Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 705.1 Investment Performance and Objectives* (SRF 705.1).

General directions and notes

Reporting level

SRF 705.1 must be completed for each registrable superannuation entity (RSE), defined benefit RSE and eligible rollover fund (ERF).

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and unit of measurement

Amounts in SRF 705.1 are to be reported as percentages, whole numbers or numbers with decimals as specified. Percentages are to be reported as an unconverted number to two decimal places or as specified. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 705.1 must be reported as at the end of the reporting period or with respect to transactions that occurred during the reporting

period as specified.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

Specific instructions

Attribution of data to superannuation product, investment menu or investment option

SRF 705.1 must be completed in respect of each ***investment option*** offered by the RSE excluding the following:

- ***investment options*** which have been aggregated as permitted in Item 3 of *Reporting Form SRF 605.0 RSE Structure* (SRF 605.0);
- ***investment options*** which solely underlie defined benefits; and
- ***investment options*** which are reported on SRF 605.0 with the ***Investment Option Category Type*** of 'Annuity'.

Where the data is applicable to all members in the ***investment option***, the RSE licensee must report data for that ***investment option*** and report 'ALL' for the remaining RSE structure levels.

Where the data varies depending on the ***superannuation product*** and/or ***investment menu***, the RSE licensee must report data for each relevant combination of ***superannuation product***, ***investment menu*** and ***investment option***.

Therefore, the RSE does not need to report every combination of ***superannuation product***, ***investment menu*** and ***investment option*** that they have, only those combinations that lead to distinct ***return objectives***, returns or volatilities being reported.
