\ \text{not been *utilised} \end{array} \times \begin{array}{r} \text{*Long term bond} \\ \text{rate for the later} \\ \text{income year} \end{array} \times \begin{array}{r} \text{Eligible portion} \\ \text{of the later} \\ \text{income year} \end{array}$$

where:

*eligible portion of the later income year* means the amount worked out using the following formula:

$$\frac{\text{Number of days in the later income year on} \\ \text{which subsection (2) applies to the entity}}{\text{Number of days in the later income year}}$$

- (2) This subsection applies to the entity on a day in the later income year if:
- (a) the entity is a \*designated infrastructure project entity on that day; and
  - (b) on the day mentioned in subsection (3), the entity has notified the Commissioner (whether before, during or after

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

the later income year) in the \*approved form that the entity was, at any time, a designated infrastructure project entity.

- (3) For the purposes of paragraph (2)(b), the day is the day after the latest of the following days:
- (a) the day before which the entity:
    - (i) is required to lodge its \*income tax return for the later income year with the Commissioner; or
    - (ii) if the entity is not required to lodge an income tax return for the later income year—would be required to lodge its income tax return for the later income year were the entity required to lodge such a return;
  - (b) the 28th day after the first day the entity carries on the infrastructure project mentioned in paragraph 415-20(1)(b);
  - (c) the 28th day after the day the \*Infrastructure CEO designates the infrastructure project under section 415-70;
  - (d) a later day allowed by the Commissioner.

Note: The increase under this section can occur at the end of an income year even if, at the end of the year, the entity does not know the entity is a designated infrastructure project entity (e.g. because the Infrastructure CEO has not yet designated the infrastructure project that the entity carries on, but the Infrastructure CEO does so later).

#### *Consolidated groups*

- (4) Disregard paragraph 701-30(3)(a) for the purposes of the denominator in the formula in the definition of ***eligible portion of the later income year*** in subsection (1) of this section.

Note: Paragraph 701-30(3)(a) applies if the entity becomes a subsidiary member of a consolidated group during the later income year.

- (5) For the purposes of applying this section to a \*tax loss the \*head company of a \*consolidated group makes as mentioned in subsection 707-140(1):
- (a) the head company is treated as having made the loss in the income year before the income year in which the transfer mentioned in that subsection occurs; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 415-20

---

(b) subsection (2) of this section is treated as not applying to the head company on or before the day the transfer occurs; unless the transferred loss was a non-membership period loss (within the meaning of subsection 701-30(3)) in relation to the group.

Note: Subsection 707-140(1) treats the head company of a consolidated group as having made a loss in an income year in which a loss is transferred to the head company from an entity that joins the group.

**415-20** *Designated infrastructure project entity*

*Designated infrastructure project entity*

- (1) An entity is a **designated infrastructure project entity** at a time (the **relevant time**) if:
- (a) at the relevant time, the entity is a \*fixed trust or a company; and
  - (b) at or after the relevant time, the entity carries on a single \*designated infrastructure project; and
  - (c) the entity does not, at or before the relevant time, carry on any other designated infrastructure project; and
  - (d) the only activities in which the entity engages at the relevant time, or engaged before the relevant time, are or were for the purposes of the entity carrying on the single designated infrastructure project.
- (2) For the purposes of this section:
- (a) an \*enterprise that becomes a \*designated infrastructure project at a time is treated as having been a designated infrastructure project at all earlier times; and
  - (b) if the entity carries on (whether or not at the same time) one or more parts, but not the whole, of a single designated infrastructure project—the parts are treated as being a single designated infrastructure project; and
  - (c) in any case—the following are treated as being a single designated infrastructure project:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (d) in any case—any designated infrastructure projects that the entity carries on (whether or not at the same time) and that are part of a single infrastructure project that:
  - (i) is included on an Infrastructure Priority List; and
  - (ii) is not a designated infrastructure project;are treated as being a single designated infrastructure project.

#### *Partnerships*

- (3) Subsection (4) applies to an entity if:
  - (a) the entity is a \*fixed trust or a company; and
  - (b) the person that is the trustee of the trust, or the person that is the company, is a partner in a partnership.
- (4) For the purposes of subsections (1) and (2), the entity:
  - (a) is treated as carrying on any \*designated infrastructure project carried on by the partnership; and
  - (b) is treated as engaging in any activity engaged in by the partnership; and
  - (c) if the partnership engages in an activity for the purpose of the partnership carrying on a designated infrastructure project—is treated as engaging in that activity for the purpose of the entity carrying on that designated infrastructure project.

Designation is dependent on:

- (a) criteria prescribed by the Minister; and
- (b) a cap on the total estimated private capital expenditure that would be incurred for all provisionally designated and designated infrastructure projects.

this Division:

\*infrastructure project designation rules; or
  - (b) if the infrastructure project designation rules do not prescribe  
any requirements—in the order in which the applications are  
made.
- (2) Without limiting paragraph (1)(a), the requirements the  
\*infrastructure project designation rules may prescribe for the  
purposes of that paragraph include:
  - (a) requirements relating to the time at which or by which the  
\*Infrastructure CEO must deal with an application; and
  - (b) requirements relating to applications that, in the opinion of  
the Infrastructure CEO, are incomplete or do not contain  
sufficient information for the Infrastructure CEO to deal with  
the applications.
- (3) For the purposes of subsection (1), the \*Infrastructure CEO deals  
with an application by:
  - (a) designating the infrastructure project provisionally under  
section 415-65, or deciding not to designate the infrastructure  
project provisionally under that section; or

- (4) Paragraph (1)(b) does not apply to the \*Infrastructure CEO deciding whether to designate a \*provisionally designated infrastructure project under section 415-70.

*No designation after 30 June 2017 or later prescribed day*

- (5) Despite anything else in this Subdivision, the \*Infrastructure CEO must not provisionally designate the infrastructure project under section 415-65, or designate the infrastructure project under section 415-70, after:

- (d) the following conditions are satisfied:
    - (i) the conditions prescribed by the \*infrastructure project designation rules;

  - (e) the infrastructure project is not a \*designated infrastructure project.
- (2) The instrument of provisional designation must contain any details prescribed by the \*infrastructure project designation rules.

*Amendment of instruments of provisional designation*

**415-70 Designation**

*Designation*

- (1) The \*Infrastructure CEO must, by instrument in writing, designate the infrastructure project for the purposes of this Division if:
- (a) the entity applies to have the Infrastructure CEO designate the infrastructure project in accordance with section 415-55; and

    - (i) the conditions prescribed by the \*infrastructure project designation rules;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(whether or not the infrastructure project is a \*provisionally designated infrastructure project).
- (2) For the purposes of subparagraph (1)(d)(ii), the following are the conditions:
- (a) in the opinion of the \*Infrastructure CEO, the infrastructure is nationally significant infrastructure (within the meaning of the *Infrastructure Australia Act 2008*);

- (3) The instrument of designation must contain any details prescribed by the \*infrastructure project designation rules.

*Amendment of instruments of designation*

- (4) The \*Infrastructure CEO must, by instrument in writing, amend the instrument of designation in accordance with any requirements prescribed by the \*infrastructure project designation rules. The Infrastructure CEO must not amend the instrument in any other circumstances.

- (9) The \*Infrastructure CEO must notify the Commissioner of a decision made by the Infrastructure CEO:
- (a) to designate the infrastructure project; or
  - (b) to amend or to revoke the instrument of designation; within 28 days after making the decision.

**Infrastructure project capital expenditure cap**

**415-75 Infrastructure project capital expenditure cap**

- (1) Provisional designation, or designation, of the infrastructure project would breach the \*infrastructure project capital expenditure cap under this section if, were the provisional designation or designation to occur, the total of the estimates accepted under section 415-80 for each infrastructure project that, just after the provisional designation or designation, would be:
- (a) a \*provisionally designated infrastructure project; or
  - (b) a \*designated infrastructure project;
- would exceed the amount mentioned in subsection (2).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) The amount is:
- (a) \$25 billion; or
  - (b) if the \*infrastructure project designation rules prescribe a greater amount—that prescribed amount.
- (3) For the purposes of subsection (1), disregard so much of the amount of an estimate for an infrastructure project (the ***listed infrastructure project***) as relates to a part of the listed infrastructure project, if:
- (a) that part of the listed project is (or would be, were the provisional designation or designation mentioned in that subsection to occur):
    - (i) a \*provisionally designated infrastructure project; or
    - (ii) a \*designated infrastructure project; and
  - (b) the listed infrastructure project is included on an Infrastructure Priority List.
- Note: For Infrastructure Priority Lists, see paragraph 5(b) of the *Infrastructure Australia Act 2008*.

- (4) In this Act:

***infrastructure project capital expenditure:***

- (a) has the meaning given by the \*infrastructure project designation rules; or
- (b) if the infrastructure project designation rules do not give ***infrastructure project capital expenditure*** a meaning—means capital expenditure.

## **415-80 Acceptance of estimates of infrastructure project capital expenditure**

*Acceptance of estimates*

- (1) The \*Infrastructure CEO must, by instrument in writing, accept the estimate of \*infrastructure project capital expenditure if the following conditions are satisfied:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 415-80

---

- (a) the conditions prescribed by the \*infrastructure project designation rules;
- (b) if the infrastructure project designation rules do not prescribe any conditions—in the opinion of the Infrastructure CEO, the estimate is acceptable.

*Revocation of instruments of acceptance*

- (2) The \*Infrastructure CEO must not revoke the instrument of acceptance if the infrastructure project is a \*designated infrastructure project.
- (3) Subject to subsection (2), the \*Infrastructure CEO must, by instrument in writing, revoke the instrument of acceptance in the circumstances prescribed by the \*infrastructure project designation rules. The Infrastructure CEO must not revoke the instrument in any other circumstances.
- (4) Without limiting subsection (3), the circumstances the \*infrastructure project designation rules may prescribe for the purposes of that subsection include:
  - (a) circumstances involving a failure by a prescribed entity to give prescribed information to the \*Infrastructure CEO; and

- (5) The \*infrastructure project designation rules must prescribe matters to which the \*Infrastructure CEO must have regard in requesting the applicant to amend the estimate, if the infrastructure project designation rules provide for the Infrastructure CEO to make such requests as mentioned in paragraph (4)(b).
- (6) If:
  - (a) the \*infrastructure project designation rules provide for the \*Infrastructure CEO to request the applicant to amend the estimate; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the applicant amends the estimate in accordance with such a request;  
the acceptance is treated, from the time the amendment is made, as being an acceptance of the amended estimate.

### Guide to Division 417

#### 417-1 What this Division is about

This Division alters the operation of this Act on several topics (outlined in the table of Subdivisions above) to address how the Timor Sea Maritime Boundaries Treaty could affect the tax treatment, under Australian income tax law, of entities that undertake petroleum activities in the affected area.

### Subdivision 417-A—Introduction

#### Table of sections

417-5	Object
417-10	Meaning of <i>transitioned petroleum activities</i>

#### 417-5 Object

The object of this Division is to give effect to Australia's obligations under the \*Timor Sea Maritime Boundaries Treaty to provide, in relation to \*transitioned petroleum activities, equivalent

tax treatment to the tax treatment previously applying in relation to those activities.

**417-10 Meaning of *transitioned petroleum activities***

- (1) ***Transitioned petroleum activities*** are petroleum activities (within the meaning of the \*Timor Sea Maritime Boundaries Treaty) that are undertaken:
- (a) pursuant to the terms of any of the following \*production sharing contracts:
    - (i) Production Sharing Contract JPDA 03-12;
    - (ii) Production Sharing Contract JPDA 03-13;
    - (iii) Production Sharing Contract JPDA 06-105;
    - (iv) Production Sharing Contract JPDA 11-106; or
  - (b) pursuant to the terms of a production sharing contract that:
    - (i) comes into force after, or when, that treaty entered into force; and
    - (ii) has the effect of replacing, and relates to the same area as, a production sharing contract mentioned in paragraph (a); or
  - (c) in a part of the \*Petroleum Exploration Permit WA-523-P permit area that, as a result of that treaty entering into force, ceased to be within the continental shelf of Australia.

Note: This part of the Petroleum Exploration Permit WA-523-P permit area includes the Buffalo Oil Field.

- (2) The ***Petroleum Exploration Permit WA-523-P permit area*** is the area that, just before the \*Timor Sea Maritime Boundaries Treaty entered into force, was the subject of Petroleum Exploration Permit WA-523-P, granted under Part 2.2 of the *Offshore Petroleum and Greenhouse Gas Storage Act 2006* on 27 May 2016.

**Table of sections**

417-25 Deducting amounts for depreciating assets

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- 417-30 Balancing adjustments
- 417-35 Allocating assets to a project pool
- 417-40 Deduction for expenditure on mining site rehabilitation
- 417-45 Capital expenditure
- 417-50 Transferring entitlement to deductions relating to a project pool

### **417-25 Deducting amounts for depreciating assets**

- (1) If:
- (a) you use a \*depreciating asset, or you have it \*installed ready for use, for a purpose of undertaking \*transitioned petroleum activities; and
  - (b) before the \*Timor Sea Maritime Boundaries Treaty entered into force, you or another entity used the asset, or you or another entity had it installed ready for use, for a purpose of undertaking transitioned petroleum activities;
- to the extent that you use the asset, or you have it installed ready for use, for that purpose, you are taken to use the asset, or to have it installed ready for use, entirely for a \*taxable purpose.
- (2) For the purposes of subsection 40-25(2), if:
- (a) you can deduct an amount for a decline in value of the asset; and
  - (b) apart from subsection (1), you would not be able to deduct an amount, or would only be able to deduct a lesser amount, for that decline in value; and
  - (c) the \*transitioned petroleum activities are wholly or partly undertaken, or to be undertaken, in relation to the \*JPDA;
- to the extent that the activities are so undertaken, or so to be undertaken, the part of the asset's decline in value that is attributable to your use of the asset, or your having it \*installed ready for use, for a \*taxable purpose is reduced to 10% of what it would be apart from this subsection.
- (3) For the purposes of Subdivision 40-C, if:
- (a) you can deduct an amount for a decline in value of the asset; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 417-30

---

- (b) apart from subsection (1), you would not be able to deduct an amount, or would only be able to deduct a lesser amount, for that decline in value;

in working out the second element of the \*cost of the asset, disregard any amount that you pay, and any expenditure that you incur, on or after the day on which the \*Timor Sea Maritime Boundaries Treaty entered into force.

**417-30 Balancing adjustments**

- (1) If:
- (a) before the \*Timor Sea Maritime Boundaries Treaty entered into force, you \*held a \*depreciating asset that you used, or had \*installed ready for use, for a purpose of undertaking \*transitioned petroleum activities; and
  - (b) you stopped holding the asset when that treaty entered into force, because the asset ceased to exist at that time; and
  - (c) the cessation occurred in connection with the entry into force of that treaty;
- the cessation is taken, for the purposes of this Act, not to be a \*balancing adjustment event.

- (2) Section 40-285 does not apply in relation to a \*depreciating asset you \*held if:
- (a) before the \*Timor Sea Maritime Boundaries Treaty entered into force, you or another entity used the asset, or you or another entity had it \*installed ready for use, for a purpose of undertaking \*transitioned petroleum activities; and
  - (b) on or after the day on which that treaty entered into force, a \*balancing adjustment event occurs for the asset.

Note: The effect of this subsection is to prevent an amount being included in your assessable income, or a deduction arising, because of a balancing adjustment event. The balancing adjustment event still occurs, so the operation of a section such as section 118-24 is unaffected.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

- (3) It does not matter, for the purposes of paragraph (2)(a), whether the asset is also used, or \*installed ready for use, for a purpose other than the purpose of undertaking \*transitioned petroleum activities.
- (4) If, as a result of the \*balancing adjustment event mentioned in paragraph (2)(b), another entity \*holds the asset, the \*cost of the asset to the other entity is taken to be the asset's \*adjustable value to you just before the balancing adjustment event occurs.

#### **417-35 Allocating assets to a project pool**

- (1) You may choose to allocate to a project pool all the \*depreciating assets (the *pooled assets*) that:
  - (a) you \*held when the \*Timor Sea Maritime Boundaries Treaty entered into force; and
  - (b) before that treaty entered into force, you used, or had \*installed ready for use, for a purpose of undertaking \*transitioned petroleum activities.
- (2) You must choose by the day you lodge your \*income tax return for the income year (the *initial income year*) in which that treaty entered into force.
- (3) The choice is irrevocable.
- (4) If you make the choice, for the purposes of Division 40 and section 417-30:
  - (a) the pooled assets are taken to be a single \*depreciating asset that you \*hold; and
  - (b) the single asset is taken to be used, or \*installed ready for use, for the same purpose as the purpose for which the pooled assets were used, or installed ready for use, when the \*Timor Sea Maritime Boundaries Treaty entered into force; and
  - (c) the \*cost of the single asset is taken to be an amount equal to the sum of the \*adjustable values of all of the pooled assets when that treaty entered into force; and
  - (d) the decline in value of the single asset is taken to be:
    - (i) for the initial income year—40% of its cost; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 417-40

---

- (ii) for the next income year—40% of its cost; and
  - (iii) for the income year after that next income year—20% of its cost; and
  - (e) a \*balancing adjustment event cannot occur for the single asset; and
  - (f) a \*CGT event cannot occur for the single asset; and
  - (g) amounts are not deductible, by you or any other entity, for declines in value of any of the assets allocated to the pool for:
    - (i) the part of the initial income year occurring on or after the entry into force of that treaty; or
    - (ii) any subsequent income year.
- (5) The transfer of a pooled asset to another entity does not affect the operation of subsection (4) in relation to the single asset.

**417-40 Deduction for expenditure on mining site rehabilitation**

- (1) You can deduct, for an income year, 10% of expenditure on \*mining site rehabilitation that you incur in that year if the rehabilitation relates to the undertaking (by you or another entity) of \*transitioned petroleum activities in relation to the \*JPDA.
- (2) However, expenditure on these things is not deductible under this section:
  - (a) acquiring land or an interest in land or a right, power or privilege to do with land;
  - (b) a bond or security, however described, for performing \*mining site rehabilitation;
  - (c) \*housing and welfare.

**417-45 Capital expenditure**

- (1) For the purposes of section 40-835, if:
  - (a) a \*project amount was allocated to a project pool before the \*Timor Sea Maritime Boundaries Treaty entered into force; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the project amount was expenditure for a purpose of undertaking \*transitioned petroleum activities in relation to the \*JPDA;  
to the extent that the operation of the project in an income year relates to that expenditure, 10% of the project is taken to operate, in the year, for a \*taxable purpose.
- (2) For the purposes of section 40-835, if:
- (a) a \*project amount was allocated to a project pool before the \*Timor Sea Maritime Boundaries Treaty entered into force; and
- (b) the project amount was expenditure for a purpose of undertaking \*transitioned petroleum activities otherwise than in relation to the \*JPDA;  
to the extent that the operation of the project in an income year relates to that expenditure, the project is taken to operate, in the year, for a \*taxable purpose.
- (3) If subsection (1) or (2) applies to one or more \*project amounts allocated to a project pool, for the income year (the *initial income year*) in which the \*Timor Sea Maritime Boundaries Treaty entered into force or a later income year, calculate your deduction under section 40-830 or 40-832 for the project pool as follows:
- (a) calculate the amount of the deduction as if none of those project amounts had been allocated to the project pool;
- (b) add to that amount the following:
- (i) for the initial income year—40% of the sum of those project amounts;
- (ii) for the next income year—40% of that sum;
- (iii) for the income year after that next income year—20% of that sum.

### **417-50 Transferring entitlement to deductions relating to a project pool**

- (1) You may choose to transfer, to a \*corporate tax entity, either or both of the following:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 417-50

---

- (a) all or part of your entitlement to deductions under Division 40 in relation to the declines in value of the single asset mentioned in subsection 417-35(4) (including future declines in value but not including declines in value that have already been deducted under that Division);
  - (b) all or part of so much of your entitlement to deductions under section 40-830 or 40-832 as arises because of the operation of section 417-45.
- (2) The choice:
- (a) must be in the \*approved form; and
  - (b) must be made no later than the day you lodge your \*income tax return for the first income year for which all or part of your entitlement is to be transferred.
- (3) The choice cannot be revoked.
- (4) Only one choice can be made under this section in relation to the same part of the entitlement.
- (5) If you choose under this section to transfer to another entity all or part of your entitlement:
- (a) the other entity can make deductions arising from that entitlement or part; and
  - (b) at the time of the choice, a \*franking credit arises in the \*franking account of the other entity; and
  - (c) you can no longer make deductions arising from that entitlement or part.
- (6) The amount of the \*franking credit under paragraph (5)(b) is an amount equal to the amount of the deduction transferred multiplied by the standard corporate tax rate (within the meaning of Part IVA of the *Income Tax Assessment Act 1936*).

the ending of your ownership is not a \*CGT event.

### **417-90 Tax losses from transitioned petroleum activities**

*Transferring tax losses attributable to activities undertaken before the Timor Sea Maritime Boundaries Treaty entered into force*

- (1) If:
- (a) you have a \*tax loss for the income year in which the \*Timor Sea Maritime Boundaries Treaty entered into force, or for an earlier income year; and
  - (b) some or all of the tax loss is attributable to you undertaking \*transitioned petroleum activities before that treaty entered into force;

you may, for that income year or a later income year, choose to transfer all or any part of the amount of the tax loss that is so attributable to a \*corporate tax entity (the *transferee*) that is your \*associate and either is an Australian resident or has a \*permanent establishment in Australia.

*Transferring or applying other tax losses*

- (2) If:
- (a) you have a \*tax loss for an income year (the *loss year*); and
  - (b) some or all of the tax loss is attributable to you undertaking \*transitioned petroleum activities; and
  - (c) paragraph (1)(b) does not apply to those activities;
- you may, for that income year or a later income year:

Section 417-90

---

- (d) choose to transfer all or any part of the amount of the tax loss that is so attributable to a \*corporate tax entity (the *transferee*) that either is an Australian resident or has a \*permanent establishment in Australia; or
  - (e) choose to apply all or any part of the amount of the tax loss that is so attributable as a deduction from your assessable income for any of the 4 income years preceding the income year for which you make the choice.
- (3) However:
- (a) the total amount chosen to be transferred or applied under subsection (2) for an income year must not exceed 10% of the total amount:
    - (i) on which your liability for \*foreign income tax under the law of Timor-Leste is required to be worked out; and
    - (ii) that relates to undertaking those \*transitioned petroleum activities during that year; and
  - (b) you cannot make a choice under paragraph (2)(e) for an income year if you do not have a \*franking surplus at the end of that year; and
  - (c) the total amount chosen to be applied under paragraph (2)(e) for an income year must not exceed the sum of:
    - (i) the amount of your franking surplus at the end of that year; and
    - (ii) the product of the amount of that surplus and the \*corporate tax gross-up rate.
- (4) In working out for the purposes of paragraph (3)(a) the total amount chosen to be transferred or applied under subsection (2) for an income year, disregard:
- (a) any part of the \*tax loss attributable to deductions for assets allocated to a project pool under section 417-35; and
  - (b) any part of the \*tax loss attributable to deductions for assets allocated to a project pool under Subdivision 40-I, to the extent that the deductions relate to \*project amounts to which subsection 417-45(1) or (2) applies.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (5) In working out for the purposes of paragraph (3)(a) the total amount on which your liability for \*foreign income tax under the law of Timor-Leste is required to be worked out, disregard the amounts of any deductions for tax paid under the law of Timor-Leste.
- (6) Paragraphs (3)(b) and (c) do not apply if you were a foreign resident (other than a \*NZ franking company) for more than half of the income year for which the choice was made.

#### **417-95 How choices are made**

- (1) A choice under section 417-90:
  - (a) must be in the \*approved form; and
  - (b) must be made no later than:
    - (i) the day you lodge your \*income tax return for the income year for which the choice is made; or
    - (ii) a later time allowed by the Commissioner; and
  - (c) must be given to the Commissioner within 30 days after you make the choice.
- (2) The choice cannot be revoked.
- (3) Only one choice can be made under this Subdivision in relation to the same part of a \*tax loss.

#### **417-100 The effect of choosing to transfer losses**

- (1) If you choose under this Subdivision to transfer an amount of a \*tax loss for an income year (the *loss year*):
  - (a) the amount is taken to be a tax loss incurred by the transferee in the loss year; and
  - (b) the transferee can deduct the amount in accordance with section 36-17 (which is about how to deduct a tax loss); and
  - (c) at the time of the choice, a \*franking credit arises in the \*franking account of the transferee; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Section 417-105**

---

- (d) you can no longer \*utilise the amount, and you are taken not to have incurred the tax loss to the extent of the amount.
- (2) Despite paragraph (1)(a), if the loss year is the same as the income year of the transfer, the transferee is taken to have incurred the \*tax loss in the income year before the loss year.
- Note: This rule is needed because Division 36 allows a tax loss to be deducted only if it was incurred in an earlier income year.
- (3) The amount of the \*franking credit under paragraph (1)(c) is an amount equal to the amount of the \*tax loss transferred multiplied by the standard corporate tax rate (within the meaning of Part IVA of the *Income Tax Assessment Act 1936*).
- (4) Paragraph (1)(c) does not apply if you are not, and have never been, a \*corporate tax entity.

**417-105 The effect of choosing to apply losses to earlier income years**

If you choose under this Subdivision to apply an amount of a \*tax loss for an income year as a deduction from your assessable income for an earlier income year:

- (a) you can deduct the amount from your assessable income for the earlier income year; and
- (b) you can no longer \*utilise the amount, and you are taken not to have incurred the tax loss to the extent of the amount.

**417-110 Continuity of ownership and business continuity tests**

Section 165-10 does not apply to a \*tax loss that meets the requirements of:

- (a) paragraphs 417-90(1)(a) and (b); or
- (b) paragraphs 417-90(2)(a) and (b).

## **Division 418—Exploration for minerals**

418-B	Junior minerals exploration incentive tax offset
418-C	Junior minerals exploration incentive franking credit
418-D	Creating exploration credits
418-DA	Exploration credits allocation
418-E	Issuing exploration credits
418-F	Excess exploration credits
418-G	Other matters

### **Guide to Division 418**

#### **418-1 What this Division is about**

Generally, you are entitled to a tax offset for an income year for exploration credits issued to you for the income year.

A greenfields minerals explorer can create exploration credits for an income year. Before creating exploration credits, the explorer must obtain an allocation of exploration credits from the Commissioner for the year. Exploration credits cannot be created for the 2025-26 income year or later income years.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

Section 418-1

---

The exploration credits created for an income year cannot exceed an amount based on the explorer's greenfields minerals expenditure or tax loss for the year. If the explorer's exploration credits allocation for the year is smaller than that amount, the amount of exploration credits that the explorer can create will be reduced to sit within the allocation. However, any unused allocation of exploration credits from the preceding year generally would be carried over and so would increase the amount of exploration credits that the explorer can create.

An exploration credit created by a greenfields minerals explorer can be issued to you if you have invested in the explorer. While the tax offset you receive for the exploration credit issued to you for an income year will apply to that income year generally, the investment that gives rise to that offset may have been made in that or the preceding income year.

There are rules to ensure that exploration credits are not streamed to some investors rather than others. There are also rules to ensure that the total of the exploration credits you receive because of an investment (whether those credits are issued to you for the year in which you invest or the subsequent year) do not exceed the corporate tax that might be paid by the greenfields minerals explorer on that investment.

The explorer is liable to pay excess exploration credit tax if the explorer issues exploration credits in breach of these rules.

There is a cap on total allocations made by the Commissioner for each income year, but if part of the cap from the preceding year is unallocated it generally will be carried over. Allocations are made in the order in which applications for an allocation are made.

If an exploration credit is issued to a corporate tax entity, it will give rise to a franking credit (rather than a tax offset).

Note: Excess exploration credit tax is imposed by the *Excess Exploration Credit Tax Act 2015*, and the amount of the tax is set out in that Act.

- (ii) such other document as the regulations prescribe; and
- (d) that is not, and is not in, any of the following:
  - (i) the coastal sea of Australia (within the meaning of subsection 15B(4) of the *Acts Interpretation Act 1901*);
  - (ii) an area referred to in subsection 960-505(2).
- (4) For the purposes of paragraph (3)(c), disregard any mineral resource, identified in a report of a kind referred to in that paragraph, that does not include \*minerals the \*exploration or prospecting for which involved:
  - (a) use of assets referred to in paragraph (1)(a); or
  - (b) expenditure referred to in paragraph (1)(b).
- (5) The Commissioner may request an entity that is a \*greenfields minerals explorer in an income year to prepare, within the period specified in the request, a report that:
  - (a) is of the kind referred to in paragraph (3)(c); and
  - (b) relates to an area in relation to which the entity has \*greenfields minerals expenditure for the income year.The request may specify the manner in which, and the form in which, the report is to be prepared.

#### **418-81 Meaning of *exploration credits allocation* for an income year**

- (1) An entity has an ***exploration credits allocation*** for an income year if the Commissioner makes a determination under section 418-101 allocating the entity \*exploration credits for the income year.
- (2) The amount of the entity's ***exploration credits allocation*** for the income year is the amount of \*exploration credits allocated to the entity under the determination.

Section 418-82

---

- (2A) However, if no \*exploration investment is made in the entity in the income year, the amount of the entity's **exploration credits allocation** for the income year is nil.

Note: The entity must notify the Commissioner if no exploration investment is made in the entity in the income year: see section 418-135.

- (3) If no determination is made allocating \*exploration credits to the entity for the income year, the amount of the entity's **exploration credits allocation** for the year is nil.

**418-82 When does an entity have an *unused allocation of exploration credits* from an income year**

- (1) An entity has an **unused allocation of exploration credits** from an income year if each of the following:
- (a) the entity's \*exploration credits allocation for the income year;
  - (b) the total credits issue for investment in the entity for the income year;
- exceeds the total amount of all \*exploration credits created by the entity for the income year.
- (2) The amount of the **unused allocation of exploration credits** from the income year is the lesser of:
- (a) the amount by which the amount mentioned in paragraph (1)(a) exceeds the total amount of all \*exploration credits created by the entity for the income year; and
  - (b) the amount by which the amount mentioned in paragraph (1)(b) exceeds the total amount of all \*exploration credits created by the entity for the income year.
- (3) If neither the amount mentioned in paragraph (1)(a) nor (1)(b) exceeds the total amount of all \*exploration credits created by the entity for the income year, there is **no unused allocation of exploration credits** from the income year, and the amount of any **unused allocation of exploration credits** from the income year is nil.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(3A) Despite subsections (1) and (2), the entity cannot have an ***unused allocation of exploration credits*** from the 2020-21 income year.

(4) In this section:

***total credits issue for investment*** in the entity (the ***minerals explorer***) for an income year means the total of all \*exploration credits that may be issued by the minerals explorer to all other entities in relation to \*exploration investment made by those other entities in the minerals explorer in the income year if section 418-120 is complied with.

#### **418-85 Exploration credits must not exceed maximum exploration credit amount**

- (1) An entity must not create \*exploration credits for an income year of a total amount that exceeds the entity's \*maximum exploration credit amount for the income year.
- (2) An entity's ***maximum exploration credit amount*** for an income year (the ***credit year***) is the smallest of the following amounts:
  - (a) the entity's \*greenfields minerals expenditure for the credit year multiplied by the entity's \*corporate tax rate for the credit year;
  - (b) the entity's \*tax loss for the credit year multiplied by the entity's corporate tax rate for the credit year;
  - (c) the sum of:
    - (i) the entity's \*exploration credits allocation for the credit year; and
    - (ii) the entity's \*unused allocation of exploration credits from the income year immediately preceding the credit year.

Note: The entity cannot have an unused allocation of exploration credits from the 2020-21 income year: see subsection 418-82(3A).

- (3) In working out the entity's \*greenfields minerals expenditure for the credit year for the purposes of paragraph (2)(a), reduce that greenfields minerals expenditure by the sum of:

---

Section 418-85

---

- (a) all \*recoupments that the entity receives in relation to the entity's greenfields minerals expenditure for the credit year; and
- (b) if:
  - (i) an amount has been included in the entity's assessable income because a \*balancing adjustment event occurs for a \*depreciating asset; and
  - (ii) all or part of the amount of the deduction to which the entity is entitled under section 40-25 for the credit year in relation to the decline in value of the asset is included in the entity's greenfields minerals expenditure for that year;  
so much of the amount of that deduction as was included in that greenfields minerals expenditure.
- (4) In working out the entity's \*tax loss for the credit year for the purposes of paragraph (2)(b), reduce that tax loss by the sum of:
  - (a) all \*recoupments that the entity receives in relation to the entity's \*greenfields minerals expenditure for the credit year; and
  - (b) any part of the entity's tax loss for the credit year that would not be deductible in the income year immediately following the credit year; and
  - (c) if:
    - (i) an amount has been included in the entity's assessable income because a \*balancing adjustment event occurs for a \*depreciating asset; and
    - (ii) all or part of the amount of the deduction to which the entity is entitled under section 40-25 for the credit year in relation to the decline in value of the asset is included in the entity's greenfields minerals expenditure for that year;  
so much of the amount of that deduction as was included in that greenfields minerals expenditure.
- (5) For the purposes of paragraph (4)(b), assume that the entity's assessable income for the income year immediately following the

credit year is sufficient to allow the entity to utilise the whole of that \*tax loss in relation to the credit year.

- (6) A failure to comply with this section does not invalidate the creation of an \*exploration credit.

#### **418-95 Effect on tax losses of creating exploration credits**

- (1) If an entity creates any \*exploration credits for a \*loss year, the amount of the entity's \*tax loss for the loss year is reduced by the amount worked out as follows:

$$\frac{\text{The sum of all the *exploration credits the entity creates for the *loss year}}{\text{The entity's *corporate tax rate for the loss year}}$$

- (2) However, if the amount worked out under subsection (1) equals or exceeds what would (apart from this section) be the entity's \*tax loss for the \*loss year, that tax loss is taken to be nil.

- (2) The application must be made within 1 month before the start of the \*financial year corresponding to the income year for which the allocation is sought.
- (3) The application must:
  - (a) be \*lodged electronically; and
  - (b) be in the \*approved form; and
  - (c) include an estimate of:
    - (i) the entity's \*greenfields minerals expenditure for the income year; and
    - (ii) the entity's \*tax loss for the income year; and
    - (iii) the entity's \*corporate tax rate for the income year.
- (4) The Commissioner must give the entity:
  - (a) if the Commissioner makes a determination under section 418-101—a copy of the determination; or
  - (b) if the Commissioner decides to refuse the application—notice of that decision.

**418-101 Determination by the Commissioner**

*Determination allocating exploration credits*

- (1) The Commissioner may make a written determination allocating \*exploration credits of an amount specified in the determination to an entity for an income year.

*Circumstances in which the Commissioner must not make a determination*

- (2) The Commissioner must not make a determination allocating \*exploration credits to an entity for an income year if the Commissioner is not satisfied that:
  - (a) there is a reasonable possibility that the entity will have:
    - (i) \*greenfields minerals expenditure of the amount estimated by the entity in the application, or greater; and

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) a \*tax loss of the amount estimated by the entity in the application, or greater; and
  - (iii) the \*corporate tax rate estimated by the entity in the application; and
- (b) the entity meets any other requirement prescribed under the regulations.

*Amount of the exploration credits allocated*

- (3) The amount of the \*exploration credits specified in the determination must be the smallest of the following amounts:
- (a) the entity's estimated \*greenfields minerals expenditure for the income year multiplied by the entity's estimated \*corporate tax rate for the income year;
  - (b) the entity's estimated \*tax loss for the income year multiplied by the entity's estimated corporate tax rate for the income year;
  - (c) either:
    - (i) 5% of an amount equal to the \*annual exploration cap for the income year; or
    - (ii) if another amount, or a method for working out another amount, is prescribed—the other amount.

*Determination not a legislative instrument*

- (4) A determination made under subsection (1) is not a legislative instrument.

**418-102 General allocation rules**

- (1) The total amount of \*exploration credits allocated to entities for an income year by the Commissioner must not exceed the \*annual exploration cap for the year.
- (2) The Commissioner must consider applications for \*exploration credits from entities for an income year in the order in which the Commissioner receives the applications.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 418-103

---

- (3) If the Commissioner receives more than one application at the same time, the Commissioner may decide the order in which the Commissioner considers the applications.
- (4) If the Commissioner would contravene this section by allocating \*exploration credits to an entity for an income year of an amount worked out under subsection 418-101(3) then, despite that subsection, the amount of exploration credits allocated to that entity for the income year is to be the difference between the \*annual exploration cap for the year and the total amount of exploration credits already allocated to other entities for the year.

**418-103 Meaning of *annual exploration cap***

- (1) The *annual exploration cap* for an income year is the following amount:
  - (a) for the 2017-18 income year—\$15 million;
  - (b) for the 2018-19 income year—\$25 million, plus the \*exploration credits remainder for the immediately preceding income year;
  - (c) for the 2019-20 income year—\$30 million, plus the exploration credits remainder for the immediately preceding income year and any other amount prescribed for the purposes of this paragraph;
  - (d) for the 2020-21 income year—\$30 million, plus the exploration credits remainder for the immediately preceding income year and any other amount prescribed for the purposes of this paragraph;
  - (e) for the 2021-22 income year—\$25 million;
  - (f) for the 2022-23 income year—\$25 million, plus the exploration credits remainder for the immediately preceding income year;
  - (g) for the 2023-24 income year—\$25 million, plus the exploration credits remainder for the immediately preceding income year and any other amount prescribed for the purposes of this paragraph;

- (h) for the 2024-25 income year—\$25 million, plus the exploration credits remainder for the immediately preceding income year and any other amount prescribed for the purposes of this paragraph.
- (2) If the total amount of \*exploration credits allocated by the Commissioner for an income year is less than the \*annual exploration cap for the year, the difference is the **exploration credits remainder** for the income year.

#### **418-104 Failure to comply with this Subdivision does not affect allocation**

A failure by the Commissioner to comply with this Subdivision does not invalidate a determination allocating \*exploration credits to an entity for an income year.

- (2) The \*exploration credit issued to the investor for the income year may relate to:
- (a) \*exploration investment made by the investor in the minerals explorer in the income year; or
  - (b) exploration investment made by the investor in the minerals explorer in the immediately preceding income year.
- However, this rule is subject to the limitations imposed under sections 418-115, 418-116 and 418-120.
- (3) An \*exploration credit is issued to an entity by giving the entity a statement in the \*approved form.

**418-111 Working out whether an *exploration investment* has been made in an income year**

- (1) An entity (the *investor*) makes an *exploration investment* in another entity (the *minerals explorer*) in an income year if:
- (a) \*shares in the minerals explorer are issued to the investor by the minerals explorer:
    - (i) on or after the day on which the Commissioner makes a determination under section 418-101 allocating \*exploration credits to the minerals explorer for the income year; and

  - (b) those shares are \*equity interests.
- (2) The amount of the *exploration investment* made by the investor in the minerals explorer in the income year is equal to the total amount paid up by the investor on the shares during the period mentioned in paragraph (1)(a).

following by identifying whether scenario 1, 2 or 3 applies, and applying the rules for that scenario:

- (a) whether the minerals explorer can issue an exploration credit to another entity in relation to \*exploration investment made by the other entity in the minerals explorer in the credit year;
- (b) whether the minerals explorer can issue an exploration credit to another entity in relation to exploration investment made by the other entity in the minerals explorer in the income year immediately preceding the credit year (the *preceding year*);
- (c) the pool of exploration credits from which an exploration credit may be issued to another entity in relation to exploration investment made by the other entity in the minerals explorer in the credit year (this is called the *issue pool* for exploration investment made in the minerals explorer in the credit year);
- (d) the pool of exploration credits from which an exploration credit may be issued to another entity in relation to exploration investment made by the other entity in the minerals explorer in the preceding year (this is called the *issue pool* for exploration investment made in the minerals explorer in the preceding year).

*Scenario 1—no unused allocation of exploration credits from the preceding year*

- (2) If there is no \*unused allocation of exploration credits from the preceding year:
  - (a) \*exploration credits can be issued to another entity in relation to \*exploration investment made by the other entity in the minerals explorer in the credit year; and
  - (b) no exploration credits can be issued to another entity in relation to exploration investment made by the other entity in the minerals explorer in the preceding year.
- (3) In this scenario:

Section 418-115

---

- (a) the *issue pool* for \*exploration investment made in the minerals explorer in the credit year is equal to the total amount of \*exploration credits created by the minerals explorer for the credit year; and
- (b) the *issue pool* for exploration investment made in the minerals explorer in the preceding year is nil.

*Scenario 2—exploration credits for the credit year exceed unused allocation of exploration credits from the preceding year*

- (4) If the amount of the \*exploration credits created by the minerals explorer for the credit year is more than the \*unused allocation of exploration credits from the preceding year:
  - (a) exploration credits can be issued to another entity in relation to \*exploration investment made by the other entity in the minerals explorer in the credit year; and
  - (b) exploration credits can be issued to another entity in relation to exploration investment made by the other entity in the minerals explorer in the preceding year.
- (5) In this scenario:
  - (a) the *issue pool* for \*exploration investment made in the minerals explorer in the credit year is equal to the difference between the \*unused allocation of exploration credits from the preceding year and the total amount of \*exploration credits created by the minerals explorer for the credit year; and
  - (b) the *issue pool* for exploration investment made in the minerals explorer in the preceding year is equal to the unused allocation of exploration credits from the preceding year.
- (6) However, no \*exploration credit can be issued to another entity in relation to \*exploration investment made by the entity in the minerals explorer in the credit year unless the \*issue pool for exploration investment in the preceding year is exhausted.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Scenario 3—exploration credits for the credit year are equal to or less than the unused allocation of exploration credits from the preceding year*

- (7) If the amount of the \*exploration credits created by the minerals explorer for the credit year is equal to or less than the \*unused allocation of exploration credits from the preceding year:
- (a) no exploration credits can be issued to another entity in relation to \*exploration investment made by the entity in the minerals explorer in the credit year; and
  - (b) exploration credits can be issued to another entity in relation to exploration investment made by the other entity in the minerals explorer in the preceding year.
- (8) In this scenario:
- (a) the **issue pool** for \*exploration investment made in the minerals explorer in the credit year is nil; and
  - (b) the **issue pool** for exploration investment made in the minerals explorer in the preceding year is equal to the total amount of \*exploration credits created by the minerals explorer for the credit year.

#### **418-116 Exploration credits issued must be in proportion to exploration investment**

If an \*exploration credit is issued by an entity (the **minerals explorer**) for an income year to another entity (the **investor**) in relation to \*exploration investment made by the investor in the minerals explorer in an income year (the **investment year**):

- (a) the proportion of the \*issue pool for exploration investment made in the minerals explorer in the investment year that is issued to the investor as an exploration credit must be the same as the proportion of the total exploration investment in the minerals explorer in the investment year that is represented by the investor's exploration investment in the minerals explorer in the investment year; and

---

- (b) the minerals explorer must issue an exploration credit to every entity who made an exploration investment in the minerals explorer in the investment year.

**418-120 The total of all exploration credits issued in relation to exploration investment**

The total amount of all \*exploration credits issued by an entity (the *minerals explorer*) to another entity (the *investor*) in relation to \*exploration investment made by the investor in the minerals explorer in an income year (the *investment year*) must not exceed the amount worked out using the following formula:

$$\frac{\text{The *corporate tax rate for the minerals explorer for the investment year}}{\text{The amount of the investor's *exploration investment in the minerals explorer in the investment year}} \times \text{*exploration investment in the minerals explorer in the investment year}$$

**418-125 Expiry of exploration credits**

An \*exploration credit created by an entity for an income year (the *credit year*) expires if the entity does not issue the credit under this Subdivision on or before 30 June in the financial year that corresponds to the income year that immediately follows the credit year.

**418-130 Notifying the Commissioner of issuing or expiry of exploration credits**

- (1) An entity that has created \*exploration credits for an income year (the *credit year*) must notify the Commissioner of the issuing or expiry of the credits.
- (2) The notice must:
  - (a) be in the \*approved form; and
  - (b) be given to the Commissioner on or before the due date:

- (ii) otherwise—for the entity to lodge its \*income tax return for the income year that immediately follows the credit year.

### **418-135 Notifying the Commissioner if no exploration investment in income year for which credits allocated**

- (1) An entity must notify the Commissioner if:
  - (a) the Commissioner has made a determination under section 418-101 allocating the entity \*exploration credits for an income year; and
  - (b) no \*exploration investment is made in the entity in the income year.
- (2) The notice must:
  - (a) be in the \*approved form; and

Section 418-150

---

**418-150 Excess exploration credit tax**

An entity is liable to pay \*excess exploration credit tax for an income year if the sum of the \*exploration credits it issues for the income year exceeds the amount worked out under section 418-151 for the income year (the **complying exploration credit amount**).

Note: The tax is imposed by the *Excess Exploration Credit Tax Act 2014*, and the amount of the tax is set out in that Act.

**418-151 Complying exploration credit amount**

- (1) The complying exploration credit amount (which may be nil) for an income year is worked out by:
- (a) starting with the sum of the \*exploration credits the entity issues for the income year; and
  - (b) subtracting from the result of paragraph (a) the sum of any of those exploration credits covered by subsection (2); and
  - (c) if the result of paragraph (b) exceeds the entity's \*maximum exploration credit amount for the income year—subtracting from that result the amount of the excess.

Note: The complying exploration credit amount is the sum of issued exploration credits that were issued (and created) in compliance with this Division. A liability arises under section 418-150 if the sum of all issued exploration credits exceeds this amount.

- (2) This subsection covers an \*exploration credit to the extent to which either or both of the following apply to the credit:
- (a) the credit was issued in contravention of a requirement in this Division;
  - (b) the credit was created in contravention of a requirement in Subdivision 418-D (other than section 418-85).

Note: Because the maximum exploration credit amount from section 418-85 is taken into account in paragraph (1)(c) of this section, it is disregarded here.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **418-155 Due date for payment of excess exploration credit tax**

An entity's \*excess exploration credit tax for an income year, as assessed under Schedule 1 to the *Taxation Administration Act 1953*, is due and payable at the end of the day by which the entity is required under section 418-160 to give the return relating to the income year.

Note: For assessments of excess exploration credit tax, see Division 155 in Schedule 1 to the *Taxation Administration Act 1953*.

### **418-160 Returns**

An entity that is liable to pay \*excess exploration credit tax for an income year (the *credit year*) must give the Commissioner a return relating to excess exploration credit tax, in the \*approved form, within 21 days after the end of the \*financial year corresponding to the income year that immediately follows the credit year.

### **418-165 When shortfall interest charge is payable**

An amount of \*shortfall interest charge that an entity is liable to pay is due and payable 21 days after the day on which the Commissioner gives the entity notice of the charge.

Note: Shortfall interest charge is imposed if the Commissioner amends an assessment and the amended assessment results in an increase in some tax payable. For provisions about liability for shortfall interest charge, see Division 280 in Schedule 1 to the *Taxation Administration Act 1953*.

### **418-170 General interest charge**

If:

- (a) \*excess exploration credit tax or \*shortfall interest charge payable by an entity remains unpaid after the time by which it is due and payable; and

Section 418-175

---

(b) the Commissioner has not allocated the unpaid amount to an \*RBA;

the entity is liable to pay the \*general interest charge on the unpaid amount for each day in the period that:

- (c) starts at the beginning of the day on which the excess exploration credit tax or shortfall interest charge was due to be paid; and
- (d) ends at the end of the last day on which, at the end of the day, any of the following remains unpaid:
  - (i) the excess exploration credit tax or shortfall interest charge;
  - (ii) general interest charge on any of the excess exploration credit tax or shortfall interest charge.

Note: The general interest charge is worked out under Part IIA of the *Taxation Administration Act 1953*.

**418-175 Refunds of amounts overpaid**

Section 172 of the *Income Tax Assessment Act 1936* applies for the purposes of this Division as if references in that section to tax included references to \*excess exploration credit tax.

**418-180 Record keeping**

Section 262A of the *Income Tax Assessment Act 1936* applies for the purposes of this Division as if:

- (a) the reference in that section to a person carrying on a business were a reference to a \*corporate tax entity; and
- (b) the reference in paragraph (2)(a) of that section to the person's income and expenditure were a reference to the entity's liability to pay \*excess exploration credit tax; and
- (c) paragraph (5)(a) of that section were omitted.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **418-185 Determining an entity not to be a greenfields minerals explorer**

- (1) The Commissioner may determine, by written notice given to an entity that is, or has been, liable to pay \*excess exploration credit tax for an income year, that the entity is no longer to be treated as a \*greenfields minerals explorer.
- (2) The determination takes effect from:
  - (a) if, at the time the notice is given, the entity has not issued any \*exploration credits for the income year (the *credit year*) immediately preceding the income year in which the notice is given—the credit year; or
  - (b) otherwise—the next income year.
- (3) If the entity or a \*member of the entity is dissatisfied with a determination under subsection (1), the entity or member may object to it in the manner set out in Part IVC of the *Taxation Administration Act 1953*.

### **Division 420—Registered emissions units**

#### **Table of Subdivisions**

	Guide to Division 420
420-A	Registered emissions units
420-B	Acquiring registered emissions units
420-C	Disposing of registered emissions units etc.
420-D	Accounting for registered emissions units you hold at the start or end of the income year
420-E	Exclusivity of Division

#### **Guide to Division 420**

##### **420-1 What this Division is about**

This Division deals with amounts you can deduct, and amounts included in your assessable income, because of these situations:

- you acquire a registered emissions unit;
- you hold a registered emissions unit at the start or the end of the income year;
- you dispose of a registered emissions unit.

Section 420-5

**420-5 The 4 key features of tax accounting for registered emissions units**

The purpose of income tax accounting for registered emissions units is to produce the same tax treatment, irrespective of your purpose in acquiring or holding the registered emissions units.

There are 4 key features:

- (1) You bring your gross expenditure and gross proceeds to account, not your net profits and losses on disposal of a registered emissions unit.
- (2) The gross expenditure is deductible.
- (3) The gross proceeds are assessable income.
- (4) You must bring to account any difference between the value of your registered emissions units held at the start and at the end of the income year. This is done in such a way that:
  - (a) any increase in value is included in assessable income; and
  - (b) any decrease in value is a deduction.

**Subdivision 420-A—Registered emissions units**

**Table of sections**

420-10	Meaning of <i>registered emissions unit</i>
420-12	Meaning of <i>hold</i> a registered emissions unit

**420-10 Meaning of *registered emissions unit***

A *registered emissions unit* is:

- (b) a \*Kyoto unit; or
- (d) an \*Australian carbon credit unit;

for which there is an entry in a Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*).

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

### **420-12 Meaning of *hold* a registered emissions unit**

- (1) You **hold** a \*registered emissions unit if you are the entity in whose Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) there is an entry for the unit.
- (2) However, if the entity (the **nominee entity**) in whose Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) there is an entry for a \*registered emissions unit holds the unit as nominee for another entity:
  - (a) the other entity is taken to **hold** the unit; and
  - (b) the nominee entity is taken not to hold the unit.

### **Subdivision 420-B—Acquiring registered emissions units**

#### **Table of sections**

420-15	What you can deduct
420-20	Non-arm's length transactions and transactions with associates
420-21	Incoming international transfers of emissions units
420-22	Becoming taxable in Australia on the proceeds of sale of registered emissions units

### **420-15 What you can deduct**

- (1) You can deduct expenditure to the extent that you incur it in becoming the \*holder of a \*registered emissions unit.

#### *Timing*

- (2) You deduct the expenditure in the income year in which you start to \*hold the \*registered emissions unit.

#### *Australian carbon credit units*

- (4) You cannot deduct under this section expenditure you incur in becoming the \*holder of an \*Australian carbon credit unit issued to you in accordance with the *Carbon Credits (Carbon Farming*

*Initiative) Act 2011* unless you incur the expenditure in preparing or lodging:

- (a) an application for a certificate of entitlement (within the meaning of that Act); or
- (b) an offsets report (within the meaning of that Act).

*No deduction if sale proceeds would not be assessable*

- (5) You cannot deduct under this section expenditure you incur in becoming the \*holder of a \*registered emissions unit if, assuming that you had sold the unit to someone else immediately after you started to \*hold the unit, the proceeds of the sale would not have been included in your assessable income under section 420-25.

Note: Under the *International Tax Agreements Act 1953*, for some foreign residents, the proceeds of the sale of a registered emissions unit are not assessable income in Australia.

**420-20 Non-arm's length transactions and transactions with associates**

- (1) If:
  - (a) an entity becomes the \*holder of a \*registered emissions unit; and
  - (b) either:
    - (i) the entity and the previous holder of the unit did not deal with each other at \*arm's length; or
    - (ii) the previous holder is the entity's \*associate; and
  - (c) the entity did not pay or give consideration equal to the \*market value of the unit for becoming the holder of the unit;the entity is treated as if:
  - (d) the entity had incurred expenditure in becoming the holder of the unit; and
  - (e) the amount of the expenditure were equal to that market value.
- (2) This section does not apply if a \*registered emissions unit \*held by an individual just before the individual's death:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) devolves to the individual's \*legal personal representative; or
  - (b) \*passes to a beneficiary in the individual's estate.
- (3) This section does not apply to the issue of an \*Australian carbon credit unit under the *Carbon Credits (Carbon Farming Initiative) Act 2011*.

#### **420-21 Incoming international transfers of emissions units**

*Unit held as trading stock or as a revenue asset*

- (1) If:
- (a) any of the following conditions is satisfied:
    - (iii) a \*Kyoto unit is transferred from your foreign account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) to your Registry account (within the meaning of that Act) or your nominee's Registry account (within the meaning of that Act);
    - (iv) a Kyoto unit is transferred from your nominee's foreign account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) to your Registry account (within the meaning of that Act) or your nominee's Registry account (within the meaning of that Act);
    - (v) an \*Australian carbon credit unit is transferred from your foreign account (within the meaning of the *Carbon Credits (Carbon Farming Initiative) Act 2011*) to your Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) or your nominee's Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*);
    - (vi) an Australian carbon credit unit is transferred from your nominee's foreign account (within the meaning of the *Carbon Credits (Carbon Farming Initiative) Act 2011*) to your Registry account (within the meaning of the *Australian National Registry of Emissions Units Act*

2011) or your nominee's Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*); and

- (b) as a result of the transfer, you start to \*hold the unit as a \*registered emissions unit; and
  - (c) just before the transfer, the unit was your \*trading stock or \*revenue asset;
- you are treated as if:
- (d) just before the transfer, you had sold the unit to someone else for its \*cost; and
  - (e) you had, immediately after the sale, bought it back as a registered emissions unit for the same amount.

Example: An Australian resident company carries on a business of trading in emissions units. The units are trading stock. The company owns 10,000 emission reduction units (a type of Kyoto unit) that are registered in New Zealand. 5,000 of those emission reduction units are transferred from the company's New Zealand registry account to the company's Australian registry account.

The company is treated as having sold each unit to someone else at its cost just before it became a registered emissions unit. As the unit was previously held as trading stock, the unit ceases to be trading stock (section 70-12). The cost of the unit just before it became a registered emissions unit is included in the company's assessable income.

The company is also treated as having bought 5,000 registered emissions units for the same amount. The company is entitled to a deduction for that amount (section 420-15).

*Unit held otherwise than as trading stock or as a revenue asset*

- (2) If:
- (a) any of the following conditions is satisfied:
    - (iii) a \*Kyoto unit is transferred from your foreign account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) to your Registry account (within the meaning of that Act) or your nominee's Registry account (within the meaning of that Act);
    - (iv) a Kyoto unit is transferred from your nominee's foreign account (within the meaning of the *Australian National*

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Registry of Emissions Units Act 2011*) to your Registry account (within the meaning of that Act) or your nominee's Registry account (within the meaning of that Act);

(v) an \*Australian carbon credit unit is transferred from your foreign account (within the meaning of the *Carbon Credits (Carbon Farming Initiative) Act 2011*) to your Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) or your nominee's Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*);

(vi) an Australian carbon credit unit is transferred from your nominee's foreign account (within the meaning of the *Carbon Credits (Carbon Farming Initiative) Act 2011*) to your Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) or your nominee's Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*); and

(b) as a result of the transfer, you start to \*hold the unit as a \*registered emissions unit; and

(c) just before the transfer, the unit was neither your \*trading stock nor your \*revenue asset;

you are treated as if:

(d) just before the transfer, you had sold the unit to someone else for its \*market value just before the transfer; and

(e) you had, immediately after the sale, bought it back as a registered emissions unit for the same amount.

#### **420-22 Becoming taxable in Australia on the proceeds of sale of registered emissions units**

If:

(a) you start to \*hold a \*registered emissions unit at a particular time; and

Section 420-22

---

- (b) assuming that you had sold the unit to someone else immediately after you started to hold the unit, the proceeds of the sale would not have been included in your assessable income under section 420-25; and
- (c) you hold the unit until a later time (the *taxable status commencement time*), where the following conditions are satisfied:
  - (i) assuming that you had sold the unit to someone else immediately before the taxable status commencement time, the proceeds of the sale would not have been included in your assessable income under section 420-25;
  - (ii) assuming that you had sold the unit to someone else at the taxable status commencement time, the proceeds of the sale would have been included in your assessable income under section 420-25;

you are treated as if:

- (d) immediately after the taxable status commencement time, you had bought the unit from someone else for its \*market value; and
- (e) you had started to hold the unit immediately after the taxable status commencement time instead of at the time mentioned in paragraph (a).

Note: Under the *International Tax Agreements Act 1953*, for some foreign residents, the proceeds of the sale of a registered emissions unit are not assessable income in Australia.

420-42 Deduction for expenses incurred in ceasing to hold a registered emissions unit

**420-25 Assessable income on disposal of registered emissions units**

- (1) Your assessable income includes an amount that you are entitled to receive because you cease to \*hold a \*registered emissions unit.

*Timing*

- (2) The amount is included in your assessable income for the income year in which you cease to \*hold the unit.

*Source*

- (3) An amount included in your assessable income under subsection (1) is taken, for the purposes of the \*income tax laws, to have a source in Australia.

**420-30 Non-arm's length transactions and transactions with associates**

If:

- (a) an entity (the *transferor*) ceases to \*hold a \*registered emissions unit; and
- (b) the cessation is because of the transfer of the unit to:
  - (i) a Registry account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*); or
  - (ii) a foreign account (within the meaning of that Act); kept by another entity (the *transferee*); and
- (c) either:
  - (i) the transferor and the transferee did not deal with each other at \*arm's length; or
  - (ii) the transferee is the transferor's \*associate; and
- (d) the transferee did not pay or give consideration equal to the \*market value of the unit for the transfer of the unit;

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 420-35

---

the transferor is treated as if the transferor were entitled to receive an amount equal to that market value because the transferor ceased to be the holder of the unit.

**420-35 Outgoing international transfers of emissions units**

If:

- (a) you stop \*holding a \*registered emissions unit; and
- (b) you do so as a result of the transfer of the unit to:
  - (ii) if the unit is a \*Kyoto unit—your foreign account (within the meaning of the *Australian National Registry of Emissions Units Act 2011*) or your nominee’s foreign account (within the meaning of that Act); or
  - (iii) if the unit is an \*Australian carbon credit unit—your foreign account (within the meaning of the *Carbon Credits (Carbon Farming Initiative) Act 2011*) or your nominee’s foreign account (within the meaning of that Act);

you are treated as if:

- (c) just before the transfer, you had sold the unit to someone else for its \*market value just before the transfer; and
- (d) you had, immediately after the sale, bought it back for the same amount.

**Example:** An Australian resident company carries on a business of trading in emission units. The company owns 10,000 emission reduction units (a type of Kyoto unit) that are registered in Australia. 5,000 of those units are transferred from the company’s Australian registry account to the company’s New Zealand registry account.

The company is treated as having sold each unit to someone else at its market value just before it stopped being a registered emissions unit. As the unit was a registered emissions unit, the market value is included in the company’s assessable income (section 420-25).

The company is also treated as having bought 5,000 emission reduction units for the same amount. As those units are trading stock, the company may be able to deduct that amount under section 8-1.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**420-40 Disposal of registered emissions units for a purpose other than gaining assessable income**

- (1) If:
- (a) an entity (the *first entity*) incurs expenditure in:
    - (i) becoming the \*holder of a \*registered emissions unit; or
    - (ii) ceasing to hold a registered emissions unit; and
  - (b) the first entity has deducted or can deduct the expenditure under section 420-15 or 420-42; and
  - (c) the first entity ceases to hold the unit in a particular income year; and
  - (d) the cessation is neither:
    - (i) in gaining or producing the first entity's assessable income; nor
    - (ii) in carrying on a \*business for the purpose of gaining or producing the first entity's assessable income; and
  - (e) section 420-30 (non-arm's length transactions and transactions with associates) did not apply to the first entity ceasing to hold the unit;
- the first entity's assessable income for that income year includes an amount equal to the amount the first entity has deducted or can deduct.

*Death*

- (2) If:
- (a) the first entity is an individual; and
  - (b) the cessation is because of the first entity's death; and
  - (c) the \*registered emissions unit devolves to the first entity's \*legal personal representative;
- then:
- (d) the first entity's legal personal representative is treated as having bought the unit for the amount included in the first entity's assessable income under subsection (1); and
  - (e) if the unit \*passes to a beneficiary in the first entity's estate:

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 420-40

---

- (i) the first entity's legal personal representative is treated as having disposed of the unit for the amount included in the first entity's assessable income under subsection (1); and
    - (ii) the beneficiary is treated as having bought the unit for the amount included in the first entity's assessable income under subsection (1).
  - (3) If:
    - (a) the first entity is an individual; and
    - (b) the cessation is because of the first entity's death; and
    - (c) the \*registered emissions unit \*passes to a beneficiary in the first entity's estate without devolving to the first entity's \*legal personal representative;the beneficiary is treated as having bought the unit for the amount included in the first entity's assessable income under subsection (1).
- Transfer—treatment of acquirer*
- (4) If:
    - (a) the cessation is because of the transfer of the unit to another entity; and
    - (b) neither subsection (2) nor (3) applies;the other entity is treated as having bought the unit for the amount included in the first entity's assessable income under subsection (1).
  - (5) If subsection (4) applies to the transfer of the unit to another entity:
    - (a) the first entity must inform the other entity that, as a result of subsection (4) applying, the other entity is treated as having bought the unit for a particular amount; and
    - (b) the first entity must do so:
      - (i) at, or as soon as practicable after, the time of the transfer; or
      - (ii) by a later time allowed by the Commissioner.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Source*

- (6) An amount included in the first entity's assessable income under subsection (1) is taken, for the purposes of the \*income tax laws, to have a source in Australia.

**420-41 Ceasing to be taxable in Australia on the proceeds of sale of registered emissions units**

If:

- (a) you start to \*hold a \*registered emissions unit; and
- (b) assuming that you had sold the unit to someone else immediately after you started to hold the unit, the proceeds of sale would have been included in your assessable income under section 420-25; and
- (c) you hold the unit until a later time (the **taxable status cessation time**), where the following conditions are satisfied:
  - (i) assuming that you had sold the unit to someone else immediately before the taxable status cessation time, the proceeds of the sale would have been included in your assessable income under section 420-25;
  - (ii) assuming that you had sold the unit to someone else at the taxable status cessation time, the proceeds of sale would not have been included in your assessable income under section 420-25;

you are treated as if:

- (d) just before the taxable status cessation time, you had sold the unit to someone else for its \*market value; and
- (e) you had, at the taxable status cessation time, bought it back for the same amount.

Note: Under the *International Tax Agreements Act 1953*, for some foreign residents, the proceeds of the sale of a registered emissions unit are not assessable income in Australia.

Section 420-42

---

**420-42 Deduction for expenses incurred in ceasing to hold a registered emissions unit**

- (1) You can deduct expenditure to the extent that you incur it in ceasing to \*hold a \*registered emissions unit.

*Timing*

- (2) You deduct the expenditure in the income year in which you cease to \*hold the \*registered emissions unit.

**Subdivision 420-D—Accounting for registered emissions units you hold at the start or end of the income year**

**Table of sections**

420-45	You include the value of your registered emissions units in working out your assessable income and deductions
420-50	Value of registered emissions units at start of income year
420-51	Valuation methods
420-52	FIFO cost method of working out the value of units

420-57	Valuation method for later income years at the end of which you held registered emissions units
420-60	Cost of registered emissions units

**420-45 You include the value of your registered emissions units in working out your assessable income and deductions**

- (1) You compare:
- (a) the \*value of all \*registered emissions units you \*held at the start of the income year; and
  - (b) the value of all registered emissions units you held at the end of the income year.

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

---

*Increase in value is included in assessable income*

- (2) Your assessable income includes any excess of the \*value at the end of the income year over the value at the start of the income year.

*Decrease in value is a deduction*

- (3) On the other hand, you can deduct any excess of the \*value at the start of the income year over the value at the end of the income year.

*Source*

- (4) An amount included in your assessable income under subsection (2) is taken, for the purposes of the \*income tax laws, to have a source in Australia.

*Disregard value of unit if sale proceeds would not be assessable*

- (5) For the purposes of this Subdivision, disregard the \*value of a \*registered emissions unit you \*held at the end of the income year if, assuming that you had sold the unit to someone else immediately after you started to hold the unit, the proceeds of the sale would not have been included in your assessable income under section 420-25.

Note: Under the *International Tax Agreements Act 1953*, for some foreign residents, the proceeds of the sale of a registered emissions unit are not assessable income in Australia.

#### **420-50 Value of registered emissions units at start of income year**

- (1) The **value** of a \*registered emissions unit you \*held at the start of an income year is the same amount at which it was taken into account under this Subdivision at the end of the last income year.
- (2) The **value** of the unit is a nil amount if the unit was not taken into account under this Subdivision at the end of the last income year.

Section 420-51

---

**420-51 Valuation methods**

The *value* of a \*registered emissions unit you \*held at the end of an income year is worked out using one of the following methods:

- (a) the \*FIFO cost method;
- (b) the \*actual cost method;
- (c) the \*market value method.

Sections 420-55 and 420-57 tell you which method applies.

**420-52 FIFO cost method of working out the value of units**

The *FIFO cost method* for working out the \*value of the \*registered emissions units you \*held at the end of an income year means that the value of the units is the \*cost of the registered emissions units, and, for the purposes of the application of this Subdivision to you for the income year:

- (a) if any of the registered emissions units are:
  - (ii) eligible international emissions units (within the meaning of the *Australian National Registry of Emissions Units Act 2011*); or
  - (iii) \*Australian carbon credit units;you must account for those units on a first-in first-out basis; and
- (c) if any of the registered emissions units are \*Kyoto units that are not eligible international emissions units (within the meaning of the *Australian National Registry of Emissions Units Act 2011*)—you must account for those units on a first-in first-out basis.

**420-53 Actual cost method of working out the value of units**

The *actual cost method* for working out the value of the \*registered emissions units you \*held at the end of the income year means that the value of the units is the \*cost of the units, and, for the purposes of the application of this Subdivision to you for the income year,

---

\*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

you must not account for any of those units on a first-in first-out basis.

#### **420-54 Market value method of working out the value of units**

The *market value method* for working out the value of the \*registered emissions units you \*held at the end of the income year means that the value of the units is the \*market value of the units at the end of the income year.

#### **420-55 Valuation method for first income year at the end of which you held registered emissions units**

##### *Scope*

- (1) This section applies if:
  - (a) you \*held one or more \*registered emissions units at the end of an income year; and
  - (b) the income year is the first income year at the end of which you held one or more registered emissions units.

##### *Choice of method*

- (2) You may choose one of the following methods:
  - (a) the \*FIFO cost method;
  - (b) the \*actual cost method;
  - (c) the \*market value method;for working out the *value* of the \*registered emissions units you \*held at the end of the income year.

##### *FIFO cost method applies if no choice made*

- (3) If you do not make a choice under subsection (2) for the income year, the *value* of the \*registered emissions units you \*held at the end of the income year is worked out using the \*FIFO cost method.

- (a) you \*held one or more \*registered emissions units at the end of an income year (the **current income year**); and
  - (b) the current income year is not the first income year at the end of which you held one or more registered emissions units.

*Choice of method*

- (2) You may choose one of the following methods:
- (a) the \*FIFO cost method;
  - (b) the \*actual cost method;
  - (c) the \*market value method;
