Part 2 Type A procedures

3. Interpretation

A Type A procedure is a procedure specified in this Part provided to a patient in one of the categories of patients in clauses 4 to 9.

4. Advanced surgical patient

- (1) In this Schedule, *advanced surgical patient* has the meaning given by this clause.
- (2) A patient is taken to be an advanced surgical patient upon admission to a hospital:
 - (a) from and including the day before a professional service of the type identified by the item number in the MBS which is specified in subclause (3) is rendered to the patient at that hospital, unless the particular advanced surgical procedure to be rendered is recognised as requiring a longer pre-operative period; or
 - (b) if a longer pre-operative period than that referred to in paragraph (a) is required, from and including the day of admission of the patient for the purpose of providing the professional service of the type mentioned in paragraph (a); or
 - (c) if the advanced surgery is rendered to a patient during an admission, from the day the advanced surgery involving a professional service of the type mentioned in paragraph (a) is performed (not the day before).

Note: The effect of the reference in subclause (2) (a) to a professional service, being a service for which a Medicare benefit is payable, is that a professional service must have been provided to the patient for the minimum benefit to apply.

- (3) The item numbers for this clause are the following items in the MBS, but only where those items have a fee in the MBS greater than \$753.72:

5. Obstetric patient

- (1) In this Schedule, *obstetric patient* has the meaning given by this clause.
- (2) A patient shall be taken to be an obstetric patient during an admission to a hospital from and including:
 - (a) whichever is the earlier of:
 - (ii) the day on which the patient commences labour leading to delivery in that hospital; or
 - (iii) the day on which a professional service with the item number 16515, 16518, 16519, 16522 (excluding caesarean) or 16525 is rendered to the patient in that hospital; or
 - (b) if the circumstances in paragraph (a) do not apply, the day before a professional service with the item number 16520 and 16522 (including caesarean) is rendered to the patient at that hospital, unless the particular obstetric procedure to be rendered is recognised as requiring a longer pre-operative period.

- (3) In this clause, the item numbers specified are the item numbers in the general medical services table.

6. Surgical patient

- (1) In this Schedule, *surgical patient* has the meaning given by this clause.
- (2) A patient shall be taken to be a surgical patient upon admission to a hospital from and including:
- (a) the day before a professional service of the type identified by the item number in the MBS which is specified in subclause (3), is rendered to the patient at that hospital, unless the particular surgical procedure to be rendered is recognised as requiring a longer pre-operative period; or
 - (b) if a longer pre-operative period is required, from and including the day of admission of the patient for the purpose of providing the professional service of the type mentioned in paragraph (a); or
 - (c) if the surgery is rendered to a patient during an admission, from the day the surgery involving a professional service of the type mentioned in paragraph (a) is performed (not the day before).

Note: The effect of the reference in subclause (2) (a) to a professional service, being the service for which a medicare benefit is payable, is that a professional service must have been provided to the patient for the minimum benefit to apply.

- (3) The item numbers for this clause are the following items in the MBS, but only where those items have a fee in the MBS within the range of \$224.43 to \$753.71:

Schedule 4—Nursing-home type patient accommodation: hospitals in all States/Territories

1. Circumstances

- (1) For rule 5 of Part 2 of these Rules, the circumstances specified for hospital treatment to which this Schedule applies are that the treatment is provided:
- (a) to a nursing-home type patient; and
 - (b) at a hospital.

Note: The definition of hospital treatment in section 121-5 of the Act includes that the treatment is provided either at the hospital or provided or arranged with the direct involvement of a hospital. This Schedule sets out benefit requirements only for treatment provided at the relevant hospital — see paragraph 121-5 (1) (c) of the Act.

2. Minimum benefit

The minimum benefit for hospital treatment provided in the circumstances described in this Schedule is the amount set out in Table 1 or 2 of this Schedule for that hospital treatment.

Table 1

Public hospital: State/Territory	Minimum benefit per night
NSW	\$95.30
Northern Territory	\$56.85
Queensland	\$85.50
South Australia	\$91.50
Tasmania	\$91.68
Victoria	\$92.15
ACT	\$82.85
Western Australia	\$91.60

Schedule 5—Second-tier default benefits

1. Interpretation

- (1) In this Schedule:

facility means a private hospital specified in clause 4 of this Schedule.

negotiated agreement means an agreement entered into between a hospital and an insurer, that includes provisions to the effect that, except to the extent (if any) provided in the agreement, the hospital agrees to accept payment by the insurer in satisfaction of any amount that would, apart from the agreement, be owed to the hospital, in relation to an episode of hospital treatment, by an insured person under a policy.

- (2) In this Schedule, except in subclause (4) of this clause, the ACT is taken to be part of NSW and the Northern Territory is taken to be part of the State of South Australia.
- (3) In this Schedule, private hospitals are comparable if they fall within the same category from the following list:
- (a) private hospitals which provide psychiatric care for at least 50% of the episodes of hospital treatment;
 - (b) private hospitals which provide rehabilitation care for at least 50% of the episodes of hospital treatment;
 - (c) private hospitals which do not fall into categories (a) or (b), with up to and including 50 licensed beds;
 - (d) private hospitals which do not fall into categories (a) or (b) with more than 50 licensed beds and up to and including 100 licensed beds;
 - (e) private hospitals which do not fall into categories (a) or (b), with more than 100 licensed beds, without an accident and emergency unit or a specialised cardiac care unit;
 - (f) private hospitals which do not fall into categories (a) or (b), with more than 100 licensed beds, with either (or both) an accident and emergency unit or a specialised cardiac care unit;
 - (g) private hospitals which only provide hospital treatment which does not include any part of an overnight stay.
- (4) In subclause (3), a reference to *licensed beds* is a reference to the beds or patients that a private hospital is permitted, under State or Territory legislation in the State or Territory where the private hospital is located.

2. Circumstances

For rules 4 and 5 of Part 2 of these Rules, the circumstances for hospital treatment to which this Schedule applies are that the treatment is provided to a patient who is not a nursing-home type patient and the treatment is provided at a facility.

Note: The definition of hospital treatment in section 121-5 of the Act includes that the treatment is provided either at the hospital or provided or arranged with the direct involvement of a hospital. This Schedule sets out benefit requirements only for treatment provided at the relevant hospital — see paragraph 121-5 (1) (c) of the Act.

3. Minimum benefit

- (1) Despite anything in Schedules 1, 2, 3 or 6, but subject to subclause (2) of this clause, the minimum benefit for an episode of hospital treatment at a facility that does not have a negotiated agreement with the insurer, is the amount specified in this Schedule (the *second tier default benefit*).
- (2) If the minimum benefit determined in accordance with this Schedule for an episode of hospital treatment is below the amount determined in accordance with Schedules 1, 2, 3 or 6 the minimum benefit is the amount determined in accordance with Schedules 1, 2, 3 or 6 for that episode of hospital treatment.
- (3) If a hospital ceases to be a facility for the purposes of this Schedule, the minimum benefit in relation to an episode of hospital treatment for an insured person who was an admitted patient at the facility or booked for hospital treatment at the facility (as opposed to merely being on the facility's waiting list) before the day that the hospital ceased to be a facility is the minimum benefit that would have applied if the hospital continued to be a facility at the time the treatment was provided.
- (4) Subject to subclauses (2) and (8), the minimum benefit payable by an insurer for an episode of hospital treatment between 1 September of a particular year (the *first year*) and 31 August of the next year is an amount no less than 85% of the average charge for the equivalent episode of hospital treatment, under that insurer's negotiated agreements in force on 1 August of the first year with all such comparable private hospitals in the State in which the facility is located.
- (5) The formula for calculating the *average charge for the equivalent episode of hospital treatment* by an insurer in each State is as follows:

$$R_j = \frac{\sum_{i=1}^n R_{ji}}{n}$$

- Where: j = group of equivalent episodes of hospital treatment under the insurer's negotiated agreements;
- i = group of the insurer's negotiated agreements in force on 1 August of the first year with comparable private hospitals in the State;
- n = the number of the insurer's negotiated agreements in force on 1 August of the first year with comparable private hospitals in the State;

R_{ji} = charge for episode of hospital treatment type j in the negotiated agreement i

R_j = average charge for episode of hospital treatment type j.

- (6) In subclause (4), each ***episode of hospital treatment*** must be identified using the patient classification system and payment structure in the majority of the relevant insurer's negotiated agreements in force on 1 August of the first year with all comparable private hospitals in the State in which the facility is located.
- (7) In subclause (4), for the purpose of calculating the ***average charge for the equivalent episode of hospital treatment*** in a State:
- (a) the charge will include the sum of the amount payable by the insurer under that insurer's negotiated agreement and any excess or co-payment amounts payable by members, in accordance with the insurer's rules; and
- Note: Policy holders' financial obligations under such levels of cover will still apply.
- (b) must not include any charges:
- (i) referred to in the insurer's negotiated agreements for prostheses; and
- (ii) that are minimum benefits for prosthesis as specified for the purpose of item 4 of the table in subsection 72-1 (2) of the Act, and
- (iii) referred to in the insurer's negotiated agreements for hospital treatment provided to nursing-home type patients.
- (8) Subject to subclause (2), if an insurer has less than 5 negotiated agreements in force on 1 August of the first year with a particular category of comparable private hospitals in a State, then all of that insurer's negotiated agreements with all classes of private hospitals in that State are to be used to calculate the minimum benefit.
