

**NOTICE OF MAKING OF CIVIL AVIATION ORDER 100.5
AMENDMENT INSTRUMENT 2013 (NO. 1)**

Notification under subregulation 5 (3) of the *Civil Aviation Regulations 1988*

For subregulation 5 (3) of the *Civil Aviation Regulations 1988 (CAR 1988)*, notice of the making of *Civil Aviation Order 100.5 Amendment Instrument 2013 (No. 1)* (the **amendment instrument**) is given.

The amendment instrument inserts in Civil Aviation Order 100.5 maintenance directions as contained in new paragraph 9.1 relating to the replacement of time-lifed components, and in new subsection 11 relating to the maintenance and testing of barometric altimeters, pitot-static systems, air data computers, airspeed indicators, and fuel quantity gauges.

The amendment instrument will come into effect on 1 August 2013, after registration on the Federal Register of Legislative Instruments (**FRLI**), FRLI number F2013L01330.

Under subregulation 38 (2) of CAR 1988, a maintenance direction is not binding on a person unless it has been served on that person.

Under subregulation 5 (3), a direction that is issued in Civil Aviation Orders is taken to have been served on a person to whom the direction relates on the day on which notice of the making of the Order is notified in the Gazette.
