 - (d) in the case of a private facility which was previously part of a public hospital, operated as a public hospital or co-located with a public hospital operated by a State or Territory, whether or not the State or Territory and the licensee of the hospital have entered into or are prepared to enter into enforceable agreements with the Commonwealth to supply data or information to the Commonwealth to allow the Commonwealth to monitor access by public patients to a reasonable range of services, the adequacy of arrangements for patient election as to treatment as a public or private patient, the costs to the State/Territory and any other party, and the extent to which costs incurred by other parties are increasing or decreasing.

6. Matters to which the Minister is to have regard in revoking a declaration that a facility is a hospital

For paragraph 121-5 (7) (f) of the Act, in deciding whether to revoke a declaration that a facility is a hospital, the following matters are specified:

- (c) treatment provided to a person who is not a patient within the meaning of that word in paragraph (b) of the definition of 'patient' in subsection 3 (1) of the *Health Insurance Act 1973*; and

Note: 'Patient' as used in paragraph (b) of the definition of 'patient' in subsection 3 (1) of the Health Insurance Act does not include a newly-born child whose mother also occupies a bed in the hospital except in certain specified circumstances.

- (d) treatment which is part of a chronic disease management program that is intended to delay the onset of chronic disease for a person with identified multiple risk factors for chronic disease.

Note: Paragraph (d) does not refer to a chronic disease management program that is intended to prevent the onset of chronic disease for a person with identified multiple risk factors for chronic disease as hospital treatment is treatment intended to manage a disease, injury or condition and does not cover prevention—see the meaning of hospital treatment in subsection 121-5 (1) of the Act. Treatment intended to prevent a disease may be general treatment—see subsection 121-10 (1) of the Act.

9. General treatment—included treatment

Ambulance services associated with the provision of treatment to an insured person are specified for the purposes of subsection 121-10 (2) of the Act.

 that are integral to the provision of the services specified in paragraphs (a) and (b),

but only when any of the services in the above classes are provided as part of hospital-substitute treatment.

Note 1: The effect of this rule is to provide for the above treatments or services that are eligible for a medicare benefit to come within the definition of hospital-substitute treatment.

Note 2: Private health insurers cannot cover, as part of general treatment (including hospital-substitute treatment) professional services for which medicare benefit is payable, except as provided for in this rule.

Note 3: Section 126 of the *Health Insurance Act 1973* prohibits insurance regarding professional services for which medicare benefit is payable, other than a complying health insurance policy entered into by a private health insurer that covers hospital treatment or hospital-substitute treatment, or insurance regarding a person who is an eligible person by reason only of being treated as an eligible person under subsection 7 (2) of the *Health Insurance Act 1973*.

Note: A chronic disease management program intended to prevent or delay the onset of a chronic disease in a patient can be general treatment only—see paragraph 121-5 (1) (a) of the Act and paragraph 8 (d) of these Rules in respect of hospital treatment, and paragraph 121-10 (1) (a) in relation to general treatment intended to prevent a disease.

- (b) requires the development of a written plan that:
