Main Features of this Standard

Application Date

This Standard is applicable to annual reporting periods beginning on or after 1 January 2009 that end on or after 30 June 2009. Early adoption is permitted for annual reporting periods beginning on or after 1 January 2005 but before 1 January 2009 and for annual reporting periods beginning on or after 1 January 2009 that end before 30 June 2009, provided that the revised AASB 101 is also adopted for the same period.

Main Requirements

This Standard makes numerous editorial amendments to a range of Australian Accounting Standards and Interpretations, including amendments to reflect changes made to the text of IFRSs by the IASB. For example, the term 'revaluation reserve' is changed to 'revaluation surplus', which already appears in some places in the Australian pronouncements.

The Standard makes additional amendments as a consequence of the issuance in September 2007 of a revised AASB 101. These amendments were omitted from or incorrectly stated in AASB 2007-8 *Amendments to Australian Accounting Standards arising from AASB 101*.

These amendments have no major impact on the requirements of the amended pronouncements.

ACCOUNTING STANDARD AASB 2009-6

The Australian Accounting Standards Board makes Accounting Standard AASB 2009-6 *Amendments to Australian Accounting Standards* under section 334 of the *Corporations Act 2001*.

Dated 25 June 2009

Subsequently, the entity recognises gains and losses on the available-for-sale financial asset in other comprehensive income and accumulates the cumulative gains and losses in that separate component of equity until the investment is impaired, sold, collected or otherwise disposed of. For example, under the general New South Wales requirements noted in paragraph Aus12.1, a co-operative would measure the fair value of the financial liability (if the members' shares are so classified) by discounting the maximum amount payable on redemption over the four-year period to the first date that the amount could be required to be paid.

- (a) in paragraph IE7, 'net statement of financial position liability of 180' is amended to 'net liability of 180 in the statement of financial position';
 - (b) in the summary tables in paragraphs IE7 and IE20, 'Net statement of financial position liability' is amended to 'Net liability recognised in the statement of financial position';
 - (c) in paragraphs IE8 and IE21, 'net statement of financial position asset' is amended to 'net asset recognised in the statement of financial position'; and
 - (d) in paragraph IE20, 'net statement of financial position liability of 244' is amended to 'net liability of 244 in the statement of financial position'.

Amendments to Interpretation 107

- 116 In paragraph 5, in the last sentence, 'after the end of the reporting period' (wherever occurring) is amended to 'after the reporting period'.
- 117 In paragraph 6, the footnote at the end of the third sentence is moved to the end of the fourth sentence, and in the last sentence, 'initially recognised in equity' is amended to 'initially recognised in other comprehensive income'.
- 118 Paragraph 7 is amended as follows (new text is underlined and deleted text is struck through):
- 7 AASB 121.48 requires the cumulative amount of exchange differences relating to the translation of the financial statements of a foreign operation ~~which have been deferred in equity that have been recognised in other comprehensive income and accumulated in a separate component of equity~~ in accordance with AASB 121.32 or 121.39(c) to be ~~recognised as income or expenses reclassified from equity to profit or loss~~ in the same period in which the gain or loss on disposal or partial disposal of the foreign operation is recognised. The fact that the cumulative amount of exchange differences will be fixed under EMU does not justify immediate recognition as income or expenses ~~since~~ because the wording and the rationale of AASB 121.48 clearly preclude such a treatment.

Amendments to Interpretation 115

- 119 In paragraph 8, ‘AASB 101 *Presentation of Financial Statements*, paragraph 25’ is amended to ‘AASB 101 *Presentation of Financial Statements*, paragraph 27’.
- 120 In paragraph 11, ‘the statement of comprehensive income’ is amended to ‘profit or loss’.
- 121 In the Appendix accompanying Interpretation 115, in Example 2, ‘5,000 per annum’ is amended to ‘5,000 per year’.

Amendments to Interpretation 125

- 122 Paragraphs 5-8 are amended (new text is underlined and deleted text is struck through), and paragraph 5A is added, as follows:
- 5 AASB 112.58 requires current and deferred tax to be included in ~~the~~ profit or loss for the period, except to the extent the tax arises from a transaction or event that is recognised outside profit or loss either in other comprehensive income or directly in equity, in the same or a different period (or arises from a business combination). AASB 112.61A requires ~~that~~ current and deferred tax ~~to be charged or credited directly to equity recognised~~ outside profit or loss if the tax relates to items that are ~~credited or charged recognised~~, in the same or a different period, ~~directly to equity~~ outside profit or loss.
- 5A AASB 112.62 identifies examples of circumstances in which a transaction or event is recognised in other comprehensive income as permitted or required by another Australian Accounting Standard. All of these circumstances result in changes in the recognised amount of equity through recognition in other comprehensive income.
- 6 AASB 112.62A identifies examples of circumstances in which a transaction or event is recognised directly in equity as ~~is~~ permitted or required by another Australian Accounting Standard. All of these circumstances result in changes in the recognised amount of equity through recognition of a credit or charge directly to equity.
- 7 AASB 112.65 explains that where the tax base of a revalued asset changes, any tax consequence is recognised ~~directly in equity~~ in other comprehensive income only to the extent ~~that~~ a related accounting revaluation was or is expected to be

recognised ~~directly in equity (revaluation reserve)~~ in other comprehensive income (revaluation surplus).

- 8 Because tax consequences recognised outside profit or loss, whether in other comprehensive income or directly in equity, must relate to a transaction or event recognised ~~directly in equity outside profit or loss~~ in the same or a different period, the cumulative amount of tax ~~charged or credited directly to equity recognised outside profit or loss~~ can be expected to be the same amount that would have been ~~charged or credited directly to equity recognised outside profit or loss~~ if the new tax status had applied previously. AASB 112.63(b) acknowledges that determining the tax consequences of a change in the tax rate or other tax rules that affects a deferred tax asset or liability and relates to an item previously ~~charged or credited to equity recognised outside profit or loss~~ may prove to be difficult. Because of this, AASB 112.63 suggests that an allocation may be necessary.

Amendment to Interpretation 127

- 123 In paragraph 14, ‘paragraphs 15-37 and 39-42 of AASB 139’ is amended to ‘paragraphs 15-37, 39-42, AG36-AG52 and AG57-AG63 of AASB 139’.

Amendment to Interpretation 129

- 124 Paragraph 10 is amended as follows (new text is underlined and deleted text is struck through):
- 10 AASB 101 *Presentation of Financial Statements*, paragraph ~~403(e)~~ 112(c), requires an entity’s notes to provide additional information that is not presented ~~on the face of the statement of financial position, statement of comprehensive income, statement of changes in equity or statement of cash flows elsewhere in the financial statements~~, but is relevant to an understanding of any of them. The definition of notes in AASB ~~101.14~~ 101.7 indicates that notes provide narrative descriptions or disaggregations of items disclosed in the statement of financial position, statement of comprehensive income, separate income statement (if presented), statement of changes in equity and statement of cash flows, as well as information about items that do not qualify for recognition in those statements.
