

Aboriginal and Torres Strait Islander Heritage Protection Act 1984 (Cth)

**Notice of an application for the protection of a specified area, being the area known as
Mount Peake Mine, near Wilora, Northern Territory**

Invitation to make representations

I, Alice Buhrich, hereby give notice as follows:

The Minister for the Environment (**Minister**), responsible for the *Aboriginal and Torres Strait Islander Heritage Protection Act 1984 (Cth)* (**Act**), has received an application made under section 10 of the Act. The application is seeking long term preservation and protection of a significant Aboriginal area being the area known as Mount Peake Mine, near Wilora, approximately 251kms north of Alice Springs in the Northern Territory. The Minister has appointed me to provide a report to the Minister under paragraph 10(1)(c) of the Act.

The Applicant

The application is made by Christine Palmer on behalf of herself and other Kaytej Traditional people (**Applicant**).

The purpose of the application

The application seeks the long-term preservation or protection of the area specified in the application (**specified area**). The specified area is depicted in Figure 1 below. Section 10 of the Act confers power on the Minister to make a declaration to preserve and protect an area where the Minister is satisfied that it is a 'significant Aboriginal area' under threat of injury or desecration. A 'significant Aboriginal area' is defined by section 3 of the Act as an area of land or waters that is "of particular significance to Aboriginals in accordance with Aboriginal tradition". 'Aboriginal tradition' is defined as the "body of traditions, observances, customs and beliefs of Aboriginals generally or of a particular community or group of Aboriginals, and includes any such traditions, observances, customs or beliefs relating to particular persons, areas, objects or relationships".

Matters the report is required to deal with

The Minister must consider my report pursuant to section 10 of the Act in relation to the specified area before deciding whether to make a declaration under section 10 of the Act. Under subsection 10(4) of the Act, the report is required to deal with the following matters:

- (a) the particular significance of the area to Aboriginal peoples;
- (b) the nature and extent of the threat of injury to, or desecration of, the area;
- (c) the extent of the area that should be protected;
- (d) the prohibitions and restrictions to be made with respect to the area;
- (e) the effects the making of a declaration may have on the proprietary or pecuniary interests of persons other than the [Applicant];
- (f) the duration of any declaration;

- (g) the extent to which the area is or may be protected by or under a law of the State or Territory, and the effectiveness of any remedies available under any such law; and
- (h) such other matters (if any) as prescribed.

The specified area

Figure 1 below depicts the area for which preservation and protection is sought. This specified area is described as the Mount Peake Mine, near Wilora, Northern Territory.

Claimed nature of the particular significance

The Applicant claims the specified area is of particular significance in accordance with Aboriginal tradition for several reasons, including:

- The specified area is important for the Wampere (Possum) Dreaming – Wampere (Possum) Dreaming songlines run in multiple directions, from coast to coast, including through the Walpri Tanami Desert and the Wampere (Possum) at Mount Peake and is therefore significant as a cultural and heritage site in songline and story.
- The specified area is a women's site and men are not allowed access to the area.

Claimed threat of injury or desecration

The Applicant claims that the specified area is under threat from the drilling and sterilisation proposed by mining company TNG Ltd. The threat is primarily attributed to drilling in the area and will threaten at least five fauna species which are part of the Mount Peake Dreaming.
