#### NOTICE OF APPLICATION FOR CONSENT TO AN ALTERATION OF ELIGIBILITY RULES

(D 2004/21)

NOTICE is given that an application under the Workplace Relations Act 1996 for consent to an alteration of the eligibility rules of The Australian Licenced Aircraft Engineers Association has been received.

A copy of the application has been published on the website of the Australian Industrial Relations Commission at: <http://www.airc.gov.au> (under *Organisations* click *Gazette Notices*).

Alternatively, a copy of the application can be obtained on request from any organisation, association, branch, constituent part or reporting unit or a member of 1 of those bodies. Requests should be directed to Mr. Larry Powell, Australian Industrial Registry, GPO Box 1994S, Melbourne 3001 (*Fax*: (03) 9654 6672 or *E-mail*: [larry.powell@air.gov.au](mailto:larry.powell@air.gov.au)).

Information contained in the supporting documents to the application concerning the proposed alteration, the reason for the proposal and the effect of the proposal is as follows:

**1.** The particulars of the proposed alteration are as follows:

- a. Rule No. 3 - After the heading "3 - CONSTITUTION" and before the words "The Association" insert the numeral "3.1".
- b. Rule No. 3.1 - After the words "electrical systems," and before the words "and/or instrument systems" insert the words "*radio systems,*".
- c. Rule No. 3.1 & 3.2 - In Rule 3.1, after the words "Commonwealth of Australia." insert the numeral "3.2"
- d. Rule No. 3.2 - After rule 3.1 insert new rule 3.2 as follows:

Insert the numeral "3.2" and after the numeral "3.2" insert the words "*And any persons employed by Forstaff Pty Ltd or its subsidiaries or successors who perform, administer, or work in connection with, the refurbishment, reconfiguration or heavy maintenance work on aircraft at Avalon Airport in the State of Victoria*".

**2.** The reason for the proposed alteration to:

- a. Rule 3 to new 3.1.
  - i. In proposed Rule 3.1 the inclusion of "radio systems" is necessary to reflect the scope of certification performed by an Avionics Licenced Aircraft Maintenance Engineer.
  - ii. The organisation has members who perform certification on radio systems.
  - iii. Historically pre 1990 "radio system" certification was performed by radio only licenced engineers, however from 1991 onward licenced engineers certify in the Avionics stream if qualified for radio, electrical and instrument systems.

- iv. It has been necessary to alter the Rule to accommodate changes in the industry and Civil Aviation legislation in regard to the scope of statutory certification required by licenced aircraft engineers in regard to the broader category of licence known as Avionics. Avionics includes work on electrical, instruments and radio systems. The change is simply to reflect the changing jargon of the industry, the scope of work performed by our Avionics members.
  - v. The change formalises and reflects existing circumstances and has no material effect on the coverage of any other organisation.
- b. The reason for the proposed alteration to Rule 3 to include new rule 3.2
- i. The addition of new rule 3.2 is to take into account the AIRC decisions of Munro J in matters C No. 24806 of 1999 PR900044, the subsequent Orders in PR900045 and matter No. C2003/5980 PR943157 and the subsequent orders in PR943158. The nature of the orders is to vary the eligibility rules of the organisation.
  - ii. In PR943157 Munro J states in paragraph [86] *“In my view, it would be appropriate that the ALAEA seek to have its eligibility rule extended to bring employment by Forstaff at Avalon within its membership coverage.”*
  - iii. And the addition of new rule 3.2 is to take into account the fact that the ALAEA is and has been the only union party to the Certified Agreements, covering all Forstaff employees at Avalon, to the exclusion of all other unions from 1997. The relevant agreements are:
    1. The “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement 1997” AIRC J0425 Doc P6586, a “greenfield” site agreement certified pursuant to s.170LL.
    2. The “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement 1999-2001” an agreement made pursuant to “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement 1997”.
    3. The “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement III 2001-2003” AG810791 an agreement certified pursuant to s.170LT.
    4. The “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement III Variation - 2002” AG16060 an agreement certified pursuant to s.170LT.
    5. The “Jobs Australia (Aircraft Maintenance and Refurbishment) Enterprise Agreement IV” AG828519 an agreement certified pursuant to s.170LT.
3. The effect of the proposed alteration is:
- a. To formalise the existing coverage given pursuant to Munro J.’s decisions and orders of the Commission and the exclusive representation rights provided by the Certified agreements.
  - b. Limited to Forstaff employees at Avalon Airport Lara Victoria.

Any interested organisation registered under the Workplace Relations Act, association or person who desires to object to the application may do so by lodging in the Industrial Registry, marked to the attention of Mr. Larry Powell, a notice of objection within thirty-five (35) days after the publication of this advertisement and by serving on the organisation (whose address for service is: 25 Stoney Creek Road, Bexley NSW, 2207) within seven (7) days after the notice of objection has been lodged, a copy of the notice of objection so lodged.
