Reasons for Issuing Auditing Standard ASA 620 *Using the Work of an Auditor's Expert*

The Auditing and Assurance Standards Board (AUASB) issues Auditing Standard ASA 620 *Using the Work of an Auditor's Expert* pursuant to the requirements of the legislative provisions and the Strategic Direction explained below.

The AUASB is an independent statutory board of the Australian Government established under section 227A of the *Australian Securities and Investments Commission Act 2001*, as amended (ASIC Act). Under section 336 of the *Corporations Act 2001* (the Act), the AUASB may make Auditing Standards for the purposes of the corporations legislation. These Auditing Standards are legislative instruments under the *Legislative Instruments Act 2003*.

Under the Strategic Direction given to the AUASB by the Financial Reporting Council (FRC), the AUASB is required to have regard to any programme initiated by the International Auditing and Assurance Standards Board (IAASB) for the revision and enhancement of the International Standards on Auditing (ISAs) and to make appropriate consequential amendments to the Australian Auditing Standards. The IAASB has undertaken a programme to redraft, and in some cases, revise, in "clarity" format, the entire suite of ISAs. Accordingly, the AUASB has decided to revise and redraft the Australian Auditing Standards using the equivalent redrafted ISAs.

The Auditing Standard conforms with ISA 620 *Using the Work of an Auditor's Expert*.

Operative Date

ASA 620 *Using the Work of an Auditor's Expert* is operative for financial reporting periods commencing on or after 1 January 2010.

Purpose of Auditing Standard ASA 620 *Using the Work of an Auditor's Expert*

The purpose of the Auditing Standard is to establish requirements and to provide application and other explanatory material relating to the work of an individual or organisation in a field of expertise other than accounting or auditing, when that work is used to assist the auditor in obtaining sufficient appropriate audit evidence.

Explanatory Statement ASA 620 *Using the Work of an Auditor's Expert*

Main Features

The Auditing Standard requires the auditor to determine whether to use the work of an auditor's expert, where such expertise is necessary to obtain sufficient appropriate audit evidence, and:

- (a) describes how the nature, timing and extent of audit procedures performed will vary depending on the circumstances of the audit engagement;
- (b) requires the auditor to evaluate whether the auditor's expert has the necessary competence, capabilities and objectivity for the auditor's purposes;
- (c) requires the auditor to obtain a sufficient understanding of the field of expertise of the auditor's expert to enable the auditor to:
 - (i) determine the work to be performed by the expert; and
 - (ii) evaluate the adequacy of that work for the auditor's purposes;
- (d) requires the auditor to agree certain matters with the auditor's expert in respect of the work to be performed;
- (e) requires the auditor to evaluate the adequacy of specific aspects of the expert's work; and
- (f) describes the auditor's responsibilities when referring to the auditor's expert in the auditor's report.

Preamble and Overall Objectives

ASA 620 is to be read in conjunction with ASA 101 *Preamble to Australian Auditing Standards*, which sets out the intentions of the AUASB on how the Australian Auditing Standards, operative for financial reporting periods commencing on or after 1 January 2010, are to be understood, interpreted and applied. ASA 620 is to be read also in conjunction with ASA 200 *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Australian Auditing Standards*.

Process of making Australian Auditing Standards

The AUASB's Strategic Direction, *inter alia*, provides that the AUASB develop Australian Auditing Standards that:

- have a clear public interest focus and are of the highest quality;
- use the International Standards on Auditing (ISAs) of the International Auditing and Assurance Standards Board (IAASB) as the underlying standards;
- conform with the Australian regulatory environment; and
- are capable of enforcement.

In implementing the FRC's Strategic Direction, the AUASB has undertaken a process of revision and redrafting of the Australian Auditing Standards that has:

- updated the form, layout and content of the Australian Auditing Standards;
- addressed the legal enforceability of mandatory obligations;
- maintained clarity of the auditor's obligations;
- incorporated appropriate references to Australian laws and regulations;
- clearly identified, by use of the prefix "Aus", AUASB additions to paragraphs in the requirements or the application and other explanatory material; and
- included other amendments as necessary.

Consultation Process prior to issuing the Auditing Standard

The AUASB has consulted publicly as part of its due process in developing the Auditing Standard. Exposure Draft ED 16/09 *Proposed Auditing Standard: Using the Work of an Auditor's Expert* (Re-issuance of ASA 620), was issued on 17 April 2009 with a 30 day comment period.

As an integral part of its consultation with the public, the AUASB sought comments on specific questions including:

Explanatory Statement ASA 620 *Using the Work of an Auditor's Expert*

- the completeness and accuracy of references in the Auditing Standard to relevant laws and regulations;
- the significant costs, if any, and benefits, of compliance with any additional requirements under the Auditing Standard; and
- whether or not there exist any matters of public interest affecting the issuance of the Auditing Standard.

Submissions were received by the AUASB and these were considered as part of the development and finalisation of the Auditing Standard.

Regulation Impact Statement

A *Regulation Impact Statement* (RIS) has been prepared in connection with the redrafting of Australian Auditing Standards in “clarity” format, including ASA 620 *Using the Work of an Auditor's Expert*.

The RIS considered both expected benefits and expected costs of the introduction of clarified auditing standards, including comments provided by stakeholders during the redrafting process. It concluded that expected benefits to users of audit services, users of audit reports, auditors and the Australian economy in general are, on balance, likely to outweigh expected costs.

Main Differences from ASA 620 *Using the Work of an Expert* (April 2006)

The main differences between the Auditing Standard and the Auditing Standard that it supersedes, ASA 620 *Using the Work of an Expert* (April 2006), are:

1. Auditing Standard ASA 620 is written in the “clarity” format using the equivalent International Standard on Auditing (ISA 620 *Using the Work of an Auditor's Expert*) as the underlying Auditing Standard. Consequently, the format, layout, and paragraph numbering styles are different from the extant Auditing Standard.
2. Auditing Standard ASA 620 distinguishes between an *auditor's expert* and a *management's expert* and covers the auditor's responsibilities in relation to the former, whereas the extant Auditing Standard uses the term *expert* and covers the auditor's responsibilities in relation to both categories of experts. (Ref: ASA 500 *Audit Evidence* for information about the auditor's

Explanatory Statement ASA 620 *Using the Work of an Auditor's Expert*

responsibilities in relation to using the work of a management's expert).

3. Certain guidance material in the extant Auditing Standard has been elevated to requirements.
4. To improve clarity, certain requirements and guidance in the extant Auditing Standard have been re-written, however, the equivalent meanings have been retained.
5. Auditing Standard ASA 620 includes significant application and other explanatory material relating to:
 - determining the nature, timing and extent of audit procedures when using the work of an auditor's expert;
 - understanding the competence, capabilities, objectivity and field of expertise of the auditor's expert;
 - establishing agreement with the auditor's expert about the work to be performed; and
 - evaluating the work of an auditor's expert.
