Guide to Division 160

160-1 What this Division is about

A corporate tax entity can choose to “carry back” a tax loss it had for 2019-20, 2020-21 or 2021-22 against the income tax liability it had for 2018-19, 2019-20 or 2020-21.

The entity gets a refundable tax offset for 2020-21 or 2021-22 that is a proxy for the tax the entity would save if it deducted the loss in the income year to which the loss is “carried back”.

The refundable tax offset:

- (a) is capped at the entity's franking account balance; and
- (b) is only available for losses for years for which the entity's turnover was less than \$5 billion.

Subdivision 160-A—Entitlement to and amount of loss carry back tax offset

Table of sections

160-5	Entitlement to loss carry back tax offset
160-10	Amount of loss carry back tax offset

160-5 Entitlement to loss carry back tax offset

An entity is entitled to a *tax offset (the *loss carry back tax offset*) for the *current year if the following conditions are satisfied:

- (a) the current year is:
 - (i) the 2020-21 income year; or
 - (ii) the 2021-22 income year;
- (b) the entity is a *corporate tax entity throughout the current year;

Note: See also section 160-25.

- (c) any or all of the following income years were *loss years:
 - (i) the 2019-20 income year;
 - (ii) the 2020-21 income year;
 - (iii) if the current year is the 2021-22 income year—the 2021-22 income year;
- (d) the entity had an *income tax liability for any or all of the following income years:
 - (i) the 2018-19 income year;
 - (ii) the 2019-20 income year;
 - (iii) if the current year is the 2021-22 income year and the 2021-22 income year was a loss year—the 2020-21 income year;
- (e) any of the following requirements are satisfied for the current year and each of the 5 income years before the current year:

- (i) the entity has lodged its *income tax return for the year;
- (ii) the entity was not required to lodge an income tax return for the year;
- (iii) the Commissioner has made an assessment of the entity's income tax for the year;
- (f) the entity makes a *loss carry back choice for the current year in accordance with Subdivision 160-B.

Note 1: The entity can be entitled to only one loss carry back tax offset for 2020-21. However, that offset has 2 components: one relating to 2018-19 and one relating to 2019-20: see section 160-10.

Note 2: The entity can be entitled to only one loss carry back tax offset for 2021-22. However, that offset has 3 components: one relating to 2018-19, one relating to 2019-20 and one relating to 2020-21: see section 160-10.

Note 3: The loss carry back tax offset is a refundable tax offset: see section 67-23.

160-10 Amount of loss carry back tax offset

- (1) The amount of the entity's *loss carry back tax offset for the *current year is the lesser of the following amounts:
 - (a) the sum of the *loss carry back tax offset components for:
 - (i) the 2018-19 income year; and
 - (ii) the 2019-20 income year; and
 - (iii) if the current year is the 2021-22 income year—the 2020-21 income year;
 - (b) the entity's *franking account balance at the end of the current year.

Meaning of loss carry back tax offset component

- (2) For the purposes of working out the amount of the entity's *loss carry back tax offset for the *current year, the entity's **loss carry back tax offset component** for an income year is:
 - (a) if the entity does not, in its *loss carry back choice for the current year, *carry back any *tax losses to the income year—nil; or
 - (b) otherwise—so much of the entity's *income tax liability for the income year as does not exceed:

- (i) if, in its loss carry back choice for the current year, the entity carries back only one tax loss to the income year—the amount worked out at step 3 of the following method statement in relation to the tax loss; or
- (ii) if, in its loss carry back choice for the current year, the entity carries back tax losses for 2 or 3 *loss years to the income year—the sum of the amounts worked out at step 3 of the following method statement in relation to each of those tax losses.

Method statement

Step 1. Start with the amount of the *tax loss the entity *carries back to the income year.

Step 2. Reduce the step 1 amount by the entity's *net exempt income for the income year.

Note: Do not reduce the step 1 amount by the entity's net exempt income to the extent the net exempt income has already been utilised: see section 960-20.

Step 3. Multiply the step 2 amount by the *corporate tax rate for the *loss year.

Example: Company A (which is not a base rate entity) has at the end of the 2020-21 income year:

- (a) a tax loss of \$900,000 for that year and a franking account balance of \$280,000; and
- (b) for the 2018-19 income year—an income tax liability of \$120,000 and net exempt income of \$5,000; and
- (c) for the 2019-20 income year—an income tax liability of \$210,000.

Company A chooses to carry back \$405,000 of its tax loss for the 2020-21 year to the 2018-19 year and \$495,000 of that loss to the 2019-20 year.

Company A's loss carry back tax offset for the 2020-21 year is \$268,500, worked out as follows:

- (a) an offset component for the 2018-19 income year of \$120,000, calculated by starting with the \$405,000 carried back, reducing that at step 2 by \$5,000, and multiplying the result by 30%;

Schedule 2 Temporary loss carry back
Part 1 Main amendments

- (b) an offset component for the 2019-20 income year of \$148,500, calculated by starting with the \$495,000 carried back and multiplying the result by 30%.

The sum of the 2 components is \$268,500 (which is less than Company A's \$280,000 franking account balance at the end of the 2020-21 year). If that sum had exceeded that balance, the amount of the offset would have been limited under paragraph (1)(b) of this section to that balance.

Income tax liability for the 2018-19 or 2019-20 income year already utilised

- (3) Subsection (4) applies in relation to applying paragraph (2)(b) to work out the entity's *loss carry back tax offset component for the 2018-19 or 2019-20 income year (the *gain year*) as part of working out the entity's entitlement to a *loss carry back tax offset for the 2021-22 income year.
- (4) Disregard so much of the entity's *income tax liability for the gain year as has previously been included (as part of working out the entity's entitlement to a *loss carry back tax offset for the 2020-21 income year) in a *loss carry back tax offset component.

Foreign residents

- (5) Paragraph (1)(b) does not apply if the entity was a foreign resident (other than an *NZ franking company) for:
- (a) if the entity *carries back an amount to the 2018-19 income year—more than half of the 2018-19 income year; and
 - (b) if the entity carries back an amount to the 2019-20 income year—more than half of the 2019-20 income year; and
 - (c) if the *current year is the 2021-22 income year and the entity carries back an amount to the 2020-21 income year—more than half of the 2020-21 income year.

Subdivision 160-B—Loss carry back choice

Table of sections

 - (i) how much of the entity's tax loss (if any) for the 2020-21 income year is to be carried back to the 2018-19 income year;
 - (c) in any case—how much of the entity's tax loss (if any) for the 2019-20 income year is to be carried back to the 2018-19 income year.
- (2) The choice under subsection (1) must be made in the *approved form by:
 - (a) the day the entity lodges its *income tax return for the *current year; or

160-25 Entity must have been a corporate tax entity during relevant years

- (1) If the *current year is the 2020-21 income year:
 - (a) the entity cannot *carry back an amount of a *tax loss to the 2018-19 income year unless the entity was a *corporate tax entity throughout:
 - (i) the 2018-19 income year (disregarding any period when the entity was not in existence); and
 - (ii) the 2019-20 income year; and
 - (b) the entity cannot carry back an amount of a tax loss to the 2019-20 income year unless the entity was a corporate tax entity throughout the 2019-20 income year (disregarding any period when the entity was not in existence).

Note: The entity must be a corporate tax entity throughout 2020-21: see paragraph 160-5(b).

- (2) If the *current year is the 2021-22 income year:
 - (a) the entity cannot *carry back an amount of a *tax loss to the 2018-19 income year unless the entity was a *corporate tax entity throughout:
 - (i) the 2018-19 income year (disregarding any period when the entity was not in existence); and
 - (ii) the 2019-20 income year; and
 - (iii) the 2020-21 income year; and
 - (b) the entity cannot carry back an amount of a tax loss to the 2019-20 income year unless the entity was a corporate tax entity throughout:

- (i) the 2019-20 income year (disregarding any period when the entity was not in existence); and
- (ii) the 2020-21 income year; and
- (c) the entity cannot carry back an amount of a tax loss to the 2020-21 income year unless the entity was a corporate tax entity throughout the 2020-21 income year (disregarding any period when the entity was not in existence).

Note: The entity must be a corporate tax entity throughout 2021-22: see paragraph 160-5(b).

160-30 Transferred tax losses, income tax liabilities etc. not included

- (1) The entity cannot *carry back an amount of a *tax loss for an income year, to the extent that the loss:
 - (a) was transferred to or from the entity under Division 170 or Subdivision 707-A (about certain company groups); or
 - (b) exceeds the amount that would be the entity's tax loss for the year if section 36-55 (about excess franking offsets) were disregarded.
- (2) For the purposes of this Division, disregard the *income tax liability of the entity for an income year to the extent that it consists of an income tax liability of a *subsidiary member of a *consolidated group or *MEC group that is taken to be an income tax liability of the entity because of section 701-5 (the entry history rule).

160-35 Integrity rule—no loss carry back tax offset if scheme entered into

No loss carry back tax offset if scheme entered into

- (1) The *corporate tax entity cannot *carry back an amount of a *tax loss to an income year (the **gain year**) if:
 - (a) there is a *scheme for a disposition of *membership interests, or an *interest in membership interests, in:
 - (i) the corporate tax entity; or
 - (ii) an entity that has a direct or indirect interest in the corporate tax entity; and

- (b) the scheme is entered into or carried out during the period:
 - (i) starting at the start of the gain year; and
 - (ii) ending at the end of the *current year; and

An amount is included in an R&D entity's assessable income if:

- (a) the R&D entity receives a recoupment from government of expenditure on R&D activities for which it has obtained tax offsets under this Division; or
- (b) the R&D entity can deduct under this Division expenditure on goods, materials or energy used during R&D activities to produce marketable products or products applied to the R&D entity's own use; or
- (c) a balancing adjustment event happens for an asset held by the R&D entity (or an R&D partnership in which the R&D entity is a partner) for which tax offsets have been obtained under this Division and for which an amount is otherwise included in the R&D entity's (or R&D partnership's) assessable income.

Operative provisions

355-435 When this Subdivision applies

This Subdivision applies to an *R&D entity for an income year (the *present year*) if:

- (a) the R&D entity has an amount (a *clawback amount*) under section 355-440, 355-445, 355-446, 355-447, 355-448 or 355-449 for the present year; and
- (b) the R&D entity has received, or is entitled to receive, a *tax offset under section 355-100 for one or more income years (each an *offset year*) in relation to that clawback amount.

355-440 R&D recoupments

- (1) The *R&D entity has an amount under this section if:
 - (a) the entity, or another entity mentioned in subsection (5), receives or becomes entitled to receive a *recoupment from either of the following (otherwise than under the *CRC program):
 - (i) an *Australian government agency;
 - (ii) an STB (within the meaning of Division 1AB of Part III of the *Income Tax Assessment Act 1936*); and
 - (b) the recoupment is received, or the entitlement to receive the recoupment arises, during the present year; and
 - (c) either:
 - (i) the recoupment is of expenditure incurred on or in relation to certain activities; or
 - (ii) the recoupment requires expenditure (the *project expenditure*) to have been incurred, or to be incurred, on certain activities.

Note: Paragraph (c) includes expenditure incurred in purchasing a tangible depreciating asset to be used when conducting R&D activities.

- (2) The amount is equal to the sum of:
- (a) so much of the expenditure referred to in subsection (1) that is deducted under this Division; and
 - (b) for each asset (if any) for which expenditure referred to in subsection (1) is included in the asset's *cost—each amount (if any) equal to the asset's decline in value that is deducted under this Division;
- that is taken into account in working out *tax offsets under section 355-100 obtained by the *R&D entity for one or more income years.

Note: Paragraphs (a) and (b) of this subsection refer to amounts notionally deducted under this Division (see section 355-105).

Amount is reduced by any repayments of the recoupment

- (3) For the purposes of subsection (2), reduce the expenditure referred to in subparagraph (1)(c)(i) by any repayments of the *recoupment during an income year.

Cap on extra income tax if recoupment relates to a project

- (4) Despite subsection (2), if the *recoupment is covered by subparagraph (1)(c)(ii), the amount mentioned in subsection (2) for the present year cannot exceed the amount worked out using the following formula:

$$\text{Net amount of the recoupment} \times \frac{\text{R\&D expenditure}}{\text{Project expenditure}}$$

where:

net amount of the recoupment means the total amount of the *recoupment, less any repayments of the recoupment during an income year.

R&D expenditure means the amount mentioned in subsection (2), disregarding subsection (3).

Related entities

- (5) The other entities for the purposes of paragraph (1)(a) are as follows:

- (a) an entity *connected with the *R&D entity;
- (b) an *affiliate of the R&D entity or an entity of which the R&D entity is an affiliate.

355-445 Feedstock adjustments

- (1) The *R&D entity has an amount under this section if:
 - (a) it incurs expenditure in one or more income years in acquiring or producing goods, or materials, (the *feedstock inputs*) transformed or processed during *R&D activities in producing one or more tangible products (the *feedstock outputs*); and
 - (b) it obtains under section 355-100 *tax offsets for one or more income years (each an *offset year*) for deductions under this Division:
 - (i) for the expenditure; or
 - (ii) for expenditure it incurs on any energy input directly into the transformation or processing; or
 - (iii) for the decline in value of assets used in acquiring or producing the feedstock inputs; and
 - (c) during the present year, a feedstock output, or a transformed feedstock output, (the *marketable product*), is:
 - (i) *supplied by the R&D entity to another entity; or
 - (ii) applied by the R&D entity to the R&D entity's own use, other than use for the purpose of transforming that product for supply.
 - (2) The amount is equal to the lesser of:
 - (a) the *feedstock revenue for the feedstock output; and
 - (b) so much of the total of the amounts deducted as described in paragraph (1)(b) as is reasonably attributable to the production of the feedstock output.
 - (3) Subsection (2) does not apply to the feedstock output if:
 - (a) it becomes, or is transformed into, a feedstock input; or
 - (b) that subsection already applies to the feedstock output because of the application of paragraph (1)(c) to:
 - (i) an earlier time during the present year; or
 - (ii) an earlier income year.
-

- (4) The **feedstock revenue**, for the feedstock output, is worked out using the following formula:

$$\text{Market value of the marketable product} \times \frac{\text{Cost of producing the feedstock output}}{\text{Cost of producing the marketable product}}$$

where:

market value of the marketable product means the marketable product's *market value at the time it is:

- (a) *supplied by the *R&D entity to the other entity; or
 - (b) first applied by the R&D entity to the R&D entity's own use, other than use for the purpose of transforming that product for supply.
- (5) This section applies to a *supply or use of the marketable product by:
- (a) an entity *connected with the *R&D entity; or
 - (b) an *affiliate of the R&D entity or an entity of which the R&D entity is an affiliate;
- as if it were by the R&D entity.

355-446 Balancing adjustments for assets only used for R&D activities

- (1) The *R&D entity has an amount under this section if:
- (a) a *balancing adjustment event happens in the present year for an asset *held by the R&D entity; and
 - (b) the R&D entity cannot deduct, for the asset for an income year, an amount under section 40-25 as that section applies apart from:
 - (i) this Division; and
 - (ii) former section 73BC of the *Income Tax Assessment Act 1936*; and
 - (c) the R&D entity is entitled under section 355-100 to *tax offsets for one or more income years for deductions under section 355-305 for the asset; and
 - (d) the R&D entity is registered under section 27A of the *Industry Research and Development Act 1986* for one or more *R&D activities for the present year; and

- (e) an amount (the **section 40-285 amount**) is included in the R&D entity's assessable income for the present year under subsection 355-315(3) for the asset and the balancing adjustment event.

Note 1: This section applies in a modified way if the entity also has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-320 of the *Income Tax (Transitional Provisions) Act 1997*).

Note 2: Section 40-292 applies if the entity can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.

- (2) The amount is so much of an amount equal to the section 40-285 amount as does not exceed the difference between:
 - (a) the asset's *cost; and
 - (b) the asset's *adjustable value, worked out under Division 40 as if that Division applied with the changes described in section 355-310.

355-447 Balancing adjustments for assets partially used for R&D activities

- (1) The *R&D entity has an amount under this section if:
 - (a) a *balancing adjustment event happens in the present year for an asset *held by the R&D entity and for which:
 - (i) the R&D entity can deduct, for an income year, an amount under section 40-25, as that section applies apart from Division 355 and former section 73BC of the *Income Tax Assessment Act 1936*; or
 - (ii) the R&D entity could have deducted, for an income year, an amount as described in subparagraph (i) if the R&D entity had used the asset; and
 - (b) the R&D entity is entitled under section 355-100 to *tax offsets for one or more income years for deductions (the **R&D deductions**) under section 355-305 for the asset; and
 - (c) an amount (the **section 40-285 amount**) is included in the R&D entity's assessable income for the asset under section 40-285 (after applying subsection 40-292(2)) for the present year.

Note: This section applies in a modified way if you have deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 40-292 of the *Income Tax (Transitional Provisions) Act 1997*).

(2) The amount is worked out as follows:

$$\frac{\text{Total R\&D deductions}}{\text{Total decline in value}} \times \text{Adjusted section 40-285 amount}$$

where:

adjusted section 40-285 amount means so much of an amount equal to the section 40-285 amount as does not exceed the total decline in value.

total decline in value means the *cost of the asset less its *adjustable value.

355-448 Balancing adjustments for R&D partnership assets only used for R&D activities

- (1) The *R&D entity (the **partner**) has an amount under this section if:
- (a) the partner is a partner in an *R&D partnership; and
 - (b) a *balancing adjustment event happens in the present year for an asset *held by the R&D partnership; and
 - (c) the R&D partnership cannot deduct, for the asset for an income year, an amount under section 40-25, as that section applies apart from:
 - (i) this Division; and
 - (ii) former section 73BC of the *Income Tax Assessment Act 1936*; and
 - (d) the partner is entitled under section 355-100 to *tax offsets for one or more income years for deductions under section 355-520 for the asset; and
 - (e) the partner is registered under section 27A of the *Industry Research and Development Act 1986* for one or more *R&D activities for the present year; and
 - (f) an amount (the **section 40-285 amount**) would, as mentioned in subsection 355-525(3), be included in the R&D

partnership's assessable income for the present year for the asset and the balancing adjustment event.

Note 1: This section applies in a modified way if the partner has deductions for the asset under former section 73BA or 73BH of the *Income Tax Assessment Act 1936* (see section 355-325 of the *Income Tax (Transitional Provisions) Act 1997*).

Note 2: Section 40-293 applies if the R&D partnership can deduct an amount under section 40-25, as that section applies apart from this Division and former section 73BC of the *Income Tax Assessment Act 1936*.

- (2) The amount is the partner's proportion of the amount that is so much of an amount equal to the section 40-285 amount as does not exceed the difference between:
- (a) the asset's *cost; and
 - (b) the asset's *adjustable value, worked out under Division 40 as if that Division applied with the changes described in section 355-310.

355-449 Balancing adjustments for R&D partnership assets partially used for R&D activities

- (1) The *R&D entity (the *partner*) has an amount under this section if:
- (a) the partner is a partner in an *R&D partnership; and
 - (b) a *balancing adjustment event happens in the present year for a *depreciating asset *held by the R&D partnership and for which:
 - (i) the R&D partnership can deduct, for an income year, an amount under section 40-25, as that section applies apart from Division 355 and former section 73BC of the *Income Tax Assessment Act 1936*; or
 - (ii) the R&D partnership could have deducted, for an income year, an amount as described in subparagraph (i) if it had used the asset; and
 - (c) one or more partners (including the partner) in the R&D partnership are entitled under section 355-100 to *tax offsets for one or more income years for deductions under section 355-520 for the asset; and
 - (d) an amount (the *section 40-285 amount*) is included in the R&D partnership's assessable income for the asset under

section 40-285 (after applying subsection 40-293(2)) for the present year.

- (2) The amount is the partner's proportion of the amount worked out as follows:

$$\frac{\text{Total R\&D deductions}}{\text{Total decline in value}} \times \text{Adjusted section 40-285 amount}$$

where:

adjusted section 40-285 amount means so much of an amount equal to the section 40-285 amount as does not exceed the total decline in value.

total decline in value means the *cost of the asset less its *adjustable value.

total R&D deductions means the sum of each partner's deductions mentioned in paragraph (1)(c) of this section.

355-450 Amount to be included in assessable income

- (1) The *R&D entity must include, in the entity's assessable income for the present year, the sum of the following amounts for each offset year relating to the clawback amount:

$$\frac{\text{Starting offset} - \text{Adjusted offset} - \text{Deduction amount}}{\text{R\&D entity's *corporate tax rate for the present year}}$$

where:

adjusted offset means the *tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) for that tax offset were reduced by the portion of the clawback amount that is attributable to the offset year.

deduction amount means the portion of the clawback amount that is attributable to the offset year, multiplied by the R&D entity's *corporate tax rate for the offset year.

starting offset means the amount of the *tax offset the R&D entity has received, or is entitled to receive, under section 355-100 for the offset year.

- (2) However, if this section, or section 355-475, has previously applied (whether in the present year or an earlier income year) in relation to another clawback amount, or catch up amount, the *R&D entity has that relates to the offset year, subsection (1) of this section applies as if:
- (a) the starting offset were the *tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) were:
 - (i) decreased by the sum of the portions of any such other clawback amounts that are attributable to the offset year; and
 - (ii) increased by the sum of the portions of any such other catch up amounts that are attributable to the offset year; and
 - (b) the reference to the “total amount” in the definition of *adjusted offset* were a reference to that amount as so adjusted.

Subdivision 355-H—Catch up deductions for balancing adjustment events for assets used for R&D activities

Guide to Subdivision 355-H

355-455 What this Subdivision is about

An R&D entity can deduct an amount under this Subdivision if:

- (a) a balancing adjustment event happens for an asset held by the R&D entity (or an R&D partnership in which the R&D entity is a partner); and
- (b) tax offsets have been obtained under this Division for deductions for the asset; and
- (c) the R&D entity (or the R&D partnership) can otherwise deduct an amount for the asset and the balancing adjustment event.

where:

total decline in value means the *cost of the asset less its *adjustable value.

355-467 R&D partnership assets only used for R&D activities

 - (a) the partner is a partner in an *R&D partnership; and

- (b) a *balancing adjustment event happens in the present year for a *depreciating asset *held by the R&D partnership and for which:

total decline in value means the *cost of the asset less its *adjustable value.

total R&D deductions means the sum of each partner's deductions mentioned in paragraph (1)(c) of this section.

where:

adjusted offset means the *tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) for that tax offset were increased by the portion of the catch up amount that is attributable to the offset year.

deduction amount means the portion of the catch up amount that is attributable to the offset year, multiplied by the R&D entity's *corporate tax rate for the offset year.

starting offset means the amount of the *tax offset the R&D entity has received, or is entitled to receive, under section 355-100 for the offset year.

Note: A deduction under this subsection is not a notional deduction: see subsection 355-105(2).

- (2) However, if this section, or section 355-450, has previously applied (whether in the present year or an earlier income year) in relation to another catch up amount, or clawback amount, the *R&D entity has that relates to the offset year, subsection (1) of this section applies as if:
- (a) the starting offset were the *tax offset the R&D entity would have received under section 355-100 for the offset year if the total amount mentioned in subsection 355-100(1) were:
 - (i) increased by the sum of the portions of any such other catch up amounts that are attributable to the offset year; and
 - (ii) decreased by the sum of the portions of any such other clawback amounts that are attributable to the offset year; and
 - (b) the reference to the “total amount” in the definition of **adjusted offset** were a reference to that amount as so adjusted.

This section covers you for an income year if:

- (a) you are a small business entity for the income year; or
- (b) you would be a small business entity for the income year if:
 - (i) each reference in Subdivision 328-C of the *Income Tax Assessment Act 1997* (about what is a small business entity) to \$10 million were instead a reference to \$5 billion; and
 - (ii) the reference in paragraph 328-110(5)(b) of that Act to a small business entity were instead a reference to an entity covered by this section.

40-160 Full expensing of first and second element of cost for post-2020 budget assets

- (1) For the purposes of Division 40 of the *Income Tax Assessment Act 1997*, the decline in value of a depreciating asset you hold for an income year (the **current year**) is the amount worked out under subsection (3) if:
 - (a) you start to hold the asset at or after the 2020 budget time; and
 - (b) you start to use the asset, or have it installed ready for use, for a taxable purpose in the current year; and
 - (c) you are covered by section 40-150 for the asset; and
 - (d) you are covered by section 40-155 (about businesses with turnover under \$5 billion) for the current year; and
 - (e) no balancing adjustment event happens to the asset in the current year.

Exclusions

- (2) However, this section does not apply if an exclusion applies to you and the asset for the current year under section 40-165 (about exclusions for businesses with turnover of \$50 million or more).

Amount of the decline in value

- (3) The decline in value for the current year is:
- (a) if the asset's start time occurs in the current year—the asset's cost as at the end of the current year, disregarding any amount included in the asset's cost after 30 June 2022; or
 - (b) if the asset's start time occurred in an earlier year—the sum of its opening adjustable value for the current year and any amount included in the second element of its cost for the current year, disregarding any amount included in the asset's cost after 30 June 2022.

Note 1: The asset's start time is when you first use it, or have it installed ready for use, for any purpose (including a non-taxable purpose): see subsection 40-60(2) of the *Income Tax Assessment Act 1997*.

Note 2: A case covered by paragraph (b) is where you start to hold the asset in the period 6 October 2020 to 30 June 2021 and use it for only non-taxable purposes in that period, then first use it for a taxable purpose in the period 1 July 2021 to 30 June 2022.

40-165 Exclusions for post-2020 budget assets applicable to businesses with turnover of \$50 million or more

- (1) For the purposes of subsection 40-160(2), an exclusion applies to you and an asset for an income year if:
- (a) section 40-155 would not cover you for the income year if the reference in that section to \$5 billion were instead a reference to \$50 million; and
 - (b) any of the exclusions in this section applies in relation to the asset.

Exclusion—commitments already entered into

- (2) This exclusion applies in relation to the asset if, before the 2020 budget time, you:
- (a) entered into a contract under which you would hold the asset; or
 - (b) started to construct the asset; or
 - (c) started to hold the asset in some other way.
- (3) This exclusion applies in relation to the asset (the ***post-6 October 2020 asset***) if:
-

- (a) on a day before 6 October 2020, you:
 - (i) enter into a contract under which you hold an asset on that day, or will hold the asset on a later day; or
 - (ii) start to construct an asset; or
 - (iii) start to hold an asset in some other way; and
 - (b) on a day on or after 6 October 2020 (the *conduct day*), you engage in conduct that results in you:
 - (i) entering into a contract under which you hold the post-6 October 2020 asset on the conduct day, or will hold that asset on an even later day; or
 - (ii) starting to construct the post-6 October 2020 asset; or
 - (iii) starting to hold the post-6 October 2020 asset in some other way; and
 - (c) the post-6 October 2020 asset is the asset mentioned in paragraph (a), or an identical or substantially similar asset; and
 - (d) you engage in that conduct for the purpose, or for purposes that include the purpose, of satisfying paragraph 40-160(1)(a) for the post-6 October 2020 asset.
- (4) For the purposes of subsections (2) and (3), treat yourself as having started to construct an asset at a time if you first incur expenditure in respect of the construction of the asset at that time.
 - (5) To avoid doubt, for the purposes of this section, you do not enter into a contract under which you hold an asset merely because you acquire an option to enter into such a contract.
 - (6) For the purposes of subsections (2), (3), (4) and (5), if a partner in a partnership does any of the following things, treat the partnership (instead of the partner) as having done the thing:
 - (a) entering into a contract under which the partnership would hold an asset;
 - (b) starting to construct an asset;
 - (c) acquiring an option to enter into such a contract.

Exclusion—second hand assets

- (7) This exclusion applies in relation to the asset if:

Schedule 7 Temporary full expensing of depreciating assets

Part 1 Temporary full expensing of depreciating assets

- (a) another entity held the asset when it was first used, or first installed ready for use, other than:
 - (i) as trading stock; or
 - (ii) merely for the purposes of reasonable testing or trialling; or
 - (b) you started holding the asset under section 40-115 of the *Income Tax Assessment Act 1997* (about splitting a depreciating asset) or section 40-125 of that Act (about merging depreciating assets); or
 - (c) you already satisfied paragraph 40-160(1)(a) of this Act for the asset as a member of a consolidated group or a MEC group of which you are no longer a member.
- (8) The exclusion in subsection (7) also applies in relation to an asset if:
- (a) the asset is a licence (including a sub-licence) relating to an intangible asset; and
 - (b) the exclusion in that subsection applies in relation to the intangible asset.
- (9) However, paragraph (7)(a) does not apply in relation to an intangible asset unless the asset was used for the purpose of producing ordinary income before you first used it, or had it installed ready for use, for any purpose. In applying this subsection, disregard ordinary income that arises as a result of the disposal of the asset to you.

40-170 Full expensing of eligible second element of cost

- (1) For the purposes of Division 40 of the *Income Tax Assessment Act 1997*, the decline in value of a depreciating asset you hold for an income year (the **current year**) is the amount worked out under this section if:
- (a) either:
 - (i) you start to use the asset, or have it installed ready for use, for a taxable purpose in the current year; or
 - (ii) you started to use the asset, or have it installed ready for use, for a taxable purpose in an earlier income year; and
 - (b) you are covered by section 40-150 for the asset; and

- (c) you are covered by section 40-155 (about businesses with turnover under \$5 billion) for the current year; and
- (d) the eligible second element worked out under section 40-175 for the asset for the year is greater than nil; and
- (e) no balancing adjustment event happens to the asset in the current year.

Amount of the decline in value

- (2) The decline in value of the asset for the current year is:
 - (a) if the asset's decline in value for the year would, apart from section 40-145, be worked out under section 40-82 of the *Income Tax Assessment Act 1997*—the amount worked out under subsection (3); or
 - (b) if the asset's decline in value for the year would, apart from section 40-145, be worked out under Subdivision 40-BA of this Act—the amount worked out under subsection (4); or
 - (c) otherwise—the amount worked out under subsection (5).

Assets affected by section 40-82 of the Income Tax Assessment Act 1997 (about assets costing less than \$150,000, medium sized businesses)

- (3) If this subsection applies, the amount for the current year is the sum of:
 - (a) the amount that would be the asset's decline in value for the year under section 40-82 of the *Income Tax Assessment Act 1997*, assuming the reference in subparagraph 40-82(3A)(b)(ii) of that Act to 31 December 2020 were instead a reference to the 2020 budget time; and
 - (b) the eligible second element worked out under section 40-175 of this Act for the asset for the year.

Assets affected by Subdivision 40-BA (backing business investment)

- (4) If this subsection applies, the amount for the current year is the sum of:
 - (a) the amount that would be worked out under paragraph 40-130(2)(a) or (4)(a) (whichever is applicable) for

Schedule 7 Temporary full expensing of depreciating assets

Part 1 Temporary full expensing of depreciating assets

the year, assuming the references in paragraphs 40-130(2)(a) and (4)(a) to 30 June 2021 were instead references to the 2020 budget time; and

- (b) the eligible second element worked out under section 40-175 for the asset for the year; and
- (c) the amount that would be worked out under paragraph 40-130(2)(b) or (4)(b) (whichever is applicable) for the year, assuming the references in paragraphs 40-130(2)(b) and (4)(b) to “the amount worked out under paragraph (a)” were instead references to “the amounts worked out under paragraphs 40-170(4)(a) and (b)”.

Other assets

- (5) If this subsection applies, the amount for the current year is the sum of:
 - (a) the amount that would be the asset’s decline in value for the year under Division 40 of the *Income Tax Assessment Act 1997*, disregarding any amounts included in the eligible second element worked out under section 40-175 of this Act for the asset for the year; and
 - (b) the eligible second element worked out under section 40-175 for the asset for the year.

40-175 When is an amount included in the eligible second element

The amount worked out under this section (the *eligible second element*) for a depreciating asset for an income year is the sum of any amounts included in the second element of the asset’s cost at a time that is in both of the following periods:

- (a) the income year;
- (b) the period beginning at the 2020 budget time and ending on 30 June 2022.

40-180 Division 40 of the *Income Tax Assessment Act 1997* applies to later years

- (1) For an income year later than a year in which the decline in value is worked out under this Subdivision, the decline in value is

worked out under the other provisions of Division 40 of the *Income Tax Assessment Act 1997*.

Adjustment required for prime cost method

- (2) If you use the prime cost method for the asset, you must adjust the formula in subsection 40-75(1) of the *Income Tax Assessment Act 1997* for the later year in the manner set out in subsection 40-75(3) of that Act. The later year is the **change year** referred to in that subsection.

Balancing adjustment provisions

- (3) Subdivision 40-D of the *Income Tax Assessment Act 1997* has effect as if the decline in value worked out under this Subdivision had been worked out under Subdivision 40-B of that Act.

- (4) In applying paragraph 328-180(3)(a) of the *Income Tax Assessment Act 1997* to an asset, disregard an amount included in the second element of the cost of the asset if the amount is deducted under subsection 328-180(2) of that Act, as modified by subsection (3) of this section.
