249AA Simplified outline

The following is a simplified outline of this Chapter:

- This Chapter provides for the grant of the following titles: (a) a greenhouse gas assessment permit (see Part 2A.2); 10 a greenhouse gas holding lease (see Part 2A.3); (b) (c) a greenhouse gas injection licence (see Part 2A.4); (d) a greenhouse gas search authority (see Part 2A.5); 13 a greenhouse gas special authority (see Part 2A.6). (e) A greenhouse gas assessment permit authorises the permittee to explore in the permit area for potential greenhouse gas 16
 - storage formations and potential greenhouse gas injection sites.
 - If an eligible greenhouse gas storage formation is identified in a greenhouse gas permit area, the responsible Commonwealth Minister may declare that the formation is an identified greenhouse gas storage formation.
 - After the declaration of an identified greenhouse gas storage formation in a greenhouse gas permit area, the permittee may apply for a greenhouse gas holding lease or a greenhouse gas injection licence.

1 2 3 4 5	•	A greenhouse gas holding lease is granted if the applicant is not currently in a position to inject and store a greenhouse gas substance, but is likely to be in such a position within 15 years. The lessee may apply for a greenhouse gas injection licence.
6 7 8	•	A greenhouse gas injection licence authorises the licensee to carry out greenhouse gas injection and storage operations in the licence area.
9 10 11 12 13	•	A greenhouse gas search authority authorises the holder to carry on operations in the authority area relating to the exploration for potential greenhouse gas storage formations or potential greenhouse gas injection sites (but not to make a well).
14 15 16	•	A greenhouse gas special authority authorises the holder to carry on certain greenhouse gas-related operations in the authority area (but not to make a well).
17 18 19 20	•	Part 2A.7 provides for the grant of greenhouse gas research consents. A greenhouse gas research consent authorises the holder to carry on greenhouse gas-related operations in the course of a scientific investigation.

10 11 12			(a)	a greenhouse gas assessment permit granted on the basis of work program bidding (a work-bid greenhouse gas assessment permit);
13 14 15			(b)	a greenhouse gas assessment permit granted on the basis of cash bidding (a <i>cash-bid greenhouse gas assessment permit</i>).
16 17 18 19		•	a greenho Minister r	ble greenhouse gas storage formation is identified in use gas permit area, the responsible Commonwealth may declare that the formation is an identified se gas storage formation.

Part 2A.3—Greenhouse gas holding leases

Division 1—General provisions

249BA Simplified outline

2

3

The following is a simplified outline of this Part: 4 This Part provides for the grant of greenhouse gas holding 5 leases over blocks in an offshore area. 6 A greenhouse gas holding lease authorises the lessee to 7 explore in the lease area for potential greenhouse gas storage 8 formations and potential greenhouse gas injection sites. 9 A greenhouse gas holding lease may be granted to: 10 (a) the holder of a greenhouse gas assessment permit; 11 or 12 the holder of a greenhouse gas injection licence, (b) 13 where no greenhouse gas injection or permanent 14 storage operations have been carried on under the 15 licence; or 16 an unsuccessful applicant for a greenhouse gas (c) 17 injection licence. 18 The main criteria for granting a greenhouse gas holding lease 19 are: 20 an identified greenhouse gas storage formation is (a) 2.1 wholly situated in the lease area; and 22 the applicant is not currently in a position to inject (b) 23 24 and permanently store a greenhouse gas substance, but is likely to be in such a position within 15 25 years. 26

249BB Rights conferred by greenhouse gas holding lease

(1) A greenhouse gas holding lease authorises the lessee, in 2 accordance with the conditions (if any) to which the lease is 3 subject: 4 (a) to explore in the lease area for a potential greenhouse gas 5 storage formation; and 6 (b) to explore in the lease area for a potential greenhouse gas 7 injection site; and 8 (c) to inject, on an appraisal basis, a greenhouse gas substance 9 into a part of a geological formation, so long as the relevant 10 well is situated in the lease area; and 11 (d) to store, on an appraisal basis, a greenhouse gas substance in 12 a part of a geological formation, so long as the injection of 13 the stored greenhouse gas substance takes place at a well 14 situated in the lease area; and 15 (e) to inject, on an appraisal basis: 16 (i) air; or 17 (ii) petroleum; or 18 (iii) water; 19 into a part of a geological formation for purposes in 20 connection with the exploration authorised by paragraph (a) 21 or (b), so long as the relevant well is situated in the lease 22 area; and 23 (f) to store, on an appraisal basis: 24 (i) air; or 2.5 (ii) petroleum; or 26 (iii) water; 27 in a part of a geological formation for purposes in connection 2.8 with the exploration authorised by paragraph (a) or (b), so 29 long as the injection of the stored air, petroleum or water 30 takes place at a well situated in the lease area; and 31 (g) with the written consent of the responsible Commonwealth 32 Minister, to recover petroleum in the lease area for the sole 33 purpose of appraising a discovery of petroleum that was 34 made as an incidental consequence of: 35 (i) the exploration authorised by paragraph (a) or (b); or 36 (ii) the injection authorised by paragraph (c) or (e); and 37

1

1 2	(h) to carry on such operations, and execute such works, in the lease area as are necessary for those purposes.
3 4	(2) The rights conferred on the lessee by subsection (1) are subject to this Act and the regulations.
5 6 7	(3) If petroleum is recovered by the lessee in the lease area as authorised by paragraph (1)(g), the petroleum does not become the property of the lessee.
8 9	(4) A greenhouse gas holding lease does not authorise the lessee to make a well outside the lease area.
10	249BC Conditions of greenhouse gas holding leases
11 12 13	(1) The responsible Commonwealth Minister may grant a greenhouse gas holding lease subject to whatever conditions the responsible Commonwealth Minister thinks appropriate.
14	(2) The conditions (if any) must be specified in the lease.
15	Approval of key greenhouse gas operations
16 17 18	(3) A greenhouse gas holding lease is subject to the condition that the lessee will not carry on key greenhouse gas operations under the lease unless:
19 20	(a) the responsible Commonwealth Minister has approved the operations under section 249BD; and
21 22	(b) the lessee complies with the conditions (if any) to which the approval is subject.
23	Securities
24 25 26	(4) A greenhouse gas holding lease is subject to the condition that, if the lessee is given a notice under section 249NCA, the lessee will comply with the notice.
27	Work to be carried out by lessee
28 29 30 31	(5) Any or all of the following conditions may be specified in a greenhouse gas holding lease:(a) conditions requiring the lessee to carry out work in, or in relation to, the lease area;

1 2	(b) conditions about the amounts that the lessee must spend in carrying out such work;
3	(c) conditions requiring the lessee to comply with directions that:
4	(i) relate to the matters covered by paragraphs (a) and (b);
5	and
6	(ii) are given in accordance with the lease.
7	Other provisions
8 9	(6) Despite subsection (2), the conditions mentioned in subsections (3) and (4) do not need to be specified in the lease.
10	(7) Subsections (3), (4) and (5) do not limit subsection (1).
11 12	249BD Approval by responsible Commonwealth Minister of key greenhouse gas operations
13	(1) A greenhouse gas holding lessee may apply to the responsible
14	Commonwealth Minister for approval to carry on one or more key
15	greenhouse gas operations under the lease.
16	(2) If an application for approval is made under subsection (1), the
17	responsible Commonwealth Minister may:
18 19	(a) give the approval, with or without conditions to which the approval is subject; or
20	(b) by written notice given to the applicant, refuse to give the
21	approval.
22	Responsible Commonwealth Minister must have regard to certain
23	matters
24	(3) In deciding whether to give the approval, the responsible
25	Commonwealth Minister must comply with subsections (4), (5),
26	(6), (7) and (8).
27	(4) The responsible Commonwealth Minister must have regard to the
28	impact (if any) that any of those key greenhouse gas operations
29	could have on petroleum exploration operations, or petroleum
30	recovery operations, that are being, or could be, carried on under:
31	(a) an existing exploration permit; or
32	(b) an existing retention lease; or
33	(c) an existing production licence; or

1	(d) a future exploration permit; or
2	(e) a future retention lease; or
3	(f) a future production licence.
4	(5) If the responsible Commonwealth Minister is satisfied that there is
5	a significant risk that any of those key greenhouse gas operations
6	will have a significant adverse impact on petroleum exploration
7	operations, or petroleum recovery operations, that are being, or
8	could be, carried on under:
9	(a) an existing exploration permit held by a person other than the
10	applicant; or
11 12	(b) an existing retention lease held by a person other than the applicant; or
13 14	 (c) an existing production licence held by a person other than the applicant;
15	the responsible Commonwealth Minister must have regard to:
16	(d) whether the registered holder of the exploration permit,
17	retention lease or production licence, as the case may be, has
18	agreed, in writing, to the applicant carrying on the key
19	greenhouse gas operations in respect of which the responsible
20	Commonwealth Minister is so satisfied; and
21	(e) if so—the terms of that agreement.
22	(6) If:
23	(a) the responsible Commonwealth Minister is satisfied that
24	there is a significant risk that any of those key greenhouse
25	gas operations will have a significant adverse impact on
26	petroleum exploration operations, or petroleum recovery
27	operations, that could be carried on under:
28	(i) a future exploration permit over a block or blocks; or
29	(ii) a future retention lease over a block or blocks; or
30	(iii) a future production licence over a block or blocks; and
31	(b) an exploration permit, retention lease or production licence is
32	in force over the block or any of the blocks; and
33	(c) the exploration permit, retention lease or production licence
34	is held by a person other than the applicant;
35	the responsible Commonwealth Minister must have regard to:
36	(d) whether the registered holder of the exploration permit,
37	retention lease or production licence covered by
38	paragraph (b) has agreed, in writing, to the applicant carrying

1 2	on the key greenhouse gas operations in respect of which the responsible Commonwealth Minister is so satisfied; and
3	(e) if so—the terms of that agreement.
4	(7) If any of those key greenhouse gas operations is:
5 6	(a) an operation to inject, on an appraisal basis, a substance into a part of a geological formation; or
7	(b) an operation to store, on an appraisal basis, a substance in a
8	part of a geological formation;
9 10	the responsible Commonwealth Minister must have regard to the composition of the substance.

16	Circumstances in which the approval must not be given
17	(11) If the responsible Commonwealth Minister is satisfied that there is
18	a significant risk that any of those key greenhouse gas operations
19	will have a significant adverse impact on petroleum exploration

8	249CXA Responsible Commonwealth Minister may give greenhouse	•
9 10	gas injection licensee directions to protect geological formations containing petroleum pools etc.	
11	(1) The responsible Commonwealth Minister may, by written notice	
12 13	given to a greenhouse gas injection licensee, give the licensee a direction for the purpose of:	
14	(a) eliminating; or	
15	(b) mitigating; or	
16	(c) managing;	
17	the risk that operations carried out under the licence could:	
18 19	(d) have a significant adverse impact on a geological formation, or a part of a geological formation, that contains, or is likely	
20	to contain, a petroleum pool; or (e) otherwise compromise the exploitation of any petroleum that	
21 22	occurs as a natural resource.	
23 24	(2) A direction under this section may require the licensee to do something:	
25	(a) in the licence area; or	
26	(b) in an offshore area but outside the licence area.	
27	(3) A direction under this section has effect, and must be complied	
28	with, despite:	
29	(a) any previous direction under this section; and	
30	(b) anything in the regulations or the applied provisions.	
31	(4) A direction under this section prevails over:	
32 33	(a) anything in an approved site plan for an identified greenhouse gas storage formation specified in the licence; or	

1 2	(b) anything specified in the licence as mentioned in any of paragraphs 249CE(3)(c) to (k);
3	to the extent of any inconsistency.
4 5 6 7	(5) A direction under this section may make provision in relation to a matter by applying, adopting or incorporating (with or without modification) a code of practice or standard contained in an instrument:
8 9	(a) as in force or existing at the time when the direction takes effect; or
10	(b) as in force or existing from time to time;
11	so long as the code of practice or standard is relevant to that matter.
12 13	(6) To avoid doubt, subsection (5) applies to an instrument, whether issued or made in Australia or outside Australia.
14 15	(7) A direction under this section may prohibit the doing of an act or thing:
16	(a) unconditionally; or
17	(b) subject to conditions, including conditions requiring the
18	consent or approval of a person specified in the direction.
19	(8) A direction under this section is not a legislative instrument.
20	(9) If:
21 22	(a) a direction under this section is in force in relation to a greenhouse gas injection licence; and
23	(b) apart from subsection (4), the direction would be inconsistent
24	with a matter specified in the licence as mentioned in any of
25	paragraphs 249CE(3)(c) to (k);
26	the responsible Commonwealth Minister may, by written notice
27	given to the licensee, vary the matter for the purposes of removing
28	that inconsistency.
29	(10) A variation of a matter under subsection (9) takes effect on the day
30	on which notice of the variation is published in the <i>Gazette</i> .
31	Note: For publication in the <i>Gazette</i> of notice of the variation, see
32	section 406-418.
33	(11) The regulations may provide that, if:
34	(a) a direction under this section is in force in relation to a
35	greenhouse gas injection licence; and

1	(b) apart from subsection (4), the direction would be inconsistent
2	with anything in an approved site plan for an identified greenhouse gas storage formation specified in the licence;
4	then:
5	(c) the licensee must, within the period ascertained in accordance
6	with the regulations:
7 8	(i) prepare a draft variation of the approved site plan for the purposes of removing that inconsistency; and
9	(ii) give the draft variation to the responsible
10	Commonwealth Minister; and
11 12	(d) the responsible Commonwealth Minister must, by written notice given to the licensee:
13	(i) approve the variation; or
14	(ii) refuse to approve the variation; and
15	(e) if the responsible Commonwealth Minister approves the
16	variation—the approved site plan is varied accordingly.
17	(12) If an approved site plan is varied, a reference in this Act to the
18	approved site plan is a reference to the approved site plan as
19	varied.
20	249CXB Consultation—directions to do something outside the
21	licence area
22	Scope
23	(1) This section applies if:
24	(a) the responsible Commonwealth Minister proposes to give a
25	direction under section 249CXA to a greenhouse gas
26	injection licensee; and
27	(b) the direction requires the licensee to do something in an area
28 29	(the <i>action area</i>) in an offshore area but outside the licence area; and
30	(c) the action area is, to any extent, the subject of:
31	(i) a greenhouse gas assessment permit; or
32	(ii) a greenhouse gas holding lease; or
33	(iii) a greenhouse gas injection licence; or
	(m) a greenhouse gas injection needee, or
3/1	(iv) a greenhouse gas search authority; and
34	(iv) a greenhouse gas search authority; and

1 2	(d) the licensee mentioned in paragraph (a) is not the registered holder of the permit, lease, licence or authority mentioned in
3	paragraph (c); and
4	(e) the registered holder of the permit, lease, licence or authority
5	mentioned in paragraph (c) has not given written consent to
6	the giving of the direction.
7	Consultation
8	(2) Before giving the direction, the responsible Commonwealth
9	Minister must:
10	(a) by written notice given to the registered holder of the permit,
11	lease, licence or authority mentioned in paragraph (1)(c),
12	give at least 30 days notice of the responsible
13	Commonwealth Minister's intention to give the direction;
14	and
15	(b) give a copy of the notice to such other persons (if any) as the
16	responsible Commonwealth Minister thinks fit.
17	(3) The notice must:
18	(a) set out details of the direction that is proposed to be given;
19	and
20	(b) invite a person to whom the notice, or a copy of the notice,
21	has been given to make a written submission to the
22	responsible Commonwealth Minister about the proposal; and
23	(c) specify a time limit for making that submission.
24	(4) In deciding whether to give the direction, the responsible
25	Commonwealth Minister must take into account any submissions
26	made in accordance with the notice.
27	Emergencies
28	(5) However, if the responsible Commonwealth Minister is satisfied
29	that the direction is required to deal with an emergency:
30	(a) subsections (2), (3) and (4) do not apply to the direction; and
31	(b) as soon as practicable after the direction is given, the
32	responsible Commonwealth Minister must give a copy of the
33	direction to the registered holder of the permit, lease, licence
34	or authority mentioned in paragraph (1)(c).

1	49CY Compliance with directions	
2	(1) A person commits an offence if:(a) the person is given a direction under section 249CXA; and	
3	(a) the person is given a direction under section 249CAA, and (b) the person engages in conduct; and	
5	(c) the person's conduct breaches the direction.	
3		
6	Penalty: 100 penalty units.	
7	(2) An offence against subsection (1) is an offence of strict liability.	
8	Note: For strict liability, see section 6.1 of the <i>Criminal Code</i> .	
9	Division 5—Dealing with serious situations	
10	49CZ Serious situation

12	an identified greenhouse gas storage formation specified in a	
13	greenhouse gas injection licence if:	
14	(a) a greenhouse gas substance injected into the identified	
15	greenhouse gas storage formation:	
16	(i) has leaked; or	
17	(ii) is leaking;	
18	from the identified greenhouse gas storage formation; or

24 25 26 27 28	(i)	the identified greenhouse gas storage formation is not suitable (with or without engineering enhancements) for the permanent storage of the relevant amount of the relevant greenhouse gas substance injected at the relevant point or points over the relevant period.
20		
29		he purposes of paragraph (1)(i):
30	(a)	the <i>relevant amount</i> is the total amount of greenhouse gas
31 32		substance authorised to be injected into the identified greenhouse gas storage formation under the licence; and
