Minister for Indigenous Health**

Aged Care Act 1997

Aged Care (Subsidy, Fees and Payments) Amendment (July Indexation) Determination 2017

The *Aged Care Act 1997* (the Act) provides for the regulation and funding of aged care services. Persons who are approved under the Act to provide aged care services (approved providers) can be eligible to receive subsidy and supplement payments in respect of the care they provide to approved care recipients.

The Act provides that for each type of aged care, the Minister may determine the amount of subsidy and supplement payable to an approved provider for the provision of that type of aged care.

The purpose of the *Aged Care (Subsidy, Fees and Payments) Amendment (July Indexation) Determination 2017* (the Amending Determination) is to increase the amount of subsidies and supplements payable to approved providers of aged care services in respect of a day from 1 July 2017. The Amending Determination also gives effect to the measure announced on 6 December 2016 by the (then) Assistant Minister for Health and Aged Care, that rural, remote and homeless residential service providers eligible for viability supplement under the 2017 scheme, will have, from 1 July 2017, a flat rate increase of an additional \$2.12 per day per resident on top of the indexed amount.

The Amending Determination applies only in respect of care recipients who are not continuing care recipients. Continuing care recipients are those who entered a care service before 1 July 2014 and since that time have not left the service for a continuous period of more than 28 days (other than because the person is on leave), or before moving to another service, have not made a written choice to be subject to the new rules relating to fees and payments that took effect on 1 July 2014. The amount of subsidy and supplements payable in respect of continuing care recipients is detailed in the *Aged Care (Transitional Provisions) (Subsidy and Other Measures) Determination 2014*.
