

# EXPLANATORY STATEMENT

## Veterans' Entitlements (Non-warlike Service) Amendment Determination 2020 (No. 1)

This Determination amends the *Veterans' Entitlements (Non-warlike Service) Determination 2019* (the Principal Determination) made under subsection 5C(1) of the *Veterans' Entitlements Act 1986* (the Act), which provides for the payment of pensions and other benefits to, and medical treatment for, veterans and certain other persons, and for other purposes.

This Determination is a legislative instrument for the purposes of the *Legislation Act 2003* and is exempt from disallowance pursuant to item 33 in Section 10 of the *Legislation (Exemptions and Other Matters) Regulation 2015* (the Regulations) and is also exempt from sunseting pursuant to item 65 in Section 12 of the Regulations.

Subsection 5C(1) of the Act defines non-warlike service as meaning service in the Defence Force of a kind determined in writing by the Defence Minister to be non-warlike service.

A determination of non-warlike service under the Act allows the Repatriation Commission to apply a more beneficial standard of proof when assessing a claim for liability of a veteran's injury, disease or death in relation to a period of non-warlike service. This beneficial standard of proof reflects an understanding of the unique nature of military service and the risks associated with service on warlike or non-warlike operations. A veteran with non-warlike service will also be eligible for treatment of malignant neoplasia and pulmonary tuberculosis on a non-liability basis.

The purpose of this Determination is to add a new non-warlike operation, Operation Quadrant, into the table which states the nature, area and period of operation.

Section 1 of this Determination sets out the manner in which this Determination may be cited.

Section 2 provides that this Determination will be taken to have commenced on 1 July 2019. While this Determination is to be taken to have commenced before its registration, it will not contravene subsection 12(2) of the *Legislation Act 2003* as the Determination does not adversely affect a person's rights or obligation.

The commencement of this Determination before registration enables eligible persons who would be eligible for a benefit as a consequence of an injury or illness sustained on Operation Quadrant who have lodged a claim to be eligible for a benefit that may be payable from the date of the claim or from 1 July 2019, whichever is later. The dates from which certain benefits are payable may also be governed by the provisions of the Act.

Section 3 identifies that this Determination is made under the definition of non-warlike service in subsection 5C(1) of the *Veterans' Entitlements Act 1986*.

Section 4 provides that each instrument that is specified in a Schedule to this Determination is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this Determination has effect according to its terms.

The historical dates in this Determination do not affect the rights of a person (other than the Commonwealth) in a manner prejudicial to that person, nor does it impose any liability on such a person (other than the Commonwealth). The retrospective application of this Determination is required to ensure that no ADF member (or their legal personal representative) is disadvantaged if claiming for death, injury or disease that may have occurred between the period when they commenced service on the operation and the commencement of this Determination.

*Schedule 1 –Non-warlike service amendment*

Section 1 of this Determination inserts, at item 37 of the Principal Determination, a new operation (Operation Quadrant) and specifies the areas of operation and the period in which Service in that area is non-warlike Service for the purposes of the definition of non-warlike service in subsection 5C(1) of the Act.

**Consultation**

The Department of Veterans' Affairs were consulted during the classification process. It is noted that decisions about the nature of service are subject to bipartisan consultation through Government and do not impact business or competition.

**Authority:** Subsection 5C(1) of the  
*Veterans' Entitlements Act 1986*

# Statement of Compatibility with Human Rights

*Prepared in accordance with Part 3 of the Human Rights (Parliamentary Scrutiny) Act 2011*

## **Veterans' Entitlements (Non-warlike Service) Amendment Determination 2020 (No. 1)**

This Determination is compatible with the human rights and freedoms recognised or declared in the international instruments listed in section 3 of the *Human Rights (Parliamentary Scrutiny) Act 2011*.

### **Overview of the Determination**

This Determination amends the *Veterans' Entitlements (Non-warlike Service) Determination 2019* by adding a new non-warlike operation, Operation Quadrant, into the table which states the nature, area and period of operation

### **Human rights implications**

This Determination engages the following human rights.

- *The right to health is the right to the enjoyment of the highest attainable standard of physical and mental health* (article 12(1) International Covenant on Economic, Social and Cultural Rights).
- *The right to social security requires a social security system be established and that a country must, within its maximum available resources, ensure access to a social security scheme* (article 9 International Covenant on Economic, Social and Cultural Rights).
- *Live, take part and be included in the community* (article 19 Convention on the Rights of Persons with Disabilities).

*Legitimate objective:* Defence members who become ill or injured in the course of duty may require special assistance and support on return from that duty. Whether an injury or illness is seen as arising out of duty may depend on the nature of the service that the member has been required to perform. The actual decision about whether the nature of service will be warlike or non-warlike is made by the Executive. This Determination ensures that the nature of service that a member provides is reflected in the level and type of benefits that they may be eligible for if they are ill or injured due to their Service.

The historical dates in this Determination do not affect the rights of any persons (other than the Commonwealth) so as to disadvantage those persons nor does it impose liabilities (other than on the Commonwealth) in respect of anything done before the date this Determination is registered. It is a beneficial legislative instrument.

*Reasonable, necessary and proportionate:* Determining the nature of service that a member has provided allows the relevant level of additional support to be provided to assist the member with the health care and other needs that they may have as a member. Benefits may also be provided to a member's dependants, who are directly affected by the additional needs that a member may have as a result of their illness or injury.

Although the application for benefits may require some provision of personal information and some limitation on the suppliers of health treatment and benefits that are provided, these restrictions are considered proportional.

- The personal information is treated in accordance with legislated privacy protections.
- The benefits are additional to those provided to the general public and address a special need arising out of a member's injury or illness.

## **Conclusion**

This Determination is compatible with human rights because to the extent that it may limit human rights, those limitations are reasonable, necessary and proportionate.

Darren Chester, Minister for Veterans' Affairs and Minister for Defence Personnel
