7 Meaning of **growth in overseas enrolments**

- (1) If a registered provider had overseas student enrolments in 2011, the provider's **growth in overseas students** is worked out using the formula:

$$\left[\frac{\text{Number of overseas student enrolments in 2013}}{\text{Number of overseas student enrolments in 2011}} - 1 \right]$$

- (2) If a registered provider did not have overseas student enrolments in 2011, but had overseas student enrolments in 2012, the provider's **growth in overseas students** is worked out using the formula:

$$\left[\frac{\text{Number of overseas student enrolments in 2013}}{\text{Number of overseas student enrolments in 2012}} \right]^2 - 1$$

- (3) If a registered provider did not have overseas student enrolments in 2011, and did not have overseas student enrolments in 2012, the provider's **growth in overseas students** is zero.

8 Meaning of *maximum source country concentration*

The *maximum source country concentration* for a registered provider is worked out using the following steps:

- Step 1** Work out the number of the enrolments with the registered provider in 2013 for each source country
- Step 2** Divide the largest result for an individual country by the total number of enrolments
- Step 3** Express the result as a percentage

9 Meaning of *weighted late payment measure*

- (1) The *weighted late payment measure* for a registered provider is worked out using the following steps:

- Step 1** Work out $0.7 \times [\text{ARCDL}(2013) + \text{ETMCDL}(2013) + \text{TPSDL}(2013)]$
- Step 2** Work out $0.2 \times [\text{ARCDL}(2012) + \text{ETMCDL}(2012) + \text{TPSDL}(2012)]$
- Step 3** Work out $0.1 \times [\text{ARCDL}(2011) + \text{ETMCDL}(2011) + \text{TPSDL}(2011)]$
- Step 4** Add the results

- (2) *ARCDL*, and a year, is the number of days after the due date on which the annual registration charge for that year was received. However, if the payment was received before or on the due date, *ARCDL* for that year is zero.
- (3) *ETMCDL*, and a year, is the number of days after the due date on which the entry to market charge for that year was received. However, if the payment was received before or on the due date, *ETMCDL* for that year is zero.
- (4) *TPSLDL*, and a year, is the number of days after the due date on which the TPS Levy payable for that year was received. However, if the TPS Levy was received the before or on the due date, *AFDL* for the year is zero.

11 TPS Levy risk rated premium component calculations and national registration process of CRICOS providers

For CRICOS providers who amalgamate their registrations into a single registration through the national registration process, recalculate the risk factors in section 10 as follows:

- (a) calculate the payment in arrears on the basis of the fee structure for the resultant merged entity (or registration);

-
- (b) calculate the length of operation for the entity to which the single registration relates as the period commencing on the start of the longest-running registration in the amalgamation and ending on 31 December 2013;
 - (c) calculate the growth in overseas student enrolments using section 7, but treat the number of overseas student enrolments for a year as the sum of student enrolments for all registrations in that year that were amalgamated into the single registration;
 - (d) calculate the maximum overseas students source country concentration using section 8, as follows:
 - (i) calculate that the number of enrolments for each source country as the sum of the enrolments for that source country with each of the registrations that were amalgamated into the single registration; and
 - (ii) calculate the total number of enrolment as the sum of the total number of enrolments for all registrations that were amalgamated into the single registration.
 - (e) calculate the non-compliance history for the resultant merged entity (or registration), including late payment measure and the sanctions for non-compliance under Division 1 of Subdivision A of section 83 of the Education Services for Overseas Students Act 2000, in the year 2013; and
 - (f) calculate the overseas students tuition fee income for the calendar year 2013 as the sum of the overseas students tuition fee income for all registrations that were amalgamated into the single registration.

12 Special tuition protection component

For subsection 10(2) of the Act, the specified percentage rate for 2014 is 0.

Note Subsection 10(1) of the Act relates to a registered provider's special tuition protection component for a year. That subsection includes a formula with contents that are supported by this section.
