Section 15 of the Act sets out the method for calculating the maximum annual charges that the Australian Communications and Media Authority may impose on carrier licences held by telecommunications carriers in force at the beginning of a financial year. Paragraphs 15(1)(a) to (d) set out the amounts to be used in the calculation. Paragraph 15(1)(d) refers to the amount determined, in a written instrument made by the Minister, to be the estimated total amount of grants likely to be made during the financial year under section 593 of the *Telecommunications Act 1997* (Tel Act).

The Determination provides that \$2,624,000 is the estimated total amount of grants likely to be made during the 2023-24 financial year under section 593 of the Tel Act.

For the 2023-24 financial year, the determinations referenced in paragraphs 15(1)(a), (c) and (ca) of the Act will be made by the Australian Communications and Media Authority and the determination referenced in paragraph 15(1)(b) will be made by the Australian Competition and Consumer Commission.

## Background

Section 593 of the Tel Act provides that the Minister may, on behalf of the Commonwealth, make a grant of financial assistance to:

- a consumer body for purposes in connection with the representation of the interests of consumers in relation to telecommunications issues (subsection 593(1)); and/or
- a person or body for purposes in connection with research into the social, economic, environmental or technological implications of developments relating to telecommunications (subsection 593(2)).

Since 2009-10, several grants of financial assistance under section 593 of the Tel Act have been provided to the Australian Communications Consumer Action Network (ACCAN). ACCAN is the peak body representing consumers of telecommunication services. ACCAN is currently provided grant funding as part of a multi-year funding agreement that expires on 30 June 2027.

The grant enables ACCAN to conduct activities necessary for an effective peak communications consumer advocate, including representation, research, consumer education and participation in self-regulatory activities. The grant also allows ACCAN to operate a competitive Independent Grants Program for individuals and organisations to undertake research or representation projects in the interest of the telecommunications consumer.

## **Consultation**

Consultation on the Determination was considered unnecessary because the instrument is of a minor or machinery nature and does not substantially alter existing arrangements.

The former Office of Best Practice Regulation, now known as the Office of Impact Analysis, (OIA) was consulted about the making of determinations under paragraph 15(1)(d) of the Act. The OIA considered that a carve out would be appropriate for determinations made under paragraph 15(1)(d) of the Act, as these determinations are machinery in nature. This carve out is a standing agreement between the OIA and the Department to remove the need for a Preliminary Assessment. The reference number for this carve out is 43366.
