- (2) The withholding schedule in this instrument is made for the purposes of collecting income tax, Medicare levy, Temporary Budget Repair levy and amounts due to the Commonwealth under the *Higher Education Support Act 2003*, the *Social Security Act 1991* and the *Student Assistance Act 1973*.

This document is a withholding schedule made by the Commissioner of Taxation in accordance with sections 15-25 and 15-30 of Schedule 1 to the *Taxation Administration Act 1953*. It applies to withholding payments covered by Subdivision 12-B, 12-C and 12-D.

Using this table

A payee may ask you to withhold a higher amount from their income than would normally be required.

A payee's request to have additional amounts withheld should be in writing but can be in any format that suits your business. For example, an email request could be used or you may design a paper or computer-based form for this purpose.

Your agreement to the arrangement will be indicated by withholding in accordance with the payee's request. No additional record is required.

The total amount to withhold is the normal amount calculated on the payee's earnings (based on the applicable withholding schedule or regulation) plus the additional amount requested by the payee.

How to work out the withholding amount

To work out the amount to withhold, you must:

1. Use the appropriate tax table to look up the normal amount of withholding for the period using instructions in that table.
2. Work out the additional amount the payee wants withheld in accordance with their written request.
3. Add the amount from step 1 to the amount from step 2.

Example

The payee's weekly earnings are \$854.00. The payee and the payer have an agreement that the payer withholds an additional \$50 a week from the payee's earnings. If the payee is claiming the tax-free threshold, the payer would use column 2 of the *Weekly tax table* (NAT 1005) to find the basic amount to withhold of \$132. The total amount to withhold from the payee's weekly earnings is $\$132 + \$50 = \$182$.
