Commencement information		
Column 1	Column 2	Column 3
Provisions	Commencement	Date/Details
1. The whole of this instrument	16 June 2019.	16 June 2019

Note: This table relates only to the provisions of this instrument as originally made. It will not be amended to deal with any later amendments of this instrument.

- (2) Any information in column 3 of the table is not part of this instrument. Information may be inserted in this column, or information in it may be edited, in any published version of this instrument.

3 Authority

This instrument is made under subsection 223(1) of the *Biosecurity Act 2015*.

4 Definitions

Note: A number of expressions used in this instrument are defined in section 9 of the Act.

In this instrument:

Act means the *Biosecurity Act 2015*.

aircraft means an aircraft (as defined by section 9 of the Act) that is subject to biosecurity control.

goods means goods (as defined by section 19 of the Act):

- (a) that are subject to biosecurity control; or
- (b) in relation to which an exposed goods order is in force.

Part 2—First point of entry

5 First point of entry—aircraft

Royal Australian Air Force Base Edinburgh is a first point of entry for aircraft generally.

6 First point of entry—goods

Royal Australian Air Force Base Edinburgh is a first point of entry for goods other than live horses.

Note: For other matters relating to whether particular goods may be brought into a particular first point of entry, see sections 173 and 174 of the Act (which deal with prohibited goods and conditionally non-prohibited goods) and any determinations made under those sections.

Part 3—Biosecurity entry points

7 Biosecurity entry points—aircraft

Note: An aircraft must be brought to a biosecurity entry point at a first point of entry if there is a biosecurity entry point for the aircraft at that first point of entry (see section 238 of the Act). If there are no biosecurity entry points for aircraft at a first point of entry, this requirement does not apply to aircraft landing there. This determination does not designate any area of Royal Australian Air Force Base Edinburgh as a biosecurity entry point for aircraft.

8 Biosecurity entry points—goods

Each area of Royal Australian Air Force Base Edinburgh specified in column 2 of an item of the following table is designated as a biosecurity entry point for goods, or goods included in a class of goods, specified in column 1 of the item.

Biosecurity entry points—goods		
Item	Column 1 Goods	Column 2 Areas
1	Baggage	Royal Australian Air Force Base Edinburgh Air Movements Terminal

Note 1: If an aircraft has arrived at Royal Australian Air Force Base Edinburgh and is carrying goods mentioned in the table that are to be unloaded from the aircraft, those goods must be brought to a biosecurity entry point for those goods as soon as practicable (see section 147 of the Act).

Note 2: This determination does not designate biosecurity entry points for other goods for which Royal Australian Air Force Base Edinburgh is a first point of entry, so the requirement in section 147 of the Act does not apply to the unloading of those other goods.
