## 6 Amount of supervisory levy

For paragraph 8(4) of the Act, for the 2018-2019 financial year:

- (a) the amount of supervisory levy for each complying health insurance policy (a **single policy**) under which only one person is covered is worked out under section 6; and
- (b) the amount of supervisory levy for each complying health insurance policy that is not a single policy is twice the amount for a single policy.

## 7 Amount of supervisory levy for a single policy

- (1) The amount of supervisory levy for a single policy is the amount in cents worked out using the formula:

$$\frac{453\,300\,000}{\text{aggregate single policies} + (2 \times \text{aggregate other policies})}$$

where:

**aggregate single policies** means the total number of single policies on issue from all private health insurers on 1 July 2018;

**aggregate other policies** means the total number of complying health insurance policies (other than single policies) on issue from all private health insurers on 1 July 2018.

- (2) However, if the amount worked out using the formula is more than \$2, the amount of supervisory levy for a single policy is \$2.
