Explanatory Statement

ASIC Market Integrity Rules (Securities Markets) Determination 2020/195 and ASIC Market Integrity Rules (Securities Markets) Repeal Instrument 2020/196

This is the Explanatory Statement for ASIC Market Integrity Rules (Securities Markets) Determination 2020/195 (the **Determination**) and ASIC Market Integrity Rules (Securities Markets) Repeal Instrument 2020/196 (the **Repeal Instrument**).

The Explanatory Statement is approved by the Australian Securities and Investments Commission (**ASIC**).

Summary

1. Chapter 6 of the *ASIC Market Integrity Rules (Securities Markets) 2017* (the **Rules**) sets out market integrity rules relating to pre-trade transparency of Orders and post-trade transparency of transactions executed on or reported to a Market, including in relation to Equity Market Products. A 'Block Trade' is a key concept in Chapter 6 and has the meaning given by subrule 6.2.1(1).
2. For a transaction to be a Block Trade, among other things, the consideration for the transaction may not be less than consideration thresholds set out in paragraph 6.2.1(1)(c) of the Rules, which differ according to whether the Relevant Product is a Tier 1 Equity Market Product, Tier 2 Equity Market Product, Tier 3 Equity Market Product or a CGS Depository Interest.
3. Under subrule 6.2.1(4) of the Rules, ASIC may determine Tier 1 Equity Market Products and Tier 2 Equity Market Products by instrument in writing.
4. The Determination maintains ASIC's policy of determining the allocation of Equity Market Products to tiers based on a periodic calculation of 2.5% of each product's average daily value transacted in the preceding six-month period (or other material number of Trading Days if the product was not quoted during the entire period).
5. The Repeal Instrument, together with the Determination, supersede and repeal the determinations in *ASIC Market Integrity Rules (Securities Markets) Determination 2019/1226* (**Superseded Determination**).

Purpose of the instrument

6. The purpose of the Determination is to determine, for the purposes of paragraph 6.2.1(1)(c) of the Rules and with effect from its commencement, the Tier 1 Equity Market Products and the Tier 2 Equity Market Products.
7. The purpose of the Repeal Instrument is to repeal the Superseded Determination, which will be superseded by the Determination upon its commencement.
8. The Determination and the Repeal Instrument maintain the existing policy settings under *ASIC Market Integrity Rules (Securities Markets) Determination 2019/1226*

Consultation

9. In November 2010 and October 2011, ASIC consulted on its policy of determining the allocation of Equity Market Products to tiers based on a periodic calculation of average daily value in Consultation Paper 145 *Australian equity market structure: Proposals* and with further refinements in Consultation Paper 168 *Australian equity market structure: Further proposals* respectively.
10. There has been no consultation on the Determination or the Repeal Instrument because they are minor and machinery in nature.
11. A Regulatory Impact Statement is not required for the instruments as they maintain the existing policy settings in force under *ASIC Market Integrity Rules (Securities Markets) Determination 2019/1226* and its predecessors.
